Incident Location: 10802 Capital Avenue
Time: 3:41 a.m.

COMMERCIAL UNITS RED-TAGGED AFTER EXPLOSION

Fire fighters found signs of an explosion with blown out windows and doors to two commercial units upon their arrival at a business complex shortly before 4:00 a.m. this morning. The fire department was dispatched to a commercial building located at 10802 Capital Avenue at 3:41 a.m. for an automatic fire alarm. Fire fighters investigated, and discovered an explosion and fire had occurred. The fire was quickly extinguished by automatic sprinklers, and kept to the area of origin prior to fire department arrival. A search of the business confirmed the fire was out and no occupants were inside at the time. A hazardous materials team, fire investigators, and a Garden Grove building inspector were requested.

The building had storage of chemicals used to manufacture makeup. An investigation by the hazardous materials team confirmed the chemicals being stored. Fire investigators are currently on scene, and there is not a cause determined at this time. After assessing the damage, a City building inspector decided to red-tag the two units affected. Assistance was provided by Anaheim Fire and Rescue.
