Incident Location: 13141 Casa Linda Lane
Time: 10:37 p.m.

GARAGE FIRE DISPLACES TEN RESIDENTS

Fire fighters were dispatched at 10:37 p.m. for a residential structure fire in the 13000 block of Casa Linda Lane that displaced 10 residents. The first-arriving unit found multiple garages on fire below second floor apartment units. Crews quickly attacked the blaze, and were able to confine it to four garages, with smoke damage to an upstairs unit. A search for residents revealed everyone had evacuated prior to fire department arrival, and there were no report of injuries. It took fire fighters 20 minutes to knock down the fire.

The fire caused damage to two vehicles in the garages and smoke damage to surrounding units which prompted response by the City's building inspector to determine whether the units were inhabitable or not. Garden Grove fire investigators were on scene determining the cause of the fire. There is not a cause of fire determined at this time. The Orange County Red Cross was on scene to provide assistance to the residents. Damage to the building was estimated at \$50,000 and \$65,000 to contents.
