FEE NEGOTIATIONS

The Facilities Supervisor, under the direction and approval of the Community Services Director and through the guidelines listed below, has the authority to negotiate room rental rates with a business client where there is a potential for regular on-going business or to fill the facility during what would normally be a slow period.

- Said client has to show proof of lower rates from several other facilities that are located in the surrounding area and are comparable to the CMC/CYC.
- Negotiated rates would only be in effect for the duration of the original contract (no longer than one year). At the end of the contract the fees would have to be renegotiated for any rate other than the standard.
- The Facility Supervisor will only negotiate room rental rates when it is deemed necessary in order to stay comparable with other surrounding facilities, otherwise those standards rates currently in effect will be used.
- Negotiated rates can only be offered to a potential client with the prior approval of the Community Services Director.
