The proposed project will add a southbound through lane on Fairview Street, and a right turn lane from southbound Fairview Street onto westbound Trask Avenue. The improvements include construction of curb, gutter, traffic signal modification, traffic detector loops, traffic striping, raised pavement markers and adjusting utility valves and manholes to new finish grade.

This bid is within the current project budget. The licenses and references of the contractor have been reviewed and verified by staff, and all other documentation is in order. The anticipated contract schedule is as follows:

<i>Award contract</i>	<i>June 8, 2010</i>
<i>Begin construction</i>	<i>September 1, 2010</i>
<i>Complete construction</i>	<i>April 30, 2011</i>

The start of construction is delayed somewhat due to utility relocations required before contract work can begin.
