**SUBJECT: STREET SEALING PROJECT**

The Public Works Department of the City of Garden Grove will conduct a roadway-rubberized slurry seal project on 71 City streets in your area. The project is scheduled to begin on September 17, 2012 and anticipated to be complete by October 8, 2012. The slurry seal treatment is completed in one (1) day, per area.

Your cooperation is requested in observing the following:

- **"TEMPORARY NO PARKING"** signs will be posted at least 24 hours prior to the sealing of your street. If it is necessary for you to use your vehicle during the sealing process, it is essential that you park your vehicle on an adjacent street not posted for sealing (beware of posted "No Parking for Street Sweeping" signs).
- **ALL VEHICLES LEFT PARKED ON THE STREET DURING THE SEALING PROCESS WILL BE TOWED AWAY AT OWNER'S EXPENSE.**
- The sealing process will take place between the hours of 7:30 AM and 4:00 PM.
- **NO TRAFFIC PERMITTED ON STREETS UNTIL DRY**, which may take from two to six hours after placement. Driving on the sealing material before it dries may cause paint damage to your vehicle and it may be tracked onto your driveway.
- It is advisable to keep children and pets away from the wet sealing material as it will be tacky and slippery until it has dried. Please do not allow water, to include irrigation water, to run down gutters or on the street.
- If the sealing is scheduled on your regular trash day, please have the trash out by 6:00 AM.
- Every effort will be made to develop a firm schedule although equipment failure, inclement weather, etc., can cause delays and/or schedule changes. If your street is not completed as scheduled, it will be rescheduled. Please pay close attention to the dates on the "Temporary No Parking" signs. They will indicate which day the work will be done on your particular street.
- If you have any questions regarding the Sealing Project, please call **(714) 741-5385** weekdays from 6:30 AM to 3:30 PM.

Thank you,

Robert R. Moungey  
Streets Division Supervisor
