

CITY OF GARDEN GROVE
FIRE DEPARTMENT

May 13, 2015

Deanna Kim
Nova Consulting Group, Inc.
3961 Via Marisol #208
Los Angeles, CA 90042

Request #1036 for 7191 Patterson Drive, Garden Grove, CA 92841

Dear Madam:

Enclosed are the records found concerning the history of the above-mentioned site(s), especially as it pertains to fire code violation history, permits, the use, storage, or disposal of hazardous substances, and the installation or removal of underground flammable or combustible liquid storage tanks.

The City of Garden Grove Fire Department has utilized its best efforts to locate the records requested. However, the City makes no representation as to the accuracy of the records or that all records requested were retained or located. The City does not provide records on spills, leaks or clean-up, as that information is provided through the County of Orange Health Dept.

Sincerely,

Nate Brady
Division Chief/Fire Marshal

By: Thanh Nguyen
Fire Captain/Senior Fire Protection Specialist

5 YR CERTIFICATION: 7-13-00

FDC LOCATION: SOUTHEAST CORNER

HAZARDOUS MATERIALS: YES/NO
HAZMAT INVENTORY ACCURATE: YES/NO

AN INSPECTION OF YOUR OCCUPANCY REVEALED THE FOLLOWING VIOLATIONS:

EXIT SIGNS	<input checked="" type="checkbox"/>	UFC 1212.4	Exit signs shall be internally or externally illuminated.
EXITS	<input type="checkbox"/>	UFC 1203	All required exit doors shall be unobstructed and operational at all times.
ELECTRICAL	<input type="checkbox"/>	UFC 8506.1	Extension cords shall not be used as a substitute for permanent wiring.
	<input type="checkbox"/>	UFC 8507	Multi-Plug adapters that do not comply with the Electrical Code are prohibited.
FIRE	<input checked="" type="checkbox"/>	UFC 1001.5.1	Have your fire extinguisher(s) serviced annually by a State Fire Marshal-licensed business.
EXTINGUISHER(S)	<input type="checkbox"/>	UFC 1002.1	Install _____ fire extinguisher(s) of a _____ rating.
NO VIOLATIONS	<input type="checkbox"/>		

Code

Comments

Fire extinguishers shall be serviced annually
Exit signs shall be internally illuminated.

A reinspection will be conducted on 7/23/01

MBCC: Yes / No

SYSTEM TYPE(s) WET PIPE SPKLR

CITY GARDEN GROVE, CA

6" SYSTEM

DATE OF INSTALLATION 1978

DATE OF LAST MAINTENANCE SEPT. '90'

MAINT. REQUIRED HOW OFTEN ANNUALLY

* CAUTION: Notify alarm receiving station and/or fire department before beginning system tests.

A. GENERAL:

1. Fire Marshall G.G. Dept. FIRE PREVENTION ph. 534-4341
2. Bldg. type/use OFFICE - WHSE Occupancy:
3. Is building used according to given occupancy? YES
4. Is occupancy same as previous inspection? YES
5. Are all systems in service? YES
6. Are all fire protection systems same as last inspection? YES
7. Is building completely sprinklered? YES
8. Are all new additions and/or building changes properly protected? YES
9. Is all stock or storage properly below sprinkler piping? YES
10. Is property free of fires since last inspection? YES

B. WET PIPE SPRINKLER SYSTEMS:

1. Fire department connection:
 - a. Are inlet caps in place? YES
 - b. Are couplings in good condition? YES
 - c. Are gaskets missing or deteriorated? NO
 - d. Are clapper valves closed completely? YES
 - e. Any visible or exterior obstructions? NO
 - f. Are I.D. signs in place? YES
 - * g. Back flush to insure that there are no obstructions YES
2. Control valves:
 - a. Is any valve leaking? NO
 - b. Are all valves secured in open position? YES
 - c. Any visible or exterior obstruction? NO
 - d. Are all control valves provided with I.D. signs? YES
 - * e. All supervisory devices shall be tested to insure proper functioning and that the alarm is transmitting to the appropriate location. YES
3. Riser:
 - a. Is any connection leaking? NO
 - b. Any visible or exterior obstructions? NO
 - c. Bracing damaged? NO
4. Gauges:
 - a. Any gauge damaged? NO
 - b. Any gauge valve turned off? NO
 - c. System pressure 70 LBS Supply pressure 60 LBS
 - * d. At test gauge shall be installed at test gauge outlet OK

5. Sprinklers:

- a. Are all sprinklers free of obstruction, corrosion, paint or leaks? * NO
- b. Any sprinklers installed in incorrect position - upright or pendent? NO
- c. Are extra sprinklers and wrench available? YES
- d. Are extra sprinklers available in adequate number as to required orifice size and temperature rating? YES
- e. Other, describe in Comments sheet.....

6. Gravity tank, Suction tank or Reservoir supply:

- a. Is the vessel damaged? N/A
- b. Is the water level adequate? "
- c. Is the water free of debris or other agents that may restrict flow? "
- * d. Test Automatic filling system for proper operation. "

7. Pressure tank supply:

- a. Is the tank damaged? N/A
- b. Is the water level adequate? "
- c. Is the pressure level adequate? "
- * d. Test the water and air pressure gauges and automatic filling for proper operation during system flow. "

8. Detection devices, as applicable:

- a. Is air piping in good condition? N/A
- b. Are heat actuation devices damaged? "
- c. Is electrical wiring system damaged? "

*9. Post Indicating valves, underground gate valves and O.S. & Y valves:

- a. Operate and examine for damage. GOOD

*10. Main drain test:

- a. Close valve and record pressure. 70 LBS
- b. Fully open valve and observe how quickly pressure is restored to determine if there are any closed valves or obstructions in water supply line. OK
- c. Record water pressure with valve fully open. 60 LBS

*11. Inspector's test valve:

- a. System's audible device shall be activated within 90 sec. of valve opening. YES
- b. All system flow switches shall be activated with flow from valve opening. YES

*12. Fire pumps, if any, shall be flow tested. If the pump performance characteristics as tested are more than 10% below the manufacturer's certified shop test characteristic curve or as specified on the pump housing the pump shall be repaired and restored to it's original condition. NOTE! Do not draw residual pressure on pump below 20 p.s.i. when damage to the public mains may occur.N/A*13. Pump supervisory devices:

- a. Test to determine proper functioning. N/A
- b. Is alarm transmitting to the appropriate location? "

*C. Dry pipe, deluge, pre-action, dry pipe, pre-action combination systems, fixed water spray systems, deluge foam-water sprinkler systems and foam water spray systems:

- * 1. Deluge, pre-action or dry pipe valve:
 - a. Inspect to insure proper working order. N/A
- * 2. Alarm bell test:

DW-# 72991

a. Open valve*-systems audible device shall activate within 90 seconds.

b. All system flow switches shall also be activated.

*NOTE! Using the Inspector's test valve on a dry pipe, pre-action or deluge system will cause the system to trip. Therefore, in order to conduct an alarm bell test, use the alarm test line on above systems.

N/A
"

*3. Air Compressor: Test for proper operation.

N/A
"

*4. Quick opening devices: Test for proper operation.

*5. Deluge, pre-action or dry pipe valves: Shall be tested ANNUALLY. The trip test shall be conducted by activating the supplemental fire detection system.

N/A

*6. Dry pipe valves: Shall be inspected to insure protection from freezing.

N/A

Disclaimer of warranty: Inspection of the system(s) herein tested indicated only that said system complies with the specifications of the State Fire Marshall, the Uniform Code and other applicable regulations, and Licensee specifically disclaims any warranties, express or implied, that said system is free from actual or potential defects. Further, Licensee specifically disclaims responsibility for any and all damages caused or alleged caused to persons or property as a result of the operation of said system, or as a result of any defect in said system or in any of its component parts.

Table 3-16.6.1 Temperature Ratings, Classifications, and Color Codings

Max. Ceiling Temp. °F °C	Temperature Rating °F °C	Temperature Classification	Color Code	Glass Bulb Colors
100 38	135 to 170 57 to 77	Ordinary	Uncolored	Orange or Red
150 66	175 to 225 79 to 107	Intermediate	White	Yellow or Green
225 107	250 to 300 121 to 149	High	Blue	Blue
300 149	325 to 375 163 to 191	Extra-High	Red	Purple
375 191	400 to 475 204 to 246	Very Extra-High	Green	Black
475 246	500 to 575 260 to 302	Ultra-High	Orange	Black
525 329	650 343	Ultra-High	Orange	Black

3-16.6.2 Ordinary temperature rated sprinklers shall be used throughout buildings.

Exception No. 1: Where maximum ceiling temperatures exceed 100°F (38°C), sprinklers with temperature ratings in accordance with the maximum ceiling temperatures of Table 3-16.6.1 shall be used.

Exception No. 2: Intermediate and high-temperature sprinklers may be used throughout Ordinary and Extra Hazard Occupancies.

Exception No. 3: Sprinklers of intermediate and high temperature classifications shall be installed in specific locations as required by 3-16.6.3.

Exception No. 4: When permitted by other NFPA standards.

NOT SPRINKLED.

BRINKS INCORPORATED
7191 PATTERSON DRIVE
GARDEN GROVE, CA 92841

Complaint taken Thursday, April 22, 1999. Caller requested to remain anonymous and suggested trying to enter building in the side area by the parking compound. Also, caller stated they will try to delay you and move things around before you go in.

1. Small rooms have been built inside the structure.
2. Shelving has been installed that will block the flow of sprinkler heads.
3. Charcoal and lighter fluid are stored in the telephone closet.
4. Forklift uses propane tanks, stored/used properly?
5. Inspect ATM supply room, paper supplies.
6. Containers of gasoline and diesel fuel located at the back door.
7. A new mechanic has been hired who now does oil changes.
8. Employees smoke in the bay area of the building.
9. The saw dust used for oil spills is thrown into the trash container.
10. Restrooms do not flush properly. A wet/dry vacuum is kept in this area for use when needed.
11. Poor housekeeping.
12. Are the aerosol cans of freon, engine cleaners, etc. stored properly?
13. Bay area - trucks are kept inside at night.
14. The fleet fuel truck comes into truck bay and refuels inside the building (mostly diesel).
15. Dry wall has been installed and an employee fell through (office area).
16. Fire Exit/Exit Door?: In the hallway by the manager's office on west side of the building was a coffee room. This is now the women's locker room that goes into the men's restroom/break room. Was this area originally an exit door?
17. The trash in the building stinks.
18. There are approximately 100 employees, smoking is allowed in the building.
19. Concerned about if hazardous materials are used and stored properly in the building.
20. There are metal things that come up in the floor that people can trip over.

GARDEN GROVE FIRE DEPARTMENT HAZARDOUS MATERIALS DISCLOSURE PROGRAM

BUSINESS EMERGENCY PLAN

All businesses using, handling or storing hazardous materials that are required to disclose must complete a Business Emergency Plan. The occupancy groups listed below will be permitted to complete a short version of the business plan. The completion of the short form shall be considered the application required in the Health and Safety Code, Title 20, Chapter 6.95, Section 25503.5.

The Chief of the Garden Grove Fire Department in the role of the Administering Agency, allows the following types of businesses to file the short version of the Business Emergency Plan.

1. Gasoline/Diesel service stations. S-3 occupancies.
2. Repair Garages. H-4 occupancies.
3. Dry Cleaners
4. Businesses, at the Fire Chief's discretion, with less than 10 employees and using materials that are not considered highly or acutely toxic.

The Fire Chief exempts the following portions from the business plan. These exemptions have been established because the materials used in the above-mentioned occupancies are common knowledge to first responding units. The materials pose no significant, unexpected hazard nor do they affect the ability of the administering agency to effectively respond to their release of a hazardous material, and that there are unusual circumstances justifying this exemption.

Exemptions

1. Detailed evacuation plans.
2. Detailed key employee responsibilities.
3. Training outline.
4. Detailed prevention outline.

The following Short Business Emergency Plan must be completed in order for the exemption to be granted.

GARDEN GROVE FIRE DEPARTMENT HAZARDOUS MATERIALS DISCLOSURE PROGRAM

BUSINESS EMERGENCY PLAN

Personnel Emergency Notifications and Responsibilities

Employee Evacuation and Staging Areas:

1. The type of alarm signal that will be used to initiate an evacuation at the facility:
(vocal, paging system, manual alarm, etc.)

Manual alarm, paging system,

2. All employees shall be trained to evacuate the facility through at least one exit. Alternate exit routes shall be designated if available.
3. Staging areas shall be designated for all employees. Staging areas will be the location that all employees shall report to in the event of an emergency.

One person shall be designated to account for all personnel at the staging area. That person will be responsible for meeting the incoming Fire units and reporting the conditions known about the incident.

The Staging area is at the following location as shown on your site plan map.

Staging area is located on the south side of building on grass lawn.

Employee Responsibilities:

At least one employee shall be responsible for the following minimum requirements in the event of an emergency response by the Fire Department.

1. Notify employees. Initiate evacuation procedures.
2. Notify the Garden Grove Fire Department. Dial 911
3. Try to identify the nature of the incident.
4. Report to the staging area and account for evacuated employees.
5. Report to the incoming fire units.
6. Activate any emergency mitigation procedures that are available at your business.
(List below any mitigation procedures specific to your business, if any.)

GARDEN GROVE FIRE DEPARTMENT HAZARDOUS MATERIALS DISCLOSURE PROGRAM

BUSINESS EMERGENCY PLAN

Personnel Emergency Notifications and Responsibilities

Training Requirements

State law requires training of employees where the business uses, handles or stores hazardous materials.

Employee training provided on:

- Appointment of person/persons on site who are trained in key role positions. Emergency coordinator, evacuation coordinators, staging area supervisors and documenting officers.
- Procedures to follow during a release or threatened release of a hazardous material (evacuation to staging areas).
- Information contained in material safety data sheets.
- Warning labels/placards.
- Safe work practices.
- Use of on site emergency equipment and supplies.
- Use and location of personal protective equipment.
- Any chemical, hazardous material or substance that could be encountered in his/her work area.
- On-site alarm system for evacuation.
- Discuss possible release of hazardous materials scenario.

Emergency Notifications

A handler of hazardous materials is required to immediately report any release or threatened release of hazardous materials to the Garden Grove Fire Department. Failure to do so may result in criminal and/or civil prosecution.

Required Notifications

In the event of a release or threatened release of hazardous materials, it is state law to notify each of the following agencies:

Agency

Phone Numbers

Garden Grove Fire Department, Police, Paramedics
Office of Emergency Services (OES)
National Response Center

911
(800) 852-7550 or (916) 427-4341
(800) 424-8802

GARDEN GROVE FIRE DEPARTMENT HAZARDOUS MATERIALS DISCLOSURE PROGRAM

BUSINESS EMERGENCY PLAN

Personnel Emergency Notifications and Responsibilities

Prevention

All materials are stored, used and handled within the guidelines of the Uniform Fire Code, N.F.P.A. standards, California Administrative Code, Titles 19 and 20.

This section is meant to initiate a Prevention Plan at your business and to assist in preventing a release, or threatened release, of a hazardous material. In the spaces provided, place a checkmark by the preventive actions which have been initiated by your business to abate hazards relating to hazardous material handling, use of storage.

Consideration shall include:

1. Drum storage and/or above ground tank storage areas:
 - a ☒ Isolation and separation of incompatible materials
 - b ☒ Diking areas to contain spills
 - c ☒ Storage on paved ground
2. Compressed and/or cryogenic gas storage areas:
 - a ☒ Cylinders stored upright and secured
 - b ☒ Isolation and/or separation of incompatible cylinders (oxygen and flammable gases, etc.)
3. General:
 - a ☒ Safe work practices are exercised in daily routines.
 - b ☒ Employees who handle hazardous materials are properly trained.
 - c ☐ Material Safety Data Sheets (MSDS) readily available for each hazardous material on the premises.
 - d ☒ Labeling of all materials and storage areas with the product name and hazards associated with the product (drums, piping, tanks, etc.)
 - e ☒ Uniform Fire Code (UFC) requires separation between outside hazardous material storage area or tanks and combustible materials (wood, bush, etc.)
 - f ☒ Posting of "No Smoking" signs where appropriate.

GARDEN GROVE FIRE DEPARTMENT

BUSINESS EMERGENCY PLAN

A BUSINESS IS REQUIRED BY LAW TO NOTIFY THE GARDEN GROVE FIRE DEPARTMENT WITHIN 30 DAYS OF ANY OF THE FOLLOWING EVENTS:

1. Change of business address.
2. Change of business ownership
3. Change of business name
4. Cessation of business operation (quitting business)
5. Use or handling of a previously undisclosed hazardous material
6. A 100% increase in the quantity of a previously disclosed hazardous material

Your business is required by State law to retain a copy of this entire Business Plan, chemical inventory, material safety data sheets and site maps, for review by Fire Department personnel. State where your disclosure and Emergency Business Plan will be kept.

Filed in Office Managers Cabinet.

Show location on site map also using symbol in the legend.

Note: A fee is charged for a replacement copy from the Garden Grove Fire Department.

I CERTIFY, UNDER PENALTY OF PERJURY, THAT THE ENCLOSED INFORMATION IS TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE.

The California Health & Safety Code, Division 20, Chapter 6.95, Section 25505(c) and Section 25503.3(c) provide the following:

A business that handles hazardous materials shall review AND certify their Hazardous Materials Business Emergency Plan (HMBEP) once every three years from the date of acceptance by the Garden Grove Fire Department. A business may comply with the annual chemical inventory reporting requirement by submitting a certification statement to the Garden Grove Fire Department. **A business may not utilize this certification to meet the annual inventory submission requirements of the Emergency Planning and Community Right to Know Act (Section 11022, Title 42, United States Code).**

Note: A business may comply with the annual inventory reporting requirements using this certification statement if both of the following apply:

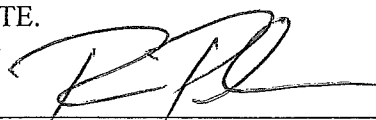

1. The business has previously filed an inventory reporting form and;
2. The business attests to the following:
 - The information contained in the annual inventory form most recently submitted to the Garden Grove Fire Department is complete, accurate, and up to date.
 - There has been no change in the quantity of any hazardous material as reported in the most recently submitted annual inventory form.
 - No hazardous material subject to the inventory requirements is being handled that is not listed on the most recently submitted annual inventory form.

THIS IS TO CERTIFY THAT THE HMBEP AND/OR CHEMICAL INVENTORY HAS BEEN REVIEWED.
(Please check applicable boxes.)

- ☐ No changes are required to the HMBEP submitted to the Garden Grove Fire Department.
- ☒ All the necessary changes/revisions have been made to the HMBEP. The changes/revisions are attached to this certification.
- ☒ No changes are required to the chemical inventory that was previously on file with the Garden Grove Fire Department.
- ☐ All the necessary changes/revisions have been made to the chemical inventory. The changes/revisions are attached to this certification.

AS AN AUTHORIZED REPRESENTATIVE, I CERTIFY UNDER PENALTY OF LAW THAT I HAVE PERSONALLY EXAMINED AND AM FAMILIAR WITH THE INFORMATION SUBMITTED AND BELIEVE THE INFORMATION IS TRUE, ACCURATE, AND COMPLETE.
