WORKER'S COMPENSATION REQUIREMENTS

State Compensation Insurance Policy No. 88466897 Expiration Date 6-24-89

I certify that in the performance of the work for which this permit is issued I shall not employ any person in any manner so as to become subject to the Worker's Compensation laws of California.

NOTE: If, after making such certificate, the applicant for the permit should become subject to the Worker's Compensation provisions of the code he shall forthwith comply with the provisions of Section 3700 or his permit shall be deemed revoked.

I certify that I have read this application and state that the above information is correct. I agree to comply with all City ordinances and State laws relating to pending construction. I further agree to hold the City of Garden Grove "harmless" from any liability arising out of injury or bodily damage resulting from work performed relevant to this permit.

Subject: Soil Contamination Located At 13642 Euclid, Garden Grove, California
92643

Dear Mr. Fossati

Based on inspections and field tests conducted on August 2, 1988 it has been determined that gasoline contaminated soil is present at the subject location.

This Agency is authorized to enforce the State Hazardous Waste and Underground Storage Tank Laws and Regulations and, under contract with the State Water Resources Control Board, is responsible for oversight of cleanup of soil and ground water contamination resulting from unauthorized releases from underground storage tanks. By this letter, you are directed to conduct an investigation to assess the extent and significance of contamination at the site specified in the subject above.

The objective of this site investigation is to provide sufficient information to evaluate 1) the sensitivity of the site, 2) the potential threat of exposure to humans, 3) remedial actions and/or alternative mitigation strategies.

At a minimum this investigation should include:

1. A clear delineation of the nature and extent of soil and ground water contamination.
2. A hydrogeological characterization including depth to ground water, and, if ground water is contaminated, site specific determination of ground water gradient.
3. The proximity to wells and surrounding land uses; and future use of the site itself.
4. The potential impacts of contamination to public health and the environment.

This is to certify that
L. G. Fringle Sales, Inc.
WASH DRYING & CLEANING VILLAGE
10700 Buell
San Jose, California

has completed the installation of a clothes cleaning establishment as per approved plans and/or permit dated November 10, 1970 and the arrangement of machinery, equipment and devices is in accordance with Chapter 2, Part 2, Division 12 of the Health and Safety Code, and Chapter I, Title 19, California Administrative Code.

This establishment shall be maintained fully in accordance with the provisions of the documents set forth above, together with all other applicable state, county, or local laws and ordinances. No changes or additions in construction or equipment shall be undertaken without the express approval of the State Fire Marshal.

NOTE: Pursuant to the provisions of the Business and Professions Code, a state license for operation, together with a "new establishment" fee may be required by the State Board of Dry Cleaners. See enclosed notice from the State Board of Dry Cleaners (FM-1).
