### Task #1

**Status:** CLOSED on September 29, 2016 06:55AM by Stephen Porras

**Description:** NEED VACTOR TRUCK TO SUCK UP CARCINOGENS FROM FIRE. PUDDLE CONTAINED.

FIRE G1611105

**Comments:** Crews responded to a call from the Garden Grove Fire Department. They needed to vacuum up water runoff from a fire on Harbor Blvd. The water runoff had been contained with sandbags. District crews set up the combination truck at the containment area and began to vacuum up the water. District crews also set up a backhoe to assist with cleanup. The area was then washed and vacuumed. Crews emptied the wash and runoff water into the sewer system.

**Category:** S02 Sewer Misc (AUTO-NOTIFY)

**Division:** SEWER

**Completed by:** Allen Kirzhner

**Total task cost:** \$2224.75

**Actions:** 020.1 COMPLETED

**Assigned to:** Allen Kirzhner
