

APPENDIX G – CLIENT REFERENCES

Please list five (5) references for ERP implementations that most closely reflect the scope of work as described in this RFP. Customer sites should be using the same major version of the software being proposed to the City, similar in scope and complexity, and geographically close the City if possible. At least three (3) of the references should be for sites at which the software has been *fully implemented* within the past 5 years.

The City prefers references for previous implementation of the same base version that will be proposed for the City (i.e. if the Vendor is proposing version 11.5, references for versions 11.0 thru 11.5 would be preferred).
