RECEIVED

DEC 21 1981

Pub. Works & Devel. Dept.

12-16-81

Dear John,

I am writing to you  
as per our conversation  
regarding "Ray Craster"  
at 12250 Industry Way  
12570

As I said, the two new  
units have I/O's and  
do meet till 24. The  
4 old units have been  
hung but they will not  
be hooked up. We have  
informed the owner that  
they can not be fixed &  
will have to be replaced.

Thank you for your  
help in this matter.

Sincerely  
Bill V.

3 Petitioner: DAVE HANSEN / ARROW EAST  
 Position/Relationship: CONTRACTOR  
 Address: 19416 1/2  
ORANGE Ph 941-1500

4 Request - limit compliance outside the area of remodel as indicated at the back of this form, in lieu of requiring full compliance in the path of travel, restrooms, drinking fountains, and public phones, in conjunction with a proposed \$15000 remodel. The following is a brief description of the proposed project: Installation of a "truck camp" (recessed loading dock).

5 Justification - Explain why compliance outside the area of remodel would make the specific work of the project unfeasible based on an overall evaluation of: (1) the cost of providing access, (2) the cost of all construction contemplated, (3) the impact of the proposed improvements on the financial feasibility of the project, (4) the nature of accessibility gained or lost, and (5) the nature of the use of the facility being remodeled and its availability to handicapped.

THE COST OF ALL IMPROVEMENTS WOULD EXCEED THE COST OF THE PROPOSED PROJECT. NA. ACCESSIBILITY IS PROVIDED BY HANDICAPPED ARE THIS WARE HOUSE IS IN A ZONE UNZONED FOR THIS USE. BY PROVIDING HANDICAPPED ACCESS TO THE MUNICIPAL DEPARTMENT OF THE PUBLIC WORKS IS A MAJOR POINT.

Petitioner's Signature: [Signature] Date: 5/16/91

Wilmington, CA 90744

**Subject: Report of backfill/compaction at UST Excavation  
AIR INDUSTRIES, 12570 Knott Street, Garden Grove, California**

Gentlemen:

At the request of your firm, compacted soil backfill was tested for density at the project referenced above. Following is a brief account of those operations.

#### **· INTRODUCTION**

Previously, a small UST had been removed during environmental operations by others. DREW ASSOCIATES was contracted to test the backfill for relative compaction.

#### **· PLACEMENT OF FILL**

Soil backfill was placed in loose lifts of approximately 12". Compaction was achieved by vibratory plate attached to the boom of a backhoe. Moisture levels were controlled by water hose.

#### **· COMPACTION TESTING**

Compaction tests were performed utilizing the Sand Cone Method (ASTM D: 1556-90). Per requirements of the City of Garden Grove, each backfill lift was tested for compaction. The locations of the compaction tests are shown on Figure I "Compaction Tests Locations".

#### **· LABORATORY STANDARD (MAXIMUM DENSITY ANALYSIS)**

Soil types were sampled in the field per ASTM: D-75-87. A Maximum Density Analysis ("max") was performed on all soil types utilized per ASTM D: 1557-91 (see Table I). Compaction tests data were quantitatively compared to the following general standard for purposes of determining per cent compaction in the field:

**ASTM D-1557, Method "A", 4" diameter cylinder mold  
1/30 cubic foot volume, 10 pound hammer, 18" drop  
5 layers, 25 blows per layer, moisture increments < 2%**

**SUMMARY OF FIELD TESTS**

Vertical increments of fill did not exceed 1' from test to test; volumetric increments did not exceed 500 cubic yards. Compaction tests results are listed in Table II.

**Table I: Maximum Density Analyses**

SOIL TYPE	GENERAL CLASSIFICATION	OPTIMUM MOISTURE %	MAX. DRY DENSITY, LBS/CU. FT.
1	NATIVE Olive-brown silty fine sand (SM)	11.5	125.0
2	IMPORT Beige coarse sand (SM)	9.5	128.0

**Table II: Compaction Tests Results**

Test No.	Test Depth Below subgrade, ft.	Moisture, Per Cent of Dry Wt.	Dry Unit Weight, Lbs./Cu.Ft.	Per Cent Relative Compaction	Soil Type	Test Date
1	7	11.8	115.0	92	1	9/18/98
2	6	10.7	114.8	92	1	9/18/98
3	5	11.5	116.1	93	1	9/18/98
4	4	11.3	115.9	93	1	9/18/98
5	3	10.4	117.6	92	2	9/18/98
6	2	10.0	117.3	92	2	9/18/98
7	1	10.2	118.0	92	2	9/18/98
8	0	10.5	119.1	93	2	9/18/98

MOINE BROS.

W.O. 95998

**CONCLUSION**

Density tests results indicate adequate compaction at the locations and elevations tested, on the date tested. The present subgrade may require recompaction if left exposed for more than a few days or damaged by adverse weather conditions.

New pavement sections should be designed for expected traffic loads by a qualified engineer. New concrete pavement should be dowelled into the existing slab with reinforcing bar integrated into the new slab reinforcement.

**CLOSURE**

DREW ASSOCIATES should be contacted if a new structure is ever proposed at or near the backfill area. ***The presence of the compacted backfill area may impact future building foundation design.*** Mechanically compacted soil and *in situ* soils may have different settlement, consolidation and expansion parameters.

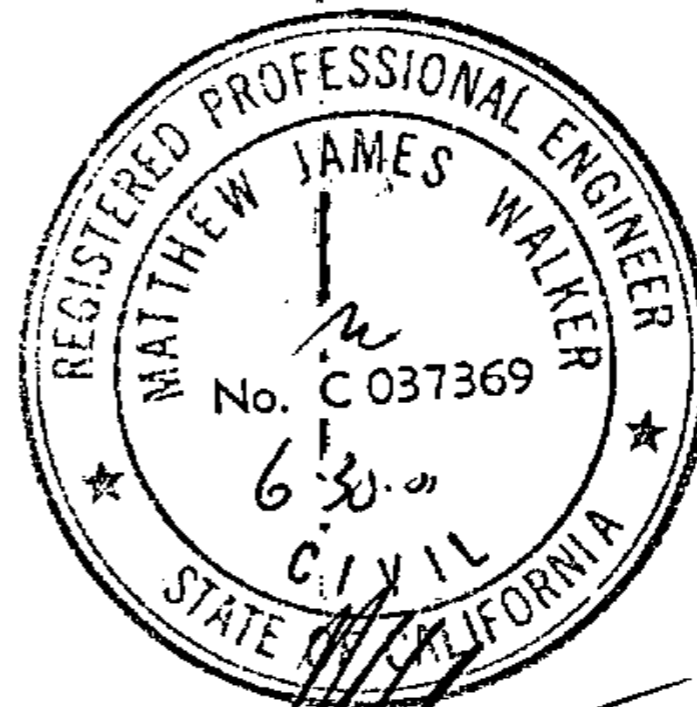

Our analyses have been made in accordance with generally accepted professional engineering practices, and no further warranty is hereby made or implied. This report is subject to municipal review and modification.

We appreciate this opportunity to be of service.

Respectfully submitted,  
DREW ASSOCIATES

DREW HANEY, Principal  
C.E.G. #EG2091

# Certificate of Compliance for Compacted Fill Material

Client: MOINE BROS.  
Location of fill: UST excavation  
Fill Material: Native soil, Imported soil  
Tract: Unknown  
Lot no.: Unknown  
Site: Air Industries  
Site address: 12570 Knott Street, Garden Grove, California  
Owners name: Unknown  
Owner's address: Unknown  
Per report on our project no.: W.O. 95998  
Date operations started on project: 9/18/98  
Date fill operations completed: 9/18/98

## *To the Superintendent of Building:*

\* I hereby certify that I have personally observed and tested the placing of fill on the above described property, and, on the basis of these observations and tests, it is my opinion that the fill was placed in compliance with the Unified Building Code.

**Civil Engineer: MATTHEW JAMES WALKER**

\*For the purposes of this certificate, to "have personally observed and tested" shall include observation and testing by any qualified person responsible to the licensed engineer signing this certificate. The full responsibility shall be assumed by the licensed engineer whose signature is affixed hereon.

RECEIVED  
OCT 22 2001

October 18, 2001  
Job No. 010906

Community Development Department  
Building Services Division  
11222 Acacia Parkway  
Garden Grove, Ca. 92842

Attention: Dave Martin, Inspector

Subject: Air Industries Corp.  
12570 Knott Street  
Fire Damage- Roof Structure

# 59770

Gentlemen:

As requested by United Industrial Contractors, Mr. Mike Owen, we did perform an observation of the fire damaged roof structure after the repairs were made and found that all of the rafters, purlins and beams were repaired or replaced in accordance with the drawings. The lateral braces from the top of the concrete block walls to the roof purlins were placed at 8 foot centers and were repaired as required by the drawings.

The repairs to the fire damaged roof were completed in general compliance with the drawings.

Sincerely,

  
Chester L. Schultz S 930  
CL S Corporation
