Mr. James J. Buxton, Vice President
Allied Radio Shack
7340 Lompson Avenue
Garden Grove, California 92641

Dear Mr. Buxton:

This will confirm our conversation this morning regarding total maximum allowable signing for your facility on Knott Street. Based on M-P (Industrial Park) signing standards, you are allowed a maximum of 265 square feet of single-faced sign area. Upon re-computation of signing previously approved, you have a total of 256 square feet or a net nine square feet that you have not used.

Per our conversation this morning, we agreed that you may locate that additional nine square feet single-faced signing at the west end of the southerly planter adjacent to the most southerly driveway on Knott Street; furthermore, that the sign would be eye level and indicate retail sales.

If you have any further questions please feel free to contact me.

Very truly yours,

RICHARD R. POWERS
Assistant City Manager

RESOLUTION NO. 2461

A RESOLUTION OF THE PLANNING COMMISSION
OF THE CITY OF GARDEN GROVE RECOMMENDING
APPROVAL OF PLANNED UNIT DEVELOPMENT 104-70.

WHEREAS, in the matter of Planned Unit Development 104-70, the Planning Commission of the City of Garden Grove does report as follows:

1. The subject case was initiated by Koll Income Properties, as applicant.
2. The applicant requests approval of a revised Final Development Plan to permit the construction of professional offices, general commercial and industrial uses in the Planned Unit Development zone, in accordance with the provisions of Municipal Code Section 9213F (Planned Unit Development).
3. The subject property is zoned PUD and is an unimproved freeway remnant.
4. Existing land use and zoning of property in the vicinity of the subject property have been reviewed.
5. Past cases affecting the subject property were considered and the Staff Report submitted by the City's Staff was reviewed.
6. Public testimony was heard.

WHEREAS, the Planning Commission findings are as follows:

1. The subject Planned Unit Development possesses characteristics that would indicate justification of the request for adoption.
2. All requirements of Section 9213F.7 have been shown to be satisfied.
3. In order to fulfill the purpose and intent of the Municipal Code and thereby promote the public health, safety, and general welfare, the following conditions of approval shall apply to the subject case:
 - a. Approval of this Planned Unit Development shall not be construed to mean any waiver of the applicable and appropriate zoning and other regulations.
 - b. Minor changes in P.U.D.-104-70 may be approved by the Building-Zoning Manager. If other than minor changes are made in the proposed development, a new P.U.D. application shall be filed which reflects the revisions made.
 - c. That the following Standards of Development shall apply:
 - (1) Signing Standards. Signing in the proposed development shall be as follows:

Industrial Use. All signs for this use shall be approved by the Zoning Administrator as pertains to size, height, rotation and placement, provided that in no event shall any sign exceed a maximum height of 50 feet.

Restaurant: Signs shall be limited to an aggregate display area not exceeding 3 square feet of display area for each lineal foot of building frontage facing Knott Avenue and shall not exceed the height of the tallest building on the site.

Bank: Signs shall be limited to an aggregate display area not exceeding 3 square feet of display area for each lineal foot of building frontage facing Knott Avenue and shall not exceed the height of the tallest building on the site.

Office-Professional Building: One lighted or unlighted name-plate sign not exceeding four square feet of display area for each 300 square feet of office space is permitted. Said name-plate shall contain the name of the occupant and/or the principal use only.

Two signs not exceeding 200 gross square feet of display area are permitted for general identification or direction use.

*Radio
Shark
Only*

General regulations governing all uses:

- OK* (a) No sign shall be roof-mounted nor extend above the cornice line of any building.
- (b) All signing shall be compatible and shall be approved by the Zoning Administrator.
- (2) Parking Requirements. Parking standards shall be as follows:

Industrial Buildings: buildings having more than 16,000 square feet of floor area shall have 27 parking spaces plus one (1) for each 1,000 square feet in excess of 16,000 square feet of building area.

Restaurant: 4,000 square feet or more, 40 parking spaces plus one (1) for each 50 square feet of gross floor area in excess of 4,000 square feet.

Bank: Four (4) parking spaces plus one (1) for each 200 square feet of gross floor area.

Office-Professional Building: One (1) parking space for each 250 square feet of gross floor area.

Striping plan for Knott Avenue to be reviewed by the City Traffic Engineer.

Of the Section (3) Landscaping: Detailed Landscape Plan to be submitted for approval by Staff showing plant size, type, location and method of watering system. Landscape area to be 5 percent of total site. Mature landscaping is to be shown for installation.

Applicant to install suitable landscape buffer on west parkway of Brady Way which at maturity will provide adequate screening for adjacent single family residences. Location, type and size of plant material to be approved by Staff. Maintenance responsibility to be by applicant.

Applicant to install landscaping in parkway area north of the terminus of the applicant's property. Location, type and size of plant material to be approved by Staff. Maintenance responsibility to be by applicant.

- (4) Street Improvements: Any necessary street dedications shall be required to achieve full street and drainage improvements as indicated on general Development Plan. Design of parking bays on Brady Way to be approved by Development Services.

No parking stalls in bays on Brady Way shall be permitted for the first 50 feet southerly of the north curb return at Stanford Avenue.

The applicant shall construct box culverts at the driveway locations on Brady Way. These culverts will be a 5 ft. x 7 ft. reinforced concrete box. The structural design and the vertical locations of these culverts are available from the Engineering Division of Development Services and will be furnished to the applicant's engineer for his inclusion in the street improvement plans for Brady Way. The City will enter into an agreement with the applicant for reimbursement for his construction of the culverts within one year of the completion date.

A faithful performance bond shall be required for street improvements on Brady Way pending completion of drainage improvements, such bond to be approved by Development Services.

- (5) Lighting: All on-site lighting shall be low level and directed away from adjacent K-1 single family residences.

- 10K* (6) Trash Storage: All trash areas to be completely enclosed, areas to be delineated on General Development Plan.

- OK (7) Roof supported mechanical equipment to be screened as viewed from city streets.
- OK (8) Underground Utilities: All on-site utilities to be undergrounded.
- (9) Permitted Uses and Performance Standards: The use of the industrial building located on the south of the subject property shall consist of offices and warehousing for any use permitted by the M-P zone, but may in addition include up to a maximum of 6,000 square feet of retail sales area.

No use shall be permitted which does not comply with the following standards of industrial performance and which cannot be fully conducted within a completely enclosed building.

No use shall be permitted in the subject Planned Unit Development which involves any of the following effects:

- (a) Any noise or vibration, other than that related to temporary construction work, which is discernible without instruments at any lot line of the site.
 - (b) The emission of radioactivity in dangerous amounts.
 - (c) Any electrical disturbance adversely affecting the operation of any equipment other than that of the creator of such disturbance.
 - (d) The emission of visible gray smoke of a shade or quality darker than No. 1 on the Ringelmann Chart, as specified in Information Circular 7718 of the United States Bureau of Mines, for more than three minutes in any one hour.
 - (e) Any direct or reflected glare or heat which is perceptible at any point outside of the building site.
 - (f) The emission of odorous gases or matter in quantities such as to be perceptible at any lot line of the site.
 - (g) The discharge into any sewer or stream or into the ground, except in accordance with standards approved by the State Department of Health, of any materials of such nature as to contaminate any water supply, interfere with bacterial processes and sewage treatment, or in any way cause the emission of dangerous or offensive elements.
 - (h) No exterior storage of materials, supplies, equipment or machinery shall be permitted whether open or in tanks, bins, or other container devices.
- (10) Conditions, Covenants and Restrictions: As required by Section 9213F.9 of the Municipal Code, the applicant shall submit to the City Attorney a draft of Covenants, Conditions and Restrictions which shall apply to the subject development and shall be concurrently recorded with the County Recorder along with the conditions of approval and map of the subject development.
- (11) In the event construction is not begun on the restaurant and bank within one year of adoption of this P.U.D., the applicant shall submit a revised General Development Plan limited to the industrial uses and standards approved as shown in Phase I.
- (12) Where herein not otherwise specified, all provisions of the Garden Grove Municipal Code hereby apply.

d. That C.C. & R's providing for the perpetual maintenance and preservation of this development be recorded along with the Final Development Plan and the above Site Development Standards, in accordance with Section 9213F.9 of the Code.

e. That all noise levels emanating from the subject property shall not exceed that of existing noise sources in the immediate vicinity.

NOW THEREFORE BE IT RESOLVED, that the Planning Commission of the City of Garden Grove does hereby recommend approval of Planned Unit Development 104-70 subject to the conditions stated above.

ADOPTED AND APPROVED this 24th day of September, 1970.

/s/ THOMAS E. SHELTON

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500):

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale.)

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.)

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty not more than five hundred dollars (\$500.):

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale.)

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.)

I am exempt under Sec. _____ B.&P.C. for this reason _____

DEMOL/ASBESTOS

Section 19827.5 of the State of California, Health and Safety Code states in part:

"A demolition permit shall not be issued by any city ... as to any building or other structure except upon receipt from the permit applicant of a copy of each written asbestos notification regarding the building that has been required to be submitted to the United States Environmental Protection Agency or to a designated state agency, or both, pursuant to Part 61 of Title 40 of the Code of Federal Regulations, or the successor to that part. The permit may be issued without the applicant submitting a copy of the written notification if the applicant declares that the notification is not applicable to the scheduled demolition project."

As applicant for a demolition permit in the City of Garden Grove, I certify that: I have read the excerpt from Section 19827.5 of the Health and Safety Code provided above; the information I have provided on this form is true and correct; and I further certify the following:

On the attached _____ pages are copies of all written asbestos notifications regarding the above referenced building that are required to be submitted to the United States Environmental Protection Agency or to a designated state agency, or both, pursuant to Part 61 of Title 40 of the Code of Federal Regulations, or successor to that part.

I declare that the written asbestos notification is not applicable to the scheduled demolition project.

Applicant's Signature: _____ Date _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this county to enter upon the above-mentioned property for inspection purposes.

2.0 USES

The Steel Stud Manufacturers Association (SSMA) cold-formed steel framing members are used for framing of nonload-bearing interior walls, curtain walls, and load-bearing walls, floors and roofs.

3.0 DESCRIPTION**3.1 General:**

The SSMA cold-formed steel framing members described in this report are factory-formed from coils of steel at the facilities listed in Table 2. The cold-formed framing members include C-shapes (S-sections), tracks (T-sections), U-channels (U-sections) and hat furring channels (F-sections). The S-sections are manufactured with and without web punch-outs. All other framing members (T-sections, U-sections, and F-sections) are manufactured without punch-outs. When provided, the punch-outs have a width of 1½ inches (38 mm) and a length of 4 inches (102 mm) in S-sections with a depth of 3½ inches (89 mm) or greater. In S-sections with a depth between 1⅝ inches (41 mm) and 2½ inches (64 mm), punch-outs have a width of ¾ inch (19 mm) and a length of 4 inches (102 mm). The punch-outs are spaced a

*Revised July 2013

minimum of 24 inches (610 mm) on center and have a minimum distance between the end of the member and the near edge of the punch-out of 10 inches (254 mm).

The SSMA S-sections, T-sections, U-sections, and F-sections are detailed in SSMA's catalogue entitled "Product Technical Guide," copyrighted 2012, effective December 3, 2012, which is distributed with this report. The following tables, figures, and pages from the catalogue are part of this report:

All other items and pages in the "Product Technical Guide" are outside the scope of this report.

3.2 Material:

The SSMA metal framing members are cold-formed from steel coils conforming to ASTM A1003-13 Structural Grade 50 Type H (ST50H); ASTM A1003-13 Structural Grade 33 Type H (ST33H); ASTM A653 SS Grade 33; ASTM A653 SS Grade 50 Class 1; or ASTM A1003-13 Nonstructural Grade 33 (NS33).

The steel conforming to ASTM A653 must have a minimum metallic coating designation of G60 or A60 in accordance with ASTM A653 for applications other than interior nonload-bearing walls. The steel conforming to ASTM A653 may have a minimum metallic coating designation of G40 or A40 in accordance with ASTM A653 for interior nonload-bearing wall applications.

The steel conforming to ASTM A1003-13 ST50H or ST33H must have a minimum metallic coating designation of G60, A60, AZ50, GF30, T1-25, or T2-100 in accordance with ASTM A1003-13.

The steel conforming to ASTM A1003-13 NS33 must have a minimum metallic coating designation of G40, A40, AZ50, GF30, T1-25, or T2-100 in accordance with ASTM A1003-13.

4.0 DESIGN AND INSTALLATION

4.1 Design:

4.1.1 IBC Method: The section properties for the cold-formed steel framing members recognized in this report have been determined in accordance with the applicable edition of the North American Specification for Design of Cold-Formed Steel Structural Members. The moments listed in this report are allowable moments and are used with Allowable Strength Design (ASD) for flexural members with the compression flange fully braced. For other conditions of compression flange bracing, the allowable moment must be determined in accordance with the applicable edition of the North American Specification for Design of Cold-Formed Steel Structural Members. The design of flexural members must address combined bending and web crippling, and combined bending and shear, as applicable in accordance with the applicable edition of the North American Specification for Design of Cold-Formed Steel Structural Members.

4.1.2 IRC Method: The S-sections listed in Table 1 of this report qualify for use with prescriptive requirements of the IRC. T-sections with flange width of 1.250 inches (31.75 mm) or greater qualify for use with the prescriptive requirements of the IRC. For use of all other sections under the IRC, the cold-formed steel framing members must be limited to engineered structures, in accordance with IRC Section R301.1.3.

When the framing members are used to construct buildings that do not conform to the applicable requirements of IRC Sections R505.1, R603.1 or R804.1.1, and for framing members not identified in Table 1 of this report, the structural analysis and design must be in accordance with the IBC, as described in Section 4.1.1 of this report.

4.2 Installation:

The framing members must be installed in accordance with the applicable code, the approved plans and this report. If there is a conflict between the plans submitted for approval and this report, this report governs. The approved plans must be available at the jobsite at all times during installation.

5.0 CONDITIONS OF USE

The SSMA metal framing members described in this report comply with, or are suitable alternatives to what is specified in, those codes listed in Section 1.0 of this report, subject to the following conditions:

- 5.1 The cold-formed steel members must be installed in accordance with the applicable code, the approved plans and this report.
- 5.2 Minimum uncoated base-metal thickness of the cold-formed steel members as delivered to the jobsite must be at least 95 percent of the design base-metal thickness.
- 5.3 Complete plans and calculations verifying compliance with this report must be submitted to the code official for each project at the time of permit application. The calculations and drawings must be prepared and sealed by a registered design professional where required by the statutes of the jurisdiction in which the project is to be constructed.
- 5.4 Framing members cold-formed from NS33 steel are limited to use in interior nonload-bearing walls subject to a maximum 10 psf (478 Pa) transverse load, under the 2012 and 2009 IBC; and to a maximum

transverse load of 5 psf (239 Pa) under the 2006 IBC. Framing members without the steel classification designated must be considered NS33 steel (see Section 7.0).

5.5 Framing members with a height-to-thickness (h/t) ratio of more than 200 must be provided with web stiffeners in accordance with Sections B1.2 and C3.6.1 of AISI-NAS or Sections B1.2 and C3.2.2 of AISI S100, as applicable. Holes or punch-outs in the web are outside the scope of this report.

6.0 EVIDENCE SUBMITTED

Data in accordance with the ICC-ES Acceptance Criteria for Cold-formed Steel Framing Members (AC46), dated June 2012.

7.0 IDENTIFICATION

At a spacing not exceeding 96 inches (2440 mm) on center for applications under the 2012 IBC, 2012 IRC, 2009 IBC, and 2009 IRC, or at a spacing not exceeding 48 inches (1220 mm) on center for applications under the 2006 IBC and 2006 IRC, each cold-formed steel member is stamped, stenciled or embossed with the company name or initials (see the listees at the beginning of this report); the evaluation report number (ESR-3064P); the minimum uncoated base-metal thickness in mils or decimal inches; the minimum specified yield strength if over 33 ksi (230 MPa); and the metallic coating designation (if G60, A60, AZ50, or GF30 or greater).

The purpose of this evaluation report supplement is to indicate that SSMA Cold-Formed Steel Framing, recognized in ICC-ES master report ESR-3064P, has also been evaluated for compliance with the codes noted below.

Applicable code editions:

- 2010 Florida Building Code—Building
- 2010 Florida Building Code—Residential

2.0 CONCLUSIONS

The SSMA Cold-Formed Steel Framing, described in Sections 2.0 through 7.0 of the master evaluation report ESR-3064P, complies with the 2010 Florida Building Code—Building and the 2010 Florida Building Code—Residential, provided the design and installation are in accordance with the International Building Code® (IBC) provisions noted in the master report.

Use of the SSMA Cold-formed Steel Framing has also been found to be in compliance with the High-Velocity Hurricane Zone provisions of the 2010 Florida Building Code—Building and the 2010 Florida Building Code—Residential.

For products falling under Florida Rule 9N-3, verification that the report holder's quality-assurance program is audited by a quality-assurance entity approved by the Florida Building Commission for the type of inspections being conducted is the responsibility of an approved validation entity (or the code official when the report holder does not possess an approval by the Commission).

This supplement expires concurrently with the master report, issued February 1, 2013, revised July 2013.

INFORMATION / INSPECTION PROCEDURES / INSTRUCTIONS:

1. A separate permit is required for each building.
2. Roofing must be installed in accordance with the manufacturer's installation instructions and the California Building Code.
3. New roof coverings shall not be installed without first removing all existing layers of roof coverings where any of the following conditions occur:
 - a) Where existing roof or roof covering is water soaked or has deteriorated to become inadequate as a base for additional roofing.
 - b) Where the existing roof covering is wood shake, slate, clay, cement or asbestos-cement tile.
 - c) Where the existing roof has two or more applications of any type of roof covering.
4. Provide a safe ladder for each inspection. Ladder must extend 3' above the edge of the roof, be erected, tied off, and ready for inspection. Folding ladders are not acceptable.
5. After the removal and sheathing repair is complete and BEFORE applying any roofing materials, call for a pre-inspection. No roofing materials may be applied without first obtaining the written approval of the building inspector.
6. ALL materials must be on site at the time of pre-inspection. Keep materials in original package for inspector's verification.
7. If roof covering is to be removed or made smooth, all removal and repair work must be complete PRIOR to pre-inspection.
8. Inspection requests can be made by calling 714-741-5332 between 7:30 a.m. and 4:00 p.m. when city hall is open. Inspections will be provided on the next day city hall is open following the request. The arrival time of the inspector varies with workload and routing.
9. The inspection record card must be conspicuously posted on the site.
10. After the reroofing is complete, request a final inspection.

I have read the information outlined above. I understand my responsibilities listed above. I agree to comply. I understand that a reinspection fee applies if the job is not ready at the time of inspection. For permits issued to contractors: I agree to deliver a copy of this signed form to the license holder.

OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).):

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale.)

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.)

I am exempt under Sec. _____ B.&P.C. for this reason _____

DEMOL/ASBESTOS

Section 19827.5 of the State of California, Health and Safety Code states in part:

"A demolition permit shall not be issued by any city ... as to any building or other structure except upon receipt from the permit applicant of a copy of each written asbestos notification regarding the building that has been required to be submitted to the United States Environmental Protection Agency or to a designated state agency, or both, pursuant to Part 61 of Title 40 of the Code of Federal Regulations, or the successor to that part. The permit may be issued without the applicant submitting a copy of the written notification if the applicant declares that the notification is not applicable to the scheduled demolition project."

As applicant for a demolition permit in the City of Garden Grove, I certify that: I have read the excerpt from Section 19827.5 of the Health and Safety Code provided above; the information I have provided on this form is true and correct; and I further certify the following:

On the attached _____ pages are copies of all written asbestos notifications regarding the above referenced building that are required to be submitted to the United States Environmental Protection Agency or to a designated state agency, or both, pursuant to Part 61 of Title 40 of the Code of Federal Regulations, or successor to that part.

I declare that the written asbestos notification is not applicable to the scheduled demolition project.

Applicant's Signature: _____ Date _____

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this county to enter upon the above-mentioned property for inspection purposes.
