During design, the AUTHORITY and the CITY will work collaboratively to develop the construction phasing for the Project. The AUTHORITY and the CITY shall gather input from the public in the development of construction phasing alternatives. The construction phasing plan shall be developed by the sixty (60) percent design level of completion in order for the information to be implemented into the Plans and Specifications.

6.1.4 Packaging

The Plans and Specifications prepared by the AUTHORITY shall be comprehensive and represent the complete design of the Project. All design plans shall be on a uniform border, numbered sequentially, and segregated by discipline as deemed appropriate by the AUTHORITY. The design plans and specifications, at the Ready to Bid stage, shall have a signature sheet for both AUTHORITY approval and CITY concurrence. CITY or AUTHORITY signature on individual sheets or specifications is not required.

6.1.5 Design Reviews

The Plans and Specification design package(s) will entail a formal review package including 30 percent, 60 percent, 90 percent, and Ready to Bid specific to the City. Each shall be scheduled in advance with at least a three-week notice provided for each submittal. The total review time shall be twenty (20) days for each formal review package submittal. The twenty (20) day period begins when the City receives the submittals. If multiple formal review packages are prepared the separate packages will not be concurrently reviewed. In situations where the AUTHORITY intends to submit review packages outside of the formal review packages, the CITY and the AUTHORITY will determine the review times on a case by case basis. The AUTHORITY shall provide the number of

copies of the Plans and Specifications for review as requested by the CITY. The CITY shall provide written comments on hard-copy prints, e-file comments, or tabular comments with clear reference to where the comment applies in the review set. Comments must be clear, concise, and legible. Prior to submission to the AUTHORITY, the CITY shall resolve any conflicting comments.

The AUTHORITY shall hold comment resolution meetings for each formal review stage and discipline, and shall discuss rejected comments with each reviewer. It is the AUTHORITY's responsibility to evaluate conflicting review comments between the various stakeholders (utility companies, agencies, etc.) and work with the reviewers to develop a final disposition.

The AUTHORITY shall respond in writing to each comment received within twenty (20) days. Any comments received after the review period shall be evaluated for relevance and shall be incorporated into the next design submittal when applicable. Comments received after the Ready to Bid review period, that have a material effect on Project cost or schedule shall be considered a Betterment. The exclusion of any review comment from the CITY shall be discussed between the Parties until mutually agreed upon. Any review comment not resolved within a reasonable time may be requested by either Party to be resolved in the Dispute Resolution process, identified in Article 10.L.

The AUTHORITY shall adopt a validation process to ensure that all accepted comments (from all reviewers) have been incorporated into the Plans and Specifications. The AUTHORITY shall demonstrate to the CITY that all comments have been implemented or resolved satisfactorily in the final Plans and Specifications.

Comments received that are deemed a Betterment, as determined by the AUTHORITY, shall be discussed with the CITY to determine if the CITY is interested in submitting a Betterment request.

6.1.6 Authorization to Bid

The AUTHORITY may advertise the procurement of a Construction Contractor as necessary to meet the Project schedule. The AUTHORITY shall not issue the Invitation for Bids for

construction until the Ready to Bid set of documents is complete as defined in Article 1 of the Agreement unless provided for otherwise herein.

The CITY shall not unnecessarily withhold the signing of the Ready to Bid cover sheet if the AUTHORITY has addressed all comments in good faith. If no comments have been elevated in the Dispute Resolution process as provided for in Article 10.L, the AUTHORITY may proceed into construction fourteen (14) days following written notice to the CITY that all comments have been addressed without the City's signature on the cover sheet.

6.1.7 Artistic Influence

The extent of the AUTHORITY's Project artwork obligations shall be to contract a station and urban design consultant to develop aesthetic design concepts that will incorporate artistic influence into the Project. Any artistic influence incorporated into the Project must meet FTA guidelines as an eligible expense. All other requested artwork shall be considered a Betterment.

6.1.8 Station and Urban Design

The AUTHORITY shall develop station and urban design concepts through an urban design consultant separate from the Project Design Consultant's scope of work, and gather community input on the urban aspects of the Project. The AUTHORITY is committed to an iterative process focused on securing community stakeholder consensus prior to advancing the concepts to final design. The Parties agree that the iterative process shall be orchestrated in a manner that reduces the number of concepts with each iteration. Once consensus is reached, the AUTHORITY shall advance the concept to the Design Consultant responsible for final design.

7.0 PUBLIC INVOLVEMENT

The AUTHORITY shall lead Project public involvement. The AUTHORITY shall develop and implement a public awareness campaign (PAC) in collaboration with and including input from the CITY that includes business outreach to advise businesses, residents, elected officials, motorists, and media of Project status. The AUTHORITY shall report on activities and collateral material

development during the Project. The AUTHORITY shall keep the CITY informed on PAC events, notices, and Project updates.

8.0 REAL ESTATE

The AUTHORITY shall be responsible for all right of way acquisition activities. If necessary, the AUTHORITY and the CITY shall cooperate in implementing eminent domain. If requested by the AUTHORITY, the CITY shall conduct public hearings to hear resolutions of necessity and agrees to exercise its rights under eminent domain, to assign all of its rights, and to join the AUTHORITY in litigation if necessary. Compensation for right of way acquisition support is addressed in Exhibit C, Section 4.2.

9.0 COORDINATION OF ADJACENT PROJECTS

The CITY agrees to keep the AUTHORITY informed on all design and construction projects that may directly impact this Project and that are submitted to the CITY for approval. This includes, but is not limited to, utility projects, communication projects, development projects, and other improvement projects.

To the extent permitted by law and except for renewals or extensions of existing licenses or permits, and renewals or extensions of existing use rights, the CITY shall not issue new licenses, permits, or use rights within the City's public right of way that materially interfere with the AUTHORITY's construction of the Project.

10.0 PERMITS AND COORDINATION

The CITY agrees to grant to the AUTHORITY certain non-exclusive rights to use the CITY right of way for streetcar purposes, including the right to construct, operate, and maintain tracks, stations, OC Streetcar elements, and other improvements necessary for the OC Streetcar on that portion of the Project alignment constituting the CITY's public way or right of way. The AUTHORITY's use of the CITY's public way or right of way shall be at no charge and upon such terms and conditions as set forth in a Public Way Use Agreement.

10.2 PERMITS

By executing this Agreement, the CITY agrees to use its best efforts to facilitate all necessary authority, permission, and permits to enable the AUTHORITY to construct the Project as set forth herein. The CITY and the AUTHORITY acknowledge that the intent of this Agreement is to incorporate the majority of the CITY's requirements with respect to the permit the AUTHORITY must obtain to construct the Project. However, before the AUTHORITY begins construction, the AUTHORITY shall apply for and the CITY agrees to not unreasonably withhold such permit(s).

The AUTHORITY, and/or its Construction Contractor(s), shall not be charged for the CITY's fixed cost permit issuance fees for building and street work permits deemed necessary for the Project.

3. The CITY shall review the Betterment proposal. If acceptable, the CITY shall submit written authorization for the AUTHORITY to move forward. If further negotiations are necessary before authorization is provided, the CITY and the AUTHORITY shall negotiate and update the proposal to accurately reflect the negotiated terms and

conditions. The AUTHORITY reserves the right to decline any Betterment request that materially impacts the Project schedule.

4. All Betterment reimbursements by the CITY shall be lump sum and shall equal the agreed upon budget amount. The AUTHORITY agrees to segregate the Betterment with respect to accounting and cost reporting.

The CITY staff support budget has been developed by identifying positions, hours, and rates in the categories shown in the City Support Work Plan ("Work Plan") in Exhibit E.

AUTHORITY will reimburse CITY for actual CITY staff support costs incurred in accordance with the Work Plan Budget. Actual costs include all eligible CITY direct and indirect costs. ARTICLE 5. DBE CONTRACT PROVISIONS FOR FTA-ASSISTED CONTRACTS WITH DISADVANTAGED BUSINESS ENTERPRISE (DBE) GOALS

I. DBE Participation

It is the Consultant's responsibility to be fully informed regarding the requirements of 49 CFR, Part 26 and the Orange County Transportation Authority's (Authority's) DBE program developed pursuant to these regulations. Particular attention is directed to the following:

- A. A DBE must be a small business firm defined pursuant to 13 CFR 121 and be certified through the California Unified Certification Program (CUCP).
- B. A certified DBE may participate as a prime consultant, subconsultant, joint venture partner, as a vendor of material or supplies, or as a trucking company.
- C. A DBE must perform a commercially useful function pursuant to 49 CFR 26.55 that is, a DBE firm must be responsible for the execution of a distinct element of the work and must carry out its responsibility by actually performing, managing and supervising the work.
- D. Consultant must not claim DBE participation as attained until the amount to be claimed is paid and fully adheres to DBE crediting provisions.

If the Consultant has committed to utilize DBE(s) in the performance of this DOT-assisted contract, the Consultant's submitted "DBE Participation Commitment Form" will be utilized to monitor Consultant's DBE commitments, unless otherwise directed and/or approved by the Authority prior to the Consultant effectuating any changes to its DBE participation commitment(s) (*Refer to Subsection H: "Performance of DBE Subconsultants"*).

Consultant must complete and submit all required DBE documentation to effectively capture all DBE utilization on the Authority's DOT-assisted contracts whether achieved race neutrally or race consciously. Even if a Consultant has not committed to utilize DBE(s) in the performance of this contract, the Consultant must execute and submit all required DBE forms and other related documentation as specified under this contract or as otherwise requested by the Authority. No changes to the Consultant's DBE Commitment must be made until proper protocols for review and approval of the Authority are rendered in writing.

To ensure full compliance with the requirements of 49 CFR, Part 26 and the Authority's DBE Program, the Consultant must:

- A. Take appropriate actions to ensure that it will continue to meet the DBE Commitment at the minimal level committed to at award or will satisfy the good faith efforts to meet the DBE Commitment, when change orders or other contract modifications alter the dollar amount of the contract or the distribution of work. The Consultant must apply and report its DBE goal commitments against the total Contract Value, including any contract change orders and/or amendments.

II. DBE Policy and Applicability

In accordance with federal financial assistance agreements with the U.S. Department of Transportation (U.S. DOT), the Authority has adopted a Disadvantaged Business Enterprise (DBE) Policy and Program, in conformance with Title 49 CFR, Part 26, "Participation by Disadvantaged Business Enterprises in Department of Transportation Programs".

The project is subject to these stipulated regulations and the Authority's DBE program. In order to ensure that the Authority achieves its overall DBE Program goals and objectives, the Authority encourages the participation of DBEs as defined in 49 CFR, Part 26 in the performance of contracts financed in whole or in part with U.S. DOT funds. Pursuant to the intent of these Regulations, it is also the policy of the Authority to:

Fulfill the spirit and intent of the Federal DBE Program regulations published under U.S. DOT Title 49 CFR, Part 26, by ensuring that DBEs have equitable access to participate in all of Authority's DOT-assisted contracting opportunities.

Ensure that DBEs can fairly compete for and perform on all DOT-assisted contracts and subcontracts.

Ensure non-discrimination in the award and administration of Authority's DOT-assisted contracts.

Create a level playing field on which DBEs can compete fairly for DOT-assisted contracts.

Ensure that only firms that fully meet 49 CFR, Part 26 eligibility standards are permitted to participate as DBEs.

Help remove barriers to the participation of DBEs in DOT-assisted contracts.

Assist in the development of firms that can compete successfully in the marketplace outside the DBE Program.

Consultant must not discriminate on the basis of race, color, national origin, or sex in the award and performance of subconsultant.

Any terms used in this section that are defined in 49 CFR, Part 26, or elsewhere in the Regulations, must have the meaning set forth in the Regulations. In the event of any conflicts or inconsistencies between the Regulations and the Authority's DBE Program with respect to DOT-assisted contracts, the Regulations must prevail.

III. Authority's DBE Policy Implementation Directives

Pursuant to the provisions associated with federal regulation 49 CFR, Part 26, the Disadvantaged Business Enterprise (DBE) program exists to ensure participation, equitable competition, and assistance to participants in the USDOT DBE program. Accordingly, based on the Authority's analysis of its past utilization data, coupled with its examination of similar Agencies' Disparity Study and recent Goal Methodology findings the Authority has implemented the reinstatement of the DBE program utilizing both race-conscious and race-neutral means across the board as all protected groups participation have been affected using strictly race neutral means on its FTA-assisted contracts.

The Authority reinstates the use of contract goals and good faith efforts. Meeting the contract-specific goal by committing to utilize DBEs or documenting a bona fide good faith effort to do so, is a condition of award. Additionally, contract-specific goals are now specifically targeted at DBEs (*DBEs owned and controlled by Black Americans, Hispanic Americans, Asian-Pacific Americans, Native Americans, Asian-Pacific Americans, Sub-Continent Asian Americans, and Women*). In the event of a substitution, a DBE must be substituted with another DBE or documented adequate good faith efforts to do so must be made, in order to meet the contract goal and DBE contract requirements.

The purpose of this form is to ensure Consultant DBE commitments are attained, properly reported and credited in accordance with DBE crediting provisions

The Consultant is required to complete and submit a Form 103 to the Authority by the 10th of each month until completion of the contract. The Consultant must submit its first Form 103 following the first month of contract activity. B. Listed and/Proposed Consultant/Subconsultant Information – For All DBE participation being claimed either Race Neutrally or Race Consciously, regardless of tier:

Consultant is to further maintain and submit at the request of Authority a detailed running tally of related invoices submitted by DBE(s) and Non DBE(s), including dates of invoice submission, dates accepted and corresponding dates and amount of payments made. The Payment and Retention Reporting tally must also include:

DBE(s) and Non DBE(s) Invoice Number, Invoice Amount, Invoice Date, Prime Consultant's Invoice Number that incorporated the corresponding DBE and Non DBE invoice(s) for billing purposes, Date of Invoice submission to Authority, Date and amount Authority paid on Prime Consultant's Invoice. The report must also reflect a breakout of retention withheld (including retention as specified in

subcontract agreement(s) and disputed invoice retention) and retention payments made, check number and date paid to DBE and Non DBE.

Consultant is advised not to report the participation of DBE(s) toward the Consultant's DBE attainment until the amount being claimed has been paid to the DBE. Verification of payments and/or a signed Verification of Payment by the applicable DBE or Non DBE must be submitted with Form 103 to authenticate reported payments.

3. DBE Subcontract Agreements

The Consultant must submit to the Authority copies of executed subcontracts and/or purchase orders (PO) for all DBE firms participating on the contract within ten (10) working days of award. The Consultant must immediately notify the Authority in writing of any problems it may have in obtaining the subcontract agreements from listed DBE firms within the specified time.

4. "Monthly DBE Trucking Verification" Form

Prior to the 10th of each month, the Consultant must submit documentation on the "Monthly DBE Trucking Verification" Form to the Authority showing the amount paid to DBE trucking companies. The Consultant must also obtain and submit documentation to the Authority showing the amount paid by DBE trucking companies to all firms, including owner-operators, for the leasing of trucks. If the DBE leases trucks from a non-DBE, the Contactor may count only the fee or commission the DBE receives as a result of the lease arrangement.

The Consultant must also obtain and submit documentation to the Authority showing the truck number, owner's name, California Highway Patrol CA number, and if applicable, the DBE certification number of the owner of the truck for all trucks used during that month.

5. "Final Report-Utilization of Disadvantaged Business Enterprises (DBE), First Tier Subconsultants"

6. "Disadvantaged Business Enterprises (DBE) Certification Status Change"

If a DBE Sub is decertified during the life of the project, the decertified Subconsultant must notify the Consultant in writing with the date of decertification. If a Subconsultant becomes a certified DBE during the life of the project, the Subconsultant must notify the Consultant in writing with the date of certification (Attach DBE certification/Decertification letter). The Consultant must furnish the written documentation to the AUTHORITY.

Upon completion of the contract, the "Disadvantaged Business Enterprises (DBE) Certification Status Change" must be signed and certified correct by the Consultant indicating the DBEs' existing certification status. If there are no changes, please indicate "No Changes". The certified form must be furnished to the Authority within ninety (90) days from the date of contract acceptance.

V. DBE Eligibility and Commercially Useful Function Standards

A DBE must be certified at the time of Proposal submission:

1. A certified DBE must be a small business concern as defined pursuant to Section 3 of the U.S. Small Business Act and relevant regulations promulgated pursuant thereto.
2. A DBE may participate as a Prime Consultant, Subconsultant, joint venture partner with a Prime or Subconsultant, vendor of material or supplies, or as a trucking company.
3. A DBE joint venture partner must be responsible for specific contract items of work, or clearly defined portions thereof. Responsibility means actually performing, managing and supervising the work with its own forces. The DBE joint venture partner must share in the capital contribution, control, management, risks and profits of the joint venture commensurate with its ownership interest.
4. At time of proposal submission, DBEs must be certified by the California Unified Certification Program (CUCP). Listings of DBEs certified by the CUCP are available from the following sources:
 - A. The CUCP web site, which can be accessed at <http://www.californiaucp.com>; or the Caltrans "Civil Rights" web site at <http://www.dot.ca.gov/hq/bep>.
5. A DBE must perform a commercially useful function in accordance with 49 CFR 26.55 (i.e., must be responsible for the execution of a distinct element of the work and must carry out its responsibility by actually performing, managing and supervising the work). A DBE should perform at least thirty percent (30%) of the total cost of its contract with its own workforce to presume it is performing a commercially useful function.

VI. DBE Crediting Provisions

1. When a DBE is proposed to participate in the contract, either as a Prime Consultant or Subconsultant, at any tier, only the value of the work proposed to be performed by the DBE with its own forces may be counted towards DBE participation. If the Consultant is a DBE joint venture participant, only the DBE proportionate interest in the joint venture must be counted.
2. If a DBE intends to subcontract part of the work of its subcontract to a lower-tier Subconsultant, the value of the subcontracted work may be counted toward DBE participation only if the Subconsultant is a certified DBE and actually performs the work with their own forces. Services subcontracted to a Non-DBE firm may not be credited toward the Prime Consultant's DBE attainment.

3. Consultant is to calculate and credit participation by eligible DBE vendors of equipment, materials, and suppliers toward DBE attainment, as follows:
 - A. Sixty percent (60%) of expenditure(s) for equipment, materials and supplies required under the Contract, obtained from a regular dealer; or
 - B. One hundred percent (100%) of expenditure(s) for equipment, materials and supplies required under the Contract, obtained from a DBE manufacturer.
4. The following types of fees or commissions paid to DBE Subconsultants, Brokers, and Packagers may be credited toward the prime Consultant's DBE attainment, provided that the fee or commission is reasonable, and not excessive, as compared with fees or commissions customarily allowed for similar work, including:
 - A. Fees and commissions charged for providing bona fide professional or technical services, or procurement of essential personnel, facilities, equipment, materials, or supplies required in the performance of the Contract;
 - B. Fees charged for delivery of material and supplies (excluding the cost of materials or supplies themselves) when the licensed hauler, trucker, or delivery service is not also the manufacturer of, or a regular dealer in, the material and supplies;
 - C. Fees and commissions charged for providing any insurance specifically required in the performance of the Contract.
5. Consultant may count the participation of DBE trucking companies toward DBE attainment, as follows:
 - A. The DBE must be responsible for the management and supervision of the entire trucking operation for which it is responsible on a particular contract.
 - B. The DBE must itself own and operate at least one fully licensed, insured, and operational truck used on the contract.
 - C. The DBE receives credit for the total value of the transportation services it provides on the contract using trucks it owns, insures, and operates using drivers it employs.
 - D. The DBE may lease trucks from another DBE firm, including an owner-operator who is certified as a DBE. The DBE who leases trucks from another DBE receives credit for the total value of the transportation services the lessee DBE provides on the contract.
 - E. The DBE may also lease trucks from a non-DBE firm, including an owner-operator. The DBE who leases trucks from a non-DBE is entitled to credit only for the fee or commission it receives as a result of the lease arrangement. The DBE does not receive credit for the total value of the transportation services provided by the lessee, since these services are not provided by a DBE.
 - F. For purposes of this paragraph, a lease must indicate that the DBE has exclusive use of and control over the truck. This does not preclude the leased truck from working for others during the term of the lease with the consent of the DBE, so long as the lease gives the DBE absolute priority for use of the leased truck. Leased trucks must display the name and identification number of the DBE.

6. If the Consultant listed a non-certified 1st tier Subconsultant to perform work on this contract, and the non-certified Subconsultant subcontracts a part of its work or purchases materials and/or supplies from a lower tier DBE certified Subconsultant or Vendor, the value of work performed by the lower tier DBE firm's own forces can be counted toward DBE participation on the contract. If a DBE Consultant performs the installation of purchased materials and supplies they are eligible for full credit of the cost of the materials.

VII. Performance of DBE Subconsultants

DBEs must perform work or supply materials as listed in the "DBE Participation Commitment Form" specified under "*DBE Proposal Submission Requirements*" of these special provisions. Do not terminate a DBE listed Subconsultant for convenience and perform the work with your own forces or obtain materials from other sources without prior written authorization from the AUTHORITY.

The AUTHORITY grants authorization to use other forces or sources of materials for requests that show any of the following justifications (written approval from the AUTHORITY must be obtained prior to effectuating a substitution):

1. Listed DBE fails or refuses to execute a written contract based on plans and specifications for the project.
2. You stipulate a bond is a condition of executing the subcontract and the listed DBE fails to meet your bond requirements.
3. Work requires a Consultants' license and listed DBE does not have a valid license under Consultants License Law.
4. Listed DBE fails or refuses to perform the work or furnish the listed materials.
5. Listed DBE's work is unsatisfactory and not in compliance with the contract.
6. Listed DBE delays or disrupts the progress of the work.
7. Listed DBE becomes bankrupt or insolvent.

If a listed DBE Subconsultant is terminated, you must make good faith efforts to find another DBE Subconsultant to substitute for the original DBE. The substitute DBE must perform at least the same amount of work as the original DBE under the contract to the extent needed to meet the DBE goal.

The substitute DBE must be certified as a DBE at the time of request for substitution. The AUTHORITY does not pay for work or material unless it is performed or supplied by the listed DBE, unless the DBE is terminated in accordance with this section.

VIII. Additional DBE Subconsultants

In the event Consultant identifies additional DBE Subconsultants or suppliers not previously identified by Consultant for DBE participation under the contract, Consultant must notify the Authority by submitting "Request for Additional DBE Firm" to enable Consultant to capture all DBE participation. Consultant must also submit, for each DBE identified after contract execution, a written confirmation from the DBE acknowledging that it is participating in the contract for a specified value, including the corresponding scope of work (a subcontract agreement can serve in lieu of the written confirmation).

IX. DBE "Frauds" and "Fronts"

Only legitimate DBEs are eligible to participate as DBEs in the Authority's federally - assisted contracts. Proposers are cautioned against knowingly and willfully using "fronts." The use of "fronts" and "pass through" subcontracts to non-disadvantaged firms constitute criminal violations. Further, any indication of fraud, waste, abuse or mismanagement of Federal funds should be immediately reported to the Office of Inspector General, U.S. Department of Transportation at the toll-free hotline: (800) 424-9071; or to the following: 245 Murray Drive, Building 410, Washington, DC 20223; Telephone: (202) 406-570.

X. Consultant's Assurance Clause Regarding Non-Discrimination

In compliance with State and Federal anti-discrimination laws, the Consultant must affirm that they will not exclude or discriminate on the basis of race, color, national origin, or sex in consideration of contract award opportunities. Further, the Consultant must affirm that they will consider, and utilize Subconsultants and vendors, in a manner consistent with non-discrimination objectives.

XI. Prompt Payment Clause

Upon receipt of payment by Authority, Consultant agrees to promptly pay each Subconsultant for the satisfactory work performed under this Agreement, no later than seven (7) calendar days. Consultant agrees further to return retainage payments to each Subconsultant within thirty (30) calendar days after the Subconsultant's work is satisfactorily completed. Authority reserves the right to request the appropriate documentation from Consultant showing payment has been made to the Subconsultants. Any delay or postponement of payment from the above referenced time frames may occur only for good cause following written approval by Authority.

In accordance with 49 CFR part 26.29 "Prompt Payment Provisions" (DBE Final Rule) the Authority will elect to utilize the following method to comply with the prompt payment of retainage requirement:

Hold retainage from the Consultant and provide for prompt and regular incremental acceptances of portions of the Consultant, pay retainage to prime Consultants based on these acceptances, and require a contract clause obligating the Consultant to pay all retainage owed to the Subconsultants for satisfactory completion of the accepted work within thirty (30) days after payment to the Consultant.

Failure to comply with this provision or delay in payment without prior written approval from Authority will constitute noncompliance, which may result in appropriate administrative sanctions, including, but not limited to a withhold of two (2%) percent of the invoice amount due per month for every month that payment is not made.

These prompt payment provisions must be incorporated in all subcontract agreements issued by Consultant under this Agreement. Each subcontract must require the Subconsultant to make payments to sub-Subconsultants and suppliers in a similar manner.

XII. Administrative Remedies and Enforcement

Consultant must fully comply with the DBE contract requirements, including the Authority's DBE Program and Title 49 CFR, Part 26 "Participation of Disadvantaged Businesses in Department of Transportation Financial Assistance Programs" and ensure that all Subconsultants regardless of tier are also fully compliant. Consultant's failure to comply constitutes a material breach of contract, wherein the Authority will impose all available administrative sanctions including payment withholdings, necessary to effectuate full compliance. In instances of identified non-compliance, a Cure Notice will be issued to the Consultant identifying the DBE non-compliance matter(s) and specifying the required course of action for remedy.

The Consultant must be given ten (10) working days from the date of the Cure Notice to remedy or to (1) File a written appeal accompanied with supporting documentation and/or (2) Request a hearing with the Authority to reconsider the Authority's DBE determination. Failure to respond within the ten (10) working day period must constitute a waiver of the Consultant's right to appeal. If the Consultant files an appeal, the Authority, must issue a written determination and/or set a hearing date within ten (10) working days of receipt of the written appeal, as applicable. A final Determination will be issued within ten (10) working days after the hearing, as applicable.

If, after review of the Consultant's appeal, the Authority decides to uphold the decision to impose DBE administrative remedies on the Consultant, the written determination must state the specific remedy(s) to be imposed.

Failure to comply with the Cure Notice and/or to remedy the identified DBE non-compliance matter(s) is a material breach of contract and is subject to administrative remedies, including, withholding at minimum of two (2%) percent of the invoice amount due per month for every month that the identified non-compliance matter(s) is not remedied. Upon satisfactory compliance the Authority will release all withholdings.

In addition to administrative remedies defined in this section, the Authority is not precluded from invoking other contractual and/or legal remedies available under federal, state or local laws.

INTER-DEPARTMENT MEMORANDUM

To:	Scott C. Stiles	From:	William E. Murray
Dept.:	City Manager	Dept.:	Public Works
Subject:	Approval of a Cooperative Agreement with the Orange County Transportation Authority for the design phase of the Orange County Streetcar Project. (Action Item)		
		Date:	3/22/2016

OBJECTIVE

To request the City Council approve a Cooperative Agreement with the Orange County Transportation Authority (OCTA) for the design phase of the Orange County Streetcar Project (Streetcar Project).

BACKGROUND

In 2006 the cities of Garden Grove and Santa Ana partnered in a Go Local Project to study the feasibility of a transit system to extend the reach of the Metrolink. City Council adopted a resolution of support for the Streetcar Project on January 28, 2014 and also adopted a resolution approving the selection of Streetcar Alternative 1 as the Locally Preferred Alternative on February 10, 2015.

DISCUSSION

The proposed Streetcar Project would include an at-grade rail system from the Santa Ana Regional Transportation Center to the northeast corner of Harbor Boulevard and Westminster Avenue. The alignment would be approximately 4.1 miles traversing through the Santa Ana Civic Center area and going up the Pacific Electric Right of Way to reach the intersection of Harbor Boulevard and Westminster Avenue. This Cooperative Agreement applies to the design phase of the Streetcar Project. Staff will be involved in consultant selection for the preparation of the plans and specifications, periodic formal reviews of the design package, as well as other duties outlined in the agreement. All staff time shall be reimbursed by the OCTA in compliance with the Agreement and the attachment shown in Exhibit E of the Agreement. The design package is anticipated to be completed by October 2017. The design package is anticipated to cost \$16.43 million dollars. The construction cost is estimated at \$289 million dollars. The project is anticipated to be funded through

federal, state, and local grants. Construction is anticipated to begin in June 2018 and the streetcar will be in operation by December 2020.

FINANCIAL IMPACT

There is no impact to the General Fund. All city labor costs incurred for this project will be reimbursed monthly by OCTA, from execution of this agreement to the end of the project design phase.

RECOMMENDATION

It is recommended that the City Council:

- Approve the attached Cooperative Agreement No. C-5-3807 with the Orange County Transportation Authority for the Orange County Streetcar Project;
- Authorize the City Manager to sign the Cooperative Agreement on behalf of the City.
