NARRATIVE (2)**Narrative Title:** Fire**Narrative Author:** Garcia, Drew**Narrative Date:** 06/25/2019 20:55:13**Narrative Apparatus ID:** GE7**Narrative:**

GE7 responded to the reported address for an AFA waterflow. Upon arrival GE7 had a faint smell of smoke and could hear the waterflow alarm sounding. GE7 investigated the businesses and also laddered the roof due to possibility of smoke coming from the roof. GE7 noticed faint smoke coming from a skylight. Water was noted coming from unit 8C1 roll up door. GE7 balanced the incident to a structure fire response, requested GGPD, and established Capital IC. CE78 forced the business door and assumed Interior. 2 out was established with CE78 Engineer and GE7 Engineer. GT1 assumed Ventilation Group, GE3 assumed Exposure Group, and GE1 assumed RIC. The fire was extinguished by Interior. Exposure Group noted no extension to the surrounding business units. Interior noted unit 8C1 to be a confirmed marijuana grow operation. A primary and secondary search was complete. GB1 assumed Capital IC and requested HazMat, OC Health, Edison, and Garden Grove Building and Safety Department to respond.

HazMat made entry with GE1 as RIC and GE7 as Decon. HazMat determined that any potential hazards were contained and safe for re entry.

The fire was investigated and was determined to be caused by an electrical heat lamp. See GI1 and GI5's report for further detail.

Jane Tate was the representative from the Garden Grove Building and Safety Department who responded and red tagged the building. Officer Gerdin of GGPD is the contact for any possible police issues relating to the incident.

Due to the incident involving marijuana plants crews were possibly exposed to toxic smoke.

Lois Chisholm was a representative of the property management group who responded. All actions of the incident were explained to her and a property release form was signed.

The scene was left with GGPD and Garden Grove Building and Safety Department. GE7 Complete.
