Dearest Honorable Mr. Stiles:

The purpose email is to provide a CPRA California Public Records Act demand to the City of Garden Grove]. You have ten (10) days to respond to this demand. Your response must reference the subject matter of your Garden Grove City response if the response does not include immediate provision of requested materials. I will not accept as legally compliant a response that simply advises the Garden Grove City "cannot walk and chew gum at the same time" therefore triggering a self-excusal from the statutory ten-day response time unless the Garden Grove City ten-day delay and defer response specifically identifies what is CPRA matter will being stalled and delayed. Consider this direct email as legally compliant and effective delivery of a CPRA to your public agency.

**CPRA Demand**

Provide copies of all vendor invoices for the past two (2) years that include offer of trade terms discounting on the face of the invoice. You will provide copies of all pages both front and back of said invoices.

If Garden Grove City elects to charge for document production I will come into the office to review the documents in person, otherwise I would appreciate the kind consideration of an email with electronic attachments of responsive documents or simply a USPS first class mailing whichever is easiest for Garden Grove City.

**CPRA Rational**

California State Law requires the Garden Grove City Council members to exercise careful supervision of all financial matters on behalf of the taxpayers of the Garden Grove. This responsibility includes due diligence oversight of accounting operations for maximum benefit to the taxpayers of the OC. Every single penny counts in our education world of limited resources; the Garden Grove City Council must conserve all possible sources of income.

Sincerely,

John Briscoe
