GARDEN GROVE

January 2021

OVERVIEW AND PURPOSE OF COMPREHENSIVE STRATEGIC PLAN

The City of Garden Grove is strategically located in central Orange County, the 5th largest city with a population of approximately 171,644 according to the 2019 estimates by the U.S. Census Bureau.

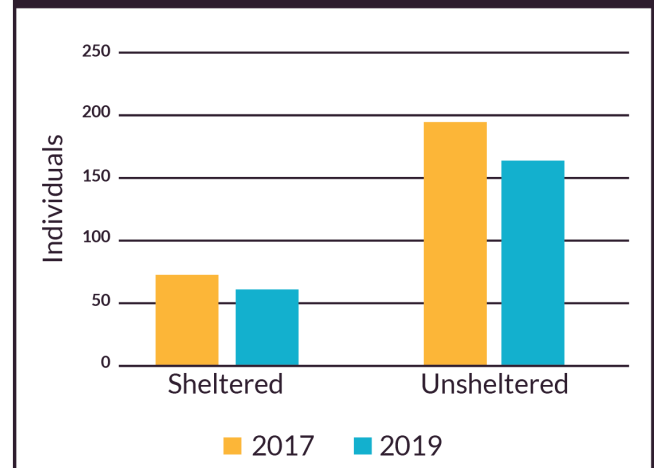

In 2016, an Assessment of Homeless Services in Orange County identified the need for regional coordination that resulted in the creation of Service Planning Areas (SPA's) for North, Central and South Orange County cities to engage in more regional outreach, and formalize protocols across the county for responding to homelessness solutions and coordination with cities. Garden Grove is identified within the **Central Service Planning Area (Central SPA)** among 9 cities (Costa Mesa, Fountain Valley, Huntington Beach, Newport Beach, Santa Ana, Seal Beach, Tustin, Westminster, portions of County unincorporated areas). The City actively coordinates with Central SPA jurisdictions and the County of Orange to address the needs of both its homeless residents and those at-risk of homelessness. Regional efforts to connect individuals experiencing homelessness and highlights of the homeless efforts undertaken within the Central SPA are incorporated into this document.

In January 2019, the latest **Point in Time (PIT) Count** identified that, on any given night in Garden Grove, an estimated 225 individuals experienced homelessness. The County of Orange revised the methodology for the 2019 PIT Count, which required outreach workers to complete mobile surveys for each homeless individual they encountered during the count. Each survey that was submitted had unique identifiers for the person being surveyed that allowed the County to eliminate duplication during the count and arrive at a more accurate figure. While this snapshot provides a single moment in time of homelessness in Garden Grove, the City continued to expand street outreach resources and programs with the Garden Grove Police Department (Special Resources Team), leveraged County, State and Federal resources to deliver homeless prevention programs in partnership with local service providers, and regional cooperation. In May 2019, a City Council Study Session was conducted to highlight the City's **Comprehensive Approach to Address Homelessness**, an overview of homeless activities and resources deployed to address the increasing homelessness challenges.

In FY 2018-19, Garden Grove first responders answered 7,426 calls for services related to homelessness, for which the fiscal impact totaled approximately \$825,000. While the City currently contracts with local service providers to connect homeless individuals and families to needed resources, the lack of permanent housing continues to be a barrier to combatting homelessness.

Garden Grove PIT Count (2017 and 2019 Data)

In January 2019, the latest Point in Time (PIT) Count identified that on any given night in Garden Grove, an estimated 225 individuals experience homelessness.

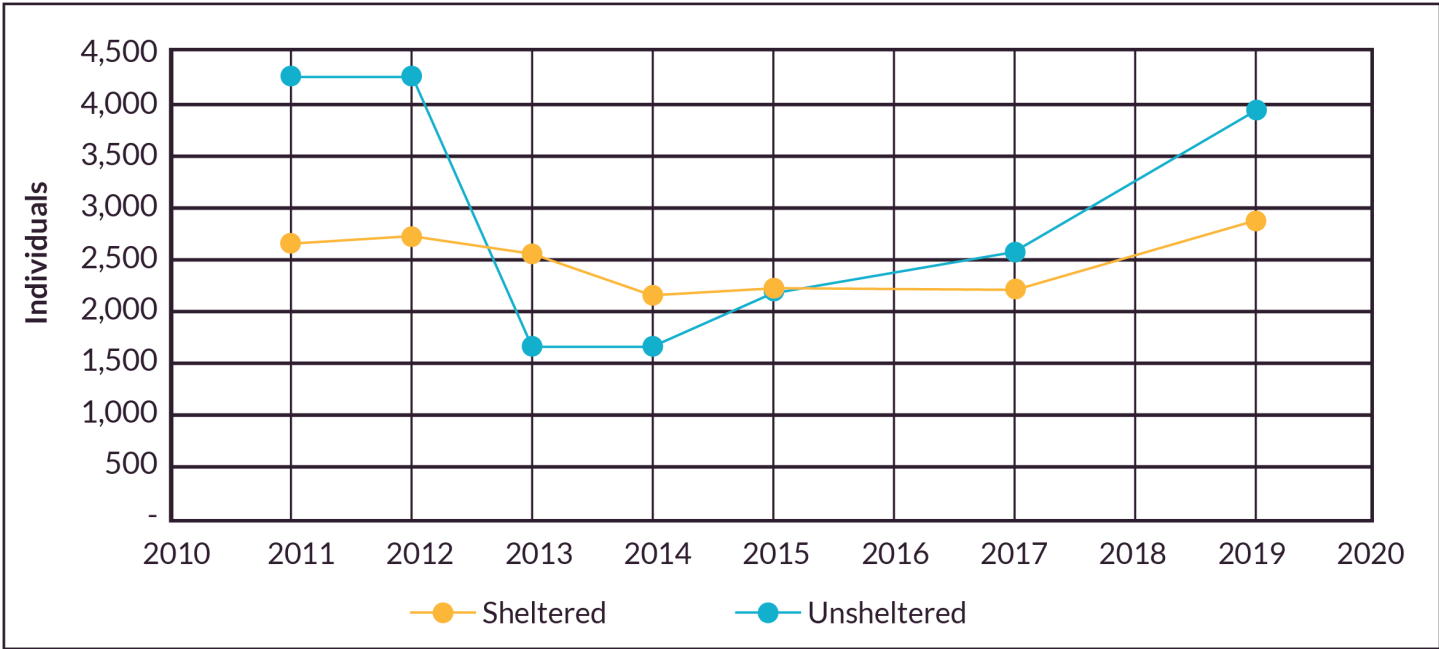

Date	Sheltered	Unsheltered	Total
2017	74	194	268
2019	62	163	225

In addition to the PIT Count data and regional demographics, it is beneficial to examine city-level data from the regional **Coordinated Entry System (CES)**. The CES provides an enhanced perspective of those experiencing homelessness and their respective challenges and needs by analyzing responses to the **Vulnerability Index-Service Prioritization Decision Assistance Tool (VI-SPDAT)** survey. The VI-SPDAT helps to identify related social and medical factors that generally contribute to homelessness and assists in prioritizing individuals for limited housing and service resources. The collected data is analyzed to produce an acuity score, which serves as a reference for the administrator in charge of local resources. The VI-SPDAT survey can also help to identify appropriate housing interventions for households experiencing homelessness. It is suggested that those experiencing homelessness who fall into the low-acuity scoring range of the assessment (0-3) should be able to find housing on their own; individuals in the mid-acuity scoring range (4-11) typically require time-limited housing assistance and case manager are best served by Rapid Re-housing programs; and high-acuity individuals (12+) generally need supportive housing and more in-depth support services.

The **Homeless Management Information System (HMIS)** technology is a web-based information system used to collect data related to homelessness. Orange County agencies that serve the homeless and at-risk communities obtain information from their clients, which is then entered into the system. HMIS has the capacity to collect and maintain unduplicated statistics on a regional level to provide a more accurate picture of our region’s homeless and at-risk population. Additionally, HMIS provides granular data to better understand client needs, help agencies plan appropriate resources for the clients they serve, inform public policy in their respective approaches to end homelessness, as well as to coordinate services and intake procedures to streamline the entire process.

This **Comprehensive Strategic Plan to Address Homelessness (GG-CSPAH or CSPAH)** incorporates the ongoing efforts identified in the 2019 Comprehensive Approach to Address Homelessness while expanding framework of goals and strategic actions along with regional coordination to achieve the following priorities presented to the City Council in 2019:

1. **STABILIZE:** Explore partnerships to establish a local Crisis Stabilization Unit
2. **NAVIGATE:** Evaluate alternatives and feasibility of a local Navigation Center
3. **SUPPORT:** Encourage development of Permanent Supportive Housing
4. **ASSIST:** Create a Tenant Based Rental Assistance Program

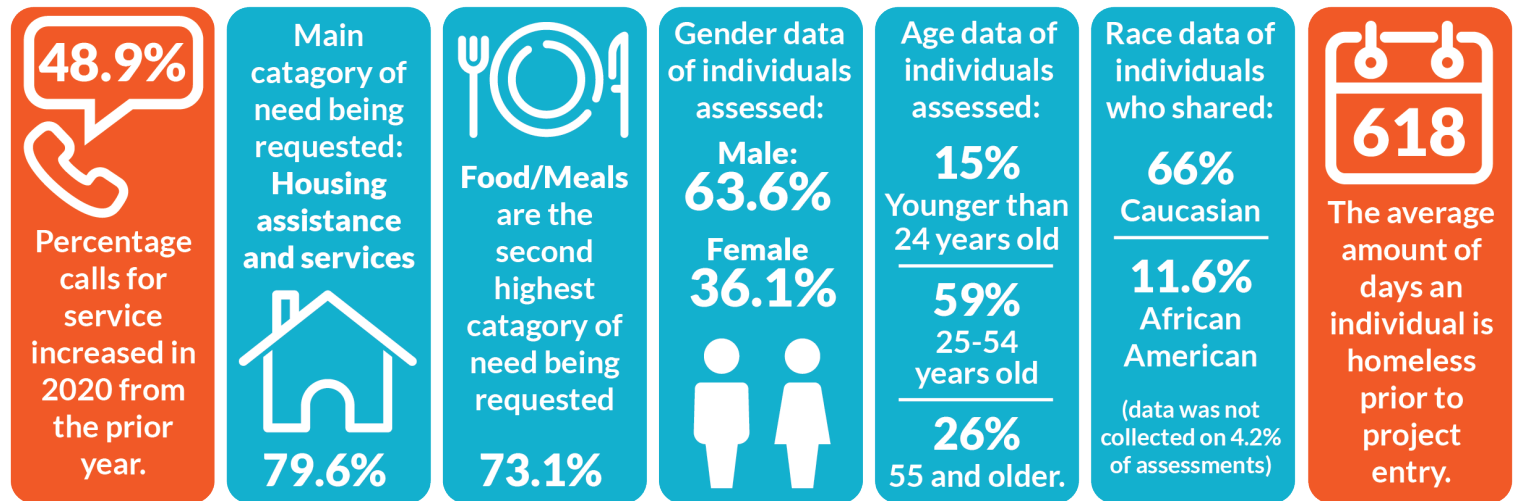

Garden Grove's leadership is committed to furthering efforts to reduce instances of homelessness. The GG-CSPAH will enable the City to be strategic in identifying ways to connect the homeless to resources and programs, as well as to maintain strong connections with the Central SPA and other regional partners. Additionally, the CSPAH provides a framework to help Garden Grove be more proactive, contribute to the regional efforts regarding ending homelessness, and to develop a framework for funding decisions related to homelessness. While the GG-CSPAH identifies goals and strategic actions aimed at addressing homelessness over the next five (5) years, it is designed to be flexible and adaptable to community needs as priorities, opportunities and/or available resources may change.

GARDEN GROVE HOMELESS DATA

For the purposes of this GG-CSPA, all data of individuals assisted are protected and remain confidential. The date range of the data provided below resulted from the First Quarter of FY 2020-21 (April 1, 2020 through September 30, 2020) as collected through the CES for Garden Grove.

A substantial number of households throughout the City are believed to be “housing insecure” and are bearing a large cost burden for housing, which is defined as paying more than 30% of total household income toward housing expenses. Instances of housing instability and homelessness have been on the rise since the onset of COVID-19 in March 2020. The uncertainty of the economy, increase in unemployment, and the ongoing public health crisis have resulted in a strain on rental assistance (aka Homelessness Prevention) resources.

Housing affordability continues to be a major issue in the County of Orange with the average cost of a 2-bedroom apartment hitting \$2,216 per month with only 207 units of affordable housing approved for construction in FY 2019-20.

In April 2020, the City was awarded supplemental funding via the Coronavirus, Aid, Relief, and Economic Security (CARES) Act to, among other things, prevent housing instability and homelessness through the following resources: Community Development Block Grants (CDBG), Emergency Solution Grants (ESG), and Coronavirus Relief Fund (CRF). Details of CARES Act funds allocated via the CDBG-CV1, CBDG- CV2, ESG-CV1 and ESG-CV2 funds are further described in the next section of the GG-CSPA.

EXISTING EFFORTS TO ADDRESS HOMELESSNESS

The City of Garden Grove is committed to assisting its residents, both homeless and housed, to obtain and maintain safe, decent, and affordable housing within their communities. Garden Grove currently funds a number of activities and programs related to homelessness. The information below illustrates the annual City funding allocation dedicated to supporting individuals and families experiencing homelessness, and those facing housing instability.

REGIONAL COORDINATION (CENTRAL SERVICE PLANNING AREA)

Since 1998 the County of Orange has coordinated a comprehensive regional **Continuum of Care (CoC)** strategy that includes the participation of all thirty-four cities in Orange County, County Agencies, the County’s homeless service providers, and other community groups (including non-profits, local governmental agencies, faith-based organizations, the homeless and formerly homeless, interested business leaders, schools, and many other stakeholders) to identify the gaps and unmet needs of the County’s homeless. Additional information about the CoC is available on the HUD website at <https://www.hudexchange.info/programs/coc/> or via the OC Health Care Agency website at https://www.ochealthinfo.com/homeless_serv/coc/2021.

The **Office of Care Coordination**, led by Director of Care Coordination Jason Austin, engages across Orange County, working with cities and community-based organizations to strengthen regional capacity and multi-city, multi-sector investments to prevent and address homelessness, coordinate public and private resources to meet the needs of the homeless population in Orange County and promote integration of services throughout the community that improve the countywide response to homelessness. <https://www.ochealthinfo.com/occ>

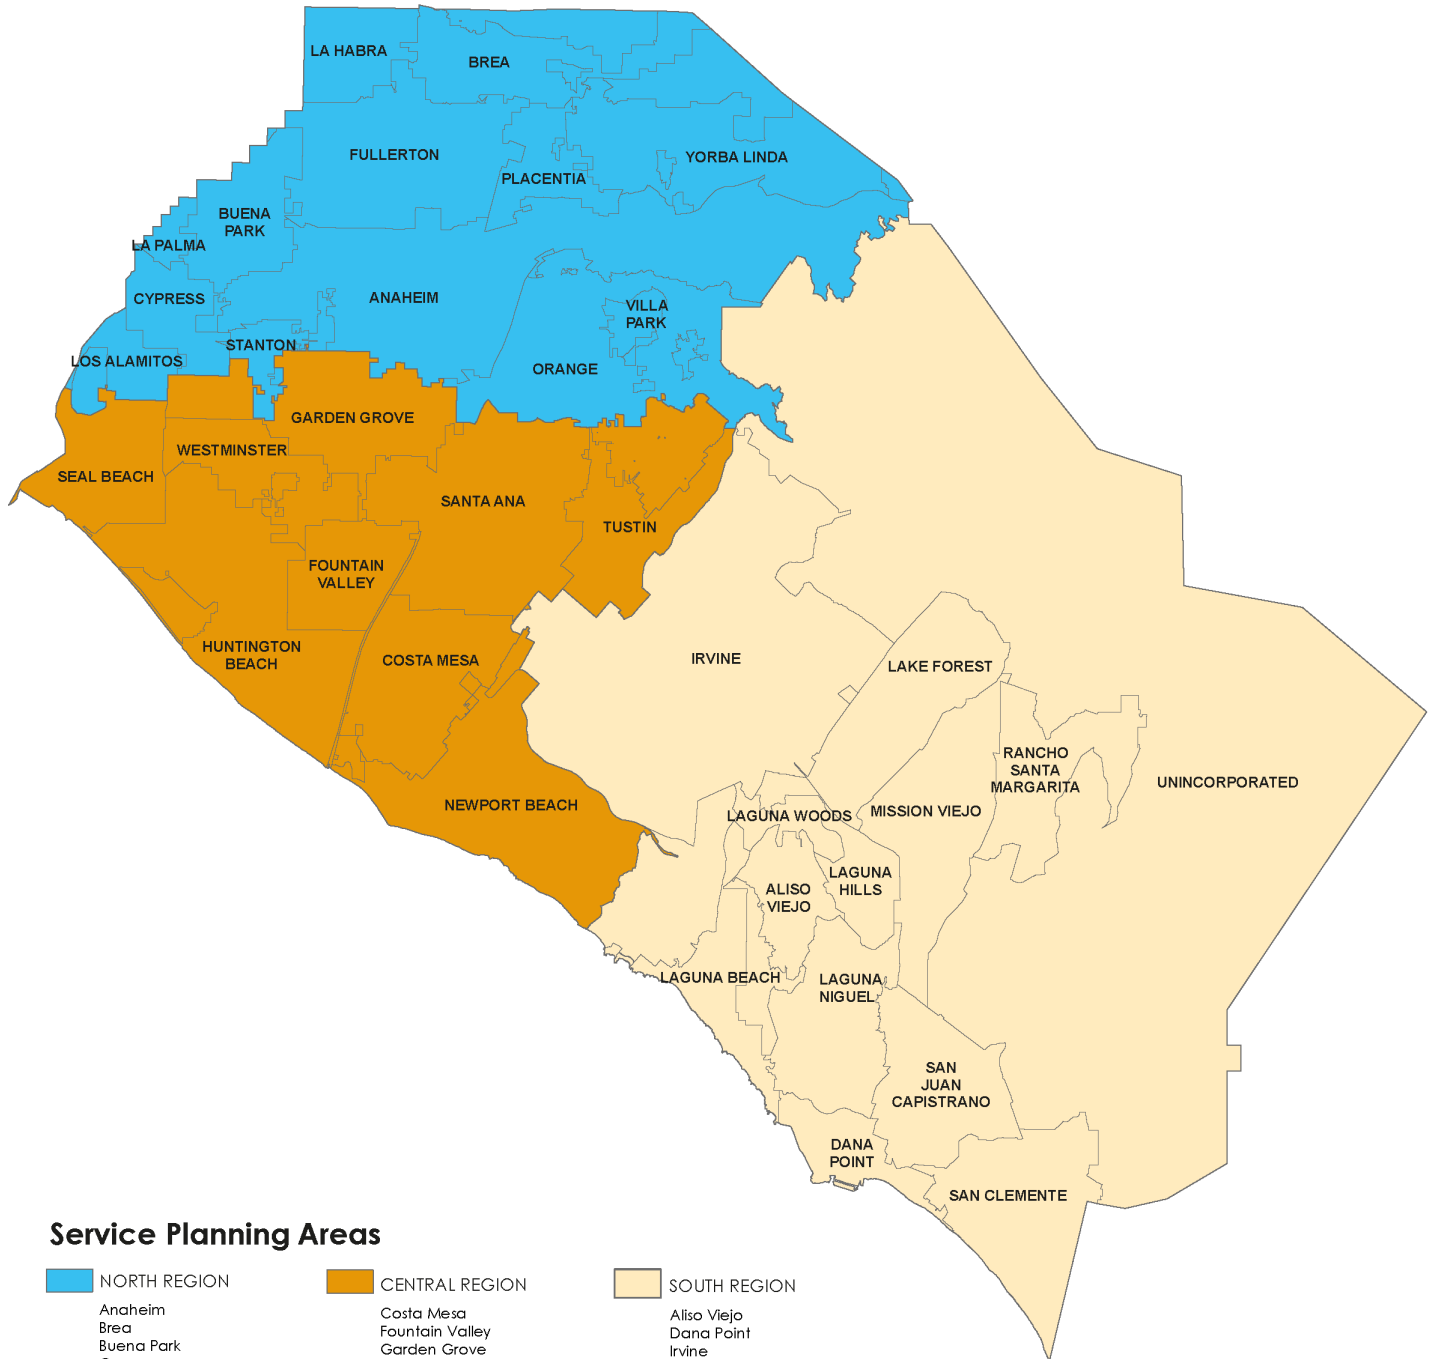

The **Commission to End Homelessness** works in collaboration with the County of Orange, 34 cities, business sector, philanthropic organizations, community organizations, faith-based organizations, health care, public safety and other interested stakeholders to promote an effective response to homelessness within Orange County. The Director of Care Coordination works with commission members to focus on regional policy and implementation strategies, affordable housing development, data and gaps analysis, best practice research, social policy, and systemic change. The City of Garden Grove holds a seat on the Commission to End Homelessness as the city representative for the Central SPA region. <https://www.ochealthinfo.com/occ/commendhom>

Garden Grove is identified within the **Central Service Planning Area (Central SPA)** among 9 cities (Costa Mesa, Fountain Valley, Huntington Beach, Newport Beach, Santa Ana, Seal Beach, Tustin, Westminster, portions of County unincorporated areas). The City actively coordinates with Central SPA jurisdictions, including the County of Orange, and continues to address the needs of both its homeless residents and those at-risk of homelessness.

COMPREHENSIVE STRATEGIC PLAN TO ADDRESS HOMELESSNESS

The City of Garden Grove's Comprehensive Strategic Plan to Address Homelessness (GG-CSPAH) serves as a five-year roadmap, identifying priority goals and strategic actions the City plans to take in its fight against homelessness. The GG-CSPAH incorporates information presented to the City Council during a Study Session in May 2019, at which City Staff presented the "Comprehensive Approach to Address Homelessness". This document was designed to communicate existing homelessness efforts and programs, as well as to advance future community engagement to assist in refining this comprehensive plan.

The goals and strategic actions included in this plan are specifically designed to enhance public engagement and accountability, to improve housing and services options, and to develop a comprehensive continuum of care for the homeless and at-risk populations during these challenges times of COVID-19 and beyond. Integrating the framework of the Garden Grove Coalition to End Homelessness, the GG-CSPAH ensures City-wide accountability by identifying priority goals, and then morphing them into measurable action items. This process elicits ownership of said goals and actions, results in greater leveraging of City resources, and necessitates strict adherence to adopted timelines.

Annual updates of the GG-CSPAH will be presented to the Neighborhood Improvement and Conservation Commission (NICC) and City Council concurrently with City's Consolidated Annual Performance and Evaluation Report (CAPER), which typically takes place in September.

- 1 **Employ HUD's best practices for collection of demographic information in the Homelessness Management Information System (HMIS)**
- 2 **Understand and refine governance structure to promote greater collaboration between law enforcement, service, housing and behavioral health providers**
- 3 **Develop creative and innovative housing options**
- 4 **Improve service and options to people experiencing homelessness**
- 5 **Be accountable**

CURRENT STRUCTURE AND ROLES OF KEY PARTNERS

The City acknowledges the fact that ending homelessness can only be accomplished through a concerted effort by all stakeholders (i.e. residents, government, businesses, faith-based organizations, service providers, and philanthropists). While City-partners have distinct responsibilities that allow them to carry out their respective functions as needed, the Garden Grove Coalition to End Homelessness was created to minimize fragmentation and to ensure all parties are working toward a cohesive strategy to end homelessness. Additionally, the City's Neighborhood Improvement Committee (NIC) acts as an informal cross-agency structure for City-specific collaboration and governance, which serves as an interdepartmental workgroup dedicated toward targeted neighborhood clean-up efforts.

GOALS AND STRATEGIC ACTION(S)

The global impact of COVID-19 has compelled the City to undergo a comprehensive review of existing homelessness programs and activities, along with an analysis of the City's current system and structure. The GG-CSPAH was developed to create a framework to guide prioritization of homeless activities with the greatest potential impact, while strategically balancing short and long-term solutions. While solutions such as the development of affordable and supportive housing will take time to bring to fruition, there are many other actions that can be implemented immediately.

For FY 2021-22 and beyond, it is the City's intent to utilize Federal and State funding to bolster existing efforts, as well as to implement innovative, forward-thinking solutions to ending homelessness. The GG-CSPAH serves as a roadmap to gather community input during the data collection process, to initiate stakeholder discussions and provide a platform for information-sharing through the Garden Grove Coalition to End Homelessness, and to work collectively towards a governance structure that supports continuation of cross-agency collaboration and a system-wide approach to accountability. The five (5) goals and associated strategic actions identified are:

GOAL
