Woodbury Park Revitalization and Expansion Project

Grand Reopening Summer

In December 2021, the City was awarded a \$6,000,000 grant from the California Department of Parks and Recreation. Woodbury Park was the park selected for the competitive grant opportunity due to the park acreage per one thousand residents being under half an acre, and the surrounding neighborhood having the lowest median household income compared to other city parks.

The project is a complete remodel of the existing 3.3-acre Park and expansion to the south east corner of the park, absorbing half an acre of Woodbury Elementary School. These improvements were designed with the help from residents through various community meetings during the grant application process.

The new 3.8-acre will include the installation of a new walking trail, outdoor fitness equipment, recreational swimming pool, two playground areas, picnic shelters, a skate spot, basketball courts, lighting, restrooms, and a parking lot.

The project broke ground in July 2025. Construction is currently underway and scheduled to be completed by June 2026.
