## Community Update

# CRIME TREND:

## DISTRACTION BURGLARY

Local law enforcement agencies have seen an increase in individuals fraudulently claiming to be a utility company employee. They would then request to test the utility quality inside residences. Unsuspecting victims allow strangers into their homes and thus give thieves an opportunity to access the victim's valuables.

Utility employees or authorized contractors who need access into your home typically schedule an appointment in advance. Legitimate employees always carry proper identification, wear a uniform, and arrive in marked company vehicles.

### Follow these safety tips:

- Do not allow these individuals into your home without an appointment and/or proper identification.
- Contact the utility company to confirm their visit.
- Do not provide them with a copy of your utility bill or personal information.
- Do not leave your home unattended to accompany an individual who shows up without an appointment.
- Call the police immediately when you see suspicious people in your neighborhood.

# COOKING FIRE SAFETY

SAFETY CORNER

During the holiday season, families will be gathering and sharing meals more often. According to the Orange County Fire Authority, cooking is the leading cause of home fires, fire related injuries, and fire deaths in Orange County.

### Remember to practice the following safety tips:

- Keep an eye on the stove, oven, or grill. If you must leave the area, turn off the heat.
- Avoid leaving oven mitts, paper towels, plastic bags, or anything that can catch on fire near the stove, oven, or other kitchen appliances.
- Establish a “kid-free zone” at least 3 ft. from the stove, oven, or grill.
- Avoid cooking when tired or under the influence of alcohol.
- Never pour water over a grease fire; instead, cover the pan with a lid and turn off the stove.
- If a fire occurs in the oven or microwave, keep the door closed and turn off the appliance.
- If a cooking fire spreads, quickly evacuate and call 9-1-1.
