Members of the City of Garden Grove City Council,

I am writing to voice my support of the Council joining the amicus brief supporting Sheriff Don Barnes' challenge to an order requiring the release of approximately 1,800 inmates from Orange County jails.

Homelessness and crime in our community and the surrounding communities is increasing and the release of more inmates from County jails will only exacerbate this troubling situation.

Please join this amicus brief.

Respectfully,

David Szucs

To the Garden Grove City council.

As a long time resident of Garden Grove I was very appreciative of Sheriff Barnes rejection of the court order to prematurely release convicted inmates back into society.

He has showed due diligence in tracking the recidivism rates of previously released inmates.

We are in support of the Garden Grove city councils efforts to join Sheriff Barnes efforts to block this crazy judges decision.

Dear Members of the Garden Grove City Council,

Thank you for calling this very important meeting. As a Garden Grove community member, college educator on child development and family studies, and a mother, I am opposed to the release of inmates from the OC jails, including those convicted of pedophilia and child abuse. I am appalled and fearful. This is not only a terrible situation for Garden Grove, but for victims. In regards to perpetrators who were incarcerated for child abuse, domestic violence, pedophilia, etc., where does the state think these individuals are going to live? Most likely back with their victims. In homes where, now, school is conducted virtually. Victims will be stuck in their homes with their violators. This places a very fragile portion of our population at immense risk. We fear for own property and safety, but we also need to shed light on the fear that victims are feeling right now.

Thank you for your time and effort to hear these concerns,

Best Regards,

Arlene Nelson, Garden Grove Resident

Just putting my two cents in.

DON'T RELEASE INMATES!!!

Especially if they are violent criminals. They did the crime they need to do the time.

What else?

Why are officials that run this State/County so eager to fine law abiding citizens for not wearing masks or gathering with too many people but want to let out criminals so they can commit more crimes?

IT'S LUDICROUS!!!!

PLEASE PLEASE DO NOT RELEASE the incarcerated prisoners. Not only will the public have to deal with them but, also those who see there are no consequences to criminal activity.
