

# Garden Grove General Plan

## 2021-2029 Housing Element

Adopted November 9, 2021

This page left intentionally blank.

# CHAPTER 12

## HOUSING ELEMENT

### 12.1 INTRODUCTION

#### 12.1.1 PURPOSE

The 2021-2029 Housing Element establishes a coordinated and comprehensive strategy for the City of Garden Grove for promoting the production of safe, decent, and affordable housing.

The Housing Element is a mandatory General Plan element. It identifies ways in which the housing needs of existing and future residents can be met. State law requires all cities to adopt a Housing Element and describes in detail the necessary contents. California planning law provides more detailed requirements for the Housing Element than for any other General Plan element. This Housing Element responds to those requirements and responds specifically to conditions and policy directives unique to Garden Grove.

While Garden Grove is a completely built-out city, City leaders continue to embrace a vision to pursue opportunities that support new and diverse housing options. City leaders have identified opportunities and creative solutions to support housing development in the community, including increasing residential densities along mixed-use and commercial corridors and creating a transit-oriented development hub around the OC Streetcar terminus station at Harbor Boulevard and Westminster Avenue. This element focuses on encouraging infill development—both stand-alone residential and mixed-use development—within “high resource” areas citywide, meaning areas with transit access, proximity to parks and schools, and many opportunities for shopping and enjoying civic life.

*Brookhurst Place, opened in 2018 near the Brookhurst Street and Garden Grove Boulevard intersection, offers 180 apartments and numerous amenities.*

The City’s overarching goal is to provide new housing in a tight regional housing market, where people can live closer to their work and near transit stations that connect residents to broader job markets. Garden Grove aims to accommodate new housing opportunities consistent with regional housing target goals while ensuring new housing units provide affordability opportunities, and that services and programs respond to the particular housing challenges of special needs groups: unhoused individuals, disabled persons, large families, and seniors. New housing will allow young adults and young families to stay in the community in which they grew up, where close family bonds and neighborhood connections distinguish Garden Grove. Long-time residents whose children are now adults will be able to downsize to new, higher-density housing, and remain within community they are culturally familiar with and call home.

## STATE HOUSING POLICY

On October 2019, the Department of Housing and Community Development identified for the Southern California Association of Governments (SCAG) a regional housing need determination of 1,344,740 total units for the six-County SCAG region—distributed among four income categories—for the sixth Housing Element cycle. The Final Allocation Plan was adopted by SCAG’s Regional Council on March 4, 2021, and approved by the Department of Housing and Community Development on March 22, 2021. **Figure 12-1** identifies Garden Grove’s Regional Housing Needs Assessment (RHNA) for the sixth cycle. The City is required to accommodate this RHNA allocation through land use policy and zoning regulatory standards.

## COMMUNITY CONTEXT

Garden Grove, a general law city under California law, spans an area of 17.9 square miles. It has a Council-Manager form of government with an elected at-large Mayor for a two-year term, with six City Council members elected by districts for staggered four-year terms. Garden Grove is Orange County's fifth most populous city and is ranked 31<sup>st</sup> most populous among all California cities. It borders Orange County's largest cities: Anaheim, Santa Ana, Westminster, and Huntington Beach.

Garden Grove is a full-service city, with its own police, street and park maintenance, water, sewer, recreation, traffic/transportation, public improvements, planning, zoning, and general administrative services divisions. Fire services are under contract with the Orange County Fire Authority. The City's overall operations include governance of the Garden Grove Housing Authority, the Garden Grove Sanitary District, Garden Grove Successor Agency to the Garden Grove Agency for Community Development, Garden Grove Industrial Development Authority, and the Garden Grove Public Financing Authority. The City Manager appoints the Director of Community & Economic Development to lead the City's State-funded and federally funded housing programs (e.g. Home Repair Program, First-Time Homebuyer, Fair Housing Services, Rapid Rehousing, Homelessness Prevention, and Tenant-Based Rental Assistance) utilizing both formula and competitive grant funding (e.g. Community Development Block Grant (CDBG), HOME Investment Partnership Program (HOME), Emergency Solutions Grant (ESG), SB2 Planning Grant Program (PGP), Permanent Local Housing Allocation (PLHA) Grant, Local Early Action Planning (LEAP) Grant, Regional Early Action Planning (REAP) Grant), as well as the development of short- and long-term housing policies, enforcement of building regulations, management of housing assets and funds, and administration of the Housing Element.

The fifth Housing Element cycle (2014-2021) was the first cycle without the financial resources available from redevelopment agencies to fund and finance affordable housing. Housing production throughout the State has not recovered from the levels seen just prior to the Great Recession (2007-2009). Data provided by the Construction Industry Research Board show that in 2005, 208,972 units were constructed in California compared to just 117,892 units in 2018. When it comes to the number of housing units per capita, California ranks 49<sup>th</sup> among all states. The average hard costs to build a unit in California is \$480,000, a 17 percent increase since 2008. As of March 2021, the California Association of Realtors reported the median home price in Orange County at just below the one-million mark: at \$997,000 in the County and \$775,000 in Garden Grove. The number of active listings in just one year (March 2020-2021) fell by 45.6% in Orange County and 32.1% in Garden Grove during the period of the COVID-19 pandemic.

Since 2017, amendments to the State Housing Accountability Act and accessory dwelling unit (ADU) laws, as well as California Building Code changes, have significantly improved the regulatory environment for denser and more diverse housing. The City of Garden Grove surpassed its RHNA of 747 units for the fifth cycle by permitting 926 units at all income levels as of 2020. For this sixth RHNA cycle, the City faces a much greater challenge: **a RHNA of 19,168 housing units, representing nearly 40 percent of the number of existing housing units in Garden Grove of 48,504.**

---

---

Despite the almost complete lack of vacant land in Garden Grove, interest in local development remains high. At the start of the 2021-2029 Housing Element planning period, 957 units at all income levels were in the development pipeline.

### **12.1.2 SCOPE AND CONTENT OF THE HOUSING ELEMENT**

This Housing Element covers the planning period of June 30, 2021 through October 15, 2029 and identifies strategies and programs to: 1) encourage the development of a variety of housing opportunities; 2) provide housing opportunities for persons of lower and moderate incomes; 3) preserve the quality of existing housing stock in Garden Grove; 4) minimize governmental constraints; and 5) promote equal housing opportunities for all residents.

Toward these ends, the Housing Element consists of:

1. A statement of scope and purpose, summary of community participation, and description of the means by which consistency with the General Plan will be achieved and maintained
2. A schedule of action and programs to develop and maintain adequate sites, remove identified constraints to the construction and preservation of housing, and identify financial and technical assistance to improve existing and new housing and promote ADUs
3. An analysis of the City's demographic and housing characteristics and housing needs of specific populations
4. An assessment of fair housing issues, including an analysis of integration and segregation patterns and trends
5. An analysis of actual and potential market, governmental, and environmental constraints to meeting the RHNA
6. An evaluation of land, administrative, and financial resources available to meet RHNA
7. A review of past accomplishments under the previous Housing Element

### **12.1.3 RELATION TO OTHER GENERAL PLAN ELEMENTS**

Adoption of the Housing Element triggers an assessment of its contents against other General Plan topics. The City does not include a sphere of influence under the County of Orange's jurisdictions (Government Code § 65302.10), nor is it located within fire hazard areas (Government Code 65302 and 65302.5). The Garden Grove General Plan was last updated in 2008. A General Plan Annual Report is provided annually, and its content includes the Annual Progress Report required by the State of California Department of Housing and Community Development (HCD).

The City's Community and Economic Development Department has prepared this Housing Element, which was prepared in parallel with the first Environmental Justice Element, an update to the Safety Element to satisfy Government Code § 65583 (c)(8), and focused Land Use Element

---

---

updates to accommodate the RHNA. In tandem with these updates, the City undertook amendments to Title 9 of the Municipal Code (City of Garden Grove Land Use Code) and the zoning map to ensure General Plan/zoning consistency and to address identified barriers to housing development. By statute, the Housing Element must strongly correlate to the topics and contents of the Land Use Element and Environmental Justice Element and address safety concerns covered in the Safety Element. Decisions on where to place housing and at what densities are based on factors such as access to transportation systems, proximity to noise sources (primarily traffic and airport-related, industrial and commercial zones, and access and proximity to open space).

The Environmental Justice Element works with the Housing Element to promote the development of safe and decent housing within disadvantaged communities through home improvement programs focused on mitigating outdoor and indoor air pollution, and land use policies that distribute housing throughout the community, particularly in high resource areas, while bringing additional resources to traditionally under-resourced neighborhoods. The Safety Element includes updated information regarding climate change impacts and programs to minimize adverse climate change effects on all residents.

Community outreach has been coordinated to actively engage underrepresented residents in identifying the needs of vulnerable populations, low-income areas, and disadvantaged communities, and helping define equitable land use, transportation, and housing strategies to lessen high pollution burdens and climate hazard. The Housing Element supports amendments to codes and regulations to facilitate construction of safe and decent housing, and to expand opportunities for external funding of housing and associated improvements in often-overlooked communities and for populations with specific housing needs.

## 12.1.4 PUBLIC PARTICIPATION

Government Code 65583(c)(7) requires: "The local government shall make a diligent effort to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort." Under State law, local governments must be diligent in soliciting participation by all segments of the community in this effort. A Public Engagement Plan was developed for the targeted General Plan update. The City's project team identified key audiences and engagement methods to encourage participation from a broad cross-section of the Garden Grove community representative of the City's diverse cultural groups, income levels, ages, interests, etc. **Appendix A (Engagement Materials)** includes contents and materials, including summaries, that formed the whole of the public participation process from which the Housing Element programs were developed.

### ENGAGEMENT TOOLS AND METHODS

Due to the local and statewide COVID-19 emergency orders that prohibited in-person meetings and the State's authorization of public meetings to be held online, during the time of Housing Element preparation, the public largely participated in online workshops, surveys, and public meetings. A dedicated online Housing Element portal (<https://ggcity.org/housing-element>) contained surveys, news, background information, and links to the City's housing programs and to HCD. Community workshops, stakeholder interviews, focus groups, and other meetings with the public were facilitated using videoconferencing software on computers and smart phones. The community housing surveys were made available online and included a mapping exercise for the survey takers to provide more geographic precision to their responses. Prominently placed on the online portal were the surveys and Housing 101 video that was available in English, Vietnamese, Spanish, and Korean. Multilingual surveys were also printed and distributed to residents of large multifamily housing complexes, and at the City's resource centers. Surveys, workshops, and important dates were advertised in the City's social media platforms with thousands of followers: Facebook, Twitter, Instagram, YouTube, and Next Door. Downloadable presentations and summaries of public comments from workshops and surveys were made available in the agendas published for study sessions and public hearings.

The screenshot shows a virtual community forum interface. At the top left, it says "Environmental Justice Community Forum". The main content is a grid of six numbered strategies for expanding affordable housing and services:

- 1 Increase Affordable Housing Supply**: Require affordable housing units as a percentage of new large residential projects.
- 2 Accessory Dwelling Units**: Actively encourage the development of accessory dwelling units.
- 3 Housing Assistance**: Housing assistance programs for first-time homeowners.
- 4 Homeless Services**: Provide more services for homeless population and those at-risk of becoming homeless.
- 5 Supportive Housing Services**: Supportive services to help people with chronic physical and mental health issues maintain stable housing and receive health care.
- 6 Equal Access to Housing**: Address housing discrimination issues.

To the right of the grid is a large house icon and the text: "Expanding Affordable Housing and Services". Below this is the instruction: "Choose your top strategy for expanding housing and services." At the bottom right, there is a logo for "Community STARTS HERE WITH HOUSING" and social media icons for YouTube and Facebook. The bottom left corner of the forum window shows "CITY OF GARDEN GROVE 43".

Online Virtual Community Forums

## STAKEHOLDER INTERVIEWS AND FOCUS GROUPS MEETINGS

Stakeholder interviews and focus group meetings were held over two days in early September 2020. **Table 12-1** identifies the organizations that attended each of the focus groups by category. Participants engaged in one-on-one interviews or focus group interviews (of three to 10 persons) that lasted 30 minutes to one hour. The list of those invited to attend, the questions presented, and summaries of the responses are provided in **Appendix A (Engagement Materials)**.

---

## COMMUNITY SURVEYS

The City launched three surveys to gather public ideas on how to address the most challenging housing question: where to locate 19,168 new housing units. The first survey—Housing/Environmental Justice Community Survey—was a text survey available during September 2020 in four languages: English, Vietnamese, Spanish, and Korean. Respondents input basic demographic data and preferences regarding the location and type of new housing. City staff distributed printed surveys to residents at multiple apartment complexes, and at the City’s three (3) resource centers: H. Louis Lake Senior Center, the Buena Clinton Youth and Family Center, and Magnolia Park Family Resource Center. City staff, including those who speak different languages, assisted with survey completion. Appendix A includes a summary of the first survey. A total of 622 people who live and/or work in Garden Grove participated. Renters comprised 49 percent of the respondents, and 40 percent were owners. Residents of single-family homes represented 49 percent versus 38 percent for apartment and condominiums residents. Participants who had an annual income of under \$24,999 represented 30 percent of survey respondents. Participants who had an annual income between \$25,000 and \$49,999 represented 24 percent. Over 50 percent of survey participants had an annual income of less than \$50,000, representing lower-income households in Garden Grove. Additionally, 41 percent of the participants had an annual income over \$50,000, while six percent of the respondents preferred not to answer the annual household income question.

Appendix A, Table A-1 (Community Survey Outreach Efforts) identifies the efforts to reach all economic segments of the community, including those with specific housing needs. Between September 8, 2020, and September 29, 2020, City staff distributed in person over 1,200 printed surveys at the following three community resource centers: 1) H. Louis Lake Senior Center targeting seniors; 2) Magnolia Park Family Resource Centers targeting families, parent groups, and those that speak Spanish and Vietnamese; and 3) the Buena Clinton Youth and Family Center targeting lower-income families and residents who speak English, Spanish, Vietnamese, and Korean (see Appendix A, Table A-3 (Fact Sheet Flyer Distribution)).

Surveys were also physically distributed by City staff to 11 apartment complexes throughout Garden Grove, including eight apartment complexes within a disadvantaged community, as designated by CalEnviroScreen 3.0 data, and three affordable housing apartment complexes. Surveys distributed to tenants included a cover letter in English, Spanish, Vietnamese, and Korean; a printed copy of the survey; and a fact sheet with information on the Housing Element, Environmental Justice Element, Safety Element, and Land Use Element update with a schedule of the 2020 survey and meeting dates.

The Housing Sites/Land Use Mapping Survey (second survey) was made available beginning November 2020. Respondents interacted with a map of Garden Grove and responded to several density scenarios and potential land use changes proposed to accommodate the RHNA in different City sectors. The survey had 310 responses. Participants generally had positive responses to all scenarios, with more supporting high-density uses (up to 70 units/acre) in a few urbanized districts, and lower support for medium-density (21 to 40 units/acre) located closer to lower-density residential neighborhoods.

---

---

Table A-2 in Appendix A identifies survey promotion for the second survey. The second survey could be filled out online as a mapping survey, including using mobile devices. The flyers that were distributed identified access to the survey. To assist those who do not have internet access, City staff was able distribute 1,185 printed versions to eight apartment complexes. City staff also emailed 21 apartment managers located in disadvantaged communities and affordable housing projects to post flyers in apartment common area.

Table A-2 in Appendix A notes that over 4,000 flyers informing the community about the Housing, Environmental Justice, Land Use, and Safety Elements update process were distributed in various languages via the community resource centers.

Based on the annual income of the respondents in the first survey and the various methods to reach different segments of the Garden Grove community online and through three community surveys, the City believes it has demonstrated a diligent effort to involve all economic segments of the community during the process of updating this Housing Element, considering the social distancing restrictions in place during COVID-19 (coronavirus) pandemic.

## **COMMUNITY WORKSHOPS**

The City held the first community workshop on November 18, 2020. The online community workshop had 20+ attendees. The format facilitated an interactive discussion of the housing potential sites map. Topics introduced in the workshop included inclusionary housing, the appropriateness of housing near heavily trafficked roadways, and additional areas to consider for denser housing.

The second online community workshop was held on April 21, 2021, and approximately 20 participants attended the workshop. Discussion notes for both events are included in Appendix A.

## **STUDY SESSIONS**

Five study sessions were conducted to which the public was invited: one joint session with the Neighborhood Improvement and Conservation Commission and the Planning Commission, two with the Planning Commission, and three with the City Council. Policy makers provided input on housing challenges and opportunities, identified land use changes and housing sites to accommodate the RHNA, and reviewed housing program concepts.

## **COMMENTS AND IDEAS FROM THE PUBLIC ENGAGEMENT EVENTS**

Key findings across engagement activities are listed below. Appendix A provides a sampling of the outreach materials.

- **Need for Affordable Housing.** Participants indicated a need for additional affordable housing for low-income households as a result of the high cost of housing in Orange County. With over 600 responses from a community survey, 72 percent overwhelmingly expressed the importance of ensuring that children who grow up in Garden Grove can afford to live in Garden Grove as adults. As a result, Program 11 (Inclusionary Housing Ordinance) and Program 22 (Affordable Housing Overlay) were added to this Element.

- 
- **Meet Housing Demand for Special Groups.** The community voiced a clear desire to provide housing for special groups, including seniors, large families, persons who are homeless or at-risk of becoming homeless, veterans, and persons with disabilities.
  - **Housing Inequities and Discrimination.** Residents wish to see targeted efforts to address long-term inequities in the housing market, including discrimination in renting.
  - **Focus Placing Housing Along Corridors and Aging Commercial Centers.** Participants expressed a preference to locate multi-family and mixed-use developments along major corridors, and closer to transit facilities and commercial services, while minimizing adverse impacts to adjoining single-family neighborhoods. They also indicated that older commercial centers are appropriate for mixed use and higher density housing.
  - **Address Parking and Other Community Impacts.** The community voiced concerns that increased housing development could negatively impact neighborhoods, including adverse consequences such as parking spillover, increased traffic and pollutant emissions, safety concerns, overcrowding, and decrease in community services.

## FAIR HOUSING

Garden Grove contracts with the Fair Housing Foundation for fair housing services. The organization advertised and held two community workshops online on November 10, 2020 and April 6, 2021 to provide counseling, education, and mediation services relating to fair housing laws. Garden Grove residents, tenants, landlords, managers, property owners, attorneys, realtors, and management companies were encouraged to attend. Topics discussed in the workshops included COVID-19 programs; new statewide laws; federal and state fair housing laws; housing discrimination; modifications and accommodation; families with children; notices; and eviction process.

Preparation of the Housing Element coincided with lingering State and federal disagreements on the implementation of Affirmatively Further Fair Housing (AFFH) rules, the release of Preserving Community and Neighborhood Choice rules, the late release of State guidance regarding implementation of AFFH in Housing Elements, and a reversal of the Preserving Community and Neighborhood Choice rules. However, Garden Grove is among the jurisdictions covered under the Orange County Jurisdictions and the Lawyers' Committee for Civil Rights Under Law's Orange County Analysis of Impediments to Fair Housing Choice released on May 20, 2020. Outreach began on October 2019, as the Lawyers' Committee held meetings with individual stakeholders throughout the County. In January and February 2020, evening community meetings were held in Mission Viejo, Westminster/Garden Grove, Santa Ana, and Fullerton. Also in February, the Lawyers' Committee held a focus group with an array of nonprofit organizations and government officials. Geographically specific community meetings were held across Orange County. Additional outreach was conducted for members of protected classes, including the Latino and Vietnamese communities. All community meetings had translation services available if requested in Spanish and Vietnamese. In addition, all meetings were held in locations accessible to people with mobility issues. Public hearings and City Council meetings were held throughout the County during Spring of 2020. Due to the prohibition of gatherings due to COVID, hearings and meetings were held online.

---

---

## 12.2 COMMUNITY PROFILE/HOUSING NEEDS ASSESSMENT

### 12.2.1 POPULATION AND EMPLOYMENT TRENDS

Housing needs are influenced by population and employment trends. This section summarizes the changes in the population size, age, and racial/ethnic composition of the City of Garden Grove over the past decade.

#### CURRENT POPULATION AND POPULATION GROWTH

Between 2010 and 2020, as reported by the U.S. Census, the population of Garden Grove grew approximately 2.2 percent, from 170,883 to 174,801 residents. Compared with the County of Orange as a whole, the 2.2 percent increase is less than that of the County. SCAG forecasts a steady increase in population through 2045. From 2020 to 2045, SCAG estimates that the City's population will grow by 5.5 percent, while countywide population is expected to increase by 9.6 percent (see **Table 12-2**).

**Table 12-2**  
**Population Growth and Projected Growth**

	2010	2020	2045	% Change 2010-2020	% Change 2020-2045
<b>Garden Grove</b>	170,883	174,801	185,000	2.2%	5.5%
<b>Orange County</b>	3,010,232	3,194,332	3,535,000	5.8%	9.6%

Source: California Department of Finance, E-5 Population and Housing Estimates, 2010 and 2020 and SCAG Growth Forecasts, 2016.

In addition to population projections, several other demographic characteristics and trends define housing needs. Among these characteristics are age composition, racial and ethnic composition, and employment.

## AGE

Population age distribution serves as an important indicator of housing needs because housing needs and preferences change as individuals or households grow older. Young families tend to focus more on cost and the ability to become first-time homebuyers. **Table 12-3** shows the age distribution of Garden Grove residents. In 2018, the 20 to 44 age group constituted the largest age group at approximately 34.7 percent, followed by the 45 to 64 age group at 27.5 percent. Compared with 2010, the two largest age groups have stayed consistent. The 2018 median age in the City is 38.3 years compared with the County (37.8 years), the City's population is slightly older. Since the age group 20 to 44 is the largest, the need for larger units with more bedrooms for young families is likely to increase.

**Table 12-3**  
**Age**

Age	2010				2018			
	Garden Grove		Orange County		Garden Grove		Orange County	
	No.	%	No.	%	No.	%	No.	%

## RACE AND ETHNICITY

Table 12-4 and Exhibit H-1 shows the racial/ethnic distribution of population in Garden Grove. As of 2018, over 77 percent of the total population is comprised of Asian and Hispanic/Latino residents, at 40.4 percent and 37.0 percent, respectively. Since 2010, the City has seen a growth in Asian residents, with a 17 percent increase. The population that identifies as Hispanic or Latino grew less than one percent between 2010 and 2018, while the White population decreased 12 percent during that same time period. The Asian population total percentage (40.4 percent) is double that of Orange County's (19.9 percent). Garden Grove's Non-White population is 80.3 percent, whereas Orange County's is 59.1 percent.

**Table 12-4  
Race and Ethnicity**

	2010				2018

## EMPLOYMENT

Garden Grove has 84,809 workers living within its borders who work across 13 major industrial sectors. The most prevalent industry is Education and Social Services, with 14,832 employees (17.5 percent), and the second most prevalent industry is Manufacturing, with 13,674 employees (16.1 percent), see **Table 12-5**. Since 2010, the Arts, Entertainment, and Recreation industry has seen the greater increase, from 7,628 to 10,417 employees in 2018. Those in Manufacturing had a median income of \$37,924. Those in Arts, Entertainment, and Recreation, and Accommodation and Food Services had a median income of \$19,874. In Garden Grove, those in the Educational, Healthcare, and Social Assistance services are paid above the median income; while those in Manufacturing and Retail trade are paid below the median income. Employment characteristics are important as they have a direct relationship with income and a household's ability to afford different housing types. Figure 12-2 provides detailed employment information.

**Table 12-5  
Employment by Industry**

	2010				2018			
	Garden Grove		Orange County		Garden Grove		Orange County

**Figure 12-2  
Employment by Industry**

Source: U.S. Census Bureau, American Community Survey 2014-2018 5-year estimates using groupings of 12-digit NAICS codes.

As of early 2020, 6,107 businesses in Garden Grove employed 45,766 persons. The largest business categories include manufacturing, retail trade, health care and social assistance, and accommodation and food service (according to Infogroup, Inc. business and employment data). These numbers do not account for business and employment losses as a result of the COVID-19 (coronavirus) pandemic. Principal employers, according to the 2020 Comprehensive Annual Financial Report, include Great Wolf Lodge Southern California, Air Industries Company, Garden Grove Medical Center, Hyatt Regency, and GKN Aerospace Transparencies Systems, Inc.

## 12.2.2 HOUSEHOLD CHARACTERISTICS

Household characteristics affect the social and economic well-being of the members of the household. Census data report that 15.1 percent of Garden Grove residents live in poverty, as defined by federal guidelines. <sup>1</sup>This proportion is higher than that of the County of Orange, where 11.5 percent of residents live in poverty. The proportion of persons or households living in poverty is much higher for female-headed households, Hispanic or Latino and American Indian residents, and residents with less than a high school education.

For housing planning and funding purposes, the State Department of Housing and Community Development (HCD) uses five income categories to evaluate housing need based on the Area Median Income (AMI) for the County:

- Extremely Low-Income Households earn 0-30 percent of AMI
- Very Low-Income Households earn 30-50 percent of AMI
- Low-Income Households earn 50-80 percent of AMI
- Moderate-Income Households earn 80- 120 percent of AMI (federal data uses 100%)
- Above Moderate-Income Households earn over 120 percent of AMI (federal data uses 100%+)

Federal Comprehensive Housing Affordability Strategy (CHAS) data provide special Census tabulations (developed for HUD) and calculate household income adjusted for family size and tenure. As shown in **Table 12-6**, above moderate-income households in Garden Grove represent the largest share of all households (28.3%), and low-income households are the second largest category (22.3%). Income differs by tenure. **Table 12-6** shows that more renter households are in the lower income categories compared with owner households.

Note: 1) HAMFI = HUD Area Median Family Income.

## HOUSEHOLD INCOME

According to 2019 Census data, the median household income for Garden Grove was \$69,278, compared with the County of Orange median household income of \$90,234. Median household income differs by tenure; while the renter-occupied median household income in 2019 was \$52,271, the owner-occupied median household income was nearly 60 percent higher at \$89,318. See **Exhibit H-2** for medium household income by Census tracts.

According to the U.S. Census data, see **Table 12-7**, 17 percent of Garden Grove households had incomes lower than \$25,000, whereas Orange County was at 12.5 percent. Approximately 21 percent of households in the City earned between \$25,000 and \$49,999, while 32.9 percent had incomes between \$50,000 and \$99,999. Thirty-two percent of Garden Grove households earned \$100,000 in 2018, by comparison, 45.2 percent of Orange County households make over \$100,000.

## HOUSING OVERPAYMENT

State and federal standards for housing cost burden indicate that households spending more than 30 percent of gross annual income on housing experience a housing cost burden. Housing cost burdens occur when housing costs increase faster than household income. When a household spends more than 30 percent of its income on housing costs, it has less disposable income for other necessities such as health care, education, and daily necessities. In the event of unexpected

circumstances such as loss of employment or health problems, lower-income households with a housing cost burden are more likely to become homeless or double up with other households. In Garden Grove, 44 percent of households are overpaying for housing. For low-income households, 63.7 percent overpay for housing. In all households and low-income households, renters overpay more for housing than owners.

Across Garden Grove's 21,940 renter households, 12,825 (58.5 percent) spend 30 percent or more of gross income on housing cost as show in **Table 12-6**. Additionally, 6,710 renter households in Garden Grove (30.6 percent) spend 50 percent or more of gross income on housing cost. As one might expect, nearly 39.1 percent of lower-income households (0-80% AMI) spend a higher share of income on housing while only 4.7 percent of higher-income households (> 80% AMI) spend under 30 percent of income on housing. See also Figure 12-3 for spending by rent and by different income categories.

**Figure 12-3**  
**Spending by Rent by Income**

Source: U.S. Census Bureau, American Community Survey, 2014-2018 5-year estimates.

Mortgage-holding households in Garden Grove can be categorized by income and the percentage of income spent on mortgage costs. As one might expect, the general trend is that lower-income households spend a higher share of income on housing costs, while high-income households may spend a lower share of income on housing. The income category most prevalent amongst Garden Grove mortgage-holding households is \$75,000 or more (11,289 households) and the most prevalent share of income spent on mortgage costs is over 30 percent (7,444 households), as shown in Figure 12-4.

## 12.2.3 HOUSING STOCK CHARACTERISTICS

### HOUSING STOCK

In 2021, Garden Grove had 48,504 housing units. Compared to 2010, the housing stock increased by 763 units, see **Table 12-8**. Most of the housing stock is made up of detached single-family homes (57.1 percent), with only 31.2 percent being multi-family. The Department of Finance data indicate that 3.15 percent of units in the City are vacant.

Garden Grove was developed as a community of single-family dwelling units and has primarily remained as such. Between 2010 and 2020, new development consisted mostly of single-family detached and attached homes, with 498 single-family units built compared to 265 multi-family units. Single-family structures now make up 65.5 percent of the local housing stock, with multi-family comprising 31.2 percent, and mobile homes filling out the remaining 3.4 percent.

**Table 12-8  
Housing Type**

Housing Type	Garden Grove				Orange County			
	2010		2021		2010		2021

Source: California Department of Finance, Demographic Unit, City/County Population and Housing Estimates, 2010 to 2021.

## OVERCROWDING

In response to a mismatch between household income and housing costs in a community, some households may not be able to buy or rent housing that provides a reasonable level of privacy and space. According to both California and federal standards, a housing unit is considered overcrowded if it is occupied by more than one person per room (excluding kitchens, bathrooms, and halls). In Garden Grove, 9.8 percent of housing units are overcrowded. Overcrowding is more prevalent in rental units at 6.7 percent compare to owner units at three percent (see **Table 12-9**).

## HOUSING CONDITION

The condition of the housing stock can be an indicator of potential rehabilitation needs. Based upon observations and experiences of the Garden Grove Building & Safety Division, Code Enforcement Division, in 2020, 458 housing units were in need of replacement or substantial rehabilitation due to housing conditions (see **Table 12-9**).

**Table 12-9  
Housing Stock Characteristics by Tenure**

Housing Characteristic	Households/Units					
	Owner		Renter		Total	
	Number	Percent	Number	Percent	Number	Percent
Total Occupied Housing Units	--	--	--	--	47,761	97.4%
Overcrowded Units	1,515	3.0%	3,304	6.7%	4,819	9.8%
Units Needing Replacement/Rehabilitation	N/A		N/A		458	
Housing Cost	\$675,000		\$1,885 <sup>1</sup>		N/A	

Source: Sources: US Census Bureau, American Community Survey 2014-2018 5-year estimates; CoreLogic September 2020; Zillow.com.

Note: 1) Rental costs were obtained from a survey of 33 available apartments for rent in June 2021. The average rental price for one- and two-bedroom units was \$1,885. The average rental price for a one bedroom was \$1,685 and a two bedroom was \$2,015.

## HOUSING COST

The cost of housing in a community directly correlates to housing problems and affordability issues. High housing costs can price low-income families out of the market, cause extreme cost burdens, or force households into overcrowded or substandard conditions. In 2020, the median home price in Garden Grove, based on information provided by CoreLogic, was \$645,000. This was 9.3 percent higher than the median price in 2019. The median home price in Orange County in 2020 was \$755,000, which is \$110,000 higher than in Garden Grove. As **Table 12-10** shows, the cost of a single-family home in Garden Grove jumped from \$643,410 in 2020 to \$800,750 in 2021. This reflects housing price trends seen throughout California.

**Table 12-10  
Garden Grove Homes Sold**

Housing Type	2019		2020		2021	
	Number Sold	Average Sales Price	Number Sold	Price	Number Sold	Average Sales Price
Condominium	20	\$445,091	14	\$436,946	11	\$493,545
Townhouse	5	\$488,450	5	\$522,280	2	\$463,000
Single-Family	48	\$643,410	54	\$692,496	12	\$800,750
<b>Total</b>	<b>73</b>	<b>\$578,463</b>	<b>73</b>	<b>\$631,828</b>	<b>25</b>	<b>\$638,560</b>

Source: Redfin, Garden Grove Homes Sales Between 2019 to May 2021 (excludes mobile homes and multi-family sales).

**Table 12-11** shows that the HUD-determined fair market rents for the Orange County area fall within the range of the rents in Garden Grove, and within the required range of income to afford those rents. The annual income to afford a two-bedroom apartment in Orange County is approximately \$94,572 (assuming 30 percent of income used for rental costs). As noted above, cost-burdened families as those who pay more than 30 percent of their income for housing and may have difficulty affording necessities such as food, clothing, transportation, and medical care. Severe rent burden is defined as paying more than 50 percent of one's income on rent.

**Table 12-11  
Income to Afford Orange County Fair Market Rents**

Required Monthly Income and Hourly Wage (30% and 50%)			Santa Ana-Anaheim-Irvine Region				
			Efficiency (Studio)	One-Bedroom	Two-Bedroom	Three-Bedroom	Four-Bedroom

Source: Fair Market Rents. U.S. Department of Housing and Urban Development (HUD), Fiscal Year 2021; MIG, 2021.

Housing affordability in Garden Grove can be inferred by comparing the cost of renting or owning a home with the income levels of households of different sizes. **Table 12-12** shows the annual income ranges for extremely low-, very low-, low-, and moderate-income households and the maximum affordable monthly rental payment based on 30 to 35 percent of gross household income as affordable housing costs (depending on tenure and income level as defined by HUD). The table also displays the maximum affordable home sale or rental price based on income category and unit size.

**Table 12-12  
Affordable Housing Costs by Household Size and Tenure - 2020**

## 12.2.4 SPECIAL HOUSING NEEDS

Housing Element law requires local governments to include an analysis of housing needs for residents in specific special needs groups and to address resources available to address these needs.

### PERSONS WITH DISABILITIES, INCLUDING DEVELOPMENTAL DISABILITIES

Disabled residents face housing access and safety challenges. Disabled people, in many instances, are of limited incomes and often receive Social Security income only. As such, most of their monthly income is often devoted to housing costs. In addition, disabled persons may face difficulty finding accessible housing (housing that is made accessible to people with disabilities through the positioning of appliances and fixtures, the heights of installations and cabinets, layout of unit to facilitate wheelchair movement, etc.) because of the limited number of such units.

In Garden Grove, 17,759 residents live with disabilities, making up 10.4 percent of the population (see **Table 12-13**). Impairment that prevents or impedes walking (ambulatory difficulty) and independent living difficulty are the largest disability types. Independent living difficulty is a result of a physical, mental, or emotional condition.

The State Department of Developmental Services (DDS) provides community-based services to persons with developmental disabilities and their families through a statewide system of 21 regional centers. The Orange County Regional Center serves residents in Garden Grove. The center is a private, non-profit community agency that contracts with local service providers to offer a wide range of services to individuals with developmental disabilities and their families. In Garden Grove, 1,508 are reported as consumers of the services provided at the local Regional Center. The largest age group of consumers are those aged 18 and older, making up 55.4 percent of the total consumers, with the 0 to 17 age group representing the balance.

Many factors limit the supply of housing available to households of persons with disabilities. In addition to the need for housing that is accessible or ADA compliant, housing affordability is a key limitation as many persons with disabilities live on disability incomes or fixed income. Location of housing is also an important factor for many persons with disabilities, as they often rely on public transportation to travel to services and shops. Many developmentally disabled persons can live and work independently within a conventional housing environment while others may require a group living environment. Because developmental disabilities exist before adulthood, the first issue in supportive housing for the developmentally disabled is the transition from the person's living situation as a child to that as an adult.

**Table 12-13  
Disability Types**

Disability Type	2014				2018			
	Garden Grove		Orange County		Garden Grove		Orange County	
	No.	%	No.	%	No.	%	No.	%
With a Disability	17,190	9.9%	269,477	8.6%	17,759	10.4%	271,426	8.6%
Hearing difficulty	5,387	3.1%	77,423	2.5%	4,031	2.4%	77,725	2.5%
Vision difficulty	2,885	1.7%	52,208	1.7%	3,478	2.0%	43,877	1.4%
Cognitive difficulty	6,961	4.0%	95,687	3.1%	7,357	4.3%	101,608	3.2%
Ambulatory difficulty	8,551	4.9%	130,860	4.2%	7,946	4.6%	138,675	4.4%
Self-care difficulty	4,201	2.4%	59,694	1.9%	5,088	3.0%	65,085	2.1%
Independent living difficulty	8,929	5.1%	108,454	3.5%	8,021	4.7%	110,197	3.5%
No disability	157,022	90.1%	2,859,301	91.4%	153,271	89.6%	2,886,538	91.4%

Source: U.S. Census Bureau, American Community Survey, Supplemental Estimates, 2014 and 2018.

Residents living in single-family homes benefit from accessibility improvements such as wider doorways and hallways, access ramps and railings, larger bathrooms with grab bars, lowered countertops, and other features common to “barrier free” housing. Single-family homes can be adapted as small group homes to meet these accessibility needs. According to the State Department of Social Services, 29 small residential care facilities with capacity to support 169 residents are located in Garden Grove. In addition, there are three large residential care facilities that accommodate 123 adults.

Accommodating a sufficient quantity and quality of housing for people with disabilities of any kind is a significant challenge due to lack of funding and the complexity of housing and service needs involved. Garden Grove supports the provision of housing for persons with disabilities and has provisions in the Development Code to enable group housing both for small-scale facilities and larger residential care facilities. The City has a reasonable accommodation procedure to facilitate adaption of homes for people with disabilities and will revisit the procedure (as outlined in Program 23) to ensure clarity and a streamlined application, review, and approval process adaption.

---

---

## ELDERLY (65+ YEARS)

Many senior-headed households have special needs due to their relatively low incomes, disabilities or limitations, and dependency needs. Specifically, many people aged 65 years and older live alone and may have difficulty maintaining their homes, as many are usually retired and living on a limited income, and are more likely to have high health care costs and rely on public transportation, especially those with disabilities. The limited income of many elderly persons often makes it difficult for them to find affordable housing.

Garden Grove has 23,319 elderly individuals. A high proportion of owner households is headed by elderly individuals (12.9 percent), with 8.2 percent of renter households headed by elderly individuals. Just over 14 percent (14.3) of residents 65 years and older live-in poverty in Garden Grove (versus 15.1 percent of the total population).

Seniors with limited income may have difficulty finding affordable housing. The Garden Grove Housing Authority is responsible for the Housing Choice Voucher (Section 8) program in the City. Priority is given to seniors (62 years old or older), disabled, and handicapped residents who meet the income guideline limits established by the federal government. According to the State Department of Social Services, 43 residential care facilities for the elderly are located in Garden Grove.

Garden Grove has been active in providing age-restricted housing for seniors. In 2018, the Planning Commission approved a senior housing mixed-use complex, Garden Brook Senior Village, with 395 apartment units with below market rents. As of 2021, Garden Brook Senior Village is taking in applications for eligible seniors, with specific age and household income requirements (must be 62 years of age or older and senior-living units are available to households at or below 60 percent of the Orange County AMI).

## LARGE HOUSEHOLDS (5+ MEMBERS)

Large households, defined by HCD as households containing five or more persons, have special housing needs due to the limited availability of adequately sized, affordable housing units. Larger units can be very expensive; as such, large households are often forced to reside in smaller, less expensive units or double-up with other families or extended family to save on housing costs, both of which may result in unit overcrowding.

In the City, 5,326 households are defined as large households, making up 11 percent of total households (see **Table 12-14**). Of these, 2,783 are owner-occupied large households (5.8 percent of total households) and 2,543 renter-occupied large households (5.3 percent). By comparison, Orange County as a whole has 42,564 large owner households and 36,690 large renter households. In Garden Grove, 14.9 percent of large households live in poverty, compared to smaller households where only 11.6 percent live in poverty.

**Table 12-14  
Special Needs Groups**

Special Needs Category	Number	Percent
Persons with Disabilities	17,759	10.4%
Persons with Developmental Disabilities	6,755	4.1%
Elderly (65+ years)	23,319 individuals 5,139 households	25.1% individuals 10.7% of households
Large Households (5+ members)	5,326	11%
Farmworkers	408	0.5%
Female-Headed Households	7,513	15.6% of households
People Experiencing Homelessness	225 individuals	N/A

*Source: US Census Bureau 2019 5-year, Department of Developmental Services, City of Garden Grove.*

Most homes in Garden Grove have two or fewer bedrooms (51 percent). One-third have three bedrooms, 13 percent have four bedrooms, and two percent have five or more bedrooms. Significantly more owner-occupied housing have three or more bedrooms. However, 26 percent of rental housing have three or more bedrooms. Given that the population of large households within Garden Grove is less than the existing housing stock for large units, existing supply may be adequate to support this group. However, support services may be necessary to address existing overcrowding due to large-family households' inability to afford larger unit sizes.

### **FARMWORKERS**

Due to the high cost of housing and low wages, a significant number of migrant farm workers have difficulty finding affordable, safe, and sanitary housing. In Garden Grove, 408 residents work as farmworkers, or only 0.5 percent of the overall population. Given this low number of agricultural workers, no targeted programs are needed; the housing needs of migrant and/or farm worker housing need can be met through general affordable housing programs.

### **FEMALE-HEADED HOUSEHOLDS**

Single-parent households require special consideration and assistance because of the greater need for day care, health care, and other services. In particular, female-headed households with children tend to have lower incomes and a greater need for affordable housing, accessible daycare, and other supportive services. The relatively low incomes earned by female-headed households, combined with the increased need for supportive services, severely limit the housing options available to them.

There are 7,513 female headed households in Garden Grove, representing 15.6 percent of total households; 56.7 percent of female-headed households live in renter-occupied units and 43.3 percent in owner-occupied units. While 13.7 percent of persons in family households live in poverty, 22.5 percent of female-headed households live in poverty.

Providing housing opportunities for families in Garden Grove is a challenging task. The primary need for female-headed households is for more affordable housing and supportive services, including childcare. The Garden Grove Housing Authority implements the Housing Choice Voucher/Section 8 rental assistance. Housing choice vouchers are provided to approximately 2,529 households in Garden Grove earning low or very low incomes. These vouchers are portable and not tied to a specific apartment project.

## PEOPLE EXPERIENCING HOMELESSNESS

While homelessness is a complex problem with many causes, the high cost of housing is a significant contributor. Rising housing costs that have exceeded growth in wages, particularly for low-income households, put Garden Grove residents at risk of housing instability and homelessness. To measure the number of homeless persons in Garden Grove, the City relies on point in time surveys prepared by the County of Orange and participating partners. Population estimates for people experiencing homelessness are difficult to quantify. Census information is often unreliable due to the difficulty of efficiently counting a population without permanent residences. Given this impediment, local estimates of the homeless and anecdotal information are often the source of population numbers. As identified in the Everyone Counts 2019 Point In Time report prepared by Orange County and its partners, a total of 225 unhoused individuals lived in Garden Grove, which is 3.3 percent of the total number in Orange County. Of the 225 unhoused, 163 were unsheltered (72.4 percent) and 62 sheltered (27.6 percent), as shown on **Table 12-15**. Unsheltered homeless are individuals or families not housed in a shelter and whose primary nighttime residence is public/private place not designed for or ordinarily used as a regular sleeping accommodation for human beings. These are people living on the street or in makeshift shelters (tents, boxes), motorhomes (RV), vans, or cars. Sheltered homeless are individuals or families living those living in a supervised operated shelter to provide temporary living arrangement.

**Table 12-15**  
**Garden Grove Homeless 2019 Point-In-Time**

Type	Unsheltered		Sheltered		Total	
	Number	Percent	Number	Percent	Number	Percent
Individuals	149	91.4%	13	21.0%	162	72%

---

---

Of the 63 Garden Grove homeless families identified in 2019, 49 were in a shelter, whereas only 24 percent of individuals were in a shelter. The largest group of homeless persons is unsheltered individuals (149).

In 2019, 6,860 people in Orange County experienced homelessness, contrasted with 4,792 people in 2017. The City allows shelters by right in the M-1 zone. In addition, through Program 17, Garden Grove will allow Low-Barrier Navigation Centers (a housing first, low-barrier, service-enriched shelter focused on moving people into permanent housing) by right in all areas zoned for mixed-use and nonresidential zones that allow multi-family uses.

The City of Garden Grove continues to work with regional partners, including local nonprofits and surrounding jurisdictions, to address homelessness. Thomas House Family Shelter is a transitional shelter for homeless families with children. Interval House is a crisis shelter and center for victims of domestic abuse. Mercy House provides housing and comprehensive support services for people experiencing homelessness. City Net is a team of professionals working to end homelessness through outreach, case management, housing navigation, and census coordination. The 2-1-1 Essential Community Services puts homeless people in contact with resources in their area. In May 2021, the City approved a one-year pilot program that identifies Be Well OC (Mind OC) as the service provider for the City's Mobile Crisis Response Team that will, in partnership with the Police Department, provide a mobile mental health unit to enhance the City's homeless resources.

### **12.2.5 ENERGY CONSERVATION OPPORTUNITIES**

Energy-related housing costs can directly impact housing affordability. While State building code standards contain mandatory energy efficiency requirements for new development, the City and utility providers are also important resources to encourage and facilitate energy conservation and to help residents minimize energy-related expenses. Policies addressing climate change and energy conservation are integrated into the Garden Grove General Plan.

Garden Grove either sponsors or provides education to consumers regarding conservation practices. To protect water resources, the City promulgates practices such as reduced water use, water-efficient fixtures, use of reclaimed water, and control of water runoff pollution. Garden Grove supports the construction of green buildings which utilize technologies such as cogeneration, solar panels, and thermal energy storage—all of which reduce reliance on traditional energy resources.

Southern California Edison provides energy service to users in Garden Grove and offers an energy savings assistance program. This program provides energy-efficient appliances like air conditioners and refrigerators to those who qualify. The Residential Energy Efficiency Loan (REEL) gives homeowners and renters access to affordable financing for energy-efficient projects. Southern California Edison also offers many solar panel programs for residential buildings: The DAC-Single-Family Solar Homes (DAC SASH), Solar on Multifamily Affordable Housing (SOMAH) and Multifamily Affordable Solar Housing (MASH). During the summer, they also offer a discount plan

which involves installation of a remote-controlled device near an air conditioning unit that will allow Southern California Edison to turn it off during energy emergency events.

## 12.2.6 PROJECTED HOUSING NEED (RHNA)

Housing Element law requires quantification of each jurisdiction’s share of the regional housing need as established in the RHNA Plan prepared by the jurisdiction’s council of government (SCAG for Garden Grove). The California Department of Housing and Community Development (HCD), in conjunction with the SCAG, determined a projected housing need for the region covered by SCAG (the counties of Riverside, San Bernardino, Los Angeles, Orange, Ventura, and Imperial). For the 2021-2029 planning period, the RHNA for the SCAG region is 1,341,834 new housing units. SCAG allocated this share among its constituent jurisdictions, distributing to each its own RHNA divided along income levels. The City of Garden Grove has a **RHNA of 19,168 housing units** to plan for in this Housing Element period, distributed by income group as shown in **Table 12-16**.

**Table 12-16**  
**Regional Housing Needs Allocation 2021-2029**

Income Group	Percent of County Average Median Income	Number of Units Allocated	Percent of Total Allocation
Very Low <sup>1</sup>	0-50%	4,166	21.7%
Low	>50-80%	2,801	14.6%
Moderate	>80-120%	3,211	16.8%
Above Moderate	120%+	8,990	46.9%
	<b>Total</b>	<b>19,168</b>	<b>100.0%</b>

Note: Pursuant to AB 2634, local jurisdictions are also required to project the housing needs of extremely low-income households (0-30% AMI). In estimating the number of extremely low-income households, a jurisdiction can use 50% of the very low-income allocation or apportion the very low-income figure based on Census data. There are 6,950 extremely low- and very low-income households, with extremely low-income households comprising 36.3% of the total. Therefore, the City’s very low-income RHNA of 4,155 units can be split into 2,077 extremely low-income and 2,077 very low-income units.

## 12.3 CONSTRAINTS ON HOUSING DEVELOPMENT

The Housing Element must identify and analyze potential and actual:

- a) *governmental constraints* to the maintenance, improvement, or development of housing for all income levels, including housing for people with disabilities; and
- b) *nongovernmental constraints* upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, and the cost of construction.

Government policies and regulations impact the price and availability of housing and the provision of affordable housing. Constraints include residential development standards, fees, and permitting procedures. Providing infrastructure and services also increases the cost of producing housing. Not every constraint to housing production is governmental. Other constraints include housing market conditions and other limitation beyond the direct control of governmental entities.

### 12.3.1 NONGOVERNMENTAL CONSTRAINTS

Three categories of costs are associated with housing developments: land costs, hard costs, and soft costs. According to the University of California, Berkeley Turner Center for Housing Innovation, hard construction costs (materials and labor) represented 63 percent of the total cost of producing a new residential building in California over the past decade. Soft costs—such as legal fees, insurance, professional fees, and development fees—represent 19 percent of total development costs, followed by land costs and conversion costs at 18 percent.

Affordable housing developments face increased complexity in financing affordable projects and the need to manage multiple funding sources and meeting their respective requirements.<sup>1</sup> The portions of the development costs that are nongovernmental constraints refer to the market-driven factors influencing prices of labor, materials, and financing. These are costs typically incurred by the developer. State law requires that the Housing Element contain a general assessment of these constraints to allow for consideration of actions that local governments might take to offset their effects.

#### DEVELOPMENT COSTS

##### Availability of Financing and Government Assistant Programs

The availability of capital to finance new residential development is a significant factor that can impact both the cost and supply of housing. Also known as “soft costs,” financing costs are the

<sup>1</sup> Affordable Housing Production: Insights from California’s 9% Low-Income Housing Tax Credit Program  
[http://turnercenter.berkeley.edu/uploads/LIHTC\\_Construction\\_Costs\\_2020.pdf](http://turnercenter.berkeley.edu/uploads/LIHTC_Construction_Costs_2020.pdf)

---

---

second largest component of overall project costs: they include fees, financing, consulting, tax, title, and insurance.

Two types of capital are involved in the housing market: 1) capital used by developers for initial site preparation and construction and 2) capital for financing the purchase of units by homeowners and investors. Interest rates substantially impact home construction, purchase, and improvement costs. However, these rates are set at the federal level. A fluctuation in rates of just a few percentage points can make a dramatic difference in the annual income needed to qualify for a loan. As of 2020, while interest rates remained low, lenders continued to consider applicants closely due to lingering impacts from the 2008 housing finance crisis. This scrutiny can lead to credit tightening despite affordable interest rates.

## Construction

Construction costs are determined primarily by the cost of labor and materials such as concrete, timber, and mechanical systems—and steel costs for higher-rise buildings. Also referred to as “hard costs,” construction costs are the most significant contributor to development costs.<sup>2</sup> Hard construction costs represented more than 60 percent of the total cost of producing a new residential building in California over the past decade. Driving the cost increases in the past decade were the price of wood, plastics, and composites and higher labor costs due to prevailing wage requirements and shortage of available construction workers.

An indicator of construction costs is Building Valuation Data compiled by the International Code Council (ICC). The unit costs compiled by the ICC include structural, electrical, plumbing, and mechanical work, in addition to interior finish and normal site preparation. The data are national and do not consider regional differences, nor do the data include the price of the land upon which the buildings are built. The 2020 national averages for costs per square foot of apartment units and single-family homes are as follows:

- Type I or II, Multi-Family: \$129.23 to \$167.27 per square foot
- Type V (Wood Frame), Multi-Family: \$112.76 to \$147.50 per square foot
- Type V (Wood Frame), One- and Two-Family Dwelling: \$122.46 to \$141.72 per square foot

## Land

In theory, the market value of land—and what a developer is willing to pay for it—is driven by what can be developed on the property. However, land costs are impacted by several factors, many of which are not related to project feasibility. Among the variables affecting the cost of land for the development of new housing include the economic potential of the proposed or planned uses, lot size, proximity of public services, and the financing arrangement between the buyer and

<sup>2</sup> Making It Pencil: The Math Behind Housing Development, 2019. Turner Center for Housing Innovation, August 2019  
[http://turnercenter.berkeley.edu/uploads/Making\\_It\\_Pencil\\_The\\_Math\\_Behind\\_Housing\\_Development.pdf](http://turnercenter.berkeley.edu/uploads/Making_It_Pencil_The_Math_Behind_Housing_Development.pdf)

---

---

seller. Land costs for single-family zoned parcels of Garden Grove range from \$1,200,000 to \$2,229,000 per acre<sup>3</sup> and \$3,050,000 to \$3,727,000 per acre on properties zoned for multi-family use.

## ENVIRONMENTAL CONSTRAINTS

Environmental factors can constrain residential development in a community by increasing costs and reducing the amount of land suitable for housing construction. Environmental constraints typically relate to the presences of sensitive biological resource habitat or geological hazards. However, in fully urbanized communities like Garden Grove, more common constraints are flood hazards, the presence of contaminated soils from past or ongoing industrial uses, and air pollutant emissions from industrial sources and freeways.

### Floodplain

The Flood Hazard Overlay Zone (FH) applies to portions of Garden Grove—primarily in the southeast—subject to flooding from a 100-year (Flood Zone “A”) or 500-year flood event (Flood Zone “X”). The zone requires 100-year flood protection level for new construction, consistent with policies and guidelines of the Federal Emergency Management Agency (FEMA). These flood hazard zones are shown on **Exhibit SAF-4** in the Safety Element. Additional standards of the FH overlay zone may result in increased construction cost and/or delay; however, the standards allow housing units to withstand flooding impacts.

### High Pollution Burden

The location of environmental health hazards may be a significant contributing factor to locating new housing in Garden Grove. Disincentives include higher development costs of cleaning up sites or providing mitigation to protect residents. Areas that contain or are in proximity to documented environmental hazards may not be attractive for new housing. The California Office of Environmental Health Assessment identifies areas of Garden Grove that contain or are adjacent to facilities or sites that can contaminate the soil, water, and air within the immediate vicinity. Areas of the City near freeways are exposed to pollutants affecting air quality, such ozone, small particulate matter, and diesel particulates. The General Plan land use plan does allow for residential development near industrial districts and freeways, which reflects long-established land use patterns. While the City has no jurisdiction over pollution sources beyond City limits or associated with freeways, the Environmental Justice Element contains objectives and policies to mitigate environmental hazards that pose health risks to existing and potential new residents.

---

<sup>3</sup> A review of vacant residential land sales on Redfin.com on March provided six vacant lots for sale or sold within the last two years within the City. Land costs were estimated from this sample and may not be representative of general land costs in the City.

---

---

## **GOVERNMENT CODE 65583(A)(6) DEVELOPMENT ANALYSIS**

Government Code section 65583(a)(6) requires an analysis of requests to develop housing at densities below those anticipated in sites inventory. Analysis is also required regarding the length of time between a developer receiving approval for housing development and submittal of an application for building permit. The analysis must also look at local efforts to remove nongovernmental constraints that create a gap in the jurisdiction's ability to meet RHNA by income category.

### **Requests for Lower Development Densities**

In Garden Grove, requests for development at densities below anticipated densities are rare. Housing developments typically propose housing units at the maximum permitted densities allowed by the zone. Projects that incorporate affordable housing units exceed the maximum permitted densities through application of State Density Bonus law. In the rare occurrence where a development did not maximize density, such developments are typically comprised of above-moderate for-sale housing units that include larger homes and additional amenities to address market demands. Development approval of projects with densities lower than what is established in the Housing Element is not expected. In general, and based on recent development in the City, development applications typically propose housing units at the maximum permitted densities allowed by the zone in order for the project to be financially feasible

### **Building Permit Timeframe**

In Garden Grove, the length of time between receiving approval for housing development (that are not ministerial) and submittal of an application for building permit is typically 30 to 60 days for single-family and duplex/triplex developments, and one to six months for multi-family developments, depending on project and complexity. For example, a multi-family residential project with complex grading and drainage plans may take longer than usual to prepare and submit plans, complete the review process, and obtain permits. Also, developers may struggle with feasibility analyses, financing, or negotiations with design professionals which are outside the control of the City. Timelines are often affected by factors that are not disclosed by applicants, which may delay their initial submittal. It should be noted, the City also allows for parallel submittal of Building plans with entitlement submittals to help further fast track a project.

### **Local Efforts to Remove Nongovernmental Constraints**

This analysis examines local efforts to remove nongovernmental constraints that create a gap in the City's ability to meet the RHNA by income category.

Until the dissolution of redevelopment agencies in California, the City subsidized or provided financial assistance to construct 1,584 units of affordable housing using funds generated by redevelopment projects.<sup>4</sup> City-owned properties or other agency-owned properties in Garden

---

<sup>4</sup> <https://ggcity.org/pdf/econdev/ab-987-report.pdf>

---

---

Grove provide a great potential resource for affordable housing under AB 1486 and AB 1255. The City is actively marketing the remaining properties inherited from its redevelopment agency for affordable housing.

In Orange County, development costs represent the primary nongovernmental constraint on housing development. The average hard cost per unit in California is \$480,000, a 17 percent increase since 2008. The increase has been driven largely by construction costs, which already account for the largest share of development costs. During the COVID-19 pandemic of 2020-2021, material costs jumped significantly due to supply chain problems and a dramatic rise in home improvement projects. While the City does not have prevailing wage requirements, which are cited by the UC Berkeley Turner Center for Housing Innovation as a contributor to higher construction costs, such requirements could be a condition associated with government funding sources. The City has an active Housing Authority and Neighborhood Improvement Division, as well as existing partnerships with other housing providers, to coordinate federal and State programs such as tax subsidies and loan assistance or grants. These partnerships, in combination with streamlined development review processes, have attracted recent interest from affordable housing developers.

### **12.3.2 GOVERNMENTAL CONSTRAINTS**

Housing Element law requires an analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing. The analysis must identify efforts to remove the identified constraints. State housing laws effective since 2018 have targeted ways to ease local government constraints on housing development—and affordable housing in particular. Applicable to all housing developments are amendments to the Housing Accountability Act (HAA) and SB 330.

#### **EFFORTS TO REMOVE GOVERNMENTAL CONSTRAINTS**

In 2010, the Land Use Code and zoning map were amended to comprehensively address the location and development standards of mixed-use zones. In 2011, Land Use Code amendments addressed development standards for emergency shelters, transitional housing, and supportive housing. In 2017, the City adopted three development impact fees, Citywide Park Fees and In-Lieu Park Fees, Transportation Facilities Fees, and Drainage Facilities Fees, and adopted an Accessory Dwelling Unit (ADU) ordinance pursuant to State laws in effect at that time. In March 2021, a new ordinance was adopted to comply with State ADU law.

#### **HOUSING ACCOUNTABILITY ACT**

Amendments to the HAA (SB 167/AB 678/SB1515/AB 3194) strengthened laws designed to prevent the capricious denial of housing development projects, defined to include affordable or market rate single-family, multifamily residential, specified mixed-use, transitional/supportive housing, and emergency shelters. The amendments require the use of objective design standards in the review

---

---

of residential units and established a 30-day/60-day limit for jurisdictions to deem a project consistent with those objective standards. Specifically, an objective design standard involves no personal or subjective judgment on the part of the City and “is uniformly verifiable by reference to criteria that are available to the applicant at the time of application.”

Under the HAA, a housing development cannot be denied or reduced in density, inclusive of conditions of approval that have the same effect, unless the jurisdiction finds that the project would have a specific, adverse impact upon the public health or safety. Under AB 3194, when there is a conflict between the general plan and zoning standards, jurisdictions are required to apply only objective standards and criteria of the zoning which are consistent with the general plan and criteria to facilitate and accommodate development at the density allowed on the site by the general plan and is proposed by the housing development project.

### **Housing Crisis Act (SB 330)**

SB 330 suspended certain restrictions on the development of new housing during the period of the statewide emergency in effect until January 1, 2025. Its primary provisions include:

- **Preliminary Applications.** This new development application, available on the City website, is required by State law to collect specific site and project information to determine the zoning, design, subdivision, and fee requirements that apply to a housing development project. If the applicant submits a complete development application within 180 days of submitting a preliminary application, then the zoning, design, subdivision, and fee requirements in effect at the time the preliminary application was submitted shall remain in effect for the remainder of the entitlement and permitting process.
- **Replace and Protect Existing Housing.** No housing development project on a site where any existing residential units would be demolished, including any “protected” units, may be approved unless the replacement project includes at least as many residential units as the existing residential building.
- **Zoning Actions.** The City is prohibited from taking any legislative action, including by voter initiative, that would reduce the zoned capacity of housing development below what was allowable as of January 1, 2018, including but not limited to: reducing the maximum allowable height, density, or floor area ratio (FAR), imposing new or increased open space, lot size, setback or maximum lot coverage requirements; or adopting or enforcing any moratorium or cap on housing approvals.
- **Objective Design.** The City may not apply new design standards that were adopted on or after January 1, 2020, unless these design standards meet the definition of objective standards provided in State law.
- **CEQA.** The required timeframe to approve or disapprove a housing development project is limited to 90 days after certification of an EIR for a housing development project.

- 
- 
- **Limit Public Hearings.** The City cannot hold more than five public hearings on a housing development projects that comply with all applicable zoning standards and are not seeking any exceptions or rezoning or other legislative actions.

Affordable housing, special needs housing, emergency shelters, and ADUs are provided further protections from local housing regulations. Local constraints are discussed along with relevant State laws on government constraints.

As of mid-2021, the City had not adopted objective design standards, but plans to do so following Housing Element adoption.

## **LAND USE CONTROLS**

The Community and Economic Development Department oversees the development, construction, and maintenance of housing and housing programs in Garden Grove under these divisions: Building and Safety, Code Enforcement, Neighborhood Improvement, Office of Economic Development, and Planning Services.

The City's primary policies and regulations that affect residential development and housing affordability are the General Plan Land Use Element, Title 9 (Land Use Code) of the Garden Grove Municipal Code, and the Harbor Corridor, Community Center, and Brookhurst/Chapman Specific Plans. Title 9 contains zoning, administration, and subdivision regulations. Title 18 (Building Codes and Regulations) adopts by reference the 2019 California Building Codes and contains the City's building, electrical, mechanical, plumbing, residential, energy, and fire code regulations.

The Zoning Map, along with the Land Use Code text, comprise the zoning ordinance or zoning regulations; these also include land use district maps. Overlay Zones include the Emergency Shelter Overlay Zone, Trask Housing Overlay, Gilbert Street Overlay, Historic Cultural Overlay Zone, and Main Street Historical-Retail Combining Zone. The standards for the Main Street Historical-Retail Combining Zone were incorporated into the CC-2 zone, which was created in 2012. **Table 12-17** identifies the General Plan land use designations and zoning districts that allow housing. City regulations accommodate a variety of housing types. Garden Grove does not restrict development activities and permits via growth and urban boundary limits, preservation ordinances such as historic or trees, supermajority requirements, voter approvals of any residential projects, or adequate public facilities ordinances.

**Table 12-17  
General Plan Land Use Designations and Zoning Districts**

General Plan Land Use Designations	Density (du/ac)	Corresponding Zoning Districts
LDR – Low Density Residential	1-9	R-1 (Single-Family Residential Zone)
LMR – Low Medium Density Residential	9.1-18	R-2 (Limited Multiple Residential Zone) R-3 (Multiple-Family Residential Zone)
MDR - Medium Density Residential	18.1-32	R-3 (Multiple-Family Residential Zone)
		Harbor Corridor Specific Plan: Transition Zone North and Transition Zone West
		CCSP <sup>1</sup> : Peripheral Residential Districts
MHR - Medium High Density Residential	32.1-48	R-3 (Multiple-Family Residential Zone), PUD (Planned Unit Development), CCSP: Core Residential District, CCSP: Community Center Residential District, CCSP: Peripheral Residential District,
Civic Center Mixed Use (CC)	Up to 42 du/ac	Civic Center Mixed Use (CC)
Residential Commercial Mixed Use 1, 2, 3 (RC1, RC2, RC3)	RC1: up to 42 du/ac RC2: up to 21 du/ac RC3: up to 32 du/ac	Garden Grove Boulevard Mixed Use (GGMU), Neighborhood Mixed Use (NMU)
Industrial Residential Mixed Use 1, 2 (IR, IR2)	Up to 32 du/ac	Adaptive Reuse (AR)
CR-Community Residential	48.1-60	PUD (Planned Unit Development)
PUD-Planned Unit Development	Up to 60 dwelling units/acre	Zoning district for the land contained within the Planned Unit Development
International West Mixed Use Zone	Up to 60 dwelling units/acre	PUD (Planned Unit Development) Harbor Corridor Specific Plan (HCSP)

**Note:** 1) CCSP: Community Center Specific Plan

## Permitted Uses

**Table 12-18** identifies the housing types permitted in base zones, which may be subject to additional provisions of special use/overlay zones.

P = Permitted.

C = Conditional Use. Use eligible for consideration under the conditional use procedures and permitted only if the conditional use permit is approved, subject to the specific conditions of such permit.

[-] = Not a permitted use

**Table 12-18**  
**Zones Where Housing Is Permitted**

Land Uses	R-1	R-2	R-3	O-P	C-1	C-2	C-3	M-1	M-P	OS
Single-family Dwelling <sup>1</sup>	P	P	P	--	--	--	--	--	--	P
Multi-Family Dwelling <sup>2</sup>	--	P	P	--	--	--	--	--	--	--
Accessory Dwelling Units <sup>3</sup>	P	P	P	--	--	--	--	--	--	--
Mobile/Manufactured Home Park	--	--	P*	--	--	--	--	--	--	--
Emergency Shelter <sup>4</sup>	--	--	--	--	--	--	--	P	--	--
Transitional/Supportive Housing <sup>5</sup>	--	P	P	--	--	--	--	--	--	--
Transitional/Supportive Housing, ≤ 6 <sup>5</sup>	P	P	P	--	--	--	--	--	--	--
Transitional/Supportive Housing, > 6 <sup>5</sup>	--	C	C	--	--	--	--	--	--	--
Single Room Occupancy <sup>6</sup>	--	C	C	--	--	--	--	--	--	C
Residential care, ≤ 6 clients <sup>7</sup>	P	P	P	--	--	--	--	--	--	--
Residential care, > 6 clients <sup>7</sup>	--	--	C	C	C	--	--	--	--	--
Housing for Agricultural Employees	There are no agricultural operations in the City. The City does not have an agricultural zone but permits small-scale agricultural growing in residential zones. These do not represent commercial growing operations that require specialized labor forces.									

**Notes:**

1. Single-family Dwelling includes Manufactured Homes.
2. Multi-family Dwelling. Includes Limited Multifamily Dwelling and Duplex or Triplex. The R-3 zone prohibits new condominium projects with 5 units or fewer.
3. Accessory Dwelling Unit per State Law allows it on any zone that allows single-family or multifamily dwellings. Accessory Dwelling Units excludes granny unit, guest house, servants' quarters, and accessory living quarters
4. Emergency Shelter excludes Group Shelter and Homeless Person's Center. Permitted only in the Emergency Shelter Overlay Zone located on the block bounded by Westminster Boulevard to the south, Newhope Street to the west, Harbor Boulevard to the east, and the Garden Grove Freeway to the north.
5. Transitional/Supportive Housing. Includes Halfway House and Group Shelters.
6. Single Room Occupancy – includes Boarding/lodging as defined in the Land Use Code
7. Residential Care Facility. Residential facility, residential care facility for elderly, day care center, home finding agency and foster family home.

State law requires that transitional and supportive housing be permitted or conditionally permitted in the same manner as any residential use and not subject to any restrictions (e.g., occupancy limit) not imposed on similar dwellings (e.g., single-family homes, apartments) in the same zone.

### Mixed-Use Zones Permitted Uses

Chapter 9.18 identifies the zoning regulations for all mixed-use zones. Stand-alone residential development is not allowed in the GGMU-1, CC-2, CC-3, NMU, and AR zones. In the GGMU-1 Zone, any project consisting of 100 percent deed-restricted affordable housing is not required to have a commercial component. Commercial is required only on the CC-3 zoned properties with frontage on Garden Grove, Euclid, Main Street, and Acacia Parkway between Nutwood and Civic Center. In the AR zone, only work-live units are permitted as part of a residential/commercial mixed-use development. **Table 12-19** identifies mixed-use zones where housing is allowed.

**Table 12-19**  
**Mixed-Use Zones Where Housing Is Permitted**

Land Uses	GGMU (1-3)	CC-1	CC-2	CC-3	NMU	AR
Single-family Dwelling	--	P	--	--	--	--
Multi-Family Dwelling	P	P	--	P	--	--
Accessory Dwelling Units	P	P	--	P	--	P
Emergency Shelter		--	--	--	--	P
Transitional/Supportive Housing	P	--	--	P	P	P

Live-work	--	P	--	--	--	--
Work-live	--	C	C	C	--	C
Residential/Commercial Mixed Uses	P	P	P	P	P	P

## Specific Plan Subzones Permitted Uses

Table 12-20 identifies specific plan subzones where housing is allowed.

**Table 12-20**  
**Specific Plan Subzones Where Housing Is Permitted**

Specific Plans Subzones	Community Center Specific Plan			Harbor Corridor Specific Plan	
	CR	CCR	PR	TZN	TZW
Single-family Dwelling <sup>1</sup>	--	--	--	--	--
Multi-Family Dwelling <sup>2</sup>	--	--	--	P	P
Apartments	P	P	P	P	P
Townhouses	P	P	P	P	P
Condominiums	P	P	P	P	Silent

## Development Review

The Planning Division manages the processing and permitting of housing development applications prior to issuance of construction permits. The Building and Safety Division manages construction permits, inspections, and final occupancy. **Table 12-21** provides a simplification of the review and public hearing bodies required by each application from Chapter 9.32 (Procedures and Hearings), Section 9.04.030, and throughout the Land Use Code. These entitlements and their provisions apply to nonresidential and residential developments equally. Planning staff manages the projects along with a Planning Coordinating Committee (PCC).

In Garden Grove, the City Council, Planning Commission, and Zoning Administrator hold public hearings on development applications. The City Council is the authority over applications that amend the City's land use regulations and associated maps in conformance with the State's Planning and Zoning Laws (legislative actions). The Downtown Commission is an advisory board assigned to review and make recommendations on projects in the CC-2 Mixed-Use Zone. Housing developments require City Council approval for entitlements that include an annexation or development agreement. Public hearings may be required for housing projects with four units or more with a Site Plan Review.

**Table12-21  
Development Applications for Housing Requiring Public Hearings**

Applications	Review and Hearing Bodies
<b>Legislative</b>	
General Plan Amendments	Planning Commission/City Council
Ordinance Amendments	
Zone Change	
Specific Plans	
Planned Unit Developments	
<b>Hearing Bodies</b>	
Site Plan	Zoning Administrator*/Planning Commission
Conditional Use Permits	
Variances/Waivers	
Lot Line Adjustments	
Tentative Tract and Parcel Maps	Planning Commission; City Council for final maps

\*Alternate Hearing Body

**Ministerial - Standard**

Ministerial review is provided for applications to construct single-family homes and ADU's in zones that allow residential uses. Reviews are in conjunction with the plan check process, which are performed by City staff.

**Ministerial – Director’s Review**

Director’s Review is the primary ministerial permit for duplexes and triplexes in the R-2/R-3 zone. The review is performed by City staff, subject to City Manager/Director-level review.

**Discretionary**

Discretionary approval of housing developments is required for new multi-family residences, to rezone or change the land use designation of a property, to subdivide a property, to deviate from the development standards, and to amend the permitted uses of a zone. Title 9 section 9.32.030 explains various types of land use entitlements, the required findings, and the procedures. Findings of approval required for Site Plan Review application establishes the discretionary nature of the review:

- complies with the spirit and intent of applicable provisions, conditions, and requirements
- compatibility with the physical, functional, and visual quality of the neighboring uses
- desirable neighborhood characteristics and planning and design
- attain an attractive environment for the occupants of the property

---

---

City records indicate that no multi-family project application has been denied based on the findings of approval listed above or has been rendered infeasible as a result of the conditions of approval applied to such project. In addition, the City must comply applicable state law when reviewing housing development projects, including the Housing Accountability Act. The Housing Accountability Act places strict limitations on the City's ability to deny, reduce the density of, or condition certain housing development projects through a discretionary process unless specified findings can be made. The City must, and will, only apply the above findings in a manner consistent with the Housing Accountability Act. As a result, the discretionary process is not considered to be a constraint to the approval of multi-family developments.

The Site Plan Review application is the primary entitlement for most residential and non-residential development. Site Plan Review requires Zoning Administrator (as an alternate hearing body) and Planning Commission hearings for single-family subdivision, new limited multiple-family residential units (4 or more dwellings), and additions to existing limited multiple units, and new multiple-family residential units or additions to existing multiple units. In other zones where housing is permitted, any new building is subject to Site Plan Review. The City Manager or designee is the authority for new single-family dwellings on vacant residential land.

Development requiring discretionary approval typically undergo a Preliminary Review process prior to the submittal of the discretionary application. The normal review period is two to three weeks from the date of submittal. The intent for this process is to provide a one-on-one opportunity for Planning staff to outline specific zoning issues and procedures associated with the project, for purposes of streamlining the approval process.

Discretionary approvals are reviewed upon their submittal in accordance with the provisions of the California Environmental Quality Act (CEQA). Since July 2020, housing developments that fulfill any one of the screening criteria for Vehicle Miles Travelled (VMT) are presumed to have less-than-significant traffic impact and therefore benefit from streamlining.

- Transit Priority Area (TPA) Screening. Projects located within a TPA may be presumed to have a less than significant impact absent substantial evidence to the contrary
- Low VMT Area Screening. Residential and office projects located within a low VMT-generating area may be presumed to have a less than significant impact absent substantial evidence to the contrary. In addition, other employment-related and mixed-use land use projects may qualify for the use of screening if the project can reasonably be expected to generate VMT per resident, per worker, or per service population that is similar to the existing land uses in the low VMT area
- Project Type Screening. Some project types have been identified as having the presumption of a less than significant impact. The following uses can be presumed to have a less than significant impact absent substantial evidence to the contrary as their uses are local serving in nature:
  - Affordable, supportive, or transitional housing

- 
- 
- Assisted living facilities
  - Senior housing (as defined by HUD)
  - Projects generating less than 110 daily vehicle trips. This generally corresponds to the following “typical” development potentials of 11 single family housing units and 16 multi-family, condominiums, or townhouse housing unit

## DEVELOPMENT STANDARDS

**Table 3-22** identifies key housing development standards in zones where housing is permitted. Transitional and supportive housing are subject to the same development standards of the zone.

### Density

The Land Use Code determines density by lot area per dwelling. In addition to the General Plan and zoning regulations, the definitions for “Residential, Multiple Family” sets the densities at 11 to 24 units per acre and “Residential, Limited Multiple-Family” at 10 units per acre. The maximum density in the R-3 zone in terms of lot area per dwelling results in lower densities than what the General Plan allows. The Table of Development Density in the R-3 Zone, under Section 9.12.040.050 (Special Requirements—Multiple-Family Residential) identifies the maximum number of units allowed in reference to the size of site area. Lot sizes one acre or larger allow 24 dwelling units per lot or 1,800 square feet per unit. If the lot size is between 7,200 and 10,799 square feet in size, only two units are allowed, which yields a density between eight to 12 units per acre. This decreases the density by more than half of what the General Plan density allows. Although in many cases, it may not be feasible to shoehorn more units on smaller lots to meet the General Plan density, but in some cases, reducing the number of units based on the lot size could create a constraint to housing production. This is seen as a constraint on housing production. The City intends to remove this constraint by aligning zoning density regulations in the R-3 zone with those allowed by the Medium Density Residential Generals Plan land use category.

### Height, Setbacks, Stepbacks, and Encroachment Planes

In the Multifamily Residential and Mixed-Use Zones, a combination of development standards (building separation, setbacks, stepbacks, maximum height, encroachment planes, and other limitations on floor area) constraint achieving the building floor area and buildable lot area allowed by the General Plan or the zone. For example, achieving the maximum building height of 50 feet is constrained by required stepbacks in the mixed-use zones, and by limiting the third story to 50 percent of the building area in the R-3 zone. Height limits and setback requirements reduce the building footprint of multifamily housing. Provisions in the Municipal Code (Section 9.12.040.50) include the following non-objective design considerations that further limit the allowable height and floor of the zone:

- “This allowable increase in building height is relative to the locations of other buildings and structures on the site and may not at all times be appropriate depending on parcel configuration and upon the total site design.

- 
- 
- “Those portions of buildings designed as three-story structures proposed for location on a given site shall be designed to be architecturally sensitive to both on site and abutting off-site structure.”

Single-family dwellings may be larger than multi-unit housing since they are subject to R-1 zoning regulations rather than the more restrictive R-2/R-3 zoning standards.

### **Design (Multifamily Residential)**

Existing design regulations in Municipal Code Section 9.12.040.40 state that multifamily residential developments must demonstrate architectural compatibility between new and existing units: “Architectural style and building materials, including roof style and pitch, roofing material, trim detail around the eaves and windows, garage doors, exterior building colors, etc., shall have continuity and be compatible between the existing unit(s) and the new unit(s).”

## **ZONE-SPECIFIC RESIDENTIAL DEVELOPMENT STANDARDS**

### **Single-Family Residential Zone (R-1)**

The zone includes additional development standards, mainly pertaining to the minimum lot sizes and configurations, number of bathrooms per bedroom, and for various types of additions (single-story, attached, detached, two-story). Additional development standards are identified in the Trask Overlay Zones to implement the mitigating measures identified in the development’s Environmental Impact Report for the widening of Trask Avenue. Gilbert Street Overlay Zone regulations are intended to preserve the character of Gilbert Street’s single-family residential community.

### **Multifamily-Residential Zones (R-2 and R-3)**

In the R-2 and R-3 zones, the Land Use Code includes development standards that vary by residential types listed under “Special Requirements” for Single-Family Homes, Duplex and Triplex, small lot subdivisions, and Multifamily. The Multiple-Family Residential Transition R-3(T) zone incorporates R-3 development standards, and establish exceptions for minimum lot area and lot frontage for the creation of new lots. The stated purpose of the zones’ provisions and requirements, including development standards, is to provide minimum standards for the use and development of land.

In addition to **Table 12-17**, Section 9.12.040.050 (Special Requirements—Multiple-Family Residential) identifies multiple building placement and building separation requirements. Multifamily developments must provide private recreational and leisure areas that equal at least 300 square feet per unit. Lots over 14,000 square feet are required to provide communal active recreation area of a certain size/dimension based on the lot size. The cumulative impact of these development standards significantly lessens buildable areas of a lot and needs to be evaluated as a constraint on achieving the allowable density.

**Table 12-22  
Single-family and Multifamily Residential Development Standards**

Zones	R-1	R-2	R-3
Density (units per acre)	1-9	9.1-18	18.1-32
Land Use Code			
Lot area per dwelling	Min. 2.9 du/ac Max 9 du/ac	Min. 10 du/ac	Min. 6 du/ac Max 18 du/ac at 0.5 ac Max 20 du/ac at 0.99 ac Max 24 du/ac per MDR
Duplex	Not permitted	Min. 10 du/ac	Min. 8 du/ac - 12.2 du/ac
Triplex	Not permitted	Min. 9.46 du/ac	Min. 10.3 - 12 du/ac
Height Limit	35 feet	35 feet, no portion of a building over one-story in height shall be permitted within 20 feet of an R-1 zoned property. Only 50% of building areas may be three story.	
Lot Coverage	50%	50%	50%
Min. Dwelling Unit Area PUDs are required for efficiency units	1 bedroom – 750 sf 2 bedroom – 900 sf 3 to 4 - 1,050 sf.	Apartments only Studios – 500 sf 1 bedroom – 750 sf 2 bedroom – 900 sf 3 to 4 - 1,050 sf	
Min. Open Space	1,000 sq. ft. within required rear yard	Duplex/Triplex: 225 sf/unit (15' x 15')	Duplex/Triplex: 225 sf/unit (15' x 15')
Min. Open Space, Recreation, and Leisure Area	1,000 sq. ft. within required rear yard	300 square feet per unit. Lots over 14,000 square feet must provide active recreation area with minimum dimensions based on the size of the lot	

The height requirements for the R-2 and R-3 zones may be considered a constraint to multi-family housing and will be evaluated to be potentially modified and/or removed as identified in Program 17 (Zoning Code Update), which is being prepared immediately following Housing Element adoption. (Because the update is grant funded, it must be completed by February 2022.) Additionally, all multi-family open space requirements will also be evaluated for potential constraints, also identified under Program 17.

## Mixed-Use Zones Standards

The Mixed-Use zones incorporates more restrictions than the conventional “R” zones. Stand-alone residential developments are not allowed in CC-2, NMU, and AR zones. Projects in the GGMU-1 zone must include a commercial component with a minimum of 0.3 FAR of the overall development, unless 100% affordable development proposed. Projects in the NMU zone require a commercial component with a minimum 0.2 FAR of the overall development. The CC-2 zone, which is located primarily on the east and west sides of Main Street (between Acacia Parkway and Garden Grove Boulevard), establishes a maximum unit cap of 102 residential units, with a maximum of two sleeping rooms per unit, and located above ground-floor commercial space. Stand-alone multifamily residential developments shall comply with the open space standards for the R-3 zone. Standards for work-live units and artists’ lofts/studios, including the adaptive reuse of existing nonresidential buildings, are intended to accommodate work-live uses. In GGMU zones, a minimum density of 10 units/acre is required.

**Table 12-23** shows varying standards for height limit, lot size, and FAR between zones that allow the same density. Internal inconsistencies in zoning regulations hinder housing production as they raise the possibility of a much more complex, lengthier development review.

**Table 12-23**  
**Mixed-Use Zone Standards**

MU Zones	GGMU 1	GGMU 2	GGMU 3	CC 1	CC 2	CC 3	NMU	AR
Density (units per acre)	42	21	32	21	32, max 102 units	42	21	32
Max FAR	1.0	0.5	0.5	0.5	0.5	0.5	0.5, 40,000 sf ground floor max	0.5
Height Limit	110 ft or 10 stories, whichever is less	50 ft or 4 stories, whichever is less	75 ft or 7 stories, whichever is less	Depending on project site location, between 35-75 feet			50 ft or 4 stories, whichever is less	50 ft or 4 stories, whichever is less
Lot Size (sq. ft.)	22,500	15,000	15,000	10,000	5,000	15,000	15,000	15,000

## Specific Plan SubZones Standards

Table 12-24 shows the develop standards for the Community Center and Harbor Corridor Specific Plans.

**Table 12-24**  
**Specific Plan SubZone Standards**

Specific Plan SubZones	Community Center Specific Plan					Harbor Corridor Specific Plan	
	CR	CCR		PR		TN	TW
		20, 25, 35	22	55, 57, 14	3 to 51, 61		
Density (units per acre)	36	23	36	8	36	36	36
Height Limit	70 ft.	50 ft.	50 ft.	35 ft.	35 ft.	35 ft.	45 ft.
Lot Size (sq. ft.)	35,000	20,000, 35,000, 25,000	Per SPA #121-83	20,000, 65,000	17,000 to 20,000	15,000 (150') <sup>1</sup> 10,000 (100') <sup>2</sup>	50,000 (200')

Source: Harbor Corridor Specific Plan

Note: 1) 15,000 sq. ft. lot size with 150 feet street frontage; 2) 10,000 sq. ft. lot size with 100 feet street frontage; 3) 50,000 sq. ft. lot size with 200 feet street frontage.

## Small Lot Subdivisions

Small lot subdivisions are permitted in the R-2, R-3, CC-1, and CC-3 zones with a minimum lot size of one acre and a minimum of six units. The parking requirement of 3.75 spaces per unit, inclusive of an 0.75 space per unit for guest parking.

## Planned Unit Development (PUD)

The PUD process facilitates General Plan implementation and provides for a diversity of uses, relationships, and open spaces in an innovative land plan and design. PUD sites are required to be a minimum of three acres for residential development and five acres for mixed-use. All base zone development standards apply to PUDs. However, outside the Mixed-Use district, PUDs may exceed the maximum residential density of the base zone. In addition, PUDs in the Mixed-Use district may not modify the following standards of the base zone:

- Regulations relating to drive-through establishments in all Mixed-Use zones
- Front yard setbacks in the GGMU-1, GGMU-2, and GGMU-3 zones
- Storefront requirements for any of the CC zones.
- Setback requirements

The City considers the PUD minimum site size requirements as a constraint and is considering reducing the lot size minimums.

### Special Use Districts/Overlay Zones

Regulations for each zone identify a category of “Special Use” districts that are established for the purpose of implementing the General Plan. Their regulatory functions are similar to overlay zones and sometimes include different permit requirements, development standards, and other requirements to address special conditions and regulatory needs to ensure harmonious relationships with other land uses. The list includes regulations specific to conversions of rentals into condominiums (Conversion of Multiple-Family Residential Units)” and the City’s density bonus regulations (Density Bonuses and Other Incentives for Affordable Housing). **Table 12-25** shows the Special Use Districts and Overlay Zones with the corresponding Base Zones.

**Table 12-25  
Special Use Districts/Overlay Zones**

Special Use Districts	Base Zones
Planned Unit Development	All zones
Flood Hazard Overlay Zone (FH)	All zones
Trask Overlay Zone	Single-Family Residential
Gilbert Street Overlay Zone	Single-Family Residential
Transition Overlay Zones	Multifamily Residential and Commercial,
Historic Cultural Overlay Zone	Currently, there are no base zones associated with the Historic Cultural Overlay Zone. However, the City may use this overlay zone on properties that are considered historic in the future.
Transportation Corridor Overlay Zone (T-C)	Commercial, Industrial, and Open Space
Open Space Zone	Commercial, Industrial, Open Space
Conversion of Multiple-Family Residential Units	Single-Family Residential and Multiple-Family Residential
Density Bonuses and Other Incentives for Affordable Housing (2011)	All zones that allow residential development
Emergency Shelter Overlay Zone (2011)	M-1 Limited Industrial

### Flood Hazard Overlay Zone (FH)

Developments in the FH zone are subject to additional permitting and review. Depending on the zoning and floodplain designation, the development may be required to have the finished floor of the structure above the base flood elevation.

---

---

## Transportation Corridor Overlay Zone (T-C)

This zone applies to the OCTA right-of-way and is not feasible for residential development.

## Transition Overlay Zone (T)

The overlay zone incorporates Multiple-Family Residential Transition R-3(T) Zone and Neighborhood Commercial Transition C-1(T) Zone. The Transition Overlay Zone (T) is intended to encourage recycling of underutilized properties and consolidation of developable land. The zone contains special development standards, design criteria, and lot consolidation to facilitate this transition. Commercial development may be considered for transition into multiple-family residential (R-3) areas through a zone change application from C-1(T) to R-3(T).

## Open Space Zones

The zone allows for a single-family residence on a lot no less than an acre.

## Historical-Cultural Overlay Zone (HC)

The zone is intended to preserve and enhance historical and cultural sites. A caretaker's residence, when incidental to primary use, is allowed in the Historical-Cultural Overlay Zone. The zone incorporates the development standard of the base zone, along with consideration of "aesthetically pleasing design" in the placement of buildings, parking, and open space.

## Specific Plans

The Land Use Code incorporates three specific plans (Harbor Corridor, Community Center, and Brookhurst/Chapman) and the specific plan criteria for uses, development standards, design, and other provisions. These specific plans were adopted in 1985 (Harbor Corridor and Community Center) and 1989 (Brookhurst/Chapman Specific Plan).

The Harbor Corridor Specific Plan allows residential uses in Transition Zone North and Transition Zone West use districts; however, the plan's regulations are complex and require that projects be reviewed through a fairly subjective process. Building heights are limited to 35 feet in Transition Zone North and 45 feet in Transition Zone West.

The Community Center Specific Plan allow multifamily residential in several districts, including the Core Residential District, Community Center Residential District, and the Peripheral Residential District. In the highest density district, building heights up to 70 feet are allowed, although density is capped at 36 units per acre.

The Brookhurst/Chapman Specific Plan does not allow residential uses.

---

---

## Parking

Excessive parking standards that are not reflective of actual parking demand can pose a significant constraint to housing development by increasing development costs and reducing the potential land available for project amenities or additional units. According to the U.S. Census American Community Survey (2019 5-Year Estimates), 64.7 percent of Garden Grove households own two or fewer vehicles, and 75 percent of renter households own two or fewer vehicles. However, developers may still choose to “oversupply” parking spaces to respond to perceived market demand, as well as in response to pressure from financial investors or neighborhood opposition.<sup>5</sup> Key parking standards that drive development costs are the number of required parking spaces, minimum stall sizes, and garage/carport requirements.

**Table 12-26** identifies minimum required parking spaces for various housing developments. These spaces must be provided on-site and based on the zoning and type of project, the parking must be provided within an enclosed garage, as carports or within a parking structure. Parking calculations for residential projects include guest parking. In mixed-use developments, the commercial component requires loading spaces. The City commissioned a parking study, in 2005, to establish these parking requirements.

In the Land Use Code, the number of spaces for multifamily development diminishes with an increase in the number of units and location of such project. Larger multifamily developments (defined as more than 50 units) indicated a lower parking demand per dwelling unit (as shown by a 2005 City traffic study) and as a result have fewer spaces required. If the project is not adjacent to an arterial street, fewer parking spaces are required. Higher parking levels are required on Major or Secondary Arterial because these roadways do not allow for street parking.

## Waivers

The Land Use Code allows housing developers the ability to seek waivers of parking standards where they are insufficient or excessive due to the nature of the use involved—or other relevant circumstances. The Director may approve a reduced parking requirement upon the submittal of a parking study for emergency shelters. The Land Use Code provides alternative arrangements to accommodate parking requirements. If parking is provided on a site other than the subject site, an irrevocable access and/or parking easement is required. Parking spaces in automated parking systems and vertical parking lifts may be utilized to meet the required number of parking spaces in Mixed Use Zones only.

---

<sup>5</sup> Parking? Lots! Parking Over the Minimum in the City of Los Angeles. June 2019. Katelyn Stangl. University of California, Los Angeles

**Table 12-26  
Parking Spaces Required**

Use	Standard (Spaces per Unit)				
	Less than 50 Units		50 or More Units		
	Adjacent	Not Adjacent	Adjacent	Not Adjacent	
	To any Principal, Major, Primary or Secondary Arterial Street				
<b>Single-Family Home (R-1)</b>					
1 to 4 sleeping rooms	4 spaces (2 garaged)		Not applicable		
5 to 7 sleeping rooms	6 spaces (3 garaged)				
Over 7 sleeping rooms	8 spaces (4 garaged)				
<b>Multiple-Family Dwelling Units (R-2 and R-3)</b>					
Less than 3	Sleeping Rooms	2.75	2.5	2.75	2.5
More than 3		3.5	3.25	3	2.75
<b>Multiple-Family Dwelling Units (Mixed-Use)</b>					
<i>Standalone Residential</i>					
2 sleeping room		2.75	2.5	2.75	2.5
3 or more sleeping rooms		3.5	3.25	3	2.75
<i>Part of Mixed-Use Development</i>					
Fewer than 1 sleeping room			2		2
1 sleeping room			2.25		2.25
2 sleeping rooms			2.75		2.75
3 or more sleeping rooms			3.5		3
Mobile home park	2 covered spaces per mobile home site plus 1 guest parking space for each 4 units				
Boarding/lodging	1 space per bedroom				
Community residential care facility	0.5 space per bed				
<b>Senior Citizens Facilities</b>					
Apartment	1 space per unit				
Congregate—General care	0.5 space per bed or unit				
Congregate—General care with on-site transportation provided	0.3 space per bed or unit				
Senior secondary housing	1 enclosed and 1 open parking space				

---

---

## LOCALLY ADOPTED ORDINANCES

State law requires that cities include an analysis of any locally adopted ordinance that directly impacts the cost and supply of residential development.

### Conversions between Residential and Other Uses

The Land Use Code contains provisions that have the potential to affect housing supply. Any legally established single-family home located in the CC-1 zone may be converted to a commercial structure and use with discretionary approval.

### Timelines

Chapter 9.32 (Procedures and Hearings) establishes regulations for public hearings, appeal periods, and effective date of action when the developer can begin the building permit process for applications requiring a hearing. Developments requiring legislative changes represent the most complex projects. These include the process of preparing of more complex environmental documents subject to a lengthier review period established by the California Environmental Quality Act. Development applications, including environmental review, are consolidated for projects that include multiple application types allowing for a streamlined process. The Housing Accountability Act applies to the City's timeline of review of housing development applications.

**Table 12-27** shows the typical process time for projects that do not require public hearings or a subdivision map. These time periods begin when a complete permit application is submitted and are extended when the City requests additional information. The timeframes are target issuance date—when the applicant can expect a decision on an application.

**Table 12-27**  
**Timelines for Permit Procedures**

Type of Approval, Permit, or Review	Typical Processing Time
Single- Family, including ADUs	2-4 weeks
Duplex and Triplex	3-5 weeks
Multi-family	8-12 weeks
Residential Care, Six or Less Persons	2-4 weeks
Residential Care, Seven or More Persons	8-12 weeks

The City has worked to improve the permit process through its one-stop counter and streamlined processing. The reduction in processing time results in a shorter holding time for the developer, which translates to cost savings that should be reflected in the prices or rents for the end products. The timeline for approval/public hearing includes 8 to 10 weeks from determination of complete application to the appropriate hearing body. The City also allows for parallel submittal of Building plans with entitlement submittals to help further fast track a project.

---

---

## SPECIFIC HOUSING CONSTRAINTS

The analysis below examines whether land-use controls constrain the development of multifamily rental housing, factory-built housing, mobile homes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing. Almost every zone in the Garden Grove allows for some type of housing. The Land Use Code provides a comprehensive set of review processes, with a low threshold before discretionary review is required.

### Multifamily Rental Housing

Multifamily developments inclusive of rental or for-sale units are permitted citywide on properties zoned for multifamily and mixed-use. The Land Use Code identifies provisions that puts rental housing at a relative disadvantage. Rental housing not requiring a subdivision is disadvantaged in that exceptions to certain standards identified under Section 9.40.210 Multifamily Developments—Exception to Standards are not afforded to rental housing. These exceptions include standards relating to lot size, width and shape and exceptions to the requirement that lots abut on a street. This exception also allows waivers from off-street parking and recreation area requirements, but only if they require a subdivision, which typically excludes multifamily rental housing. In addition, exemptions from water fees are available only to low-density residential uses.

Section 9.12.030.030 (Conversion of Multiple-Family Residential Unit) establishes criteria for regulation of the conversion of existing multiple residential rental units and divisions of land that accommodate any conversion of rental units to ownership units with the following stated intent:

- Provide opportunities for individual ownership of individual housing units;
- Increase the opportunities for qualifying low- and moderate-income households to acquire and reside in ownership housing;
- Assist the City to meet its stated commitment to low- and moderate-income housing goals as set forth in the City of Garden Grove Consolidated Plan, Implementation Plan and the Housing Element of the General Plan;
- Reduce the impact of conversion on residents in rental housing who may be required to relocate; and
- Ensure that purchasers of converted housing have been properly informed as to the conditions of the unit.

Its provisions do not address low- and moderate-income housing available for renters, nor does it require replacement of affordable housing.

### Accessory Dwelling Units (ADU) and Junior Accessory Dwelling Units (JADU)

Effective January 1, 2020, AB 881, AB 68, and SB 13 invalidated local ADU/JADU ordinances throughout the State, including the City's current ADU/JADU ordinance adopted in 2017. In March of 2021 the City adopted a new ADU Ordinance that became effective in April of 2021 that

---

---

complies with State Law. Between January 2020 and April 2021, all ADU/JADU permits were reviewed and processed consistent with Government Code Section 65852.2. ADU/JADU applications are processed concurrently with review of building permits. ADU plan check reviews, which are not acted upon by the City within the 60-day period, are automatically approved. ADU applications that do not meet all the minimum development standards and the plan check submittal requirements are not accepted for plan checks.

### **Mobile homes/Factory-built housing**

Individual mobile and manufactured homes are allowed in residential zones. “Mobile home park” is a term defined to include five or more mobile manufactured home sites and such developments are permitted in the R-3 zone. The zone’s development standards allow for the denser configurations of mobile home parks. Preserving existing mobile home parks has been and continue to be a City objective in protecting affordable housing.

### **Single-Room Occupancy (SRO)**

Single-room occupancy hotels and/or boarding homes are one-room units intended for occupancy by a single individual. The Land Use Code identifies the following room-based housing types for individuals:

- “Halfway house” means a facility that offers temporary housing to two or more probationers or parolees after their release from an institution, such as a prison, a hospital or a rehabilitation facility, to facilitate reintegration into society, and may provide supportive or monitoring services. The use is conditionally permitted in the R-3 zone.
- “Boarding/lodging facility” means a residence or dwelling in which three or more rooms, with or without individual or group cooking facilities, are rented to individuals under separate rental agreements or leases, either written or oral, whether or not an owner, agent or rental manager is in residence or a residence or a dwelling rented to individuals that does not otherwise constitute a single housekeeping unit. The use is conditionally permitted in the R-2 and R-3 zones.

### **Emergency Shelters and Low-Barrier Navigation Centers**

Emergency shelters are facilities for the temporary shelter and feeding of unhoused individuals and families, disaster victims, or persons facing other difficulties, such as domestic violence. As required by SB 2, the City amended the Land Use Code to allow emergency shelters without discretionary review in the Emergency Shelter Overlay Zone in the M-1 zone, which encompasses 144 acres. One area of the City that is zoned M-1 (Limited Industrial): the eastern industrial area near Harbor Boulevard and Westminster Boulevard.

The eastern industrial area is bounded by Harbor Boulevard, Westminster Boulevard, Newhope Street, and Trask Avenue. This area consists of 117 acres of M-1 zoned properties that accommodate a wide range of manufacturing, industrial, and commercial uses. The standards for this district are intended to accommodate a full range of light and medium-intensity

---

---

manufacturing and industrial activities and automotive services. This area has sufficient capacity for at least one year-round shelter. Seventy-four properties are zoned M-1, with an average parcel size of about one acre. Realizing the expense associated with new construction, Garden Grove identified this zone to have a mix of medium- to large-sized buildings that could transition to reuse as homeless shelters.

Properties in the eastern industrial area are served by regional transportation options, with access to Harbor Boulevard and Westminster Boulevard bus routes. This area also includes the terminus of the OC Streetcar line, with a station planned at the intersection of Harbor Boulevard and Westminster Boulevard. Based on the size of the zone identified, opportunities for adaptive reuse of existing buildings, and ready access to services and transportation, the zone has sufficient capacity to accommodate the City's homeless population need in at least one year-round shelter. (In 2019, there was a total of 225 homeless individuals in Garden Grove, 72 percent of whom were unsheltered).

Section 9.16.020.050(W) identifies standards, including a minimum distance of 300 feet from any other emergency shelter and a maximum of 60 beds or persons. Off-street parking is required at one space per four beds and/or 0.5 per bedroom designed as a family unit with children, plus one per staff member. The Open Space Zone conditionally permits "group shelter;" however, they are not considered as emergency shelters for the purpose of meeting State requirements.

AB 101 requires that the City allows Low Barrier Navigation Centers, and supportive housing developments to be an allowed "use by right" in areas zoned for mixed uses and nonresidential zones permitting multifamily uses. Garden Grove is subject to State law when processing Low Barrier Navigation Centers.

### **Transitional and Supportive Housing**

State law requires cities to allow transitional and supportive housing as a residential use and allowed by right in all zones that allow similar residential uses, consistent with SB2. Supportive housing is a model that is targeted to support those who have experienced long-term or chronic homelessness because of drug abuse, disabilities, or a long history of homelessness. Using a combination of affordable housing with social services for individuals and families, supportive housing programs are centered around efforts to permanently keep those in the program from becoming homeless again. Transitional housing is a type of supportive housing which provides longer-term housing (up to two years), coupled with supportive services such as job training and counseling, to individuals and families who are transitioning to permanent housing.

The City defines transitional housing in the Garden Grove Municipal Code (9.04.060 Definitions) as follows:

*"Transitional housing" means temporary rental housing with length of stay that ranges between six months to two years for homeless individuals or families who are transitioning to permanent housing, operated under program requirements that call for the termination*

---

of assistance and recirculation of the assisted unit to another eligible program recipient at some predetermined future point in time. “Transitional housing development” means a housing development configured such that each unit constitutes a unit of transitional housing and includes the following:

1. **“Residential apartments”** means with two or more dwelling units on one parcel, where each unit functions as a single housekeeping unit. This use is subject to the duplex/triplex or multiple-family dwelling development standards of the zoning code.
2. **“Residential group living six persons or less”** means one residential facility, on a parcel, with six residents or less (including minor children), excluding staff, that operates as a group living facility where the residents share a common living area and a kitchen. The facility is similar to a residential community care facility with six persons or less, and subject to the same development standards.
3. **“Residential group living seven persons or more”** means a residential facility, with seven or more residents, excluding staff, that operates as a group living facility where the residents share a common living area and a kitchen. The facility is similar to a residential community care facility with seven persons or more, and subject to the same development standards.

The definition clarifies that any transitional housing that operates within any multifamily unit will fall under the same regulatory standards as any other residential multifamily use. Residential Group Facilities are considered community care facilities not in a residential unit and thus a commercial use of land; therefore, they are subject to the requirements of any other community care facility.

Effective January 1, 2019, AB 2162 (Supportive Housing Streamlining Act) requires supportive housing to be considered a use by right in zones where multifamily and mixed uses are permitted, including nonresidential zones permitting multifamily uses, if the proposed housing development meets specified criteria. The law prohibits the local government from imposing any minimum parking requirement for units occupied by supportive housing residents if the development is located within one-half mile of a public transit stop.

### **Housing for Agricultural Employees (permanent and seasonal)**

The Employee Housing Act (Government Code Section 17021.5 and 17021.6) requires that any employee housing occupied by six or fewer employees shall be considered a single-family structure within a residential land use and must be treated the same as a single-family dwelling of the same type in the same zone. There are no commercial growing operations in Garden Grove that require specialized labor forces. The City complies with Health and Safety Code section 17021.5 with regard to employee housing with six or fewer persons, as such housing is considered a standard residential use of property

---

---

## **CODES AND ENFORCEMENT**

Garden Grove implements the 2019 edition of the California Building Code and 2019 edition of the California Green Building Standards Code. These codes establish standards and require inspections at various stages of construction to ensure code compliance and minimum health and safety standards. Although these standards and the time required for inspections increase housing production costs and may impact the viability of rehabilitation of older properties, the codes are mandated by State law (California Code of Regulations, Title 24, Building Standards Code) for all jurisdictions in California.

### **Continuance of Nonconforming Uses, Buildings and Properties**

Chapter 9.36 of the Land Use Code describes the City's regulations nonconforming uses, buildings, structures, and lots. The section protects legal nonconforming single-family and multifamily residences and provides for their continued improvement, including expansion over time. Nonconforming residential properties may be improved with structural alterations, additions, ordinary repairs, and maintenance work without being construed to increase the degree of nonconformance.

## **HOUSING FOR PERSONS WITH DISABILITIES**

This section analyzes potential governmental constraints to the development, improvement, and maintenance of housing for people with disabilities; demonstrates local efforts to remove any such constraints; and provides for reasonable accommodations for persons with disabilities through programs that remove constraints. The Building Code does not contain provisions that target housing accessible to persons with disabilities.

### **Zoning and Land Use**

Under the State Lanterman Developmental Disabilities Services Act (aka Lanterman Act), small State-licensed residential care facilities for six or fewer persons must be permitted in all zones that allow single- or multi-family uses, subject to the same permit processing requirements and development standards; Garden Grove is compliant with the Lanterman Act.

The City has no special zoning or land use restrictions that regulate the siting of housing for persons with disabilities. The City has no separation requirements or alternative site planning requirements for housing for the disabled. The City defers to State law for siting and standards for housing for the disabled. The City encourages the development of and equal access to housing for special needs groups, including seniors and the disabled by reducing the parking requirements. Senior apartments require only one space per unit. Congregate care facilities require only 0.5 space per unit or bed; this can be reduced to 0.3 space if the facility provides on-site transportation.

In accordance with State law, Garden Grove permits State-licensed residential care facilities serving six or fewer persons in all of its residential zoning districts. Several housing types for persons with disabilities require a CUP that is no more stringent than those for other conditional uses:

- 
- 
- State-licensed residential care facilities serving seven or more persons, and convalescent centers are conditionally permitted in the R-3, O-P (Office Professional), and C-1 (Neighborhood Commercial), GGMU-1,2,3, CC-1 and NMU districts

In approving State-licensed residential care facilities serving seven or more persons, the Planning Commission or Zoning Administrator is required to make CUP findings that are the same for all CUP-required uses. No special findings are required specifically for a Residential Care Facility for seven or more persons. There are also no special standards and no standard conditions of approval needed specifically for a Residential Care Facility serving seven or more persons.

### **Definition of Family**

Inclusion of an overly restrictive definition of a “family” in the Land Use Code may have the potential of discriminating against group homes or other housing for persons with disabilities on the basis of familial status. The Garden Grove Municipal Code does not include a definition of “family.” The Land Use Code defines “Duplex or triplex”, “Residential, Limited Multiple-Family” and “Residential, Multiple-Family” in terms of the number of families for the building is designed for. For supportive and transitional housing, occupants are identified as “single housekeeping unit” means the functional equivalent of a traditional family, whose members are an interactive group of persons jointly occupying a single dwelling unit.

### **Reasonable Accommodation**

The City’s Reasonable Accommodation policy is established under Resolution No. 9144-12. “Reasonable accommodation” means a modification to a City’s zoning, land use, or building laws, regulations, policies, practices, or procedures when the modification is reasonable and necessary to avoid discrimination on the basis of disability. A request pursuant to this policy is processed in the same manner as a Minor Deviation under Chapter 9.32 of the Garden Grove Municipal Code, except that the Zoning Administrator shall determine whether or not to approve the request for reasonable accommodation. The Zoning Administrator may approve, approve subject to conditions, modify, or deny the request. In approving a reasonable accommodation application, the Zoning Administrator makes written findings specifically tailored to the request. Information regarding reasonable accommodation is not part of a standard application, user fees, or brochures to let the public know about the process. The Building and Safety Division administers the American with Disability Act through its review of building plans for construction.

The Garden Grove Housing Authority has a Reasonable Accommodation application. Housing Authority staff engages in discussion with an individual or family to determine what policy exception or reasonable accommodation is being requested and to identify acceptable alternative accommodations if necessary. The City of Garden Grove does have a reasonable accommodation policy. Program 23 (Reasonable Accommodation) has been added to prepare a Reasonable Accommodation application by the Community and Economic Development Department and develop related promotional materials advertising the availability of the process.

---

---

## Fees and Exactions

Development fees and taxes charged by local governments contribute to the cost of housing. Building, zoning, and site improvement fees can significantly add to the cost of construction and sometimes have a negative effect on the production of affordable housing. A comparative analysis of building fees by the Building Industry Association of Orange County shows that Garden Grove has fees comparable to and in some cases lower than neighboring jurisdictions (Fountain Valley, Santa Ana, Stanton, and Westminster). The City revises and updates the schedule of fees, “the User Fees for Various City Services”, with the latest version effective February 2019. The fee schedule includes permit and processing fees and development impact fees.

## On-/Off-Site Improvements

Site improvements and property dedications are important components of new development and contribute to the creation of decent housing. Housing construction in Garden Grove is subject to a variety of site improvement and building code requirements. Developers are generally responsible for covering the full cost of water, sewer, road, and drainage improvements within their projects.

Chapter 9.40 requires the minimum improvements that a subdivider will be required to make, or enter into an agreement to make, in the subdivision, prior to the acceptance and approval of the final map by the City Council. These requirements identified below protect the health, welfare, and public safety of residents and establishes adequate infrastructure to serve new housing. Some of the improvements listed, such as ornamental street signs and intersection widening, may be outdated.

1. Separate and adequate distribution lines for domestic water supply to each lot;
2. Sewage collecting system, where main lines of an adequate disposal system are available;
3. Adequate drainage of the subdivision streets, highways, ways and alleys;
4. Adequate grading and surfacing of streets, highways, ways and alleys;
5. Concrete curbs, gutters and cross gutters;
6. Concrete sidewalks;
7. Survey monuments;
8. Fire hydrants at locations designated by the City Engineer;
9. Street name signs, two to each intersection;
10. Traffic control devices;
11. Necessary barricades and safety devices;
12. Fee for the planting of parkway trees, as provided in this title;
13. Ornamental street signs;

14. All street, vehicular and pedestrian ways within a condominium project shall be improved meet the same city standards as is required for public streets, and associated improvements;
15. Undergrounding of all existing and proposed on-site and off-site utility facilities shall be pursuant to Chapter 9.48. Subsection B of this section shall not apply to the undergrounding of utilities;
16. Fees for, or dedication of, park and recreation facilities;
17. Intersection widening;
18. Highway safety lighting;
19. Turnout bays;
20. Median islands.

### Permit and Processing Fees

Government Code Section 66020 requires that planning and permit processing fees not exceed the reasonable cost of providing the service or impact, unless approved by the voters; agencies collecting fees must provide project applicants with a statement of amounts and purposes of all fees at the time of fee imposition or project approval. **Table 12-28** lists user fees for all application permits required by a residential project.

**Table 12-28  
Planning Fee Schedule**

Fee	Amount
Director's Review—Existing Single Family	\$175.00
Director's Review—Duplex and Triplex	\$1,600.00
Director's Review—All Others	\$600.00
Front Yard Determination	\$175.00
Street Vacation	\$1,850.00
Zone Change	\$2,700.00
Site Plan	\$3,375.00
General Plan Amendment	\$,2925.00
Specific Plan	Cost + 15%
Conditional Use Permit (All)	\$3,150.00
Variance--Existing single-family residential lot	\$500.00
Variance--All others	\$2,525.00
Tentative Tract Map	\$3,788+\$17.00/lot
Tentative Parcel Map	\$2,138+\$17.00/lot
<b>Planning Fees</b>	
Lot Line Adjustment	\$1,465.00
Planned Unit Development	\$4,725.00
Modification to Approved Plans	1/2 cost of current fee

**Table 12-28  
Planning Fee Schedule**

<b>Fee</b>	<b>Amount</b>
Home Occupation Permits	\$150.00
Ordinance Amendments	\$2,625.00
Interpretation of Use by Zoning Administrator	\$325.00
Interpretation of Use by Planning Commission	\$575.00
Environmental Impact Report	Cost + 15%
Environmental Impact Monitoring	\$50.00/hour
Negative Declaration	\$775.00
Notice of Exemption	\$200.00
Mitigated Negative Declaration	\$1050.00
Time Extension	50% of original fee paid
Letters of Zoning Confirmation	\$85.00
Letters of Flood Plain	\$85.00
CC&R's Review	\$300.00
Ministerial Screening	\$100.00
Administrative Review for Extension of Hours	\$250.00
Pre-Application Review	\$700
Neighborhood/Community Meeting Fee	\$450.00
Public Noticing Fee (with legal ad)	\$345.00
Modification to Conditions of Approval	1/2 cost of current fee
Planning Document Retention Fee	\$35.00
<b>Plan Check Fees</b>	
Single Family Residential (Up to three houses)	20% of building permit fee, not to exceed \$50.00
All Other Residential	10% of building permit fee, not to exceed \$50.00

### Capital Facilities Fees and Exactions

Government Code Section 66000 et seq. (Mitigation Fee Act) sets forth procedural requirements. In 2017, the Garden Grove City Council adopted Ordinance No. 2877 establishing the following development impact fees: Citywide Park Fees and In-Lieu Park Fees, Transportation Facilities Fees, and Drainage Facilities Fees.

Chapter 9.44 (Mitigation Fees) identifies six development impact fees. This list is not exhaustive of all capital facilities fees imposed on developments. All fees the City imposes on a development are provided in "the User Fees for Various City Services." Mixed-use development may be charged other fees for non-residential components such as Art in Public Places. See **Table 12-29** for listing of mitigation fees.

**Table 12-29  
Mitigation Fees**

Fee Type	Single Family	Multi-Family
Parks - Quimby	\$11,794 per dwelling unit	\$9,804 per dwelling unit
Parks – Non-subdivision	\$6,061 per dwelling unit	\$5,038 per dwelling unit
Water and Sewer	\$950.00 per acre + Nonarterial streets: \$4.50 per front foot Arterial streets: \$8.00 per front foot	\$1,400.00 acre + Nonarterial streets: \$4.50 per front foot Arterial streets: \$8.00 per front foot
Drainage Facilities	\$0.27 per square feet	\$0.18 per square feet
Transportation Facilities Fee	\$1,600 per dwelling unit	\$990 per dwelling unit
General Plan and Cultural Arts Fee	\$2.00 plus \$1.75 per \$1,000.00 or fraction thereof of valuation	
Parkway Trees	\$2.50 per linear feet	

Source: City of Garden Grove Development Impact Fee Annual Report, Fiscal Year 2019-2020

### Hypothetical Fees

**Table 12-30** identifies the hypothetical fees that would be collected for a new 2,000-square-foot single-family house and a 10-unit multifamily project. Development fees make up approximately two to three percent of a home purchase price. However, while impact fees are relatively straightforward to calculate, according to the UC Berkeley Turner Center for Housing Innovation<sup>6</sup> estimating the full stack of development fees is often challenging. Developers need to be able to estimate their local costs in order to draft precise proformas and accurately assess the feasibility of a project. In addition, tracking the full range of development fees would help localities gauge the effect of adding any type of fee on local development costs.

According to the Turner Center report, cities often rely on geographic-specific impact fees to account for variations in infrastructure costs. This practice ensures that fee rates reflect the cost of improvements and distributes the cost among developments that will benefit from the new infrastructure. The Turner Center report found that fees varied by as much as \$19,100 per unit for a multifamily project and by as much as \$29,600 per unit for a single-family project. Variations in fee levels reflect differences in local housing markets, as well as in local funding strategies and priorities.

<sup>6</sup> Residential Impact Fees in California, Current Practices and Policy Considerations to Improve Implementation of Fees Governed by the Mitigation Fee Act. UC Berkeley Turner Center. August 2019.

**Table 12-30**  
**Proportion of Fee in Overall Cost for a Typical Residential Development**

Development Cost for a Typical Unit	Single-Family (1 unit)	Multi-Family (10 Units)
Total estimated fees per unit	\$14,477	\$11,675
Typical estimated cost of development per unit	\$14,477	\$11,168
Estimated proportion of fee cost to overall development cost per unit	2.1%	0.2%

### 12.3.3 AT-RISK ANALYSIS

Government Code Section 65583(a)(9) requires that this Housing Element include an analysis of existing assisted housing developments (as defined by the statute) eligible to change from low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on the use. Assisted housing developments are multifamily rental housing projects that receive or have received government assistance under federal programs (e.g., State and local multifamily revenue bond programs, local redevelopment programs, the federal Community Development Block Grant Program, and HOME Investment Partnerships Program).

Over the next 10 years (2021-2031), seven assisted developments that provide 525 affordable, multifamily units have expiring affordability covenants (**Table 3-31**). Affordability covenants in Garden Grove include developments that hold a Federal Section 8 contracts and/or were financed with local or federal programs (e.g., CDBG, HOME).

### PRESERVATION AND REPLACEMENT OPTIONS

Most of the at-risk units listed in **Table 12-26** are unlikely to convert to market rate given the non-profit ownership structure of the projects. Nevertheless, the affordable housing units listed in **Table 12-26** are considered at risk of converting to market-rate in the next 10 years and must be analyzed in this Housing Element. Preservation of at-risk projects can be achieved in a variety of ways, with adequate funding availability. Alternatively, units that are converted to market rate may be replaced with new assisted multi-family units with specified affordability timeframes.

**Table 12-31  
At-Risk Developments**

Name	Address	Total Units	Affordable Units	Funding Source	Affordability Expiration	Affordability Level	Risk Assessment
12131 Tamerlane Dr.		4	4	CDBG	2022	Low-Income	Low risk: owners are refinancing and consolidating various loans and extending affordability on all units for 55 yrs. Owner is working with the City to potentially obtain financial assistance.
12202 Tamerlane Dr.		6	4	HOME	2020	Low-Income	
12181 Tamerlane Dr.		6	4	HOME	2020	Low-Income	
12201 Tamerlane Dr.		6	4	HOME	2020	Low-Income	
12141 Tamerlane Dr.		4	4	HOME	2021	Low-Income	
12182 Tamerlane Dr.		6	4	HOME	2021	Low-Income	
12161 Tamerlane Dr.		4	4	HOME	2021	Low-Income	
12171 Tamerlane Dr.		4	4	HOME	2023	Low-Income

## RENTAL ASSISTANCE

State, local, or other funding sources can be used to provide rental subsidies to maintain the affordability of at-risk projects. These subsidies can be structured to mirror the Section 8 program, whereby the subsidy covers the cost of the unit above what is determined to be affordable for the tenant’s household income (including a utility allowance) up to the fair market value of the apartment. Given the mix of unit sizes and affordability levels, the total annual subsidy to maintain the 525 at-risk units is estimated at about \$4.8 million<sup>7</sup>.

### Transfer of Ownership

If the current nonprofit organizations managing the units at risk are no longer able to maintain the project, transferring ownership of the affordable units to another nonprofit housing organization is a viable way to preserve affordable housing for the long term. The estimated market value for the 525 affordable units potentially at risk of converting to market rate is close to \$110 million.

## CONSTRUCTION OF REPLACEMENT UNITS

The construction of new low-income housing can be a means to replace at-risk units. The cost of developing new housing depends on a variety of factors including density, size of units, construction quality and type, location, and land cost. Assuming a development cost of \$167.27 per square foot (ICC Building Valuation Data 2020) and the estimated average size of units, the construction cost of replacing all 525 affordable at-risk units would be approximately \$71 million.

## ENTITIES INTERESTED IN PARTICIPATING IN CALIFORNIA'S FIRST RIGHT OF REFUSAL PROGRAM

An owner of a multifamily rental housing development with rental restrictions (e.g., is under agreement with federal, State, and local entities to receive subsidies for low-income tenants) may plan to sell an at-risk property. HCD maintains a database of listed qualified entities that may be interested in participating in California’s First Right of Refusal Program. If an owner decides to

<sup>7</sup> Rental subsidies are calculated using the difference in affordability (by income level and unit size) and the fair market rent for the metro area.

---

---

terminate a subsidy contract or prepay the mortgage or sell or otherwise dispose of the assisted housing development, or if the owner has an assisted housing development in which there will be the expiration of rental restrictions, the owner must first give notice of the opportunity to offer to purchase to a list of qualified entities provided to the owner.

HCD has listed 19 entities that may be interested in participating in California's First Right of Refusal Program in Orange County.<sup>8</sup> The list is located at <https://www.hcd.ca.gov/policy-research/docs/HPD-00-01.xlsx>. Included in the list is the Jamboree Housing Corporation, a nonprofit housing company that develops, acquires, renovates, and manages permanently affordable rental and ownership housing throughout California for working families, seniors, and people with special needs. Jamboree Housing Corporation owns and operates four affordable housing developments in Garden Grove.

## 12.3.4 FAIR HOUSING ASSESSMENT

### INTRODUCTION

In January 2017, California Assembly Bill 686 (AB 686) introduced an obligation to affirmatively further fair housing (AFFH). AB 686 defined “affirmatively further fair housing” to mean “taking meaningful actions, in addition to combat discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity” for persons of color, persons with disabilities, and other protected classes. The law added a requirement for an assessment of fair housing in the Housing Element to include the following components: 1) a summary of fair housing issues and assessment of the City’s fair housing enforcement and outreach capacity, 2) an analysis of segregation patterns and disparities in access to opportunities, 3) an assessment of contributing factors, and 4) an identification of fair housing goals and actions. For Garden Grove, the primary data sources for the AFFH analysis are the Orange County 2020 Analysis of Impediments to Fair Housing Choice (AI) and the State of California Department of Housing and Community Development (HCD) AFFH Data Viewer.

### ANALYSIS OF IMPEDIMENTS TO FAIR HOUSING CHOICE

Orange County’s Analysis of Impediments to Fair Housing Choice (AI) is an examination of structural barriers to fair housing choice and access to opportunity for members of historically marginalized groups protected from discrimination by the federal Fair Housing Act (FHA). The AI also outlines fair housing priorities and goals to overcome fair housing issues, with specific priorities and goals specific to the City of Garden Grove. The AI lays out meaningful strategies to be implemented as a means of achieving progress towards the County’s obligation to affirmatively furthering fair housing.

Fair housing is a condition in which individuals of similar income levels in the same housing market have like ranges of choice available to them regardless of race, color, national origin, religion, sex, disability, familial status, ancestry, age, marital status, gender, gender identity, gender expression, genetic information, sexual orientation, source of income, or any other arbitrary factor. The AI examines local housing conditions, economics, policies, and practices to ensure that housing choices and opportunities for all residents are available in an environment free from discrimination. The AI assembles fair housing information, identifies existing impediments that limit housing choice, and proposes actions to mitigate those impediments.

The federal Fair Housing Act and the California Fair Employment and Housing Act provide Orange County residents with some protections from displacement and work to increase the supply of affordable housing. In addition, jurisdictions throughout Orange County have worked diligently to provide access to fair housing through anti-housing discrimination work, creating housing opportunities designed to enhance resident mobility, providing zoning flexibility where necessary, and working to reduce hate crimes. Even so, these protections and incentives are not enough to stem the loss of affordable housing and meet the housing needs of low- and moderate-income residents.

---

---

Through the Orange County AI, Garden Grove has identified the following goals and strategies:

1. Garden Grove will **update the 2011 Density Bonus Ordinance** to comply with current State law. The update will streamline the approval process, increase feasibility, and facilitate future housing development at all affordability levels.
2. **Create Objective Residential Development Standards** to allow for streamlined housing development in all residential zones.
3. **Create Objective Development Standards for Supportive Housing**. These standards would be for new construction of Supportive Housing.
4. Evaluate the creation of **Objective Development Standards for Hotel/Motel/Office Conversion to Supportive Housing**.
5. Continue to **review and amend Garden Grove's current Accessory Dwelling Unit (ADU) Ordinance** to comply with State requirements and further increase housing supply.
6. Continue to **invest in landlord and tenant counseling and mediation services**, unlawful detainer assistance, housing discrimination services, homebuyer education and outreach, and local eviction prevention strategies.

## **FAIR HOUSING ASSESSMENT**

Fair housing is a condition in which individuals of similar income levels in the same housing market have like ranges of choice available to them regardless of race, color, national origin, religion, sex, disability, familial status, ancestry, age, marital status, gender, gender identity, gender expression, genetic information, sexual orientation, source of income, or any other arbitrary factor.

### **Complaints Filed with HUD**

A key service provided by both the Fair Housing Council of Orange County and the Fair Housing Foundation is the handling of fair housing complaints filed by residents in their service cities. According to data from both organizations, the number of reported formal complaints of alleged housing discrimination between three fiscal years (2012/13, 2013/2014, and 2014/15) tallied to 254 cases in Orange County. A comparison of the types of discrimination cases in Orange County shows that over one-half (53.9 percent) of the total cases were related to a person's disability, including both mental and physical disabilities. The next highest number of discrimination cases were related to familial status, which includes the presence of children under the age of 18 and pregnant women, comprising 21.2 percent of the total 254 cases. National origin and race were also frequent bases for alleged discrimination, representing 11.6 percent and 7.5 percent of all cases, respectively.

---

---

## Local Fair Housing Enforcement and Outreach

The HCD AFFH Data viewer provides additional information on local fair housing enforcement and outreach. Fair housing inquiries data from the U.S. Department of Housing and Urban Development (HUD) indicates that from 2013 to 2021, there were 30 inquiries originating from residents in Garden Grove, which is equivalent to 0.17 inquiries per 1,000 residents. The basis for complaints is only available for nine of the inquiries; in these cases, the basis for the complaint was based on disability, race, and national origin. Compared with surrounding jurisdictions, the number of inquiries per thousand residents is either lower or similar to Garden Grove, except for Anaheim (0.37), which has higher inquiries per thousand residents. Fountain Valley (0.09), Stanton (0.13), Westminster (0.17), and Santa Ana (0.19) have either lower or similar inquiry levels per thousand residents.

## SEGREGATION AND INTEGRATION

Segregation is the social division of human beings based on any number of factors, including race, ethnicity, or nationality. Racial segregation is one of the most common forms of segregation and is generally illegal but can still exist through social norms even when there is no strong individual preference for it. Racial integration, or simply integration, includes desegregation (the process of ending systematic racial segregation). In addition to desegregation, integration includes goals such as leveling barriers to association, creating equal opportunity regardless of race, and the development of a culture that draws on diverse traditions, rather than merely bringing a racial minority into the majority culture.

The AFFH analysis must address areas of ongoing and concentrated segregation and integration and compare concentrations of protected characteristics and incomes. The following information discusses the levels of segregation and integration for race and ethnicity, income, familial status, persons with disabilities.

### Race and Ethnicity

As of 2018, over 77 percent of the total population are Asian and Hispanic/Latino residents, at 40.4 percent and 37.0 percent, respectively. Since 2010, the City has seen a growth in Asian residents, with a 17 percent increase. The population that identifies as Hispanic or Latino grew less than one percent between 2010 and 2018, while the White population decreased 12 percent during that same time period. The Asian population total percentage (40.4 percent) is double that of Orange County's (19.9 percent). Garden Grove's Non-White population is 80.3 percent, whereas Orange County's is 59.1 percent.

**Exhibit H-3** illustrates which race or ethnicity is dominated heavily by one racial or ethnic group in Garden Grove. The map colors identify the predominant racial or ethnic group in specific areas (census tracts). The strength of the color indicates the extent to which one group is dominant over the next most populous. Garden Grove's racial and ethnic groups are concentrated within different geographic areas. The Asian majority neighborhoods are clustered in the center portion of the City, bordering Westminster's Vietnamese community. Hispanic/Latino dominant

neighborhoods are clustered on the eastern side, bordering Santa Ana and Anaheim neighborhoods, which also have a higher percentage of Hispanic/Latino populations. The White dominant neighborhoods are clustered to the west, bordering the cities of Cypress, Los Alamitos, and Seal Beach.

The Dissimilarity, Isolation, and Exposure Indices will illustrate some levels of segregation and integration within Garden Grove.

### Dissimilarity Index

The Orange County AI uses the dissimilarity index to identify segregation and disparities in access to opportunity. The Dissimilarity Index measures the percentage of a certain group’s population that would have to move to a different census tract in order to be evenly distributed within a city in relation to another group. The higher the Dissimilarity Index, the higher the extent of the segregation. **Table 12-32** below reflects the Dissimilarity Index for Garden Grove. Numbers for 2020 show the Asian or Pacific Islander/White Dissimilarity Index is the highest at 38.21. In the 1990s, the Asian population was highly segregated with the White population compared to the 2000s and subsequent decades.

**Table 12-32**  
**Dissimilarity Index Values by Race and Ethnicity**

Racial/Ethnic Dissimilarity Index (Garden Grove)	Trend			
	1990	2000	2010	2020
Non-White/White	25.06	31.79	32.16	34.96
Black/White	22.18	23.11	23.45	35.03
Hispanic/White	27.67	32.64	33.20	36.26
Asian or Pacific Islander/White	57.45	34.98	33.98	38.21

Source: Orange County Analysis of Impediments to Fair Housing Choice, 2020.

### ISOLATION AND EXPOSURE INDEX

In addition to the Dissimilarity Index, social scientists also use the Isolation and Exposure Indices to measure segregation. These indices, when taken together, capture the neighborhood demographics experienced, on average, by members of a particular racial or ethnic group within a city. The Isolation Index measures what percentage of the census tract in which a person of a certain racial identity lives is comprised of other persons of that same racial/ethnic group. Values for the Isolation Index range from 0 to 100. **Table 12-33** identifies the Asian population with the highest Isolation Index in Garden Grove, with a value of 45.9. Hispanic has the second highest value at 44.4.

**Table 12-33  
Isolation Index Values by Race and Ethnicity**

Isolation Index (Garden Grove)	Trend				
	1980	1990	2000	2010	2020
White/White	80.4	59.0	42.0	34.3	32.1
Black/Black	1.1	1.7	1.8	1.5	2.5
Hispanic/Hispanic	25.4	30.4	39.4	43.4	44.4
Asian/Asian	7.5	24.6	39.8	45.4	45.9

Source: Orange County Analysis of Impediments to Fair Housing Choice, 2020.

The Exposure Index is a group's exposure to all racial groups. Values for the Exposure Index also range from 0 to 100. A larger value means that the average group member lives in a census tract with a higher percentage of people from another group. **Table 12-34** identifies that the Hispanic and Asian have the highest Exposure Index Values at 30.0 or higher.

**Table 12-34  
Exposure Index Values by Race and Ethnicity**

Exposure Index (Garden Grove)	Trend				
	1980	1990	2000	2010	2020
Black/White	77	53	32.7	23.4	28.9
Hispanic/White	66.7	48.2	27.9	19.2	17.18
Asian/White	77	50.5	27.6	18.9	17.02
White/Black	0.8	1.3	1.4	1.4	1.48
Hispanic/Black	0.8	1.4	1.5	1.3	0.92
Asian/Black	0.9	1.4	1.4	1.3	0.89
White/Hispanic	11.5	20.7	27.8	31.3	31.25
Black/Hispanic	13.8	23.7	33	36.9	32.61
Asian/Hispanic	12.7	22.9	30.2	33.9	34.42
White/Asian	5.6	18.4	27.6	32.4	32.34
Black/Asian	6.2	21	31.4	37.7	32.74
Hispanic/Asian	5.4	19.4	30.2	35.6	35.94

Source: Orange County Analysis of Impediments to Fair Housing Choice, 2020.

In visualizing the distribution of non-white residents, concentrations can be observed. **Exhibit H-4** shows the distribution of non-white residents in Garden Grove based on 2018 block group data from HUD's AFFH Data Viewer. The block groups east of Knott Street are mostly composed of a non-white population that is 60 percent or higher. The areas with the least concentration of non-white residents are block groups west of Knott Street. Where some blocks have 40 percent or less of non-white residents. At a regional level, other cities such as Westminster, Anaheim, and Santa

---

---

Ana are all mostly non-white residents, similar to Garden Grove. The only neighboring city with a significant difference in demographics is Los Alamitos, where non-white populations are 40 percent or less.

### **Persons with Disabilities**

In Garden Grove, 16,841 residents with a disability represent 9.8 percent of City residents. The majority of residents with a disability are age 75 years or older (47.7 percent), followed by those between the ages 65 to 74 years of age (24 percent). The most prevalent disability types among disabled Garden Grove residents are ambulatory and independent living disabilities.

**Exhibit H-5** shows the population of persons with a disability by census tract using American Community Survey data from 2015-2019. Overall, the City has lower levels of persons with disabilities, though the west side has higher percentages than the east region, with 10 to 20 percent of residents living with a disability. Surrounding cities such as Westminster, Los Alamitos, and Stanton also have higher levels of persons with disabilities, compared to cities like Anaheim or Santa Ana.

### **Familial status**

Single-parent households require special consideration and assistance due to the greater need for services such as childcare, health care, and other services. In particular, female-headed households with children tend to have lower incomes and a greater need for affordable housing and accessible childcare and other supportive services. Economic constraints also place female-headed households at a greater risk of experiencing food insecurity and stress-related health problems.

**Exhibit H-6** shows the percent of children in married-couple households in the region and **Exhibit H-7** shows the percent of children in female-headed households (no spouse/partner) using ACS data from 2015-2019. The percentage of children living in married-couple households is higher than children living in female-headed households throughout the City. Most census tracts in Garden Grove have 40 percent or less of female-headed households, while the number of married-couple households across census tracts are 60 percent or higher. Neighboring cities also have about the same levels of familial statuses.

### **Income level**

According to the 2019 American Community Survey, the median household income for Garden Grove was \$72,240, which is lower than the Orange County median household income of \$95,934. Median household incomes differ by tenure; owner households earn \$91,614 versus \$55,684 for renter-occupied households. Census data estimates that 14 percent of Garden Grove residents live in poverty, as defined by the federal guidelines. This proportion is significantly higher than Orange County where 9.5 percent of residents live in poverty. **Exhibit H-8** identifies the geographic distribution of the poverty status by census tracts in the City.

---

---

**Exhibit H-9** demonstrates that the City is fairly mixed when it comes to income levels, with most block groups having a median income of \$87,000 or less. Households making about \$125,000 or more are located west of Knott Street. The one block group that stands out amongst the others is Block Group 1, in between Katella Avenue and Orangewood Avenue, where median income is \$30,000 or less.

## **RACIALLY/ETHNICALLY CONCENTRATED AREAS OF POVERTY (R/ECAP)**

According to the AFFH-T Data Documentation for 2017, HUD developed a census tract-based definition of racially or ethnically concentrated areas of poverty, or R/ECAPs: “The definition involves a racial/ethnic concentration threshold and a poverty test. The racial/ethnic concentration threshold is straightforward: R/ECAPs must have a non-white population of 50 percent or more. Regarding the poverty threshold, Wilson (1980) defines neighborhoods of “extreme poverty” as census tracts with 40 percent or more of individuals living at or below the poverty line. Because overall poverty levels are substantially lower in many parts of the country, HUD supplements this with an alternate criterion. Thus, a neighborhood can be a R/ECAP if it has a poverty rate that exceeds 40 percent or is three or more times the average tract poverty rate for the metropolitan/micropolitan area, whichever threshold is lower. Census tracts with this extreme poverty that satisfy the racial/ethnic concentration threshold are deemed R/ECAPs.” Since these extreme poverty neighborhoods are unlikely to have racial or ethnic concentrations as high as 50 percent, the threshold is set at 20 percent.

In Garden Grove, HUD R/ECAP data show no areas of the City classified as a R/ECAP.

## **RACIALLY CONCENTRATED AREAS OF AFFLUENCE**

Racially or Ethnically Concentrated Areas of Affluence (RCAAs), are generally understood to be neighborhoods in which there are both a higher concentration of non-Hispanic White households and higher household income rates. In Garden Grove, there are a few areas with a median income higher than \$125,000 that correspond to areas with slightly lower percentages of non-white residents and a higher concentration of white residents. These areas are located in the west side of the City, west of Knott Street and north of Garden Grove Boulevard and State Route 22, with block groups that have percentages of White residents ranging from 55 to 72 percentage of the population, suggesting that these areas could be racially or ethnically concentrated areas of affluence.

## **OPPORTUNITY ACCESS**

HCD and the California Tax Credit Allocation Committee (TCAC) coordinated efforts to produce opportunity maps that evaluate specific economic, environmental, and educational characteristics that have been shown by research to support positive economic, educational, and health outcomes for low-income families. Opportunity maps can be used to inform how to target investments and policies in a way that is conscious of the independent and inter-related effects that research has shown places have on economic, educational, and health outcomes.

Shown on **Exhibit H-10**, TCAC Opportunity Areas in Garden Grove range from low resources along the City’s northern, southwestern and eastern edges, with moderate in the central portion of the City. The high resource areas are located in the western area of the City. Census Tract 882.01 is identified, by Housing and Community Development (HCD) criteria, as being an area with high segregation and poverty levels, which is located in the northcentral part of the City.

Variables in each of the five categories (Education, Economic, Housing, Transportation, and Health) were given equal weighting. The five categories were then compiled into one “master” opportunity index value, weighted such: 35 percent weight each to Education and Housing, 15 percent weight Economic, 10 percent weight to Transportation, and five percent weight to Health. The factors listed below (**Table 12-35**) were incorporated in the development of this index:

**Table 12-35  
Composite Index Score Components**

Education	Economic	Housing	Transportation	Health
School Proficiency Index	Job Proximity Index	Percent Occupied Housing Units	Transit Trips Index	Environmental Health Index
Percent of Persons Enrolled in School	Labor Market Engagement Index	Percent No Cost Burden	Low Transportation Cost Index	
High School Graduation Rate	Employment Rate	Percent No Overcrowding	Percent Walking to Work	
		Percent Non-HAL (High-Annual Percentage rate Loans)		

State law requires that for housing elements due on or after January 1, 2021, sites must be identified throughout the community in a manner that affirmatively furthers fair housing opportunities (Government Code Section 65583(c)(10)).

Similar efforts have been undertaken by HCD and the TCAC to evaluate access to opportunity by producing annual opportunity maps using a similar methodology and data found in the AI. The maps illustrate an overall composite score derived from characteristics grouped into three main categories - economic, environmental, and educational. The composite score ranges from low to highest resources, with low resources indicating less access to opportunity and high resources indicating greater access to opportunity. The TCAC/HCD Opportunity Maps are intended to display the areas that offer low-income children and adults the best chance at economic advancement, high educational attainment, and good physical and mental health. The primary

---

---

function of TCAC is to oversee the Low-Income Housing Tax Credit (LIHTC) Program, which provides funding to developers of affordable rental housing. The opportunity maps play a critical role in shaping the future distribution of affordable housing in areas with the highest opportunity.

## **DISPROPORTIONATE NEED**

Disproportionate housing need generally refers to a condition in which significant disparities exist in certain groups of residents experiencing a category of housing need when compared to the total population experiencing that category of housing need in the applicable geographic area. The disproportionate housing need analysis looks at cost burden, overcrowding, and environmental justice.

A disproportionate housing need can also exist exists when the members of a racial/ ethnic group at a given income level experience housing problems at a greater rate (10 percentage points or more) than the jurisdiction as a whole. The percentage of Native American and Black households in Garden Grove experience greater levels of housing problems, with 88 percent and 66 percent, respectively. White households experience the least amount of housing problems with 36 percent. The data also show that family households with five or more people experience the greatest percentage of housing problems than do smaller or non-family households. This may be due to the fact that one of the HUD-defined housing problems is the presence of more than one person per room, and a household with five or more people is very likely to match this one criterion alone (unless of course the house has many rooms). Fully, 70 percent of these five-plus person households experience any of the four housing problems, the highest percentage of any category.

All data also show severe housing problems for households in the service area, and while only having a total number of 148 households (the lowest amongst all race/ethnic groups), Native American households experience the highest percentage with 57 percent experiencing any of four severe housing problems. Following Native American households are Hispanic and Asian or Pacific Islanders, with 48 percentage and 37 percentage. White households are again the lowest percentage of any racial or ethnic category, with only 19 percent.

### **Cost Burden (Overpayment)**

State and federal standards specify that households spending more than 30 percent of gross annual income on housing experience a housing cost burden. When a household spends more than 30 percent of its income on housing costs, it has less disposable income for other necessities such as health care. In Garden Grove, 44 percent of households are overpaying for housing. Lower income households have a much higher rate of overpayment, 63.7 percent. Overpayment also varies by tenure. For owner-occupied households, 31 percent of all households are overpaying compared with 25 percent of lower-income, owner households. For renter households, 58 percent of all households are overpaying compared with 56 percent of lower-income, renter households.

---

---

**Exhibit H-11** shows cost burden (overpayment) for homeowners and **Exhibit H-12** shows cost burden for renters. Throughout the entire City, 20 percent or more of homeowners experience cost burden, whereas in some tracts that level reaches 60 percent or more. Meanwhile overpayment by renters throughout the City is even higher, with 40 to 80 percent of renter occupied households experience cost burden, or paying more than 30 percent of their income on rent.

### Overcrowded and Substandard Housing

In response to a mismatch between household income and housing costs in a community, some households may not be able to buy or rent housing that provides a reasonable level of privacy and space. According to both California and federal standards, a housing unit is considered overcrowded if it is occupied by more than one person per room (excluding kitchens, bathrooms, and halls). In Garden Grove, 9.8 percent of housing units are overcrowded. Overcrowding is more prevalent in rental units at 6.7 percent compare to owner units at three percent. Garden Grove experiences slightly more overcrowding than Orange County at large, where 8.7 percent of households are overcrowded.

**Exhibit H-13** illustrates that all areas of the City experience overcrowding. In some tracts the concentration of overcrowding reaches levels greater than or equal to 20 percent, while others reach concentration levels of 70 percent or more. Census tracts west of Hoover Street experience overcrowding rates equal to or lower than the State (8.2 percent) and lower than most in the region.

### Environmental Justice

The California Office of Environmental Health Hazard Assessment (OEHHA) developed a screening methodology to help identify California communities disproportionately burdened by multiple sources of pollution called the California Communities Environmental Health Screening Tool (CalEnviroScreen 3.0). In addition to environmental factors (pollutant exposure, groundwater threats, toxic sites, and hazardous materials exposure) and sensitive receptors (seniors, children, persons with asthma, and low birth weight infants), CalEnviroScreen 3.0 also takes into consideration socioeconomic factors. These factors include educational attainment, linguistic isolation, poverty, and unemployment. Research has shown a heightened vulnerability of people of certain ethnicities and lower socioeconomic status to environmental pollutants. **Exhibit H-14** shows CalEnviroScreen 3.0 results for Garden Grove. **Exhibit H-14** shows that nine census tracts are considered disadvantaged community communities (DAC) consistent with SB 535. However, five of the nine tracts designated as DACs lie entirely within the City of Garden Grove and are home to approximately 20,300 people.

Disadvantaged communities are defined as the top 25 percent scoring (75% or higher percentile score as shown on Exhibit H-14) areas from CalEnviroScreen 3.0 along with other areas with high amounts of pollution and low populations. The DACs that lie entirely within the City have high rates of hazardous waste, cleanup sites, groundwater threats, and solid waste facilities. The DAC and the rest of the City also have higher rates of socioeconomic burdens. Two tracts have population characteristics percentile score above 75, with high rates of linguistic isolation, education

---

---

attainment, low birth weight, housing burden, poverty, and cardiovascular disease. These tracts are generally located along the State Route 22 freeway and the eastern end of Garden Grove Boulevard. One census tract (tract 881.01) is the largest DAC in terms of land area, but contains no residential population (residential population is located primarily in the adjacent City of Stanton) and consists of primarily industrial businesses.

## **DISPLACEMENT RISK**

Gentrification is the process of changing the character of a neighborhood through the influx of more affluent residents and businesses. Displacement refers to instances where a household is forced or pressured to move from their home against their wishes. Areas with high demand for homes drives up housing costs and increases pressure for redevelopment, resulting in the potential for displacement. UC Berkeley's Urban Displacement Project defines residential displacement as "the process by which a household is forced to move from its residence - or is prevented from moving into a neighborhood that was previously accessible to them because of conditions beyond their control." Two key factors in visualizing displacement are the loss of low income households and increases in rent. **Exhibit H-15** identifies the displacement typology within the City.

The displacement risk in Garden Grove can be evaluated based on physical and economic displacement. Physical displacement is the result of eviction, acquisition, rehabilitation, or demolition of property, the expiration of covenants on rent- or income-restricted housing, or the rising cost of housing. Physical displacement may also be linked to non-financial forces such as segregation. Economic displacement is due to the inability to afford rising rents or costs of homeownership like property taxes. Though, another component that has been identified as a driver of displacement, especially in Orange County, are areas that have already experienced some gentrification, as well as disadvantaged areas located near major transit assets, and anchor institutions (i.e., hospitals and universities).

### **Physical Displacement**

State housing law requires an inventory and analysis of government-assisted dwelling units eligible for conversion from lower-income housing to market rate housing during the next 10 years. Reasons for this conversion may include expiration of subsidies, mortgage pre-payments or pay-offs, and concurrent expiration of affordability restrictions.

Segregation can also contribute to displacement. The most common index of racial segregation is the dissimilarity index, which measures the extent to which different groups of people live in different neighborhoods in a city or metro area. Generally, Garden Grove is less segregated than most parts of the County.

Also, it is possible for local government policies to result in the displacement or affect representation of minorities or persons living with a disability. Currently, most of the cities with adopted reasonable accommodations procedures have a definition of a disabled person in their

---

---

zoning ordinance. The City of Garden Grove has adopted formal policies and procedures to reasonably accommodate the housing need for residents with disabilities.

## Economic Displacement

Garden Grove residents have a high risk of economic displacement due to the higher cost of housing in the City. The high housing costs are due in part to high demand, high land values, and scarcity of vacant land. State and federal standards specify that households spending more than 30 percent of gross annual income on housing experience a housing cost burden. Housing cost burdens occur when housing costs increase faster than household income. When a household spends more than 30 percent of its income on housing costs, it has less disposable income for other necessities such as health care.

## SITES INVENTORY

State law requires that for housing elements due on or after January 1, 2021, sites must be identified throughout the community in a manner that affirmatively furthers fair housing opportunities (Government Code Section 65583[c][10]). “Affirmatively furthering fair housing” means taking meaningful actions that, taken together, address significant disparities in housing needs and in access to opportunity. **Exhibit H-16** (in the Housing Resources Chapter) shows site inventory to address the City’s RHNA for 2021-2029. According to the TCAC opportunity maps, the majority of the RHNA sites are located in regions where there are moderate resources, followed by sites located in areas with low resources.

State law correlates higher density sites with the ability to provide lower-income housing. As such, the majority of the lower income RHNA sites are located along mixed-use corridors. These sites combined have a capacity for 5,602 housing units. The distribution of lower-income RHNA sites improves fair housing and equal opportunity conditions in Garden Grove because sites are mostly distributed in moderate resources areas and not lower resource areas. This is positive, considering that these represent locations where new higher-density housing can be provided and residents will have access to good schools, transit, goods and services, and diverse jobs. These areas are also not concentrated in existing low poverty areas and since Garden Grove is predominately comprised of a non-white population there are no disparities in the distribution of sites amongst racial and ethnic groups. Additionally, the site inventory alleviates this burden by providing more affordable and accessible housing.

## FAIR HOUSING ISSUES

The 2020 AI provides a list of impediments that have been identified as contributing to fair housing issues pertaining specifically to Orange County. In Garden Grove the impediments/contributing factors identified in the AI are in relation to the fair housing issues listed below:

- Access to financial services
- Availability of affordable units in a range of sizes

- 
- 
- Lack of access to opportunity due to high housing costs
  - Lack of affordable, accessible housing in a range of unit sizes
  - Location and type of affordable housing
  - Private discrimination
  - Source of income discrimination

The 2021 Analysis of Impediments included several fair housing goals for Orange County at a regional level:

- Increase the supply of affordable housing in high opportunity areas
- Prevent displacement of low- and moderate-income residents with protected characteristics, including Hispanic residents, Vietnamese residents, other seniors, and people with disabilities.
- Increase community integration for persons with disabilities.
- Ensure equal access to housing for persons with protected characteristics, who are disproportionately likely to be lower-income and to experience homelessness.
- Expand access to opportunity for protected classes.

The AI also includes proposed fair housing goals and strategies for individual jurisdictions. The goals and strategies for the City of Garden Grove are as follows:

- Update Density Bonus Ordinance – Garden Grove will update the 2011 Density Bonus Ordinance to comply with current State law. The update will streamline the approval process, increase feasibility, and facilitate future housing development at all affordability levels.
- Create Objective Residential Development Standards to allow for streamlined housing development in all residential zones.
- Create Objective Development Standards for Supportive Housing. These standards would be for new construction of Supportive Housing.
- Evaluate the creation of Objective Development Standards for Hotel/Motel/Office Conversion to Supportive Housing.
- Review and amend Garden Grove’s current Accessory Dwelling Unit (ADU) Ordinance to comply with State requirements and further increase housing supply.
- Continue to invest in landlord and tenant counseling and mediation services, unlawful detainer assistance, housing discrimination services, homebuyer education and outreach, and local eviction prevention strategies.

---

---

## 12.4 HOUSING RESOURCES

### 12.4.1 RESOURCES

#### IDENTIFICATION OF ADEQUATE SITES FOR FUTURE HOUSING NEEDS

State law requires that jurisdictions provide an adequate number of sites to allow for and facilitate the production of their regional share of housing. To determine whether a jurisdiction has sufficient land to accommodate its share of regional housing needs for all income groups, jurisdiction must identify “adequate sites.” Under State law (California Government Code section 65583[c][1]), adequate sites are those with appropriate zoning and development standards—with services and facilities—needed to facilitate and encourage the development of a variety of housing for all income levels.

#### REGIONAL HOUSING TARGETS

The Regional Housing Needs Assessment (RHNA) is the California State-required process that seeks to ensure cities and counties are planning for enough housing to accommodate all economic segments of the community. The State assigns each region in California a regionwide housing target that is distributed to jurisdictions through a methodology prepared by the regional councils of government. The share for the Southern California Association of Governments (SCAG) region (including the counties of Los Angeles, Orange, Riverside, San Bernardino, Ventura, and Imperial) is 1.34 million new housing units for this Housing Element planning period.

The City of Garden Grove’s share of regional housing need was determined through a methodology prepared by SCAG. For this 2021-2029 Housing Element, SCAG issued a target of 183,861 housing units for Orange County; of those, 19,168 housing units were allocated to Garden Grove. The City must show in this Housing Element a plan to accommodate development of these units during the planning period (October 15, 2021, to October 15, 2029).<sup>1</sup> This is equal to a yearly average of 2,396 housing units. **Table 12-36** below shows the City’s RHNA by income category. Of the 19,168 total units, the City must plan to accommodate 4,166 units for extremely low- and very low-income households, 2,801 units for low-income households, 3,211 units for moderate-income households, and 8,990 units for above moderate-income households.

---

<sup>1</sup> The Housing Element planning period differs from the RHNA planning period. The Housing Element covers the planning period of October 15, 2021 to October 15, 2029.

**Table 12-36  
Target Housing Unit Distribution**

Income Category	Dwelling Units (Target)	Percentage of Total
Very Low <sup>1</sup>	4,166	21.7%
Low	2,801	14.6%
Moderate	3,211	16.8%
Above Moderate	8,990	46.9%
<b>TOTAL</b>	<b>19,168</b>	<b>100.0%</b>

Source: SCAG Regional Housing Needs Allocation Plan, 2021.

Note: Pursuant to AB 2634, local jurisdictions are also required to project the housing needs of extremely low-income households (0-30% AMI). In estimating the number of extremely low-income households, a jurisdiction can use 50% of the very low-income allocation or apportion the very low-income figure based on Census data. Therefore, the City's very low-income RHNA of 4,166 units can be split into 2,083 extremely low-income and 2,083 very low-income units.

Housing Element law does not require the City to ensure that the numbers of dwelling units identified in the RHNA are built within the planning period. The law does, however, require that the City provide an inventory of land suitably zoned and with available infrastructure and utilities to meet that need. Government Code Section 65583.2(c)(3)(B) specifies that a minimum density of 30 units per acre qualifies to meet the City's low- and very low-income housing needs.

### **PROGRESS TOWARD THE RHNA**

Since the RHNA uses June 2021 as the baseline for growth projections for the 2021-2029 planning period, jurisdictions may count toward the RHNA housing units developed, under construction, or approved since July 1, 2021. As such, 960 housing units have been developed, are under construction, or approved in Garden Grove (**Table 12-37**). These units have the following income distribution: 41 very low-income units, 359 low-income units, and 120 moderate-income units, and 436 above moderate-income units.

**Table 12-37  
Credits Toward the RHNA**

Project	Very Low-Income	Low-Income	Moderate-Income	Above Moderate-Income	Total Units
<b>Under Construction or Permits Issued/Applied</b>					
Garden Brook Senior Village	40	351	--	3	394
8218-8242 Garden Grove Blvd.		8	--	38	46
12891 Main St.	1	--	--	8	9
10641 and 10661 Garden Grove Blvd. and 10662 Pearl St.	--	--	--	10	10
<b>Subtotal</b>	<b>41</b>	<b>359</b>	<b>--</b>	<b>59</b>	<b>459</b>
<b>Entitlement Approved</b>					
Brookhurst Place (Brookhurst Triangle - Phase 2)	--	--	120	374	494
11712 Lampson Ave.	--	--	4	3	7
<b>Subtotal</b>	<b>--</b>	<b>--</b>	<b>124</b>	<b>377</b>	<b>501</b>
<b>Total</b>	<b>41</b>	<b>359</b>	<b>124</b>	<b>436</b>	<b>960</b>

### Units Under Construction

According to City building permit records, 960 new units are under construction or have applied for building permits in Garden Grove, of which 41 are affordable to very low-income households and 359 are affordable to low-income households based on affordability restrictions. Projects under construction or entitled include:

- Garden Brook Senior Village:** An eight-story mixed-use project with 394 units for seniors (391 units for seniors and three manager units). The City worked with the applicant to utilize a transfer of development rights from an adjacent public facility to allow a greater number of units than would otherwise be allowed by the zone. The mixed-use project will include 11,041 square-feet of commercial space on the first floor, 391 affordable senior-living units, community spaces including an indoor fitness area, library room, two community rooms, and on-site laundry facilities. This development takes advantage of the Garden Grove Boulevard Mixed Use 3 zone. Originally named the Galleria, the project will build on an existing steel frame that was partially constructed and then abandoned due to the market downturn and sat vacant for almost ten years.

*Garden Brook Senior Village (Photo Source: AO Architects)*

- **8218-8242 Garden Grove Boulevard.** This project includes 46-unit apartment complex with eight affordable housing units targeted for lower income households as a result of an affordable housing density bonus (27.8% increase). This property is in the R-3 zone on Garden Grove Boulevard and previously consisted of an auto repair business.

### Approved Entitlements

In addition to units under construction and in the building permit process, two projects have entitlement approvals, including a large project at the Brookhurst Triangle. The Brookhurst Triangle development is a multiphase mixed-use project with a build out of up to 200,000 square feet of commercial/retail space, a hotel, and a maximum of 674 residential units. The master plan for the project includes residential rentals, for-sale condominiums, and 60 affordable housing units. The first phase of this project, Brookhurst Place, has been completed with 180 apartment units. The second phase of the projects anticipates 497 residential units, both rental and for-sale condominiums. The number of units and type of development proposed are a result of the Garden Grove Boulevard Mixed Use 3 development standards.

### Remaining RHNA

The City has achieved approximately five percent of its RHNA with 960 housing units constructed, under construction, or approved, as shown in **Table 12-38**.

**Table 12-38  
Remaining RHNA After Credits**

<b>Income Category</b>	<b>RHNA</b>	<b>Units Constructed, Under Construction, or Approved</b>	<b>Remaining RHNA</b>
Extremely- and Very-Low	4,166	41	4,125
Low	2,801	359	2,442
Moderate	3,211	124	3,087
Above Moderate	8,990	436	8,554
<b>Total</b>	<b>19,168</b>	<b>960</b>	<b>18,208</b>

## **12.4.2 RESIDENTIAL SITES INVENTORY**

State law requires that jurisdictions demonstrate in the Housing Element that the land inventory is adequate to accommodate that jurisdiction’s share of the region’s projected growth. As indicated above, the City has met some of its identified regional need through projects that are currently in the pipeline. The City has a remaining RHNA of 6,567 units in the very low- and low-income categories. The City has available residential development opportunities with sufficient capacity to meet and exceed the identified housing need (**Exhibit H-6**). The opportunity sites shown here consist of proposed developments, vacant sites, and underutilized sites to accommodate the RHNA.

### **SITES INVENTORY CONSIDERATIONS**

#### **RNHA Appeal and City’s Effort to Meet the RHNA**

On September 3, 2020, SCAG released the DRAFT RHNA Allocation based on the Final RHNA Methodology, identifying 19,122 housing units for Garden Grove at that time. On October 26, 2010, Garden Grove submitted a letter to the SCAG’s RNHA Appeals Board to appeal the RHNA based on the following:

1. SCAG failed to determine each jurisdiction’s Regional Housing Need in a manner that furthers, and does not undermine, State housing goals.
2. SCAG failed to adequately consider information submitted and available to SCAG prior to adoption of the RHNA Allocation Methodology.
3. Garden Grove has experienced changed circumstances which warrant a revision to the Draft RNHA Allocation.

The appeal hearing was set for January 15, 2021. The hearing was then continued to January 25, 2021. Ultimately, the appeal was denied by the SCAG RHNA Appeals Board.

---

---

Although the RNHA appeal was denied, the City would like to reiterate the challenge of adding over 19,000 housing units to a City that with virtually no vacant land remaining for large housing redevelopment. As of 2021, Garden Grove has 48,504 established housing units. The Garden Grove 6<sup>th</sup> Cycle (2021-2029) final RNHA is 19,168. The units identified in the RHNA could potentially increase the number of housing units by 40 percent within an eight-year period.

To address this challenge, the City has increased its density in all mixed-use land use designations by an average of 25 percent. It is also concurrently adopting a revised General Plan Land Use Element and Land Use Diagram to accommodate the increase in densities and to accommodate the RHNA units. An environmental impact report to address the impacts associated with the increase in development has been prepared. Additionally, the City is adopting amendments to Title 9 (Land Use) to ensure consistency with the Land Use Element revisions. As such, the City is striving to accommodate the 6<sup>th</sup> Cycle RNHA both through concurrent amendments in the General Plan and Zoning Code when the Housing Element is adopted.

### **Zoning Appropriate to Accommodate Housing Affordable to Lower-Income Households**

The capacity of sites that allow development densities of at least 30 units per acre are credited toward the lower-income RHNA based on State law. Zones that allow less than 30 units per acre but facilitate multi-family housing are considered appropriate to accommodate housing for moderate-income households. Much of the moderate-income need will be met by private market construction of non-subsidized rental units and entry-level condominiums.

### **General Plan and Zoning Amendments**

In 2021, the City adopted General Plan and Zoning Ordinance amendments to increase residential densities for mixed-use designations and zones to accommodate the 19,168 RHNA. All of the mixed-use designations averaged a 25 percent increase in residential densities. See **Table 12-39** with General Plan Land Use Designations corresponding Zoning Districts and maximum densities.

**Table 12-39  
General Plan/Zoning and RHNA Affordability Levels**

Income Category	Appropriate Density	General Plan Designations	Zoning Districts	Maximum Density
Very Low/ Low	30+ du/ac	International West Mixed Use	Harbor Boulevard Specific Plan, Housing Overlay	70
		Civic Center Mixed Use	CC-3 (Civic Center Core)	60
		Residential/Commercial Mixed Use 1	GGMU-1 (Garden Grove Boulevard Mixed Use 1)	60
		Industrial/Residential Mixed Use 1	Housing Overlay	60
		Residential/Commercial Mixed Use 3	GGMU-3 (Garden Grove Boulevard Mixed Use 3)	48
		Industrial/Residential Mixed Use 2	AR (Adaptive Reuse)	48
		Civic Center Mixed Use	CC-2 (Civic Center Main Street)	48
Moderate	23+ du/ac	Residential/Commercial Mixed Use 2	GGMU-2 (Garden Grove Boulevard Mixed Use 2)	24
			Brookhurst/Chapman Specific Plan (BCC)	24
		Civic Center Mixed Use	CC-1 (Civic Center East)	24
		Medium High Density Residential	R-3 (Multiple-Family Residential Zone)	24
			Community Center Specific Plan (CCR)	23
Above Moderate	Any	Low Medium Density Residential	R-2 (Limited Multiple Residential Zone)	21
		Low Density Residential	R-1 (Single-Family Residential Zone)	11

**Environmental Constraints**

The sites inventory analysis reflects land use designations, zones, and densities established in the City’s General Plan and Zoning Ordinance. Potential environmental hazards also include flood zones and liquefaction. The majority of Garden Grove is within a liquefaction zone, which causes underlying soil to liquify during intense earthquake shaking. Many parcels within the developed

---

---

area of Garden Grove are located within the 100-year floodplain but are not constrained in development. Certain areas within Garden Grove are also susceptible to flooding, including properties along the East Garden Grove Wintersburg Channel, which encompasses the eastern portion of the City. The City has prepared information as a courtesy to educate property owners about the flood zone and flood insurance, including an informational handout. Any additional constraints that would occur on a more detailed site review basis would be addressed as part of the individual project review process. The City's capacity to meet its regional share of housing by individual income categories is not constrained by environmental conditions.

Several site inventory properties are located on existing industrial properties. Some of these existing industrial businesses are aerospace industry enterprises. As with many industrial properties in Southern California, soil contamination as part of previous activities may have occurred on site. At this time, records do not indicate any contamination on these sites included in the site inventory. However, this does not mean the properties are free from contamination. If a property has an active or historical use related to industrial activities and the site is being considered for refinancing or purchasing, the site will likely require an environmental site assessment. An environmental site assessment is a process of evaluating the environmental liability of a property. Specifically, environmental site assessments review "all appropriate inquiry" into the past or present uses of a property to determine whether the property has been impacted by a recognized environmental condition. The environmental site assessment process can include site inspections, a review of historical records of the property, and research of records available at government agencies. In the event that any potential affordable housing site is proposed on sites identified as contaminated, Program 4 has been added to reflect assistance the City may provide to developers or applicants.

### **Assembly Bill 1397**

Consistent with updated Housing Element law (Assembly Bill 1397) related to the suitability of small and large sites, the lower-income sites inventory presented in this section is predominately limited to parcels that are between 0.5 and 10 acres in size, as the State has indicated these size parameters are most adequate to accommodate lower-income housing need.

AB 1397 also adds specific criteria for assessment of the realistic availability of non-vacant sites during the planning period. If non-vacant sites accommodate half or more of the lower-income need, the housing element must describe "substantial evidence" that the existing use does not constitute an impediment for additional residential use on the site. Due to the built-out nature of Garden Grove, most sites have existing uses. Non-vacant sites included in the inventory have been chosen due to their location, existing uses, and potential for intensification. To ensure that appropriate sites have been chosen, properties that show recent investments or updates or that contain uses of local importance are not included, and clear criteria were used to evaluate all sites, as described below under the Detailed Sites Inventory (Residential Recycling).

AB 1397 requires that vacant sites identified in the previous two Housing Elements and non-vacant sites identified in the previous Housing Element only be deemed adequate to accommodate a

---

---

portion of the housing need for lower-income households if the site is zoned at residential densities consistent with the default density established by HCD (30 units per acre) and the site allows residential use by right for housing developments in which at least 20 percent of the units are affordable to lower-income households. Non-vacant sites identified in the previous Housing Element and vacant sites identified in the previous two Housing Elements but credited toward the moderate-or above moderate-income RHNA in the current Housing Element are not subject to the provisions of AB 1397 since they are not intended to meet the lower-income RHNA. All sites identified in previous Housing Elements that are identified again in this Housing Element were up zoned in 2021. Per HCD guidance, these sites are identified as new sites and not subject to AB 1397 because the zoning and development potential was significantly increased.

### **No Net Loss Provision**

Government Code Section 65863 stipulates that a jurisdiction must ensure that its Housing Element inventory can accommodate its share of the RHNA by income level throughout the planning period. If a jurisdiction approves a housing project at a lower density or with fewer units by income category than identified in the Housing Element, it must quantify at the time of approval the remaining unmet housing need at each income level and determine whether there is sufficient capacity to meet that need. If not, the city must “identify and make available” additional adequate sites to accommodate the jurisdiction’s share of housing need by income level within 180 days of approving the reduced-density project. Program 8 is included in the Housing Element to set up a process for compliance.

### **DETAILED SITES INVENTORY**

The following sections provide details on the City’s 2021-2029 Housing Element sites inventory. The opportunity areas identified involve sites that can realistically be redeveloped with residential units during the planning period. The sites chosen are significantly underutilized given their size and location. As market forces continue to push toward higher densities, recycling of underutilized land is expected to occur at an increasing rate. If the trend continues, the City can anticipate increased recycling of land, particularly in higher-density areas where economies of scale can be realized.

### **Accessory Dwelling Units**

Since 2017, the State Legislature has passed a series of new laws that significantly increase the potential for development of new ADUs and Junior ADUs (JADUs) by removing development barriers, allowing ADUs through ministerial permits, and requiring jurisdictions to include programs in their housing element that incentivize their development. As a result, Garden Grove has seen significant increases in ADUs in the community, increasing from just a few dozen permitted annually in 2017, to 217 in 2018, to 297 units in 2019, and as of September 15, 2021, 201 units have already been permitted during the first three quarters of the year. Based on the total number of applications in the plan check process, the City anticipates permitting at least 276 ADUs in 2021. Conservatively estimating that this upward trend would level off the following year, the City

---

---

projects an average of 242<sup>2</sup> ADUs will be constructed each year during the planning period (2021-2029), equaling a projection of 2,009 ADUs (242 x 8.3 = 2,009).

As of 2021, there were 24,000 parcels zoned R-1 for single-family housing, totaling 4,600 net acres (6.8 net square miles), with ample capacity for additional ADUs. In addition, ADUs are permitted in multi-family developments and mixed-use developments, which represent a significant share of the City's land and include the Civic Center area, corridors, and transit-adjacent areas. In addition, the recent ADU activity may be somewhat depressed by the COVID-19 pandemic and other events of 2020, and do not reflect the most recent ADU laws that went into effect January 1, 2021, that streamline approvals for ADUs.

This Housing Element includes a program to facilitate the development ADUs. The projected 2009 ADUs (242 ADUs per year for 8.3 years in the planning period) are divided accordingly to SCAG's HCD pre-certified percentages for each income category for Orange County.<sup>3</sup> The projected ADUs only represent 10.5 percent of the total 19,168 RHNA housing units.

### Realistic Capacity Assumption

Consistent with HCD guidelines, the review of existing and proposed multi-family projects within a zone or particular area helps to identify the realistic density that can be anticipated for potential development. To determine realistic capacity assumptions for each zone, the City surveyed recent projects since 2016 to identify the average densities that have recently been achieved in each zone. See **Table 12-40** for recent development trends and related project densities, as well as **Table 12-42** for affordable housing development trends.

In the R-2 zone, projects have occurred at between 74 and 100 percent of maximum capacity, with projects in more recent years occurring closer to maximum density. As such, all R-2 sites are conservatively assumed to develop at 85 percent of maximum capacity. For the R-3 Zone, in the zoning development standards (Land Use Code Section 9.12.040.050[4] – Table of Development Density R-3 Zone), a sliding scale limits the number of maximum units based on the size of lot, a practice known as graduated zoning that encourages lot consolidation but can limit development on smaller sites. This provision was identified as a constraining factor for reducing the overall density in the R-3 Zone. Program 17 of this Housing Element indicates that the City will remove the sliding scale density limit and establish a reasonable minimum lot size in the R-3 zone. As a result of this program, sites in the R-3 Zone are assumed to develop at 85 percent of maximum capacity, taking into account the removal of this constraint.

---

<sup>2</sup> 242 ADUs per year is calculated by adding the number of permitted ADUs between 2018 and 2021 and dividing by four to get the average (195 + 223 + 271 + 276 + 242 = 965/4 = 242)

<sup>3</sup> SCAG estimates an affordability breakdown of ADUs in the Orange County subregion as follows: 15% extremely low-income, 10% very low-income, 43% low-income, 30% moderate-income, and 2% above moderate-income. 6th Cycle Housing Element Update Technical Assistance – ADU Affordability Analysis, August 27, 2020.

For mixed use designations, development trends vary by lot size. As such, properties that are less than half an acre in size are assumed to develop at 75 percent of maximum capacity, while sites over half an acre in size are conservatively assumed to develop at 95 percent of maximum capacity (the average density of surveyed projects was 183 percent, due to density bonuses on larger sites). In essence, the larger the property, the more likely the development will meet or exceed the maximum density allowance. Additionally, with larger projects, developers have more flexibility in using the density bonus program (although density bonus units are not assumed as part of this analysis). The estimate of potential residential capacity is based on densities that are below the demonstrated trends. Through the City’s upcoming General Plan update, the corridors will be re-evaluated, and incentives for additional housing opportunities are also anticipated. Therefore, this sites inventory includes a healthy buffer to accommodate the potential loss of residential capacity due to commercial development. The capacity analysis also takes into account the possibility of commercial development as part of the proposed project.

**Table 12-40  
Development Density Trend and Realistic Capacity Assumptions**

Zone	Built Residential Projects Address	Year Built	Units	Type	Site Acres	Density				HE Realistic Capacity
						Built	Max. Allowed	Ratio of Built vs. Max.	Avg.

The regional demand to construct a higher percentage of residential units as part of a mixed-use project is evident. A survey of mixed-use projects approved or under construction in the adjacent cities of Anaheim and Santa Ana shows a preference for residential housing units with minimal square feet set aside for commercial ground-floor space as part of a vertical mixed-use project. In Garden Grove, two existing projects have a similar comparison of residential to commercial development as part of a mixed-use project. Future mixed-used projects in the City are expected to follow a similar trend of a higher percentage of residential units to ground-floor commercial square footage. See Table 12-41 for a listing of recently approved/under construction mixed-use projects and the comparison of total residential square footage to ground-floor commercial square footage.

**Table 12-41  
Regional Mixed-Use Trends**

Recently Approved/Under Construction Mixed Use Project Address	City	Residential Units	Ground Floor Commercial Square Footage	Percent of Use Based on Total Project Square Feet	
				Residential	Commercial
1600 W. Lincoln Ave.	Anaheim	315	3,413	99.1%	0.9%
2970 W. Lincoln Ave.	Anaheim	134	5,000	96.4%	3.6%

Developers can take advantage of an affordable housing density bonus to increase the number of housing units allowed. **Table 12-42** identifies affordable housing projects built over the last 20 years and the allowed and built density of the project. In many cases, densities were near maximum allowed densities or over the allowed density by use of the density bonus provision.

**Table 12-42  
Affordable Housing Density Trend**

## Residential Recycling

The City has nearly 898 acres of land zoned R-2 and R-3. In the four-year period between 2017 and 2020, at least 17 properties have been converted into higher intensity uses, primarily from single-family units to duplex/triplex units and small apartment and condominium complexes. Redevelopment of these medium-high density residential properties has created 142 housing units, yielding a net increase of 125 housing units. The City anticipates this recycling trend to continue. With the revision of the Development Density R-3 Zone table, more units are anticipated to be built in the R-3 Zone compared to previous years. To identify additional residentially zoned parcels with potential for new development or recycling opportunities, the following criteria were used:

- Parcel is currently vacant; or
- If parcel is not vacant:
  - Land value is greater than improvement value
  - Structure was built prior to 1990 (and therefore over 30 years of age)
  - Existing uses are not condominiums or apartments
  - Redevelopment can at least double the number of units existing on site

A total of 468 parcels met these criteria, including a few vacant residential parcels. These parcels can potentially yield 2,646 gross units, assuming development at 85 percent of the allowable densities. Most of the parcels are small and even with lot consolidation, would not form development sites of 0.5 acre or larger. Therefore, they are assumed to be feasible for facilitating above moderate-income housing. Program 21 is included in the Housing Plan requiring the replacement of units affordable to the same or lower income level as a condition of any development on a nonvacant site consistent with those requirements set forth in Government Code section 65915(c)(3).

## Sites to Meet the Lower-Income RHNA

Garden Grove is an entirely built out city with very limited vacant land available to accommodate new development of any sort. The City has established a variety of mixed-use zones to accommodate additional residential development in districts and along major corridors. Current development trends in mixed use areas show that high residential density is feasible and realistic, and appropriate to accommodate housing for all income levels, including the lower-income RHNA. In addition, in 2021, densities were increased in all mixed-use zones to accommodate the RHNA in Garden Grove, providing additional capacity and incentive for redevelopment well above the State-required 30 units per acre.

### *Suitability of Lower Income Sites*

Site selection to meet the lower-income RHNA includes both vacant sites and underutilized sites. All sites chosen are significantly underutilized given their size and location. Mixed use sites are along major streets in the City, which include Garden Grove Boulevard, Harbor Boulevard, Katella Avenue, Chapman Avenue, Brookhurst Street, and Western Avenue.

---

---

Key sites with existing uses that are ripe for redevelopment typically contain older structures and are underutilized given the development potential afforded by the mixed-use development standards. Examples of existing uses include small-scale commercial uses, auto repair shops, and structures with large surface parking lots. Some sites with existing residential uses provide the opportunity for significant capacity increases. The following criteria was used to identify underutilized parcels in mixed-use zones:

- Improvement value is less than half of the land value (ratio is less than 1.00)
- Structure was built prior to 1985 (and therefore over 36 years of age)
- General characteristics such as declining uses, low existing floor-area ratio (FAR), etc.
- Location near recent mixed-use or residential development activities on properties exhibiting similar characteristics
- Expressed interests from property owners or developers

A letter with a survey was mailed to owners of over 100 properties that met the criteria stated above. Of those that responded, 56 percent expressed interest. Respondents that indicated that their property did not include any leases or leases that would expire early within the planning period were identified as a site to meet the lower income RHNA. Leases associated with ongoing business operations beyond 2029 could potentially be identified as a constraint to building housing on such property. Additionally, respondents that indicated they were interested in developing their properties to mixed use with residential uses were also identified as a site to meet the lower income RHNA. Property owners that have identified interest in development to their property are identified in the suitability column under **Table 12-43**.

**Table 12-43** includes a suitability information for each property, including building-to-land value ratio, building age, exterior condition, and existing lease information and development interest, when available. The majority of the sites include a building or structure. Very few sites are vacant; Garden Grove is nearly built out. The average building age for the sites is 58 years old. The lifespan of a commercial building on average ranges from 50 to 60 years and even older, depending on the preservation techniques employed by the owner and the way the building is utilized. Most commercial buildings need an overhaul after 20 or more years to keep the building in suitable condition. Determining whether reinvestment to the properties has occurred recently involves reviewing both the building-to-land value ratio and building age. The ratio is calculated by comparing the building improvement value (the value of improvements to the structure of the building) to the land value. These numbers are derived from the Orange County Assessor Department and are the assessed values for determining property taxes. To calculate assessed property values, all building improvement information from jurisdictions are sent to the Orange County Assessor Department during the building permitting process. If the building-to-land value ratio is less than one, it means that the building improvements are worth less than the property value. If building improvements are relatively new or the building is newer, typically a building-to-land value ratio can easily go above 2.0 to as high as 10.0. If the ratio is below one, or even below 0.5, it is a clear sign that there has not been recent building improvements to improve the condition. If the property has a low building-to-land value ratio with building over 50 years old, it is likely that building has not improved and deterioration may be occurring to structure, including to

the façade, decline of the roof, and equipment and services (e.g., space and heating, ductwork, electrical work, etc.).

Another property and building characteristic to indicate greater housing suitability of the nonvacant site is the existing floor-area ratio (FAR) of the building. The FAR is calculated by dividing the building gross square feet by the property area square feet. A lower ratio indicates a small building footprint in comparison to the size of the lot, meaning the site does not meet its full development potential. A larger number indicates more building mass by a larger footprint or multiple stories compared to the lot size. Nonresidential multi-story buildings are typically costlier to construct and may be more suitable for rehabilitation and conversion into housing as opposed to demolition. Of the sites to meet the lower income RHNA category, 63 percent of the sites have an existing FAR less than 0.25. Thirty-three percent of the sites have a FAR between 0.25 and 0.50, and three sites have an FAR between 0.50 to 2.16 (two are older multi-story motels). A majority of the sites have a very low existing FAR; combined with low building-to-land value ratios and older buildings, this low FAR makes them more suitable or ideal for mixed-use projects and housing redevelopment.

**Table 12-43** summarizes the sites identified to meet the lower-income RHNA, which can facilitate 5,602 units. These sites contain existing commercial and/or residential uses that are of marginal economic viability, are at or near the end of their useful life, and/or the existing intensity of development is substantially lower than allowed by existing zoning. Sites that are smaller than 0.5 acres have multiple parcels that are adjacent to each other and are appropriate for consolidation into larger development projects, achieving a lot size of at least 0.5 acres. These sites have common ownership, function as a part of a larger site currently, such as a commercial building with an adjacent parking lot, and/or are significantly underutilized and have been identified by developers for potential projects.

<b>Total</b>						<b>97.7</b>	<b>5,602</b>

**Notes:** 1) BLVR: Building-to-land value ratio. This number is derived by the Orange County Assessor Department and compares the land value to the building value. Ratios that are less than 1.0 mean that the building improvements are worth less than the land value and typically means that the property owner has not made any recent investments to property based on Orange County Assessor assess value information.

2) Zoning Abbreviations: IWMU (HO): International West Mixed Use and Housing Overlay; GGMU-1: Garden Grove Boulevard Mixed Use 1; GGMU-2: Garden Grove Boulevard Mixed Use 2; GGMU-3: Garden Grove Boulevard Mixed Use 3; Civic CC MU: Center Mixed Use; R/C MU-1: Residential/Commercial Mixed Use 1; R/C MU-2: Residential/Commercial Mixed Use 2; R/C MU-3: Residential/Commercial Mixed Use 3.

### Sites to Meet Moderate- and Above Moderate-Income RHNA

Sites to meet the moderate-income RHNA are underutilized and can support multi-family development and are either 1) smaller sites located in zones with high density allowance (60-70 units per acre), or 2) are located in mixed-use or residential zones that allow 23-24 units per acre. This density is sufficient to support moderate income housing. Moderate-Income sites are located within mixed-use designations along Katella Avenue, Western Avenue, and Garden Grove Boulevard. Brookhurst Street sites generally include structures built prior to 1986.

HCD identifies income thresholds for the various income levels; a two-person moderate-income household in Orange County can earn up to \$98,900 per year. As noted in the Needs Assessment Chapter, the annual income to afford a two-bedroom apartment in Orange County is approximately \$94,572 (assuming 30 percent of income used for rental costs and fair market rents) in 2020. The average condominium price in Garden Grove in 2020 was \$436,946, which is well within the amount a moderate-income household can afford, according to the affordability matrix presented in the Needs Assessment (Table 12-12).

Sites to meet the Above Moderate income RNHA are located in Appendix A, with a total of 6,417 units. Above Moderate sites also include so-called SB 9 sites described in the following section.

### SB 9 Sites (Above Moderate Sites)

On September 16, 2021, Governor Gavin Newsom signed SB 9 into law, with the bill going into effect on January 1, 2022. This bill, among other things, would require a proposed housing development containing no more than two residential units within a single-family residential zone

to be considered ministerially, without discretionary review or hearing, if the proposed housing development meets certain requirements, including, but not limited to,

- that the proposed housing development would not require demolition or alteration of housing that is subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of moderate, low, or very low income, and
- that the proposed housing development does not allow for the demolition of more than 25 percent of the existing exterior structural walls, except as provided, and that the development is not located within a historic district, is not included on the State Historic Resources Inventory, or is not within a site that is legally designated or listed as a city or county landmark or historic property or district.

To help meet the Above Moderate-Income RHNA category, Garden Grove will be using single-family properties that could allow a duplex under SB 9. The City has approximately 24,000 single-family properties averaging a lot size of approximately 7,800 square feet. These properties total 4,366 acres<sup>4</sup> or 6.8 square miles. However, not all of these properties could yield a duplex, with many of them being too small. To identify the most suitable single-family properties that could transition to a duplex, the City identified the largest single-family properties within the R-1-15, R-1-9, R-1-7, and R-1-6 zones. To select units for duplexes, properties with a minimum lot size of 11,000 square feet with one existing single-family unit on the property were selected. Properties with affordable housing covenants were excluded. Sites that met these two criteria total to 1,459 properties, thus allowing an additional 1,459 units. See **Table 12-44** for more information about the properties. These lots averaged a residential density of 0.39 unit per acre or one unit per 17,000 square feet. Lot sizes ranged from 11,000 square feet to 66,000 square feet. Based on the lot sizes identified, these properties could easily accommodate an additional unit and create a duplex residential use.

**Table 12-44**  
**SB-9 Housing Units**

Zone	Minimum Lot Size Requirements	Number of Lots	Average Lot Size (sq. ft.)	Number of Additional Units (excluding Existing Single-Family Units)
R-1-15	15,000	57	18,244	57
R-1-9	9,000	243	16,357	243
R-1-7	7,200	1,116	14,128	1,116
R-1-6	6,000	43	13,250	43
<b>Total</b>	<b>N/A</b>	<b>1,459</b>	<b>14,629</b>	<b>1,459</b>

**Table 12-45** summarizes sites to meet the moderate-income RHNA. SB 9 sites can be found in Appendix C.

<sup>4</sup> The 4,633 acres of R-1 properties are net acres. Net acres exclude streets, sidewalks, and public right-of-way.

#### Adequacy of Sites Toward the RHNA

Including all vacant and underutilized sites, ADU projections, and projects in the pipeline, the sites inventory identifies capacity for 14,823 units, 5,602 of which are on sites suitable for development of lower-income housing. Overall, the City has the ability to adequately accommodate the remaining RHNA (Table 12-46). These sites and the densities allowed will provide opportunities to achieve the remaining RHNA goals for all income categories and can realistically be redeveloped

with residential units during the planning period. These areas are considered highly likely to experience recycling for two key reasons: 1) the high demand for more affordable housing throughout the Southern California region, and 2) the availability of underutilized land in areas designated for high-density mixed-use and residential use (with maximum densities increased by 30 percent in 2021). The sites chosen are significantly underutilized given their size and location. In addition, recent developments and market interest, new flexible and housing-supportive zoning standards, and increased density allowances will serve as a catalyst for more intense development.

**Table 12-46  
Sites Inventory Summary**

RHNA/Sites	Ex./Very Low Income (0-50% AMI)	Low Income (51-80% AMI)	Moderate Income (80-120% AMI)	Above Moderate Income (121+% AMI)	Total

### 12.4.3 CONSISTENCY WITH AFFIRMATIVELY FURTHERING FAIR HOUSING (AFFH)

State law requires that for housing elements due on or after January 1, 2021, sites must be identified throughout the community in a manner that affirmatively furthers fair housing opportunities (Government Code Section 65583(c)(10)). Affirmatively furthering fair housing means taking meaningful actions that, taken together, address significant disparities in housing needs and in access to opportunity. For purposes of the housing element sites inventory, this means that sites identified to accommodate the lower-income need are not concentrated in low-resourced areas (lack of access to high performing schools, proximity to jobs, location disproportionately exposed to pollution or other health impacts) or areas of segregation and concentrations of poverty. HCD and the California Tax Credit Allocation Committee (TCAC) coordinated efforts to produce opportunity maps that evaluate specific economic, environmental, and educational characteristics that have been shown by research to support positive economic, educational, and health outcomes for low-income families.

Shown on **Exhibit H-17**, TCAC opportunity areas in Garden Grove range from moderate resources in the central and western areas of the City, low resources along the central west and eastern areas of the City, and high resource areas in the western portions. The moderate resource areas represent the largest areas of the City (53 percent). Low resource areas are the second largest (37 percent) and high resources and high segregation/poverty areas are the lowest, with 7.1 percent and 2.8 percent, respectively. The sites inventory for the 2021-2029 planning period has been selected based on available capacity to redevelop sites into housing units to accommodate the RHNA. Those sites have capacity for 16,282 units at various income categories. The majority of sites are located within mixed use areas closer to transit and commercial services, including Garden Grove and Harbor Boulevard. **Table 12-47** shows that capacity for multi-family and mixed-use residential development within the RHNA income categories is primarily distributed among the low (35.9 percent) and moderate (62.9 percent) resources areas. A higher proportion of very low- and low-income targeted housing units are located in the moderate resource areas. The high resource areas have very little opportunity for new development and are limited as a primarily single-family neighborhood (where ADUs could be constructed and are anticipated to meet a portion of the lower income housing need). Additionally, of the land available in the City, only seven percent is designated as high resource, while the remaining 93 percent of the City is designated as low, moderate resource categories or high segregation/poverty.

**Table 12-47  
RNHA Housing Sites and TCAC Resources**

RHNA Income Categories (Units)	California Tax Credit Allocation Committee (TCAC) Resource Categories					
	High Segregation/ Poverty	Low Resource	Moderate Resource	High Resource	Total	
					Number	Percent

## **12.4.4 SITE INFRASTRUCTURE AND SERVICES**

The City has sufficient water and sewer capacity to serve a build-out population of 238,619, which is accommodated by the Land Use Element (as adopted in 2021). Full urban-level services are available to each site in the inventory. Such services are more than adequate for the potential unit yield on each site. Specifically, water and sewer service are available or are programmed to be made available for all the sites included in the inventory.

### **WATER AND SEWER INFRASTRUCTURE**

As of 2021, infrastructure is in place to accommodate all development identified in the site inventory. As identified in the Garden Grove Sanitary District (GGSD) Sewer System Management Plan, the City’s sewer system is undergoing maintenance upgrades consistent with the System Evaluation and Capacity Assurance Plan prepared by the GGSD. Based on a Sewer System Management Plan deficiency map (Figure 9: Collection System Hydraulic Deficiencies and Tributary Areas), approximately 411 dwelling units (Above Moderate income units) identified in the sites inventory are located within a sewer capacity deficiency zone. This deficiency zone is categorized as having minimal capacity in the area south of Chapman Avenue, east of Euclid Avenue, north of Trask Avenue, and west of Harbor Boulevard. This will not constrain development of the sites, as the developer can be reimbursed for completing the appropriate sewer system upgrades at an earlier date, as provided for in the Sewer Capital Improvements Plan. The sewers categorized as “calculated deficiency” are possible future deficiencies and will be monitored as new development that may increase the wastewater flows are proposed within their tributary areas. Additionally, some of the sewers will be flow monitored again following the implementation of the diversion projects in order to verify the adequacy of the relief provided. Additionally, the Capital Improvement Program for capacity improvements is formulated to eliminate the deficiencies in accordance with Garden Grove Sanitary District’s criteria. It consists of

---

---

replacement with larger pipes, diversions to adjacent or nearby Orange County Sanitation District facilities, diversions to Garden Grove Sanitary District facilities with adequate capacity, or combinations of these.

The City's water services provision and infrastructure currently in place is sufficient to accommodate projected growth. The City has 360 miles of water lines and 11 active wells strategically located throughout the City, with a pumping capacity of over 46,600 gallons per minute. The City also operates eight storage and distribution reservoirs at five sites with a combined capacity of 53 million gallons (MG). As the City infrastructure ages, the Water Services Division will continue replacing aging infrastructure in certain areas. To this end, the City is currently updating its 2015 Urban Water Management Plan to assess the need for replacement and expansion of water facilities. To ensure appropriate water levels for the community in the future, the City is working with the Orange County Water District and Orange County Sanitation District to diversify the County's water supply with the development of the Groundwater Replenishment (GWR) system. This innovative water purification project will provide a new source of locally controlled, high-quality water for north and central Orange County. As of 2021, the City does not own or operate any wastewater or recycled water facilities.

## **DRY UTILITIES**

All sites in the land use inventory lie within developed areas and have access to full dry utilities. Southern California Edison is responsible for providing electric power supply to Garden Grove. Natural gas is provided by the Southern California Gas Company. Natural gas is generally available throughout Garden Grove through a local distribution system. Additional dry utilities include various telecommunications providers and cable providers and solid waste collection. Republic Services provides solid waste collection service to the City, and solid waste is disposed at the Olinda Alpha Landfill in the City of Brea, which is under the operation by the Orange County Waste & Recycling Department.

## **12.4.5 FINANCIAL RESOURCES**

In light of the elimination of redevelopment agencies in the State of California, the City has limited access to funding sources for affordable housing activities.

## **CDBG, HOME, AND ESG FUNDS**

The City of Garden Grove is an annual recipient of Community Development Block Grant (CDBG), HOME Investment Partnership (HOME), and Emergency Shelter Grant (ESG) funds from the Department of Housing and Urban Development (HUD). The City allocates HUD funding to subrecipients to support decent housing, a suitable living environment, and opportunities to expand economic opportunities, principally for low- and moderate-income persons. Administration of these programs is handled by the City's Office of Economic Development. For the FY 2021-2022 the City is projected to utilize a total of \$5.8 million in HUD grants to benefit low-

---

---

and moderate-income residents through a variety of programs and services. The following are the projected grants amounts:

- \$2.9 million in CDBG funding will be programmed to benefit low/moderate-income residents, through housing rehabilitation, senior services, fair housing activities, infrastructure improvements, and the Special Resource Team (SRT).
- \$2.8 million in HOME funding will be used to develop affordable housing and provide rental assistance to low-income households.
- \$180,000 in ESG funding will be used to provide homeless services through street outreach, emergency shelter, homeless prevention, and rapid rehousing.

## **U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT (HUD) HOUSING CHOICE VOUCHERS**

The housing choice voucher program is the federal government's major program for assisting very low-income families, the elderly, and the disabled to afford decent, safe, and sanitary housing in the private market. Since housing assistance is provided on behalf of the family or individual, participants are able to find their own housing, including single-family homes, townhouses and apartments. Federal Housing Choice Vouchers (formerly Section 8) for rental assistance are available through the Garden Grove Housing Authority. The Housing Authority administers 2,300 vouchers as well as the Mainstream Voucher Program, HEART Program, Anti-Displacement Program, and the Emergency Housing Voucher Program.

## **ORANGE COUNTY HOUSING TRUST**

The Orange County Housing Finance Trust (Trust) was formed in 2019 as a collaborative, regional entity composed of the County of Orange and 23 cities throughout the county. The Trust represents over 80 percent of the population in Orange County with the mission to strengthen communities by financing the development of affordable and supportive housing. As of May 6, 2020, seven affordable housing developments received a combined total of over \$10 million for the development of affordable and supportive housing. The Trust funding provides deferred loans that will help create 467 new housing units.

## **12.46 ADMINISTRATIVE RESOURCES**

Agencies with administrative capacity to implement programs contained in the Housing Element include the City of Garden Grove and local and regional non-profit private developers.

1. The City of **Garden Grove Community and Economic Development Department** offers a broad spectrum of services to the community. The Community and Economic Development Department also manages, reviews, and approves development plans for all properties located within the City. The Planning Services Division takes the lead in

---

---

implementing Housing Element programs and policies. The Division is responsible for implementing the General Plan by ensuring that development projects are consistent with the General Plan and Zoning Ordinance. The City also works closely with non-profit developers to expand affordable housing opportunities in Garden Grove. The Office of Economic Development provides programs and services designed to improve Garden Grove neighborhoods. With support from the Neighborhood Improvement and Conservation Commission and funding from the Federal and State's government, the Office of Economic Development offers a variety of tools to improve homes and neighborhoods.

2. The City of **Garden Grove Housing Authority** operates under federal grants received from HUD to provide rental subsidies to low-income families. The program assists over 2,300 families with their monthly rent. Families qualify for rental subsidies based on their income. Once eligibility is determined, families are authorized to seek privately owned rental units. It is also the policy of the Housing Authority to comply fully with all Federal, State, and local nondiscrimination laws and with the rules and regulations governing protected classes of the Fair Housing Act and Equal Opportunity in Housing and Employment. All Housing Authority is aware of the importance of affirmatively furthering fair housing and providing equal opportunity to all families, including providing reasonable accommodations to persons with disabilities as a part of the overall commitment to quality customer service.
3. The **Community Action Partnership Orange County** (CAPOC), located in Garden Grove, provides a wide variety of social services in Orange County. CAPOC operates the OC Food Bank, which partners with over 300 local charities, soup kitchens, and community organization. They also operate the Southwest Community Center in Santa Ana.
4. **Second Harvest Food Bank** works to end hunger in Orange County with the help of its Partner Network, donors, volunteers, and other dedicated supporters. Last year they distributed 56 million pounds of food to Partner Network members who then provided food to those in need at hundreds of locations throughout Orange County.
5. **People for Housing OC**, founded in 2017, advocates for more home building in Orange County to end the housing shortage, reduce housing costs, and make room for the people who are already here and those that will come after.
6. **Fair Housing Council of OC** works to fulfill a mission of protecting the quality of life in Orange County by ensuring equal access to housing opportunities, fostering diversity, and preserving dignity and human rights. An operating member of the National Fair Housing Alliance, the FHCOC works to eliminate housing discrimination and guarantee the rights of all people to freely choose the housing for which they qualify in the area they desire. Services include comprehensive community education, individual counseling, mediation, and low-cost advocacy.
7. **Fair Housing Foundation** is dedicated to eliminating discrimination in housing and promoting equal access to housing choices for everyone. The Foundation provides fair housing services, landlord and tenant counseling, rental counseling, and outreach and education.

## 12.5 HOUSING PLAN

With this Housing Element, the City establishes a policy foundation for committing resources to meet the housing needs of all economic segments of the community. The Housing Element sets forth goals and policies and defines specific programs to meet those needs during the 2021-2029 planning period. This section describes the qualitative goals, policies, and programs and the quantified objectives for the provision of safe, adequate housing for Garden Grove residents.

To make adequate provision for the housing needs of people of all income levels, State law (Government Code 65583[c]) requires that the City, at a minimum, identify programs that do all the following:

1. Identify adequate sites, with appropriate zoning and development standards and services to accommodate the locality's share of the regional housing needs for each income level.
2. Assist in the development of adequate housing to meet the needs of extremely low-, very low-, low-, and moderate-income households.
3. Address and, where possible, remove governmental constraints to the maintenance, improvement, and development of housing, including housing for people at all income levels, as well as housing for people with disabilities.
4. Conserve and improve the condition of the existing affordable housing stock and preserve assisted housing developments at risk of conversion to market-rate housing.
5. Promote equal housing opportunities for all people, regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability.

Programs generally include a statement of specific City action(s) necessary to implement a policy or goal and identify the City department or other agency responsible for implementation, the quantified objectives (where applicable), and a timeframe for completion. A summary of quantified objectives is included in the following the program descriptions.

The responsibility for administering the Housing Element and ensuring that policies are implemented largely will rest with the Community and Economic Development Department. Funding for overseeing and monitoring program progress—for which the expense will be staff time—will be part of the Community and Economic Development Department's annual budget. Staff time funding sources are Community Development Block Grant funds (20 percent of annual allotments allowed for administrative and capacity building activities) and the City's General Fund. Funding sources for housing construction, rehabilitation, and/or preservation projects are noted for specific action items below.

---

---

## 12.5.1 GOALS AND POLICIES

### HOUSING MAINTENANCE AND PRESERVATION

The City of Garden Grove has made a concerted effort to encourage the maintenance, rehabilitation, and improvement of housing. The Neighborhood Improvement Committee, an interdepartmental group, assesses neighborhoods and coordinates the City's resources and programs to best address the needs of each target neighborhood. The City further addresses housing maintenance and preservation through programs such as the Senior Home Improvement Grant program, a proactive code enforcement program, and acquisition and rehabilitation of multifamily units. Funding and implementation of housing programs such as rehabilitation grants and code enforcement efforts have resulted in improvement of target neighborhood areas. Federal funds have also facilitated the acquisition and rehabilitation of units. In conjunction with private developers, the City has utilized HOME funds to assist neighborhoods with deteriorating housing and property management, apartment overcrowding, and improvements.

**GOAL H-1: Preserve, maintain, and enhance housing and neighborhoods citywide**

**Policy H-1.1: Neighborhood Preservation.** Preserve the character, scale, and quality of established residential neighborhoods.

**Policy H-1.2: Improvement Programs.** Continue programs directed at preserving the physical quality of housing and neighborhood environments.

**Policy H-1.3: Housing Rehabilitation.** Promote the rehabilitation of substandard and deteriorating housing, with a particular focus on improvement programs in neighborhoods with the greatest need.

**Policy H-1.4: Homeowner Improvement Programs.** Encourage homeowners who cannot afford to rehabilitate their homes to participate in neighborhood improvement programs.

**Policy H-1.5: Code Enforcement.** Continue to enforce building, land use, and property maintenance codes.

**Policy H-1.6: Neighborhood Investments.** Invest in neighborhoods that have aging and deteriorating housing and infrastructure, and support efforts to eliminate crime, graffiti, and deferred maintenance practices.

**Policy H-1.7: Alleviate Overcrowding Conditions.** Assist in alleviating unit overcrowding by facilitating the development of accessory dwelling units and home additions and improvements to existing homes.

**Policy H-1.8: Neighborhood Partnerships.** Pursue public/private partnerships to implement rehabilitation and maintenance activities in older neighborhoods.

---

---

**Policy H-1.9: Lead-Based Reduction.** Reduce lead-based paint hazards in the housing stock.

**Policy H-1.10: Sustainable Practices.** Promote and encourage sustainable development and green building practices for all new residential development and the retrofit of existing housing.

**Policy H-1.11: Pollution Protection.** Require building and site design measures for new housing units located within 500 feet of a freeway, railroad, major arterial, and/or industrial use to minimize noise, vibration, and air pollution impacts by including, but not limited to, multipaned windows, air filtration systems, site design mitigation, and dense landscaping buffers.

## **AFFORDABLE HOUSING**

Building affordable housing is challenging without financial assistance. The City can facilitate development of new affordable housing that targets lower-income households by providing a regulatory environment that streamlines project review and minimizes development fees, and that welcomes partnerships with developers. Encouraging and facilitating the production of affordable housing allows persons of all economic segments to live in the community.

**GOAL H-2: Housing supply to accommodate housing needs at all affordability levels**

**Policy H-2.1: Expanding Affordable Housing.** Preserve and expand the City's supply of affordable rental and ownership housing for lower-income households.

**Policy H-2.2: Rental Assistance.** Continue to provide rental assistance to lower-income, cost-burdened households.

**Policy H-2.3: Regulatory Incentives.** Provide density bonuses and other financial and regulatory incentives to facilitate the development of affordable housing.

**Policy H-2.4: Collaborative Partnerships.** Encourage collaborative partnerships to maximize resources available for the provision of housing affordable to lower-income households.

**Policy H-2.5: Housing Funding Programs.** Actively pursue federal and State housing program funds to provide housing assistance and to support the development of housing affordable to lower-income households.

**Policy H-2.6: Preserve Affordable Housing Supply.** Preserve the City's supply of affordable rental housing units, including preserving all units at risk of converting from affordable housing to market-rate housing.

---

---

**Policy H-2.7: Sustainable and Affordable Housing Improvements.** Improve housing affordability by promoting energy conservation programs and sustainable development as outlined in the Land Use, Air Quality, and Conservation Elements of the General Plan.

**Policy H-2.8 Lower-Income Residents.** Continue to utilize federal and State subsidies, as well as City resources to the fullest extent possible, to assist in meeting the housing needs of lower-income residents, including extremely low-income residents.

## **ADEQUATE HOUSING SITES**

Providing adequate sites for housing is the primary Housing Element objective. Adequate housing sites, consistent with the City's identified housing need, can facilitate development opportunities for a variety of housing types. Providing adequate housing sites promotes diversity in housing price, style, and size, and contributes to neighborhood stability by offering more affordable and move-up homes and by accommodating a diverse income mix. Maintaining diversity in housing choice and cost will present Garden Grove residents with opportunities to find housing that meets their individual and household needs, regardless of their age, presence of a disability, household type, or income. Because Garden Grove is a built-out community with a limited amount of remaining vacant residential land, the City plays a key role in promoting sites for future development.

**GOAL H-3: A range of available housing types, densities, and affordability levels to meet diverse community needs**

**Policy H-3.1: Adequate Housing Sites.** Maintain land use policies and regulations that create capacity for development of a range of residential development types that can fulfill local housing needs, including accessory dwelling units, low-density single-family uses, moderate-density townhomes and middle housing, higher-density apartments and condominiums, senior housing, and mixed-use projects.

**Policy H-3.2: Meeting Housing Needs.** Provide adequate sites to encourage housing development that will meet the needs of all income groups.

**Policy H-3.3: Balance of Housing Types.** Promote a balance of housing types, including mixed-use development, to meet the needs of the community.

**Policy H-3.4: Housing Inventory.** Maintain an inventory of vacant and underutilized land, and make available to the development community.

**Policy H-3.5: Special Housing Needs.** Encourage both the private and public sectors to produce or assist in the production of housing, with emphasis on housing affordable to persons with disabilities, the elderly, large families, female-headed households with children, and people experiencing homelessness.

---

---

**Policy H-3.6: Housing Near Transit.** Encourage transit-oriented development consisting of higher residential densities, public gathering places, streetscape amenities, and commercial and entertainment uses within walking distance of planned rail stations and high-frequency bus stops.

**Policy H-3.7: Infill Housing.** Encourage infill housing development that is compatible in character with established residential neighborhoods.

**Policy H-3.8: New Housing.** Critically analyze the location of any proposed new housing to determine suitability for healthy living conditions.

**Policy H-3.9: Infrastructure.** Continue ongoing infrastructure maintenance and upgrades as identified in the City's infrastructure plans to provide sewer and water capacity sufficient to accommodate projected growth.

**Policy H-3.10: Middle Housing.** Support joint powers authorities and similar entities to further the preservation, protection, and production of middle-income housing and workforce housing.

## REMOVAL OF HOUSING CONSTRAINTS

Market and governmental factors pose constraints to the provision of adequate and affordable housing. These factors tend to disproportionately impact lower- and moderate-income households due to their limited resources for absorbing the costs. The City is committed to removing governmental constraints that hinder the production of housing, including offering a "one-stop" streamlined permitting process to facilitate efficient entitlement and building permit processing.

**Goal H-4: Reduced nongovernmental and governmental obstacles to the production of housing for all income groups**

**Policy H-4.1: Residential Development Standards.** Review and adjust residential development standards, regulations, ordinances, departmental processing procedures, and residential fees related to rehabilitation and construction to determine the constraints on housing development.

**Policy H-4.2: Policy Assessments.** Assess proposed ordinances and policies affecting housing development for effects on housing cost, recognizing that some increases in housing costs might be offset by decreases in other household costs (e.g., energy bills).

**Policy H-4.3: Housing Legislation.** Monitor State and federal housing-related legislation, and update City plans, ordinances, and processes pursuant to such legislation to remove or reduce governmental constraints.

---

---

**Policy H-4.4: Development Approval Process Education.** Educate applicants on how to navigate the development approval process for residential development.

**Policy H- 4.5: Parking.** Review and update parking standards to balance the needs of providing adequate and flexible parking requirements, ensuring parking does not create spillover impacts to residential neighborhoods, and allow innovative and creative approaches to provide parking for all residential projects.

## **EQUAL AND FAIR ACCESS TO HOUSING**

The City enforces State and federal fair housing laws. To achieve fair housing goals, the City has contracted with the Fair Housing Foundation to provide fair housing services to residents. The City also collaborates with other Orange County municipalities, the County of Orange, and the Fair Housing Council of Orange County to regularly develop and complete a comprehensive Regional Analysis of Impediments to Fair Housing Choice. In addition to fair housing, the goals and policies will also work toward providing and maintaining equal housing opportunities for special need residents and protections, including prohibiting housing discrimination based upon race, color, religion, sex, disability, familial status, or national origin. Importantly, it advances the need to go beyond prohibiting housing discrimination and create opportunities for real housing choice through affirmatively furthering fair housing.

**GOAL H-5: An environment in which all people have fair and equal access to the housing of their choice**

**Policy H-5.1: Discrimination.** Prohibit discrimination in the sale, rental, or financing of housing based on race, color, ancestry, religion, national origin, sex, sexual orientation, gender identity, age, disability/medical condition, familial status, marital status, source of income, or any other arbitrary factor.

**Policy H-5.2: Fair Housing.** Assist in the enforcement of fair housing laws by providing references for residents to organizations that can receive and investigate fair housing allegations, monitor compliance with fair housing laws, and refer possible violations to enforcing agencies.

**Policy H-5.3: Equitable Housing.** Encourage investments and the siting of new housing in an equitable and fair manner that prevents discrimination, overcomes pattern of segregation, avoids concentrations of lower-income households, addresses pollution burdens, and fosters inclusive communities.

**Policy H-5.4: Special Housing Needs Accessibility.** Broaden the accessibility and availability of housing to special needs residents such as the homeless, disabled, developmentally disabled, elderly, large households, families with children, and female-headed households.

---

---

**Policy H-5.5: Equitable Land Use Plans.** Ensure updates to land use plans, zoning maps, and funding policies are equitable and bring additional resources to traditionally under-resource neighborhoods and create affordable housing in high resource neighborhoods.

---

---

## 12.5.2 IMPLEMENTING PROGRAMS

The following programs identify actions the City will take to make sites available during 2021-2029 planning period with respect to land use and development standards and services/facilities to accommodate the City's share of regional housing need for each income level. The programs also address housing issues in Garden Grove, and identify approaches to meet State law housing requirements.

### Program 1: Housing Rehabilitation Grant

The Home Repair Program provides grants of up to \$5,000 to low-income homeowners to make improvements to major systems of the home (electrical, plumbing, heating, windows, etc.), as well as mobility and accessibility improvements.

**Objective:**

Assist approximately 40 homeowners per year or a total of 320 homeowners.

*Funding Source:* CDBG or other sources

*Responsible Party:* Neighborhood Improvement Division of the Community and Economic Development Department

*Timeframe:* 2021 to 2029

### Program 2: Code Enforcement

The City uses a building code and a Land Use (zoning) code enforcement program to help maintain the quality of residential neighborhoods. The building code enforcement program includes inspection of rental units in target areas for compliance with the housing code. All newly constructed and remodeled units are also inspected. The City's Land Use Code enforcement program is in place to substantially reduce continued zoning violations in target areas. The proactive program includes zoning education and enforcement, coupled with the marketing of programs to assist in the rehabilitation and maintenance of homes. The Municipal Code also includes a property maintenance ordinance (Title 9 Chapter 24 Section 200) that establishes standards of home maintenance practices and provides a legal basis for enforcement of the ordinance by code enforcement staff.

**Objectives:**

- **Property Maintenance Ordinance.** Enforce established standards of home maintenance practices through continued application of the Property Maintenance Ordinance.
- **Building and Land Use Code Enforcement.** Preserve the quality of housing in the City's target areas through building code enforcement inspections. Inspect all newly constructed and remodeled units. Continue to use Land Use Code enforcement activities to reduce the incidences of zoning violations. Proactively prevent violations through education and outreach of home improvement assistance.

---

*Funding Source:* CDBG or other sources  
*Responsible Party:* Neighborhood Improvement Division, Code Enforcement Division, and Building and Safety Division of the Community and Economic Development Department,  
*Timeframe:* 2021 to 2029

### **Program 3: Multi-Family Acquisition and Rehabilitation**

The City traditionally has been active in increasing and preserving the supply of affordable housing through acquisition and rehabilitation of properties. The City has been effective in working with several nonprofit organizations and developers to produce affordable units through acquisition and rehabilitation. The City enters into these partnerships not only to preserve the supply of affordable housing in the community, but also to stimulate high-quality property management and neighborhood improvement.

**Objective:**

Increase and maintain the City's affordable housing stock through acquisition and rehabilitation of 10 aging and/or deteriorating multi-family residential units annually (80 units total). Identify potential acquisition and rehabilitation units for interested housing development organizations.

*Funding Sources:* CDBG, HOME, Non-Profit Housing Organizations  
*Responsible Party:* Neighborhood Improvement Division of the Community and Economic Development Department  
*Timeframe:* 2021 to 2029

### **Program 4: Affordable Housing Construction**

Leveraging City funds to construct affordable housing is a key tool to increase the supply of affordable housing in Garden Grove. Affordable senior housing is a key need in the community as evidenced by the rapid leasing of units in new senior developments. The growing need for affordable senior housing will continue as the population ages.

**Objectives:**

- **Affordable Housing Assistance.** Provide technical and financial (as available) assistance for the construction of 10 affordable units annually (80 units total) using a combination of federal, State, and local funds to provide land cost write-downs and other construction assistance. Offer expedited processing for projects that include affordable housing units.
- **Senior Housing.** Encourage the implementation of Community Residential General Plan Land Use Designation for the new construction of senior housing, which allows higher densities and development standards reflective of the senior population.

- **Density Bonus.** Density Bonus projects will be one of the main sources of newly constructed units over the next eight years.
- **Marketing.** Continue to inform non-profit and for-profit developers of assistance available for the construction of affordable housing, including density bonuses.
- **Energy Conservation.** Encourage residential developments that lower housing costs through reduced energy consumption. Maximizing energy efficiency and the incorporation of energy conservation and green building features can reduce housing costs for homeowners and renters.
- **Industrial Property Contamination.** If industrial properties have been determined to be contaminated by previous activities as identified in technical studies, the City will assist affordable housing developers, subject to available resources, via technical assistance to direct the applicant to available resources facilitating the site for residential development. Technical assistance can include referral to responsible agencies for site assessment requirements, participating in consultation with responsible agencies, and directing applicants to information of available grants (e.g., Department of Toxic Substances Control Brownfields Revolving Loan Fund program) and other potential financial resources to fund cleanup.

*Funding Source: General Fund, HOME, Low/Moderate Income Housing Asset Fund (LMIHAF), Permanent Local housing Allocation (PLHA), Department of Toxic Substances Control Brownfields Revolving Loan Fund program*

*Responsible Party: Planning Services Division and Neighborhood Improvement Division of the Community and Economic Development Department*

*Timeframe: 2021 to 2029*

### **Program 5: Rental Assistance**

The Section 8 Housing Choice Voucher Program provides rental subsidies to lower income families that spend more than 30 percent of their income on rent. The subsidy represents the difference between the excess of 30 percent of the monthly income and permits tenants to locate their own housing.

#### **Objectives:**

- **Housing Choice Voucher Program (Section 8).** Annually provide rental assistance to approximately 2,337 very low-income persons or households. Pursue additional funding for the Section 8 program.
- **Mainstream Voucher (MV) Program.** The GGHA was recently awarded 75 MVs for individuals between the age of 18 and 61 with a debilitating condition. The City anticipates receiving additional Mainstream Vouchers as part of the federal government’s American Rescue Plan.

- **HEART Program.** Utilizing HUD Home funds and the City's Low/Moderate Income Housing Asset Funds, the City annually provides rental assistance with services to approximately 10 literally homeless households.
- **Anti-Displacement Program.** The City currently provides Tenant-Based Rental Assistance to 17 senior households at risk of homelessness due to expiring affordability covenants of their apartment complexes.
- **Emergency Solutions Grant (ESG).** Utilizing HUD ESG Entitlement funds, the City annually provides rental assistance to approximately 13 literally homeless and/or at-risk households. Additionally, via ESG Coronavirus funds (ESG-CV), the City anticipates providing rental assistance with services to approximately 350 households over the next two years.

*Funding Source:* HUD Section 8, HOME, LMIHAF, ESG,  
*Responsible Party:* Garden Grove Housing Authority  
*Timeframe:* 2021 to 2029

**Program 6: Home Ownership Assistance**

The First Time Homebuyer Assistance Program helps lower-income applicants qualify to purchase their first home. The program makes available a limited number of silent second and third mortgages to help applicants with the money necessary to qualify to purchase a home in Garden Grove. The City has faced challenges in implementing a first-time homebuyer program due to the competitive and expensive local housing market. While funding for the program is nearly exhausted, any program income received from the sale of previously acquired and rehabilitated foreclosed homes will be recycled back into the City's homebuyer program.

**Objective:**

Provide assistance to low-income households through the First Time Homebuyer Assistance program. Provide first time homebuyer assistance to five households, subject to availability of funding.

*Funding Source:* CalHOME and Neighborhood Stabilization Program (NSP)  
*Responsible Party:* Neighborhood Improvement Division of the Community and Economic Development Department  
*Timeframe:* 2021 to 2029

**Program 7: Preservation of Affordable Rental Housing**

Over the next nine years (2021-2029), nine assisted developments that provide 280 affordable units have expiring affordability covenants. Affordability covenants in Garden Grove include developments that hold a federal Section 8 contracts and/or were financed with redevelopment set aside funds or federal programs (CDBG, HOME).

**Objectives:**

- Assist in the preservation of 280 affordable units at risk of converting to market rents by:
- Periodically monitoring the status of the units that are at risk of converting to market rate during the planning period.
- If any property owners indicate plans to convert affordable units to market rate rents, the City will contact qualified entities to explore transfer of ownership options. The entities will be selected from the State's list of qualified entities to acquire/manage affordable housing.
- Make the State's list of qualified entities to acquire/manage affordable housing available to interested residents, developers, or property owners.
- Inform residents in units that are converting to market rents of affordable housing programs available in the City, including Section 8 and other affordable housing developments.

*Funding Source:* General Fund, CDBG, HOME, Non-Profit Housing Organizations  
*Responsible Party:* Garden Grove Housing Authority and Neighborhood Improvement Division of the Community and Economic Development Department  
*Timeframe:* 2021 to 2029

**Program 8: Residential Sites Inventory and Monitoring of No Net Loss**

Future residential development in Garden Grove will largely rely upon private redevelopment activity on nonvacant properties, particularly along the major corridors and around a planned commuter rail station, where mixed-use development is permitted. Garden Grove will be able to monitor the status of potential sites and will continue to provide site information to interested developers pursuant to SB 166 (No Net Loss).

**Objective:**

- Provide adequate sites to accommodate the City's entire RHNA allocation of 19,168 units (4,166 very low income, 2,801 low income, 3,211 moderate income, and 8,990 above moderate income).
- Maintain and monitor unit count based on income/affordability assumed on parcels included in the sites inventory and actual units constructed and income/affordability when sites are developed.
- Identify net change in capacity and summary of remaining capacity in meeting the remaining RHNA.
- Provide technical assistance and information on available City-owned parcels for lower income housing developments to housing providers. Technical assistance may include development counseling and lot consolidation assistance.
- Publish the residential sites inventory and housing opportunity list on the City's website.

- The Planning Services Division will be responsible for preparing an Annual Progress Report for review by the public, City decision-makers, and submittal to the State Department of Housing and Community Development. Use appropriate bodies as an avenue for public input on housing issues and housing element implementation.
- If a proposed reduction of residential density will result in the residential sites inventory failing to accommodate the RHNA by income level, the City will identify additional adequate sites to accommodate the share of housing need by income level within 180 days of approving the reduced density project pursuant to Government Code section 65863. This may require the rezoning of properties.

*Funding Source: General Fund*

*Responsible Party: Planning Services Division of the Community and Economic Development Department*

*Timeframe: Ongoing; annual assessment of status of housing sites inventory as part of the annual reporting process to the State*

### **Program 9: Accessory Dwelling Units (ADUs)**

ADUs represent an important affordable housing option for lower- and moderate-income households. The State has passed multiple bills since 2017 to remove constraints to the development of ADUs (including AB 587, AB 671, AB 68, and SB 13, among others). The City has adopted an ADU ordinance compliant with current laws.

#### **Objectives:**

- Update previously submitted Housing Element Annual Planning Reports (APRs) for 2018, 2019, and 2020 to establish the correct number of ADU permitted projects filed on record with the Building & Safety Division with those identified in the APRs.
- Prepare pre-approved ADU design templates, tailored to meet specific zoning and building standards. Use of these design templates by a potential developer would ensure that the proposed ADU meets most, if not all, required standards at the outset of the development process, minimizing and streamlining the review process.
- Promote development of ADUs by providing written information at the City's planning counter and on the City's website, including development of an information packet to market ADU construction.
- Monitor ADU permit applications and approvals (including the affordability of constructed ADUs) through the Housing Element Annual Progress Report process; if, at the midpoint of the planning period, targets identified in the Housing Element are not met, identify and implement additional incentives or other strategies, as appropriate, to ensure adequate sites during the planning period.
- Identify a staff member in the Planning Services Division and/or Building and Safety Division who can respond to inquiries and support outreach efforts.

- 
- 
- Consider establishing an ADU “amnesty” program to allow existing unpermitted units to come up to code standards without penalty, helping to preserve accessory units.

*Funding Source: General Fund and Grants*

*Responsible Party: Planning Services Division and the Building and Safety Division of the Community and Economic Development Department*

*Timeframe: Prepare ADU design templates, promotion materials, and information packet within one year of Housing Element adoption; annually monitor ADU construction and affordability; in 2025, evaluate progress compared to projections. If targets are not being achieved, implement new strategies in a timely manner (i.e., within approximately six months) to encourage ADU development.*

*Quantified Objective: Support the development of 2,009 accessory dwelling units during the planning period.*

### **Program 10: Density Bonus**

State law requires jurisdictions to provide density bonuses and development incentives to all developers who propose to construct affordable housing. The density bonus is assigned on a sliding scale, where the level of density bonus and number of incentives vary according to the number and type of affordable housing units to be provided. Specifically, State law requires the provision of total units to be affordable to lower- and moderate-income households.

#### **Objective:**

- Review the existing density bonus ordinance that establishes procedures to ensure compliance and consistency with Government Code §65400 and §65915, including revisions of density bonus provisions for units that are for lower-income households, very low-income households, persons and families of moderate income, and senior housing.
- Evaluate the density bonus procedural requirements to ensure financial feasibility to facilitate affordable housing development and provide flexibility.
- Promote the use of density bonus incentives and provide technical assistance to developers in utilizing density bonus for maximize feasibility and meet local housing needs.

*Funding Source: General Fund*

*Responsible Party: Planning Services Division of the Community and Economic Development Department*

*Timeframe: Evaluate the current Density Bonus ordinance within one year of Housing Element adoption; adopt a new Density Bonus Ordinance by 2025; and provide ongoing promotion of the density bonus incentives and ongoing technical assistance.*

### **Program 11: Inclusionary Housing Ordinance**

---

---

Investigate the feasibility of adopting an Inclusionary Housing Ordinance, which ensures the production of affordable units in new market-rate development by establishing affordable housing set-aside requirements on residential projects that meet certain criteria. These requirements are set at a level that can be supported on a financially feasible basis, as determined through an economic feasibility study.

**Objective:**

- Evaluate and consider adopting an inclusionary housing ordinance requiring residential rental housing developments to include a specified percentage of affordable units as a condition of development.
- Conduct an economic feasibility study to determine: 1) what percentage of units are required to be affordable, 2) whether the inclusionary housing ordinance, if enacted, would unduly constrain or discouraging the private market development of housing in the City, and 3) determine if a payment of an in-lieu fee or provision of affordable off-site units in another project could be implemented as an option.

*Funding Source: General Fund*

*Responsible Party: Planning Services Division and Neighborhood Improvement Division of the Community and Economic Development Department*

*Timeframe: Conduct an economic feasibility analysis within four years of Housing Element adoption; if an inclusionary housing ordinance is determined to be economically feasible for Garden Grove and will positively impact production of affordable housing, adopt an inclusionary housing ordinance by 2027.*

**Program 12: Mixed-Use Development**

Mixed-use development will add residential units along major corridors and can provide significant opportunities for affordable housing development. In addition to providing for expanded residential development in higher-density settings, mixed-use developments will help the City achieve greenhouse gas reductions through reduced vehicle trips. The City will monitor the production of housing produced in mixed-use developments.

**Objectives:**

- **Technical Support.** Facilitate the development of residential units in mixed-use areas by providing technical support to facilitate lot consolidation, financial assistance (where feasible), and streamlined permit processing. The City will establish specific and objective criteria for mixed-use site plan reviews and will target development densities as estimated in the Housing Element.
- **Strategic Partnerships.** Play a proactive role in development of mixed-use areas by pursuing strategic partnerships with developers, lenders, and property owners to ensure the development of housing at appropriate densities and the inclusion of affordable housing units.

- 
- 
- **Annually Monitor Development.** Establish a protocol to annually monitor development interest, inquiries, and progress towards mixed-use development and affordable housing creation by specific RHNA income categories. Periodically re-evaluate approach and progress. Should monitoring reveal a shortfall in residential and affordable residential uses in mixed use developments, the City will develop additional incentives and approaches (including examination of development standards) to ensure the City satisfies its identified housing need (RHNA).

*Funding Source:* General Fund and other sources

*Responsible Party:* Planning Services Division and Neighborhood Improvement Division of the Community and Economic Development Department

*Timeframe:* 2021 to 2029

### **Program 13: Special Needs Housing**

Certain groups have more difficulty in finding decent, affordable housing due to their special circumstances. Special circumstances may be related to one's income earning potential, family characteristics, the presence of physical or mental disabilities, or age-related health issues. The City of Garden Grove recognizes the changing housing needs of its population, including aging seniors in need of supportive services, large families in need of appropriately sized units, and disabled residents in need of housing choices. To meet the changing needs of its residents, the City will encourage the provision of more innovative housing types that may be suitable for the community.

#### **Objectives:**

- **Evaluation of Standards.** Periodically evaluate emergency shelter development and siting standards based on existing needs and development interest and as warranted, re-evaluate and make appropriate changes to facilitate the development of emergency shelters.
- **Prioritization.** Prioritize projects that include special needs housing or housing for extremely/very low-income households in the development application review process.
- **Reference.** Refer residents to the Regional Center of Orange County for housing and services available for persons with developmental disabilities. Provide information on services on the City's website. As available, the City will pursue State and federal monies for direct support of housing construction and rehabilitation specifically targeted for housing for persons with disabilities.
- **Permanent Supportive Housing.** Encourage developers to include Extremely Low Income (30 percent AMI) units with wrap-around services for the homeless. These units must be paired with either tenant-based or project-based vouchers, which limits availability.

---

*Funding Source:* General Fund  
*Responsible Party:* Neighborhood Improvement Division of the Community and Economic Development Department  
*Timeframe:* Ongoing; update Development Code within two years of adoption

#### **Program 14: Parking Standards**

Parking requirements that do not reflect true demand and can contribute to high construction costs, and thus affect housing affordability. However, inadequate parking supply can impact residential neighborhoods. The City will continue to evaluate parking standards and employ creative parking solutions to balance residents' parking needs without constraining development of affordable housing.

##### **Objectives:**

- **Standards Review.** Review parking standards and modify only as needed within the Municipal Code and the relevant specific plans. Parking standards should facilitate and encourage a variety of housing types, including affordable lower-income housing, and should not constrain development.
- **Reducing Parking.** Continue using available procedures for reducing parking based on proximity to transit corridors, mixed-use projects along commercial corridors, projects near community facilities (shopping, schools, recreation, etc.), projects with a variety of unit types, and projects for seniors, disabled persons, and other special needs households that typically have lower parking demands.
- **Parking Solutions.** Identify parking management strategies and tools to minimize parking impacts in residential neighborhoods, including, but not limited to approaches that increase parking supply, use existing parking facilities more efficiently, address variable demand, reduce parking demand, respond to spillover impacts, and parking management and design.

*Funding Source:* General Fund  
*Responsible Party:* Planning Services Division of the Community and Economic Development Department  
*Timeframe:* Ongoing; update Municipal Code within four years of Housing Element adoption

#### **Program 15: Water and Sewer Service Providers**

In accordance with Government Code Section 65589.7, immediately following City Council adoption, the City must deliver to all public agencies or private entities that provide water or sewer services to properties within Garden Grove a copy of the Housing Element.

##### **Objective:**

Within 30 days of Housing Element adoption, deliver the Garden Grove Housing Element to all providers of sewer and water service within the City.

---

---

*Funding Source:* Grants  
*Responsible Party:* Planning Services Division of the Community and Economic Development Department  
*Timeframe:* Within 30 days of adoption of the Housing Element

**Program 16: Objective Design Standards**

Adopt objective design standards to ensure the City can provide local guidance on design and standards for by-right projects as allowed by State law. Adoption of objective design standards will facilitate high-quality residential developments and compliance with State objectives. The objective design standards will ensure provision of adequate private open space, parking, and related features, as well as architectural design, consistent with State law (SB 35).

**Objective:**

Adopt objective design standards amending Chapter 9.12 (Multi-family and Single-family Residential Development Standards) under Title 9 (Land Use) of the Garden Grove Municipal Code.

*Funding Source:* General Fund and Grants  
*Responsible Party:* Planning Services Division of the Community and Economic Development Department  
*Timeframe:* Within one year of adoption of the Housing Element

**Program 17: Zoning Code Update**

In concert with the Housing Element adoption or pursue shortly thereafter those measures not required to create zoning capacity to achieve the RHNA.

**Objectives:**

- Modify Multi-Family Residential Development Standards specifically revising or removing Development Density R-3 Zone table that limits residential density based on lot size.
- Remove the requirements that: (i) restrict multi-family third-story building area at 50 percent; and (ii) restrict a building to one story if within 20 feet of an R-1 zone property.
- Review, and modify as necessary, the outdoor recreation requirements, including private open space and communal space requirements for multifamily developments.
- Examine the standards for internal improvements for single-family residences to prevent their illegal conversion to boardinghouses.
- Create standards for single-room occupancy housing and motels that could be converted into permanent housing.
- Create standards for permanent supportive housing to implement State law.

- 
- 
- Add Low Barrier Navigation Centers (AB 101) as a use by right, as defined, in areas zoned for mixed uses and nonresidential zones permitting multifamily uses, if applications meet specified requirements.

*Funding Source: General Fund and Grants*

*Responsible Party: Planning Services Division of the Community and Economic Development Department*

*Timeframe: Within two years of Housing Element adoption*

### **Program 18: Affirmatively Further Fair Housing**

Affirmatively Furthering Fair Housing seeks to combat housing discrimination, eliminate racial bias, undo historic patterns of segregation, and lift barriers that restrict access, with the focus on fostering inclusive communities and achieving racial equity, fair housing choice, and opportunity for all residents. With the passage of Assembly Bill 686 (2018), all of California’s public agencies have an obligation to affirmatively further fair housing. AB 686 requires local public agencies to take deliberate action to explicitly address, combat, and relieve disparities resulting from past and current patterns of segregation and to promote more inclusive communities.

#### **Objectives:**

- Promote and affirmatively further fair housing opportunities and promote housing for all persons, including those protected by the California Fair Employment and Housing Act and any other State and federal fair housing and planning laws. Add resources and information in English, Spanish, Vietnamese, and Korean and make available to the public.
- Consistent with the Consolidated Plan, provide fair housing services to Garden Grove residents. Serve 1,010 persons annually with general housing/fair housing issues (8,080 persons total over eight years).
- Continue to implement the Analysis of Impediments to Fair Housing Choice and HUD Consolidated Plan.
- Require all recipients of federal funds who are in any way related to housing—including in the development of housing, placement of clients in housing, or acceptance of Section 8 tenants—to assist in affirmatively furthering fair housing.
- Continue to invest in landlord and tenant counseling and mediation services, unlawful detainer assistance, housing discrimination services, homebuyer education and outreach, and local eviction prevention strategies.
- Advertise the availability of fair housing services through flyers at public counters, direct outreach to affected persons, and posting of available fair housing services on the City’s website. Ensure resources and website information are available in English, Spanish, Vietnamese, and Korean.

- Promote public awareness of federal, State, and local regulations regarding equal access to housing. Provide information to the public on various State and federal housing programs and fair housing law. Maintain referral information on the City's website and at a variety of other locations such as community and senior centers, local social service offices, and other public locations, including City Hall and the City Library.
- Refer residents involved in housing-related civil disputes such as landlord/tenant disputes and housing discrimination complaints to the California Department of Fair Employment and Housing and the Fair Housing Council of Orange County.
- Ensure that all development applications are considered, reviewed, and approved without prejudice to the proposed residents, contingent on the development application's compliance with all entitlement requirements.
- Evaluate all proposed amendments to the General Plan Land Use Map and the Zoning Map for their effect on the City's policy of integrating diverse housing opportunities in each neighborhood or planning area.
- Accommodate persons with disabilities who seek reasonable waiver or modification of land use controls and/or development standards pursuant to procedures and criteria set forth in the Municipal Code.
- Use local permitting and approval processes to ensure all new multifamily construction meets the accessibility requirements of the federal and State fair housing acts.
- Pursue funding and target neighborhoods of concentrated poverty for investment in rehabilitation, parks, transit, and active transportation. Ensure economic development plans reflect the needs of lower-opportunity neighborhoods.
- Prioritize community and stakeholder engagement during controversial development decisions.
- Include a fair housing presentation to the City Council during a public meeting at least once per year.

*Funding Source: General Fund*

*Responsible Party: Planning Services Division, Building and Safety Division, and Neighborhood Improvement Division of the Community and Economic Development Department*

*Timeframe: Ongoing; expand access to multilingual informational material on fair housing to be made available at public counters, libraries, other community locations, and on the City's website within two years; assess fair housing issues as part of the regional Analysis of Impediments to Fair Housing Choice (estimated to be updated in 2025); and address any identified impediments in Garden Grove within one year.*

## Program 19: Homeless Housing Needs

---

---

To address homelessness in the community, the City of Garden Grove supports several homeless services providers that provide homeless prevention, supportive services, and emergency and transitional shelters. These include the Women’s Transitional Living Center (emergency shelter and support services for 1,280 domestic violence survivors), Interval House (domestic violence shelter for support services to 400 victims of domestic violence), OC Partnership (provides technical support and training to homelessness service providers), and the Thomas House Temporary Shelter (food supply, shelter, and life skill resources to approximately 30 homeless families). The City’s Section 8 program is also used to address homelessness. The City has signed Memorandums of Understanding with two homeless service providers to give preference to referred clients for rental assistance vouchers.

**Objective:**

Consistent with the Consolidated Plan, address the needs of at-risk and homeless individuals and families through assistance to non-profits serving the homeless population. Provide emergency/transitional housing or homeless services to 250 extremely low-income or at-risk clients annually (1,750 persons total). As part of the annual General Plan report, identify any new shelters that have been constructed in the City.

*Funding Source:* ESG funds, Section 8 Program

*Responsible Party:* Neighborhood Improvement Division of the Community and Economic Development Department, Housing Authority

*Timeframe:* 2021 to 2029

**Program 20: Healthy and Sustainable Living Environments**

The City will encourage and facilitate energy conservation and building design strategies that help residents minimize energy-related expenses and that reduce impacts on housing located near transportation corridors and industrial uses.

**Objectives:**

- Continue implementation of environmental conservation plans and policies that foster multi-modal transportation systems, reduce greenhouse gas emissions, implement Low Impact Development standards, promote water conservation, and encourage habitat conservation.
- Promote environmentally sustainable building practices that provide cost savings to homeowners and developers, including advertising utility rebate, weatherization, and energy audit programs through private utilities and the State.
- Provide informational material at the Planning and Building and Safety Division’s counter and on the City website from Southern California Edison and others that detail energy conservation measures for new and existing buildings, the benefits of the Green Building Code, and resources to assist lower-income households with energy-related expenses.
- Continue to enforce the State energy standards of the California Green Building Code.

- 
- 
- Target housing units within 1,000 feet of freeways, railways, major arterials, and distribution centers, to encourage building design strategies to limit air pollution, including but not limited to installing double glazed windows, use of MERV 13 filters with HVAC systems, and maximizing exterior wall insulation to limit air and noise pollution.

*Funding Source: General Fund and Grants*

*Responsible Party: Planning Services Division and Building and Safety Division of the Community and Economic Development Department*

*Timeframe: Ongoing; updated energy conservation information available one year after adoption of the Housing Element*

### **Program 21: Replacement of Units on Sites**

Pursuant to Government Code Section 65583.2(g)(3), require the replacement of units affordable to the same or lower income level as a condition of any development on a nonvacant site identified in the Housing Element consistent with those requirements set forth in Government Code section 65915(c)(3). Replacement requirements shall be required for sites identified in the inventory that currently have residential uses, or within the past five years have had residential uses that have been vacated or demolished, and:

- Were subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of low or very low-income; or
- Subject to any other form of rent or price control through a public entity's valid exercise of its police power; or
- Occupied by low or very low-income households. For the purpose of this program "previous five years" is based on the date the application for development was submitted.

Pursuant to Government Code section 66300(d) (Chapter 654, Statutes of 2019 (SB 330)), the City shall not approve a housing development project that will require the demolition of residential dwelling units regardless of whether the parcel was listed in the inventory unless a) the project will create at least as many residential dwelling units as will be demolished, and b) certain affordability criteria are met.

*Funding Source: Departmental Budget*

*Responsible Party: Planning Division of the Community and Economic Development Department*

*Timeframe: Ongoing*

### **Program 22: Affordable Housing Overlay**

Consider establishing an Affordable Housing Overlay that targets selected areas where regulatory incentives facilitate expanding affordable housing. An Affordable Housing Overlay adds a layer of regulatory incentives to established zoning standards to encourage developers to build affordable housing as part of their projects. A developer, for example, could be allowed to use the maximum residential density as an incentive for building affordable housing.

**Objectives:**

- Study and, if shown to be appropriate for Garden Grove, adopt an Affordable Housing Overlay. Assess any constraints such an ordinance might have on residential development in the City and modify accordingly.
- Consult with for-profit and nonprofit developers to determine an appropriate mix of incomes that make development feasible in Garden Grove.
- Consider targeting mixed use corridors and zones with higher residential density maximums as potential areas for an Affordable Housing Overlay.
- The Overlay regulations should be additive to any established base zone and also be complementary with other affordable housing programs, including the Density Bonus Ordinance and the Inclusionary Housing Ordinance.

*Funding Source: General Fund*

*Responsible Party: Planning Services Division of the Community and Economic Development Department*

*Timeframe: Within four years of Housing Element adoption, conduct an analysis to determine if an Affordable Housing Overlay is appropriate for Garden Grove; if an Affordable Housing Overlay has been deemed appropriate for the City, adopt an ordinance by 2026.*

**Program 23: Reasonable Accommodation**

The City will identify and prepare a formalized process for Reasonable Accommodation requests for use by the Community and Economic Development Department, including developing procedures, streamlined application, and/or review and approval process for housing for persons with disabilities. The City will also ensure consistency with the Garden Grove Housing Authority Reasonable Accommodation process and create promotional materials to advertise the process.

*Objective: Prepare Reasonable Accommodation application and related promotional materials advertising the availability of the process.*

*Funding Source: General Fund and Grants*

*Responsible Party: Planning Services Division of the Community and Economic Development Department*

*Timeframe: Formalize the Reasonable Accommodation application and prepare related materials within one year of adoption of the Housing Element. Prepare marketing materials to promote the Reasonable Accommodation process within one year and after process is completed.*

**12.5.3 QUANTIFIED OBJECTIVES**

Table 12-48 summarizes the City’s quantified objectives for the 2021-2029 planning period by income group as required by law.

**Table 12-48  
2021-2029 Quantified Objectives**

Objectives <sup>1</sup>	Income Levels				Total
	Extremely/ Very Low	Low	Moderate	Above Moderate	
RHNA	4,166	2,801	3,211	8,990	<b>19,168</b>
Construction	4,098	2,429	3,201	8,483	<b>18,211</b>
Rehabilitation		160	80	80	<b>320</b>
Housing Assistance (Housing Choice Voucher Program)		2,337	--	--	<b>2,337</b>
Conservation (At-Risk Housing: 2021-2031)		525	--	--	<b>525</b>

**Note:** 1) The City of Garden Grove is not responsible for the actual construction of these units. The City is, however, responsible for creating a regulatory environment in which the private market could build these units. This includes the creation, adoption, and implementation of General Plan policies, zoning standards, and/or incentives to encourage the construction of various types of units.

The Construction Objective represents the City's remaining RHNA obligation (after counting as credit the units with approved or issued permits and proposed projects) of 19,168 units. The Rehabilitation Objective represents objectives for the Housing Rehabilitation program. The Housing Assistance objective refers to maintenance of the current level of assistance through the Section 8 Program (Housing Choice Voucher Program) from Garden Grove Housing Authority. The Conservation objective refers to conservation of at-risk units through 2029.

---

---

## 12.6 2014-2021 HOUSING ELEMENT PROGRAM ACCOMPLISHMENTS

This chapter analyzes program performance from the 2014-2021 Housing Element. State law (California Government Code Section 65588[a]) requires each jurisdiction to review its Housing Element as frequently as appropriate and evaluate:

1. The appropriateness of the housing goals, objectives, and policies in contributing to the attainment of the state housing goal
2. The effectiveness of the Housing Element in attainment of the community's housing goals and objectives
3. Progress in implementation of the Housing Element

This evaluation provides information regarding the effectiveness of programs in achieving stated objectives and whether these programs continue to be relevant to addressing current and future housing needs in Garden Grove. The evaluation provides the basis for recommended modifications to policies and programs and the establishment of new housing objectives. Following the evaluation table, the quantified objective performance is summarized.

Through program implementation during the 2014-2021 planning period, the City of Garden Grove has made considerable progress in addressing the housing needs of special needs populations (e.g., elderly, persons with disabilities, large households, female headed households, and persons experiencing homelessness).

In 2017, the City worked with Jamboree Housing Corporation on the United Methodist Church Project to provide high-quality housing to 47 families and seniors who earn between 50% and 60% Area Median Income (AMI). In 2018, the Planning Commission approved a senior housing mixed-use complex, Garden Brook Senior Village, with 394 apartment units at below market rents aimed at seniors. Eligible seniors must be 62 years of age or older and senior-living units are available to households at or below 60% of the Orange County AMI. Additionally, Garden Brook Senior Village's intergenerational partnership with the neighboring Boys and Girls Clubs of Garden Grove will include programs that foster mutually benefitting youth and senior interactions.

In partnership with the Fair Housing Foundation, Garden Grove has continued to provide fair housing education and information to apartment managers and homeowner associations on why denial of reasonable modifications/accommodations is unlawful.

In 2014, the following organizations received Emergency Solutions Grants from the City of Garden Grove:

- **Interval House.** This organization provides health, safety, and self-sufficiency services for victims of domestic violence and individuals at risk for abuse and homelessness.

- 
- 
- **Woman's Transitional Living Center (WTLC).** This non-profit organization dedicated to helping individuals and families escape the depths of domestic violence and exploitation, including survivors of domestic violence and human trafficking. This organization has also expanded to provide a comprehensive residential program, a children's program, a crisis hotline, and a community services program.
  - **Thomas House.** The Thomas House Family Shelter is a non-profit organization located in the City of Garden Grove that aids and supports homeless families with children by providing rent-free, transitional shelter in 24 safe apartment units with food, supplies, and a full range of supportive services and programs.
  - **Mercy House Living Centers.** Mercy House provides housing and comprehensive supportive services to a wide variety of homeless subpopulations including, but not limited to, adult men and women, families, mothers and their children, veterans, chronically homeless individuals, persons living with HIV/AIDS, individuals overcoming substance addictions, and those who are both physically and/or mentally disabled.

To support the needs of large families, several affordable housing projects were constructed and/or rehabilitated. Wesley Village, a 47-unit new construction, affordable housing project was completed in 2017 consisting of a family apartment building, senior apartment building and Head Start learning center for children. The two (2) three-story residential buildings are home to families and seniors, and provide ample space for outdoor activities with a large outdoor deck atop the family building, a barbecue/dining area, tot lot, fitness areas, and landscaped spaces for recreation. The project is located on Orange County Transit Authority (OCTA) Route 37, which is designated as a High-Quality Transit Line with stops of 15 minutes or less during peak hours. Sycamore Court, a 78-unit, acquisition/rehabilitation, affordable housing project was completed in 2018 consisting of 43 two-bedroom units and 15 three-bedroom units, a large playground for children, a pool, and several hundred square feet of open space for recreational activities. The project is located within a half mile of two intersecting High-Quality Transit Lines (OCTA Route 37 and Route 64), which qualifies the intersection as a High-Quality Transit Area.

To support the needs of persons experiencing homelessness, the City has used the Department of Housing and Urban Development Emergency Solutions Grants to assist 3,502 homeless individuals with services. The City provided 2,778 extremely low-income or at-risk clients emergency/transitional housing or homeless services. In May 2021, the City approved a one-year pilot program that identifies Be Well OC (Mind OC) as the service provider for the City's Mobile Crisis Response Team that will, in partnering with the Police Department, provide a mobile mental health unit to enhance the City's homeless resources.

Additionally, the City adopted the Comprehensive Strategic Plan to Address Homelessness (CSPA), which identifies as a top priority the production of Permanent Supportive Housing (PSH) throughout the City. These PSH units are automatically designated as Extremely Low Income (ELI)

units, thus every new affordable housing project contemplated by the City will include the provision of ELI units for the homeless. Regarding funding for affordable housing, the City annually receives approximately \$800,000 in HOME funding, was recently awarded over \$5 million in Permanent Local Housing Allocation funding, recently received an award of over \$3 million in HOME-ARP funding, as well as the \$13 million in Low and Moderate Income Housing Asset Fund mentioned above.

**Table 12-49** summarizes the quantified objectives for the 2014-2021 Housing Element and compares the City's progress toward fulfilling these objectives. The City recognizes that it had limited resources to address the varied affordable housing needs in the community. As part of the 2014-2021 Housing Element, the City established a set of quantified objectives for housing construction, rehabilitation, and conservation. **Table 12-50** summarizes the 2014-2021 Housing Element program objectives and accomplishments and whether the program is appropriate to continue in the 2021-2029 Housing Element.

**Table 12-49**  
**Summary of 2014-2020 Quantified Objectives and Progress**

Objectives	Income Levels					Total
	Extremely Low	Very Low	Low	Moderate	Above Moderate	
<b>New Construction Objectives</b>						
Goal	164		120	135	328	<b>750</b>
Progress	7 (4.3%)		126 (105.0%)	79 (243%)	787 (239.9%)	<b>1,248 (167.1%)</b>
<b>Rehabilitation Objectives</b>						
Goal	70					<b>70</b>
Progress	0 (0%)	0 (0%)	0 (0%)	0 (0%)	0 (0%)	<b>0 (0%)</b>
<b>Conservation Objectives</b>						
Goal	528					<b>528</b>
Progress	0 (0%)	0 (0%)	0 (0%)	0 (0%)	0 (0%)	<b>0 (0%)</b>

**Table 12-50  
Review of Past Accomplishments**

2014-2021 Housing Element Program	Progress and Continued Appropriateness
<i>A. Conserving the Existing Affordable Housing Stock</i>	
<p><b>Program 1: Housing Rehabilitation Grants</b> Senior Home Improvement Grants provide 10 Senior Home Improvement Grants annually (70 total) to make exterior home improvements, interior repairs to address safety issues, and mobility and accessibility improvements.</p>	<p>Since the reimplementation of the Senior Home Improvement Grant Program in 2016 and subsequent transition to the Home Repair Program in 2020, the City has assisted 105 Garden Grove residents with housing rehabilitation grants. Along with the transition from the Senior Home Improvement Grant to the Home Repair grant, the City has since partnered with Habitat For Humanity as the sole source general contractor for the program. This partnership will greatly streamline the process and allow for the completion of up to 40 owner-occupied rehabilitation projects per year</p> <p><i>Continued Appropriateness:</i> Housing maintenance and rehabilitation is an important City goal and as such, this program remains in the Housing Element with modified objectives.</p>
<p><b>Program 2: Code Enforcement</b> Property Maintenance Ordinance enforcement established standards of home maintenance practices through continued application of the Property Maintenance Ordinance. Building and Land Use Code Enforcement Preserve the quality of housing in the City's target areas through building code enforcement inspections of all newly constructed and remodeled units. Continue to use Land Use Code enforcements activities to reduce the incidences of zoning violations. Proactively prevent violations through education and outreach of home improvement assistance.</p>	<p>The Code Enforcement Division (under the Community and Economic Development Department) actively works to eliminate unsightly, unhealthy, and undesirable conditions by investigating and enforcing code violations in response to resident's complaints, observations by staff, and referrals from other City departments and City Officials. Compliance is accomplished by cooperation and education of the public.</p> <p><i>Continued Appropriateness:</i> Code Enforcement is an important City goal and as such, this program remains in the Housing Element with modified objectives.</p>

2014-2021 Housing Element Program	Progress and Continued Appropriateness
<p><b>Program 3: Multi-Family Acquisition and Rehabilitation</b></p> <p>Increase the affordable housing stock through acquisition and rehabilitation of 20 aging and/or deteriorating residential units annually (140 units total). Identify potential acquisition and rehabilitation units for interested non-profit housing organizations.</p>	<p>In 2018, the City provided funds to assist in the acquisition and rehabilitation of a 78-unit apartment complex at risk of converting to market rate. All 78 units are for very low income (50% AMI) households. This project does not fit the State Housing and Community Development’s definition of rehabilitation.</p> <p><i>Continued Appropriateness:</i></p> <p>Acquisition and rehabilitation of housing stock to increase and preserve affordable housing is an important City goal and, as such, this program remains in the Housing Element with modified objectives.</p>
<p><b>Program 4: Affordable Housing Construction</b></p> <p>Provide technical and financial (as available) assistance for the construction of 15 affordable units annually (90 units total) using a combination of Federal, State and local funds to provide land cost write-downs and other construction assistance. Offer priority processing for projects that include affordable housing units.</p>	<p>In 2017, the City worked with Jamboree Housing Corporation on the United Methodist Church Project to provide high-quality housing to 47 families and seniors who earn between 50% and 60% AMI. In 2018, the Sycamore Court Apartments were completed, providing 77 affordable housing units to low-income households, including seven for very low income, 70 at low income, and one unit at above moderate. In 2014, through the density bonus provisions, the Waterstone Apartments and Cobblestone Apartments provided four units and five units, respectively, to low-income households. Since 2014, the City has accommodated 133 lower-income housing units.</p> <p><i>Continued Appropriateness:</i></p> <p>Funding and technical assistance are important tools for facilitating development of affordable housing. This program remains in the Housing Element with modified objectives.</p>

2014-2021 Housing Element Program	Progress and Continued Appropriateness
<p><b>Program 5: Rental Assistance</b></p> <p><i>Housing Choice Voucher Program (Section 8)</i></p> <p>Annually provide rental assistance to approximately 2,337 very low-income persons or households. Pursue additional funding for the Section 8 program.</p> <p><i>Homeless Emergency Assistance and Rental Transition (HEART) Program</i></p> <p>Utilizing federal HOME and Housing Successor funds, the City annually provides up to 20 literally homeless or at-risk households with up to 24-months of rental assistance and wrap-around services.</p> <p><i>Emergency Solutions Grant (ESG)</i></p> <p>Utilizing federal ESG and ESG-Coronavirus (ESG-CV) funds, the City has currently allocated over \$2.6M to provide rental assistance to literally homeless and at-risk households. Following the expenditure of the "one-time" ESG-CV funds, the City will continue to annually allocate approximately \$55,000 to provide rental assistance to the homeless and at-risk population.</p>	<p>The Garden Grove Housing Authority administers Section 8 Rental Assistance for the City. The Housing Authority currently assists over 2,300 families annually with their monthly rent.</p> <p><i>Continued Appropriateness:</i></p> <p>Rental assistance remains the most important form of housing assistance for lower-income households, as well as seniors. This program is continued in the Housing Element with modified objectives.</p>

2014-2021 Housing Element Program	Progress and Continued Appropriateness
<p><b>Program 6: Home Ownership Assistance</b></p> <p>Provide assistance to potential lower-income homeowners through the First Time Homebuyer Assistance program. Provide first time homebuyer assistance to one household, subject to availability of funding.</p>	<p>In partnership with the Federal Home Loan Bank of San Francisco, the City designed and implemented a first-time homebuyer program to assist low-income households with down payment assistance. Since 2018, the City has assisted eight households with down payment assistance.</p> <p><i>Continued Appropriateness:</i></p> <p>The cost of purchasing a home is very expensive in Orange County, including the upfront costs needed for a down payment. Purchasing a home may be out of reach for many first-time home buyers. This program is continued in the Housing Element.</p>
<p><b>Program 7: Preservation of Affordable Rental Housing</b></p> <p>Assist in the preservation of 528 affordable units at risk of converting to market rents by:</p> <ul style="list-style-type: none"> <li>▪ Periodically monitoring the status of the units that are at risk of converting to market rate during the planning period.</li> <li>▪ If any property owners indicate plans to convert affordable units to market rate rents, the City will contact qualified entities to explore transfer of ownership options. The entities will be selected from the State’s list of qualified entities to acquire/manage affordable housing.</li> <li>▪ Make the State’s list of qualified entities to acquire/manage affordable housing available to interested residents, developers, or property owners.</li> <li>▪ Inform residents in units that are converting to market rents of affordable housing programs available in the City, including Section 8 and other affordable housing developments.</li> </ul>	<p>In 2020, affordability covenants expired for 56 multifamily rental units. Over the next 10 years (2031), 360 affordable units are at-risk of being lost due to expiring affordability covenants.</p> <p><i>Continued Appropriateness:</i></p> <p>An updated version of this program remains in the Housing Element, as preservation of affordable housing is an important goal. Over the next 10 years (2021-2031), seven assisted developments that provide 524 affordable, multifamily units have expiring affordability covenants. This program will continue.</p>

2014-2021 Housing Element Program	Progress and Continued Appropriateness
<b>Adequate Housing Sites</b>	
<p><b>Program 8: Sites Inventory</b></p> <p>Continue to provide appropriate land use designations and maintain an inventory of suitable sites for residential and mixed-use development.</p> <p>Provide technical assistance and information on available City-owned parcels for lower income housing developments to housing providers. Technical assistance may include development counseling and lot consolidation assistance.</p> <p>Update the vacant and underutilized residential sites inventory every two years to maintain accurate information.</p> <p>Publish the residential sites inventory and housing opportunity list on the City's website.</p> <p>Address sewer infrastructure constraints by completing sewer upgrades to the sewer capacity deficiency zone as units are constructed and reimbursing developers for sewer upgrades that are consistent with the Sewer Capital Improvements Plan.</p>	<p>The City continued to provide appropriate land use designations and zoning to facilitate a variety of types of residential development. Planning staff meets with developers to discuss housing opportunities and provide technical assistance.</p> <p><i>Continued Appropriateness:</i></p> <p>The maintenance of adequate sites is a key goal. This program will be continued and modified to include objectives pertaining to tracking to ensure no net loss of sites during the planning period.</p>

2014-2021 Housing Element Program	Progress and Continued Appropriateness
<p><b>Program 9: Mixed Use Development</b></p> <p>Facilitate the development of residential units in mixed use areas by providing technical support to facilitate lot consolidation, financial assistance, where feasible, and streamlined permit processing. The City will establish specific and objective criteria for mixed use site plan reviews and will target development densities as estimated in the Housing Element.</p> <p>Play a proactive role in development of mixed use areas by pursuing strategic partnerships with developers, lenders, and property owners to ensure the development of housing at appropriate densities and the inclusion of affordable housing units.</p> <p>Establish a protocol to annually monitor development interest, inquiries, and progress towards mixed use development and affordable housing creation. Periodically re-evaluate approach and progress. Should monitoring reveal a shortfall in residential and affordable residential uses in mixed use developments, the City will develop additional incentives and approaches (including examination of development standards) to ensure the City satisfies its identified housing need (RHNA).</p>	<p>In March 2012, the Land Use Code was amended to include new Mixed Use zones. The standards allow for more flexibility with the intent of making mixed use development more feasible and facilitate and encourage such type of development. In 2014, the City approved mixed-use Jamboree project, which has 47 low-income units, a church, and two preschools. In 2017, the first phase of the Brookhurst Triangle development was completed, including 180 apartments. This multiphase mixed-use project includes up to 200,000 square feet of commercial and retail space, 600 residential units, and a hotel. The master plan for the project includes residential rentals, for-sale condominiums, and affordable housing units.</p> <p><i>Continued Appropriateness:</i></p> <p>Mixed-Use designated properties within the Sites Inventory will accommodate a large portion of the RHNA. This program will be continued and modified to include objectives pertaining to tracking to ensure no net loss of sites during the planning period.</p>

---

---

**Remove Constraints to Housing Production**

**Program 10: Special Needs Housing**

Periodically evaluate emergency shelter development and siting standards, based on existing needs and development interest and as warranted, re-evaluate and make appropriate changes to facilitate the development of emergency shelters.

Prioritize projects that include special needs housing or housing for extremely/very low-income households in the development application review process.

Refer residents to the Regional Center of Orange County for housing and services available for persons with developmental disabilities. Provide information on services on the City's website. As available, the City will pursue State and federal monies for direct support of housing construction and rehabilitation specifically targeted for housing for persons with disabilities.

The Municipal Code has been amended to provide for emergency homeless shelters as a permitted use in the M-1 zone. The amendment has established development standards for Emergency Shelters, Transitional Housing, and Supportive Housing.

The following are the service providers who have received 2014 Emergency Solutions Grants: Interval House, Woman's Transitional Living Center, Thomas House, and Mercy House Living Centers.

The City is in negotiations (2021) with American Family Housing to produce the City's first permanent supportive housing project at 11742 Stuart Drive. The project includes 10 total units, with eight supportive units and one very low income (50% AMI) unit. The project is scheduled to be completed in January 2022.

*Continued Appropriateness:*

This program will be updated to remove components that have been completed and address recent State laws that require zoning amendments to accommodate low barrier navigation centers and transitional and supportive housing.

<p><b>Program 11: Parking Standards</b></p> <p>Periodically review parking regulations or standards and modify only as needed. Parking standards should facilitate and encourage a variety of housing types including affordable lower income housing and should not constrain development. Continue using ministerial procedures for reducing parking based on proximity to transit lines, larger projects, projects with on-site amenities, projects near community facilities (shopping, schools, recreation, etc.), projects with a variety of unit types, and projects for senior, disabled, or that are affordable.</p>	<p>Parking standards and requirements were assessed within the Mixed-Use Zoning update that was completed in March 2012. Parking study update was conducted for the public parking facilities serving downtown Garden Grove.</p> <p>Any affordable housing projects approved incorporate the reduced parking standards consistent with State requirements.</p> <p><i>Continued Appropriateness:</i></p> <p>Parking continues to be a topic of concern raised by the community in the Housing Element engagement process. This program will be continued and modified to include creative approaches to address parking spillover challenges and the increasing concern of parking impacts as a result of new accessory dwelling units in single-family neighborhoods.</p>
<p><b>Program 12: Water and Sewer Service Providers</b></p> <p>Within 30 days of adoption of the Housing Element, deliver the Garden Grove Housing Element to all providers of sewer and water service within the City of Garden Grove</p>	<p>The Garden Grove Housing Element was provided to all providers of sewer and water services within the City of Garden Grove.</p> <p><i>Continued Appropriateness:</i></p> <p>Coordination with water providers to ensure adequate water supply is available is an important City goal and as such, this program remains in the Housing Element.</p>

---

---

***Equal Access to Housing***

**Program 13: Fair Housing Services**

Consistent with the Consolidated Plan, provide fair housing services to Garden Grove residents. Serve 500 persons annually with general housing/fair housing issues (3,500 persons total).

The City conducted multifaceted fair housing outreach to tenants, landlords, property owners, realtors, and property management companies. Methods of outreach included workshops, informational booths at community events, presentations to community groups, staff trainings, and distribution of multilingual fair housing literature. The City has also provided general counseling and referrals to address tenant-landlord issues and provided periodic tenant-landlord walk-in clinics at City Hall and other community locations. Fair housing services are advertised at the public counter and on the City's website.

Between 2014 and 2021, the City has partnered with the Fair Housing Foundation to provide fair housing services to 3,063 Garden Grove residents, approximately 437 annually.

In 2020, the City partnered with 20 fellow Orange County jurisdictions to produce the "Orange County Analysis of Impediments to Fair Housing Choice," which identified five regional goals and 6 GG-specific goals to affirmatively further fair housing.

*Continued Appropriateness:*

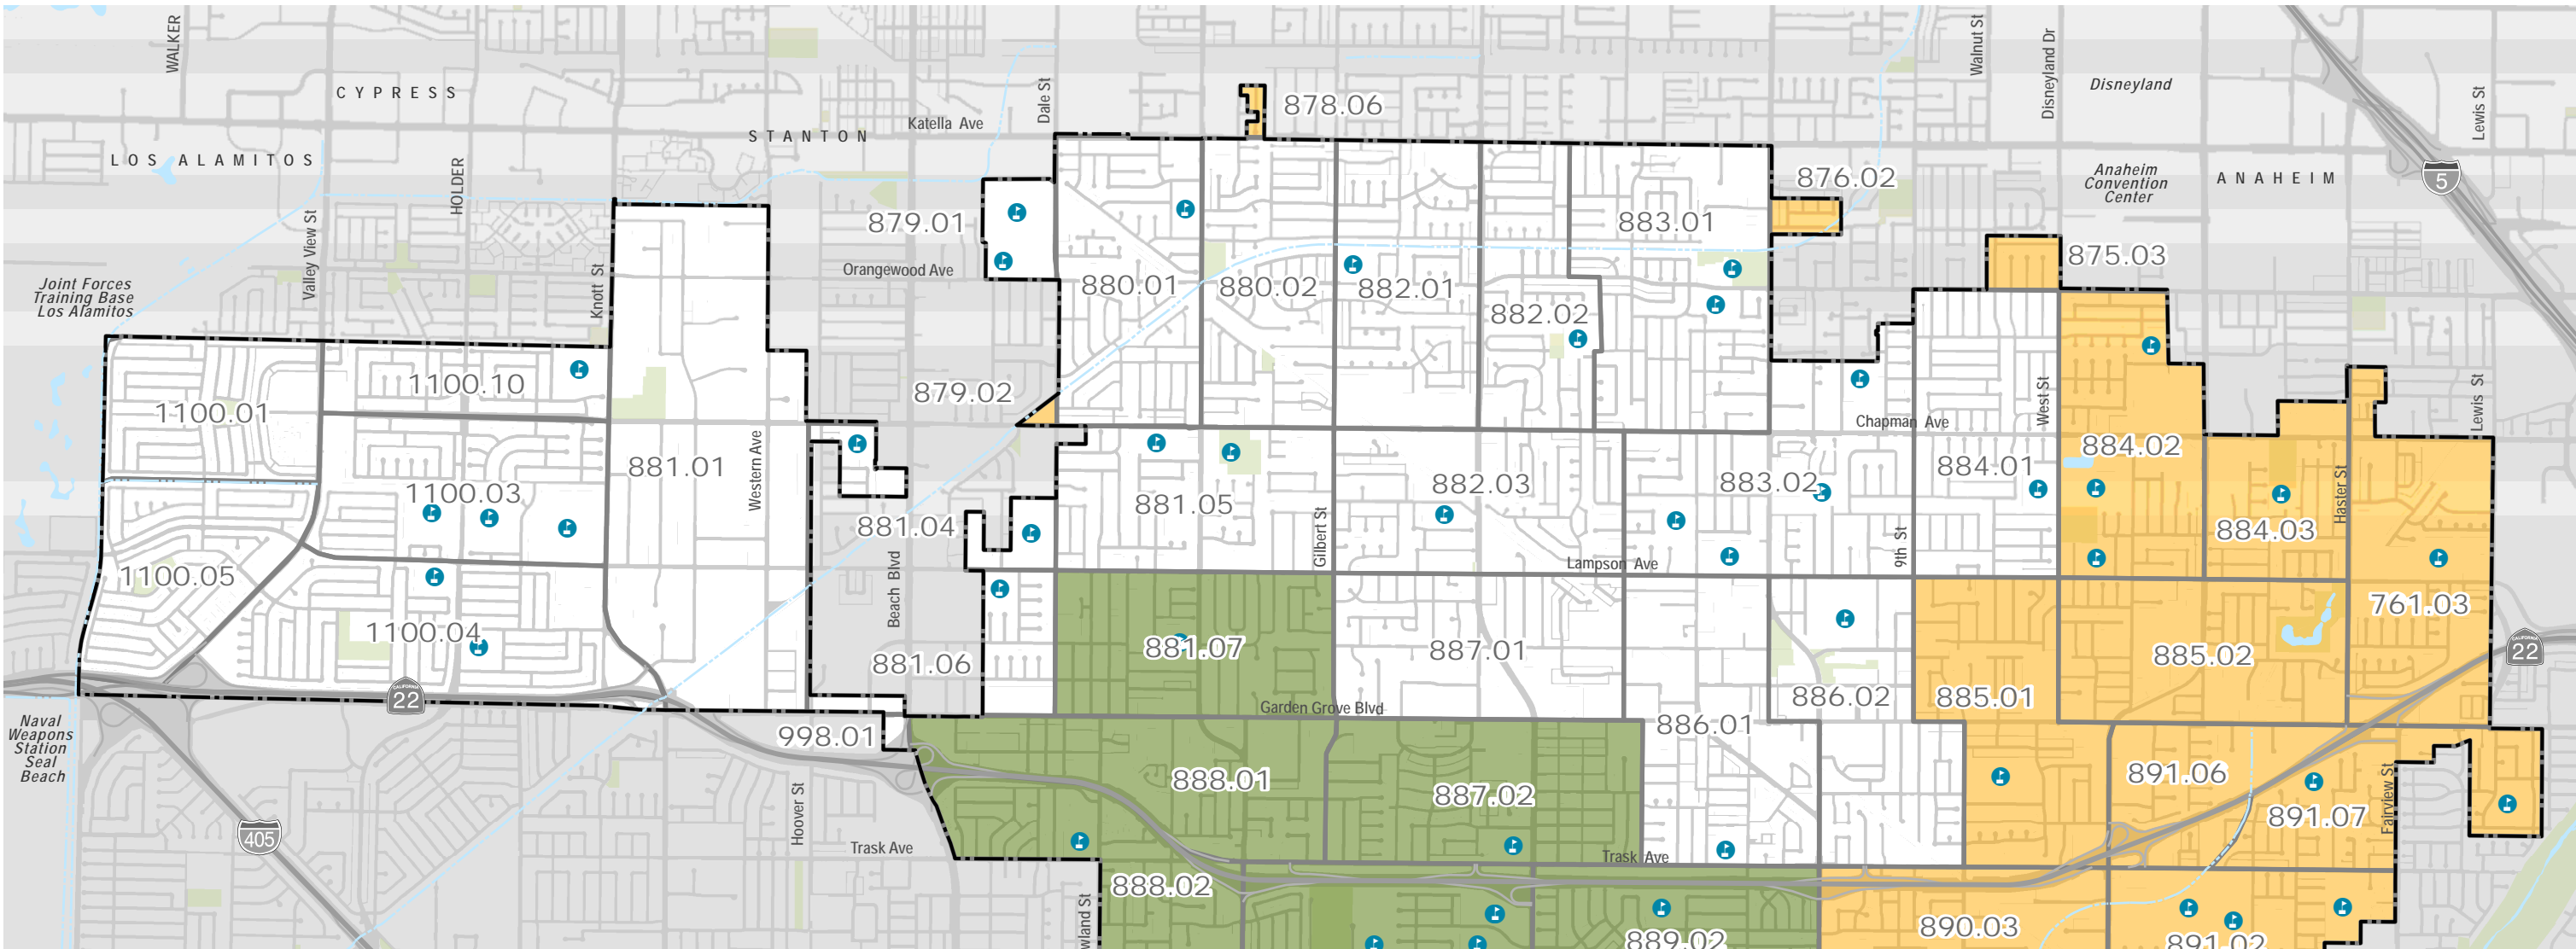

Fair Housing is an important City goal and as such, this program remains in the Housing Element with modified objectives pursuant to State requirements.

<p><b>Program 14: Homeless Housing Needs</b></p> <p>Consistent with the Consolidated Plan, address the needs of at-risk and homeless individuals and families through assistance to non-profits serving the homeless population. Provide emergency/transitional housing or homeless services to 250 extremely low-income or at-risk clients annually (1,750 persons total).</p> <p>As part of the annual General Plan report, identify any new shelters that have been constructed in the City.</p>	<p>Between 2014 and 2019, the City has used the Department of Housing and Urban Development Emergency Solutions Grants to assist 3,502 homeless individuals with services. The City provided 2,778 extremely low-income or at-risk clients emergency/transitional housing or homeless services. In May 2021, the City approved a one-year pilot program that identifies Be Well OC (Mind OC) as the service provider for the City's Mobile Crisis Response Team that will, in partnering with the Police Department, provide a mobile mental health unit to enhance the City's homeless resources. As of 2021, no new homeless shelters have been constructed in the City.</p> <p><i>Continued Appropriateness:</i></p> <p>Homelessness continues to be a challenge in Garden Grove and Orange County, and the COVID-19 pandemic and resulting downturn in the economy may have intensified conditions. This program is continued in the Housing Element.</p>
<p><b>Program 15: Implementation and Community Engagement</b></p> <p>Conduct an annual Housing Element review. Provide opportunities for public engagement and discussion in conjunction with the State requirement for written review of the General Plan by April 1 of each year (per Government Code Section 65400).</p> <p>Use the Neighborhood Improvement and Conservation Commission as an avenue for public input on housing issues and housing element implementation.</p>	<p>Conducted annual Housing Element Review by filing an Annual Report every year between 2014 to 2019.</p> <p>The City uses the Neighborhood Improvement and Conservation Commission as the avenue for public input on the housing issues and housing element implementation. In March 2013, the City conducted a neighborhood cleanup day in district 105 with Living Springs Church.</p> <p><i>Continued Appropriateness:</i></p> <p>This program remains in the Housing Element modified to address the sites inventory and no net loss monitoring.</p>

**EXHIBIT H-1: RACE AND ETHNICITY**

**Hispanic/Latino Population**

Orange 50% to 75% of Population

**Asian Population**

Green 50% to 75% of Population

No other census tracts include a race/ethnicity that is greater than 50% of the census tract population.

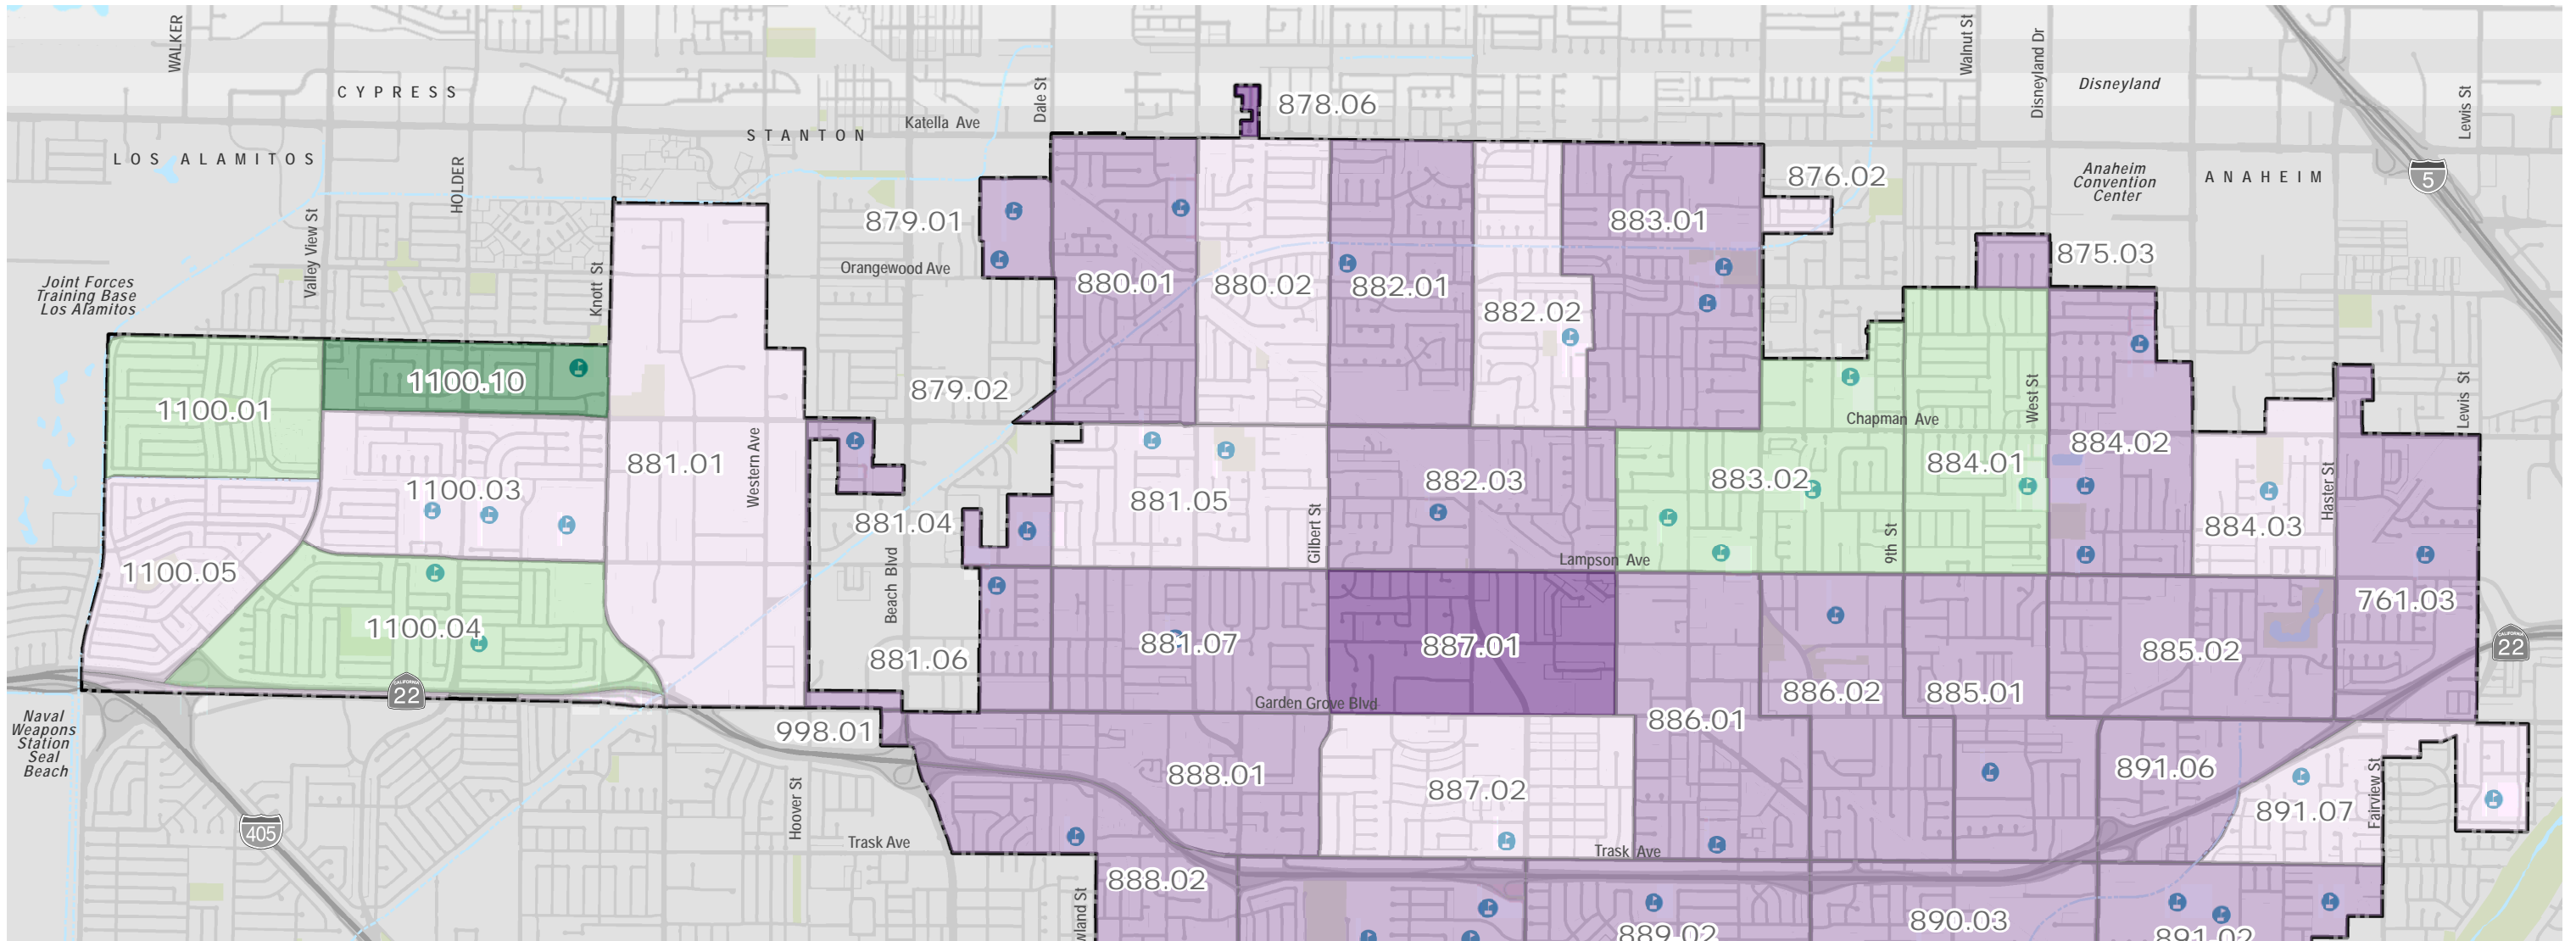

**Base Map Features**

Black dashed line Garden Grove City Boundary

- Curtis Gibbs, Community Active Partnership Orange County

# Advocacy Groups and Service Providers

## Focus Group Meetings

September 2, 2020, 10:30 a.m.

### Key Themes

## Housing

### Challenges

Residents looking to remain in Garden Grove - need housing with subsidies	Need more affordable housing	Permanent supportive housing for homeless	Cost Burden: Garden Grove/Anaheim - large service sector - for tourism
Eviction prevention, especially for resort workers	Subset: elderly	Market rate housing is not affordable to working families	Overcrowding/doubling up
Need a policy to address affordable housing - we are not building enough lower income housing	Need for low and very low housing - this housing segment is missing	NIMBYism - Need elected officials to show courage	State deficit
Need for workforce, senior, affordable housing	Homeless housing - need to be creative	Housing discrimination of Asian community (COVID related)	Need for accessibility and modifications (universal access)

### Opportunities

Train volunteers to provide action/implement programming (housing and homeless)	Garden Grove can be active in providing more vouchers	End racial segregation if planning and zoning is done well	Use Zoning tools to help with affordability - opportunity or inclusionary ordinances	Grassroots effort - use volunteers - citizen working group working with consultants	Provide support for ADUs (they are expensive to build)
Be familiar with non-profit housing organizations (Jamboree Housing, National Core)	Use local labor in housing development and to build economy	Learn from our past	Courage for elected officials and support from local advocates - host a Town Hall	Make sure community is involved and has access - in a systematic way	OC Street car future lines along Harbor - adjacent housing to support
Senior housing and low-income housing to meet different housing needs - how to balance	Possible new federal administration to invest in Section 8 and affordable housing	Create incentives for affordable housing	Disperse affordable and multi-family housing throughout opportunity areas	Working group to meet regularly - come up with recommendations - true community engagement and partnership	Explore RHNA sharing with Santa Ana for Willowick
Build more ADU and mini/tiny homes to meet community need	Housing Element can turn into an Economic opportunities - encourage development in different areas	Disadvantaged Communities - how do we reach out - school districts	Need transit to support housing	Need for affordable housing with services and partnerships	More mixed-use development to provide access to food and health centers

### Potential Housing Locations

Near OC Streetcar - station terminus	Empty shopping centers in higher income neighborhoods - target affordable housing	Commercial corridors
At and near Willowick	In areas of opportunity	Look at transitioning industrial areas
Surplus land act - make sure affordable housing is a part of the conversation	Upzoning will create value and higher land costs	Policy in place - mismatch with higher land costs vs requesting affordable housing
City-owned properties	School campuses - combining K-8 results in surplus land	Accessory dwelling units

## Environmental Justice and Community Health

### Challenges

Engaging local residents	NIMBYism	Addressing racist and exclusionary comments	Pandemic - broadband access - digital divide (esp. school children)
Lack of land for locally sourced food	Lack of space/kitchen in overcrowded conditions results in food insecurity	Rent burden - sacrifices healthy food options	Affordability of housing for disabled community on fixed income
Rolling black outs due to climate change	Lack of access to healthy food, health care, and transit	Need for accessibility (universal design)	

### Opportunities

Work with school districts and advocates	Planning documents turn into economic opportunities	Put affordable housing in high opportunity areas - Look at Non-Title 1 elementary school zones	Add housing away from freeways/rail	Good transit will allow people to use their cars less
Value reducing carbon footprint of food movement	Must reduce food waste into landfills (2022)	More community gardens	Partnerships e.g. Westminster High School	OC Street Car - opportunity - make sure - Willowick has multi-use
Production farming on larger parcels	Scalable food/agricultural options - in addition to boutique projects	Point back to housing and housing security (affordability)	Increase affordable housing (not overcrowding and not in a food desert)	Need a balanced approach to land use - include transit
Healthy neighborhoods; healthy environment	OC Street Car Station - look at those street corners and within a few blocks	OC Street Car - later phase up Harbor	Encourage electric vehicle chargers in affordable housing and multi-family housing	City can provide electric vehicle chargers on major corridors
Battery storage for families (support during blackouts)	Solar programs to benefit renters	Holistic programs to address healthy foods, healthcare, and transit to address community needs	Access to shops and services (e.g., health center); mixed use development	Look at affordable housing differently
Consider access to health, housing, and food together	Leverage state and federal funding	Include many advocates and organizations in the conversation	Look at land use as an investment NEW opportunity for low income families	Education and tele-health through good broadband
Upgrade existing lower income neighborhoods	Avoid gentrification in Garden Grove	Educate the community on homelessness and affordable housing	Link to work of other partners - Providence St. Joseph	

### Other

Overlap between housing and other burdens	Organization - Viet-Rise (include in the conversation)	Santa Ana Active Streets (similar organizations with Garden Grove)
Rise-Up Willowick - Connections available	Personal phone call - Executive Directors - interviewing Advocacy Groups	OC United Way does a good job of debunking myths about affordable housing (Homeless 101)

**AGENDA:**  
 Welcome and Introductions - 5 mins  
 Overview - 5 minutes  
 Discussion - 45 mins  
 Summary and Next Steps - 5 mins

**Attendees**

 Felix Lee, SCG America  
 Cesar Covarrubias, Kennedy Commission  
 Joseph Lising, Cushman and Wakefield  
 Kenhao Hsu

# Housing Developers

## Focus Group Meetings

September 2, 2020, 1:00 p.m.

### Key Themes

### Housing

#### Challenges

Finding enough land area to put a meaningful project with enough density	High land prices in Garden Grove (OC/LA); Expensive for-sale environment	Landowner expectations are very high	Government Fees - City has encouraged development	Clarity and certainty in City affordable housing process
Developers and landowners need to know expectations	Need for higher quality of life	Variances are difficult and need justification	Clear objectives are needed	How do we get to the target numbers?
Housing range currently is unbalanced at different income levels	Santa Ana included high in-lieu fee; created constraints	Seller would need to accept less in land value to allow for more affordable housing	Affordable developers subject to market land costs, but constrained by revenues	Need for subsidies
Reduce construction costs	Density bonus - tightened restrictions are helpful, but comes at cost (parking)	Parking impacts to surrounding neighborhoods	Project - specific parking demands	Need to understand local context, may not be able to use maximum allowed standards (density bonus/parking)
Setbacks and open space standards need to consider achievable design and yield	Higher demand for private open space than common (including pool) in condos	RDA is not an option anymore	Industrial adjacency - nuisances and environmental	Needs for hotel worker housing
Need to right-size incentives				

#### Opportunities

Provide flexibility with Zoning for infill sites	Increase housing density to make it more affordable	Consider unconventional locations	Consider overlays/buffers	City policy is key - married up land use plan and zoning regulations
Create attractive community (use buffers, landscaping, etc.)	Add housing near transit and transportation corridors, freeways	Overarching goal: provide more affordable housing	Flexibility of standards - structured for better certainty	Clarity: clearly understand what can/can't be done
Consider flexibility in site design that is built into the Code	Equally enforce standards and regulation	Balance housing development at all income levels	Consider inclusionary housing/housing opportunity ordinance	Allow for modular housing and new product types
Tie parking needs to project (i.e. senior, family, supportive housing)	Integrate affordable housing with surrounding community	Understand and show true parking demand for new projects	Show examples of flexibility for how to deviate from standards (e.g. parking, open space)	Consider flexibility in apportionment of private and common open space
Require open space that is usable and used	Density: 3-4 story on-grade project = 30 to 35 du/ac (ideal range)	Density: Maybe 4-5 over 1, depending on site	Density: With parking structure parking - 50 du/ac	3 story town homes = 22-26 du/ac
2 story townhomes = 16-18 du/ac	Allow for unlimited tandem parking (2 spaces)	Overlays in more areas to allow for housing flexibility - rather than zone change	Proper site design	Micro units (Santa Ana example)
Level the playing field	Combine planning, policy and Zoning (integrated and strategic process)	Continue City's positive application processing	Provide a good mix of policy and standards	

#### Potential Housing Locations

Near transit	Market rate basis - any location abuts residential area, including commercial centers)	At larger retail centers that are underutilized -- prime locations to accept density
Near grocery stores, drug stores (TCAC thresholds)	In neighborhoods that can provide local services	Near freeways and arterials - ways to design to prevent impacts
Along arterials	At school sites	Add affordability overlays - think about upfront
Along industrial edges	Old movie theater/bowling alley on Lampson/Valley View, but neighbors want retail	Harbor Blvd.

**Agenda**

- Welcome and Introductions - 5 mins
- Overview - 5 minutes
- Discussion - 45 mins
- Summary and Next Steps - 5 mins

**Attendees**

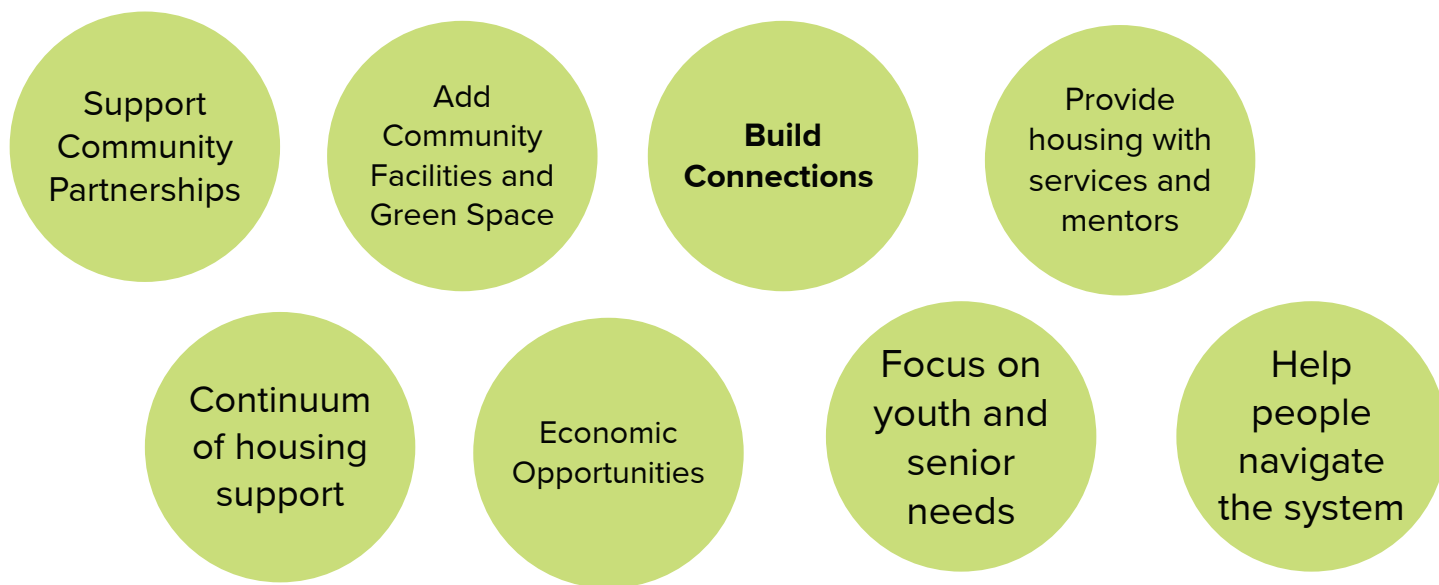

- Gayle Knight, Helping Others Prepare for Eternity
- Mallory Vega, Acacia Day Services
- Javier Rodriguez, Garden Grove Unified School District
- Sybella London, Assistance League of Garden Grove

# Non Housing Advocacy Groups

## Focus Group Meetings

September 3, 2020, 10:30 a.m.

### Key Themes

## Housing

**Challenges**

Senior needs: services to enable them to stay in their home	Density and related increase in traffic is a big concern	Pedestrian and bicycle safety for students	Economic downturn	Long waitlist for Vouchers	Need for more affordable assisted living facilities
Elder abuse	Mobile home rent increases	Precarious housing situations	Many families living together (Overcrowding)	Prioritization of voucher waitlist	Need for more assisted living facilities to accept Medical waivers
Evaluate each family for affordable housing support - get input from people who know the family to help coordinate	Personal connections for services	Homelessness and drug use/ anti-social behaviors	Need supports to help navigate the system	Need for more men's shelters	Need more supportive housing with good intake and support
Safety	Need for green space and recreation with dense housing	Meeting income limits for housing (the in-between gap)	Houses modified with multiple additional rooms to accommodate overcrowding		

**Opportunities**

New crosswalks and bike lanes near schools	Granny flats for seniors	Increase education, scholarships and case management	Identify and encourage resources in the community	Symbiosis that creates community: partnerships
Be creative to support families living together	Path out of poverty with employment opportunities	Partnerships	Referrals + support to use services	Substance abuse treatment paired with housing
Skilled nursing facilities: Medical Assisted Living Waivers	Motel program for domestic violence survivors (interim timeframe)	Bring in businesses paying living wages	New senior housing in Garden Grove	Mentorships

## Environmental Justice and Community Health

**Challenges**

Many facilities lack lighting/ restroom access and good sight lines and easy access for police	Access to healthy foods	Access to hygiene for homeless	Need for neighborhood facilities for youth
Transportation is a challenge for seniors for a healthy lifestyle	Aging in place	Rent burden results in reduced healthy food (increase in food bank use)	

**Opportunities**

Increase park and recreation opportunities	Continue joint use agreements with schools for sport complexes and pools	Rescue food from stores to distribute	Case work to navigate through COVID	Partnerships with colleges
Bus routes and appropriately placed routes and stops for seniors	OCTA Access (paratransit) and supports	Services for seniors aging in place	Safety Groups (after school homework clubs) in neighborhoods	

### Agenda

- Welcome and Introductions - 5 mins
- Overview - 5 minutes
- Discussion - 45 mins
- Summary and Next Steps - 5 mins

### Attendees

- Huixin Zheng, doctoral student at UC Irvine
- Richard Walker, Public Law Center
- Josh Galley, resident
- Matt Reid, SCG Partners
- Reina Solis, resident and Parks Commissioner
- Maureen Blackmun, resident and president of Garden Grove Neighborhood Association and Chair of NICC
- Jerry Hills, Garden Grove Unified School District

## Public Stakeholders

### Focus Group Meetings

September 3, 2020, 6:00 p.m.

## Key Themes

## Housing

### Challenges

Short-term rentals (not allowed) continue to affect housing values	Goal: 19,000 new units (47,000 existing)	Increasing density to meet 19,000	Mismatch between incentives and property owner interests	What funds can the Housing Authority contribute to affordable housing?
Housing is too expensive	Moved to Garden Grove for more space	Concern about ADUs and parking impacts	High cost of rentals (paying for the location)	Need more housing for young people with access to entertainment
Landlords who don't care about their buildings	Demolishing existing and replacing with large single-family homes without upkeep	No pride of ownership for homes	Need more affordable housing as OC continues to get more expensive	Funding for affordable housing - need local match/gap financing
Increasing rents in mobile home parks	How to maintain community while increasing density?	Availability of infrastructure and services to accommodate new increase in housing	Decaying infrastructure	One large 20-bedroom house shouldn't count the same as a small apartment (both are 1 unit)
Large lots with 10-13 cars	Becoming a "prospect community" not a family community	Garden Grove USD schools closer to Santa Ana are closer to capacity/impacted	Over past 10 years, school enrollment has declined	

### Opportunities

Look at not just housing but employment areas - create better, higher paying jobs	Less than \$72,000 salary can qualify for low-income housing	Harbor corridor employment area: support variety of jobs	Vacant lots can support new housing	Develop more mixed use
Welcome additional density and housing options	Increase housing in walkable areas with access to stores and entertainment	Preserve affordable housing that does exist: mobile home parks	Develop local funding match for affordable housing	Build new nice housing with amenities, like Brookhurst Triangle
Support a variety of housing types: e.g., ADU	Site housing away from environmental concerns	Incorporate these opportunities into regular processes	Most Garden Grove schools have available student capacity	Garden Grove Unified School District will work with city on future housing growth
City must ensure consultation with school district on major housing development projects				

### Potential Housing Locations

Westminster and New Hope vacant lot	Vacant lots on Euclid and Garden Grove Blvd	Walkable areas with access to destinations
Gather developer interest in locations where projects can pencil	Areas along Trask and Garden Grove Boulevard	Add housing to Town Center, Library area/Downtown
South of the Freeway - along Westminster (built on semi-mixed use)	Run down strip malls that can be converted	Decaying properties

## Environmental Justice and Community Health

### Challenges

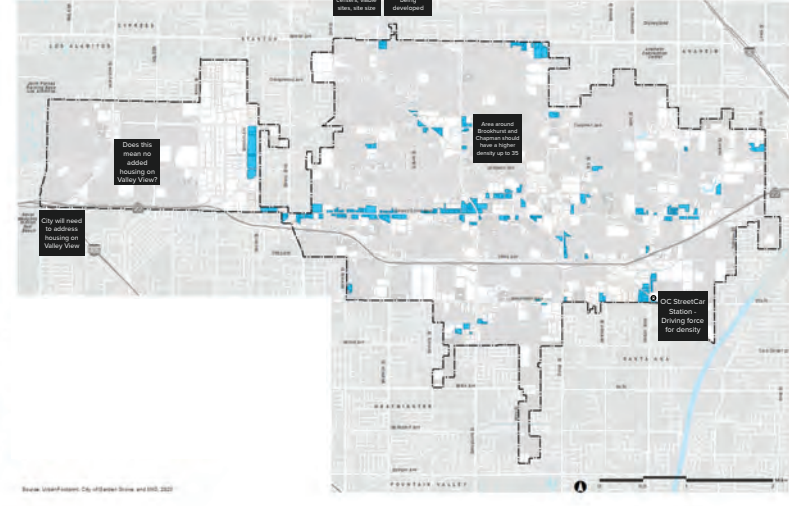

Traffic congestion	Truck traffic on arterials in pedestrian areas (noise and fumes)	Limited transit (long times and limited routes)	Need more parks and playgrounds (Gilbert and Lampson area)	Parked cars affect walkability
No sidewalks and narrow streets	People of color and lower socio-economic are more likely to experience pollution burden			

### Opportunities

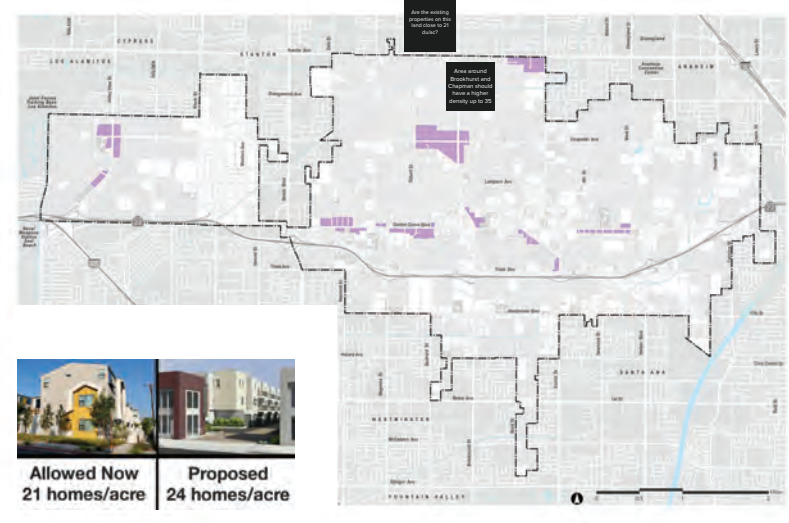

Pocket parks	Walkability: destinations and comfortable experience	E.g. Harbor in Downtown Fullerton: buffer peds with bushes and narrower lanes, shops	Make sure ALL populations have access to a healthy lifestyle
--------------	--	--	--

Community Workshop  
 November 18, 2020, 6:00 p.m.

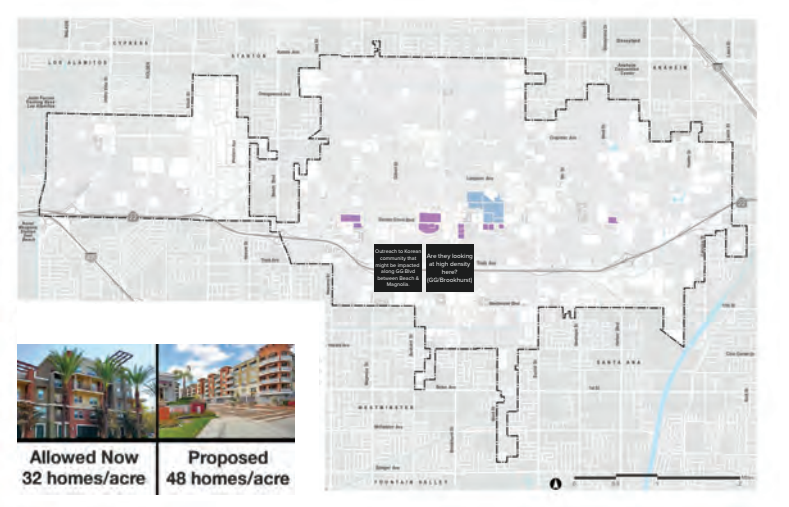

Sites Inventory

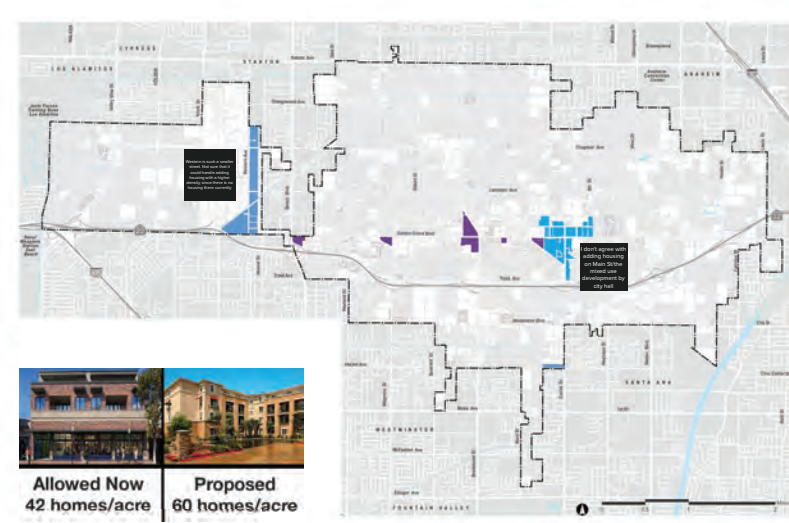

Mixed Use - Allowed Now: 21 du/ac; Proposed 24 du/ac

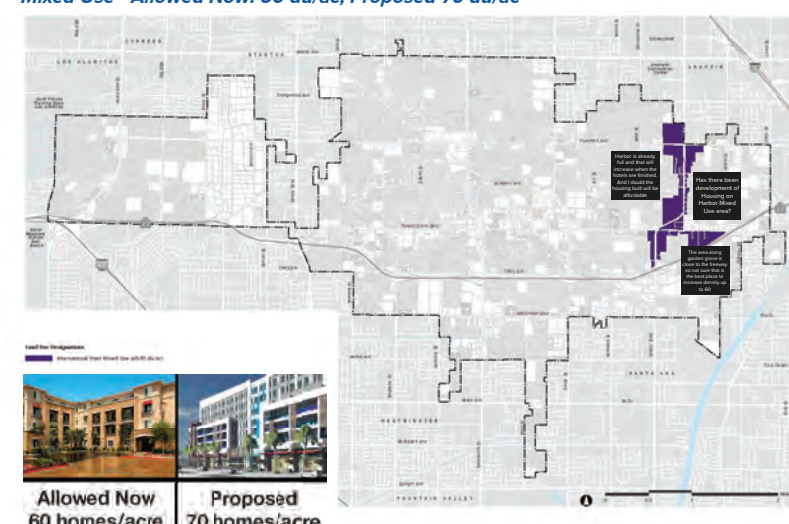

Mixed Use - Allowed Now: 32 du/ac; Proposed 48 du/ac

Mixed Use - Allowed Now: 42 du/ac; Proposed 60 du/ac

Mixed Use - Allowed Now: 60 du/ac; Proposed 70 du/ac

Public Comments

1. I think it's important to have a mix of housing types and densities in all areas of the city.	2. I think it's important to have a mix of housing types and densities in all areas of the city.	3. I think it's important to have a mix of housing types and densities in all areas of the city.	4. I think it's important to have a mix of housing types and densities in all areas of the city.	5. ## City of Garden Grove

HOUSING, ENVIRONMENTAL JUSTICE, AND SAFETY ELEMENTS

# COMMUNITY SURVEY SUMMARY

CITY OF GARDEN GROVE  
SEPTEMBER 2020

# INTRODUCTION

In September 2020, the City of Garden Grove launched a survey to gather information about housing and environmental justice concerns in the community as part of a focused General Plan update to the Housing, Safety, and Land Use elements, and in preparation of a new Environmental Justice Element.

The survey was available to the public during the month of September 2020 on the City’s website in four different languages: English, Korean, Vietnamese, and Spanish. Additionally, City staff distributed printed surveys to residents at multiple apartment complexes and at the Buena Clinton Youth and Family Center. City staff, including those who speak different languages, assisted participants in filling out the surveys.

A total of 622 people who live and/or work in Garden Grove participated. Results from the survey are presented and summarized here. Open-ended responses are listed in Appendix A.

## Garden Grove Community Survey

In 2008, the City of Garden Grove adopted a general plan that outlines the community’s long-term physical growth and public services. The City is now updating the Housing Element of that plan preparing a new Environmental Justice Element. The Housing Element analyzes the community’s housing needs at all income levels and identifies housing strategies and solutions. <https://ggcity.org/housing-element>

The Environmental Justice Element focuses on improving housing conditions, air quality, access to parks and recreation, and other environmental conditions. We encourage you to take a few minutes to complete the survey. We encourage you to take the next five to ten minutes to complete the survey.

**Housing**  
Currently  
Please choose one of the following options:  
 Live in Garden Grove  
 Work in Garden Grove  
 Live and work in Garden Grove  
 Do not live or work in Garden Grove

Vào năm 2008, Thành Phố Garden Grove đã thông qua một bản Quy Hoạch Chung (General Plan) để lên kế hoạch cho sự phát triển lâu dài của cộng đồng cùng với các dịch vụ công cộng. Thành phố hiện đang điều chỉnh hạng mục Gia Cư (Housing Element) của bản Quy Hoạch Chung, và chuẩn bị thêm vào một hạng mục mới, gọi là hạng mục Công Lý Môi Trường (Environmental Justice Element.) Hạng mục Gia Cư phân tích nhu cầu nhà ở của người dân ở mọi mức thu nhập, và đề ra các chiến lược và giải pháp thích hợp để giải quyết vấn đề nhà ở trong thành phố. <https://ggcity.org/housing-element> (<https://ggcity.org/housing-element>)  
Hạng mục về Công Lý Môi Trường (Environmental Justice Element) tập trung vào việc cải thiện sức khỏe cộng đồng thông qua việc cải tạo chất lượng không khí, tăng cường khả năng tiếp cận công viên và các tiện ích công cộng, đa dạng hóa việc chọn lựa thực phẩm, bảo đảm điều kiện nhà ở và an toàn vệ sinh, và thúc đẩy khả năng tham gia các hoạt động thể thao lành mạnh cho tất cả cư dân.  
Chúng tôi khuyến khích quý vị để những vấn đề quý vị tin là cần phải được giải quyết trong vòng 5 đến 10 năm sắp tới. (Cảm ơn đã tham gia!) Cảm ơn sự tham gia của quý vị!

# HOUSING QUESTIONS

**City of Garden Grove**

HOUSING, ENVIRONMENTAL JUSTICE, AND SAFETY ELEMENTS

# QUESTION A1 – MULTIPLE CHOICE [PICK 1]

CURRENTLY, DO YOU:

Answer Options	Number	Percent
Live in Garden Grove	459	79%
Live and work in Garden Grove	89	15%
Do not live or work in Garden Grove	34	6%
Work in Garden Grove	15	(3%)
No Answer	25	(4%)
<b>Total</b>	<b>582</b>	<b>100%</b>

Total Responses = 582

Note: (%) excluded from total

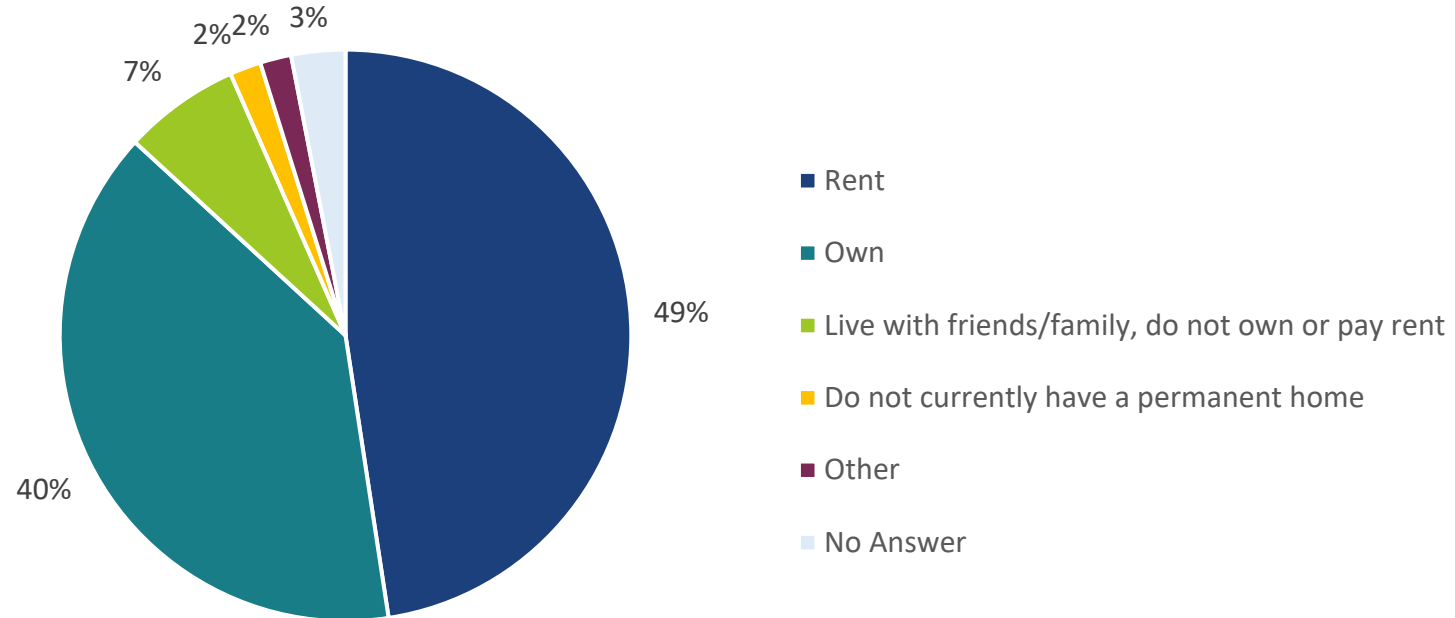

# QUESTION A2 – MULTIPLE CHOICE [PICK 1]

WHICH BEST DESCRIBES YOUR CURRENT LIVING SITUATION? SEE THE APPENDIX FOR “OTHER” RESPONSES.

# QUESTION A3 – MULTIPLE CHOICE [PICK 1]

WHICH BEST DESCRIBES YOUR CURRENT HOUSING SITUATION? SEE THE APPENDIX FOR “OTHER” RESPONSES.

Total Responses = 603

# QUESTION A4 – RANKING [TOP 3]

## WHAT TYPES OF HOUSING DOES GARDEN GROVE NEED MOST?

Answer Options	# of times selected in top three	weighted score
Single-family homes	307	1.51
Senior housing	215	0.77
Condominiums/townhomes	186	0.68
Smaller scale apartments (4 units or less)	190	0.67
Special needs housing for families and individuals who need supportive services like jobs training and social services	148	0.56
Larger scale apartments (5 units or more)	140	0.50
Interim/transitional housing for people looking to transition from homelessness	118	0.40
Accessory dwelling units (granny flat/guest house)	70	0.21
Mobile home parks	46	0.14

Total Responses = 546

# QUESTION A5 – ARRAY

RANK THE IMPORTANCE OF CURRENT HOUSING CHALLENGES IN GARDEN GROVE.

<b>Answer Options</b>	<b>Very Important</b>	<b>Somewhat Important</b>	<b>Not Important</b>	<b>Don't Know</b>	<b>n = responses</b>
Ensure that children who grow up in Garden Grove can afford to live in Garden Grove on their own.	72%	16%	7%	4%	570
Establish housing for seniors, large families, veterans, and/or persons with disabilities.	63%	27%	7%	2%	572
Targeted efforts to address long-term inequities in the housing market, including discrimination in renting.	60%	23%	11%	5%	550
Support programs to help homeowners at risk of mortgage default to keep their homes, including mortgage loan programs.	57%	30%	8%	5%	559
Encourage the rehabilitation of existing housing in older neighborhoods.	57%	31%	8%	4%	557
Provide shelters and transitional housing for homeless families and individuals, together along with services that help move people into permanent housing.	51%	26%	16%	6%	558

## QUESTION A6 – RANKING [TOP 3]

TO MEET LONG-TERM HOUSING DEMAND IDENTIFIED STATE-WIDE, AND PARTICULARLY IN ORANGE COUNTY, THE CITY WILL NEED TO PLAN FOR MORE APARTMENTS, TOWNHOMES, AND CONDOMINIUMS. PLEASE RANK THE IDEAS BELOW BASED ON WHAT YOU THINK ARE THE BEST LOCATIONS IN GARDEN GROVE FOR NEW HOUSING.

Answer Options	# of times selected in top three	weighted score
Along Garden Grove Boulevard, Chapman Avenue, Euclid Street, Brookhurst Street, Lampson Avenue, and similar major streets.	271	1.27
Anywhere in Garden Grove as long as any impacts to single-family neighborhoods are minimal.	316	1.23
Within aging commercial centers.	291	1.18
In motels that can be converted to housing.	245	0.92
By increasing the number of housing units allowed on each piece of property within existing higher density residential areas.	134	0.44
Within industrial districts.	126	0.39

Total Responses = 537

## QUESTION A7 – RANKING [TOP 3]

THERE ARE A NUMBER OF TRADEOFFS ASSOCIATED WITH DIFFERENT APPROACHES TO PROVIDING MORE HOUSING IN GARDEN GROVE. PLEASE RANK YOUR TOP THREE CHOICES IN ORDER OF IMPORTANCE.

Answer Options	# of times selected in top three	weighted score
New housing should be concentrated near existing and planned public transit.	287	1.28
New housing should be located where it will have the least impact on traffic in Garden Grove.	302	1.20
New housing should be spread evenly across all parts of the city.	291	1.12
New housing should blend in with the character of surrounding neighborhoods.	260	1.06
New housing should be located within easy access of shops and services.	284	0.88

HOUSING, ENVIRONMENTAL JUSTICE, AND SAFETY ELEMENTS

# QUESTION B1 – MULTIPLE CHOICE [SELECT ALL THAT APPLY]

WHAT POLLUTION ISSUES CONCERN YOU AND YOUR FAMILY MOST. SELECT ALL THAT APPLY

SEE THE APPENDIX FOR “OTHER” RESPONSES.

<b>Answer Options (in order of ranked priorities)</b>	<b># of times selected</b>
Contamination threats to local groundwater supplies	361
Industrial businesses that handle or release toxic materials	328
Living close to businesses that release toxic materials	320
Vehicle emissions associated with freeway and local roadway traffic	298
Contaminated industrial sites	293
Trash hauling and recycling facilities	200
Truck traffic from warehousing businesses	179

## QUESTION B2 – RANKING [TOP 3]

PLEASE RANK THE FOLLOWING IN ORDER OF IMPORTANCE TO YOU AND YOUR FAMILY.

Answer Options	# of times selected in top three	weighted score
High-quality parks and recreational facilities	307	1.45
High-quality, safe, and affordable housing, neighborhoods, and public spaces	281	1.22
Neighborhoods that provide safe sidewalks and crosswalks and easy access to bike routes and public transit	300	1.13
Healthy food choices and greater access to fresh and affordable healthy food	231	1.00
Increased economic opportunities for all residents	194	0.61
Resident participation in events, festivals, and education programs	119	0.35

Total Responses = 509

## QUESTION B3 – MULTIPLE CHOICE [PICK 1]

DO YOU FEEL THAT YOU, YOUR NEIGHBORS, AND THE BROADER COMMUNITY PARTICIPATE IN DECISIONS MADE BY CITY LEADERS?

Total Responses = 250

## QUESTION B3X – MULTIPLE CHOICE [PICK 3]

HOW CAN THE CITY INCREASE COMMUNITY PARTICIPATION IN KEY DECISIONS? SELECT THE WAYS YOU THINK WOULD BE MOST EFFECTIVE.

SEE THE APPENDIX FOR “OTHER” RESPONSES.

Answer Options (in order of ranked priorities)	# of times selected
Give direct notice to tenants and property owners living near proposed development sites	149
Provide more time to review projects and opportunities to provide feedback	85
Provide more project information on the City’s website or online project portal	84
Provide project information in languages other than English	84
Provide more information through City newsletters	82
Conduct more meetings online	81
Conduct more community meetings	75

HOUSING, ENVIRONMENTAL JUSTICE, AND SAFETY ELEMENTS

## City of Garden Grove

HOUSING, ENVIRONMENTAL JUSTICE, AND SAFETY ELEMENTS

### Appendix A:

#### Question A8 – Open Ended

What else would you like the City to consider when updating Garden Grove’s Housing Element?

<b>A2. Which best describes your current living situation?</b>
Renting a room
Rent a room in a single-family home
Apartment
room rental
sharing a room
live in car
Live with parents in a house
Rento un cuarto (renting a room)
Mobile home
Renting a room
Rent a room at my parents home
Homeless by choice don't want any services hotel or apartment
Share phòng (share a room)
thuê phòng (rent a room)
share room
live with parents

<b>A3. Which best describes your current housing situation?</b>
Vivo con amigos si pago renta (living with friends and paying rent)
Live with family and pay rent
Housing
homeless
Multi-generational household, sharing expenses
Vivo con amistades y pago renta (I live with my friends and pay rent)
Live with family pay a 1 room rent
Own mobile but rent space the unit sits on
Homeless by choice don't want hotel or apartment
Live with family which they are buying, and I am renting
Rent room with family

<b>A8. What else would you like the City to consider when updating Garden Grove's Housing Element?</b>
Incentives for making energy efficient upgrades to aging homes. Some kind of policy to discourage commercial landowners for maintaining low occupancy rates. These half deserted (or more) strip malls and commercial properties could be much better served in the efforts to develop more affordable housing solutions/mixed income communities. These properties are eyesores in the community. These properties also tend to attract homeless encampments, thus making them ideal locations for transitional housing programs/units or other social service hubs. Meet the people/ need where they are.
New houses should be minimal in areas where it is already so tight . There has been a lot of new homes being constructed near homes where there is barely enough room for a home to be constructed between houses . There should be some rent control within apartments . Landlords are charging an extensive amount .
Stop allowing house to build houses on the property
When considering new housing, particularly apartment/condo/townhome communities, please consider requesting that the developer add small park facilities within each location so families have access to play equipment and open space. Garden Grove is short on parks within the city that are in close proximity to neighborhoods, allowing families to walk to parks.
Viviendas de bajos recursos (low-income housing)
Prohibit HUGE houses in older neighborhoods
Increase the number of very low income and low-income units. Ensure there is sample parking for residents.
Parking must be a consideration.
People with low income need to have more places available for them. GG needs rent control. Rental prices are outrageous.
#blacklivesmatter
Somehow manage the housing market. Prices are out of control.
build more affordable housings.
Lampson should not be considered a 'major street' when considering adding additional housing units. It's only a single lane in either direction for most of its length, with numerous stops signs along it. Traffic and parking are already crazy. Please don't add to it.
Parking! Most new condo or apartment building only have one parking space. The people living there have 3-4 cars. I am tired of extra cars taking up all space on streets.
Parking. Where will everyone park? We don't have a robust public transit system in our city that negates the need for cars. Most residents still need cars.
I would like to see more mixed used development with housing along major streets and commercial centers. More investment in public transportation. More affordable housing required in all new developments. Rent control in the city so low income people can afford to live here. Affordable Housing offered to people who work in hotels, schools, grocery stores in our city.
Building five or six houses on a formerly single family lot is not the answer. Apartments in commercial locations, near transportation and shopping is important.
Actual affordable housing
When issuing permits for "Granny Flats" have consideration for the close neighbors. A house was built in the back yard of the house right next to mine. It is way too close. These lots were not designed or zoned for multiple residences. It would have been considerate of the city to alert the neighbors of the changes, if in fact there were changes.
WORK first on existing issues, like crime, enforcing codes on homes with deplorable appearance, keeping city clean by preventing dumping, littering. installing trash cans by bus stops.

<p>BEFORE bringing more people in and adding to existing issues. PLEASE PLEASE, consider the above. Can't believe the city of GG has denied us of public lighting where crime is constant, a trash can by our home's bus stop that looks like a dumpster, DENIED posting signs of speed limit, citation warnings for dumping, DENIED having parking permits only for residents of the area to prevent foot traffic, break-ins, overcrowding streets with no parking spaces for residents! SOLVE THOSE ISSUES BEFORE BRINGING MORE PEOPLE INTO THIS COMMUNITY,</p>
<p>If feel that if you can't afford to live here, then you should move to where it's affordable. That goes for any city. People need to learn to work for what they want and not just sit back and wait for handouts. Low cost rent should be temporary to help get people on their feet, not a permanent thing. What kind of future do you want for this city. Low lives or hard-working citizens that pay taxes and provide for themselves? This is not the city it used to be. There are barely any single families in houses. All the bedrooms are rented out to too many people. There's not enough parking on our own residential streets.</p>
<p>Have a cap on the number of ADU permits allowed each year. They are ruining our neighborhoods. Re-purpose blighted apartment complexes; update them to increase occupancy and clean up the existing grounds. Develop properties in the West Garden Grove Industrial area to incorporate housing projects.</p>
<p>Traffic Parking Overcrowding</p>
<p>More affordable housing / income based housing. If your housing needs are met, Garden Grove citizens can actually begin to thrive versus just fighting for survival and I think that would make Garden Grove better overall.</p>
<p>Please don't allow all these granny flats and two houses per lot. It creates havoc on streets with limited parking. Also concentrate on senior affordable housing and maybe the longtime residents will sell their home to go into senior housing and this will make room for a family to own the home the senior sells. Our neighborhoods are TOO overcrowded!</p>
<p>The city should consider adding walking trails and parks.</p>
<p>Upholding all codes and laws regarding , i.e., parking, trash cans, noise, etc.</p>
<p>affordable</p>
<p>Rent control,</p>
<p>Prices. As the cost of living increases and minimum wage falls far behind Cheap/ affordable housing would help out garden citizens. Cost per unit must be low and geared toward the denser parts of garden grove. Garden grove should also focus more towards building apartments rather than allowing for hotels to be built. Apartment renter would be going to our schools and paying taxes in our cities which is beneficial for us. Apartments would also have no off season in the sense that there would be no lull period where the city receives less in sales taxes because the apartment renters would always be there unlike tourists in the hotels during Disneyland off season.</p>
<p>There are other human beings sleeping on concrete outside. This alone should be enough of a motivator to build more housing.</p>
<p>We need to make housing more affordable!</p>
<p>Low income housing. 2,500 a month is not low income. Senior low income housing 1,200 is not low income for seniors.</p>
<p>Affordable housing, we don't need the fanciest things just a place to live that doesn't require you to crowd the home to make rent.</p>
<p>Implementing programs and temporary shelter for the homeless with assistance to get back on their feet</p>

Affordable housing rates
Rent is way too high. Minimum wage earners should be able to afford at least a one bedroom apartment for themselves .
Pet friendlier , greener areas, help the homelessness problem
We must at all costs maintain our "small town community" culture. We are not Santa Ana and we are not Long Beach.
Please don't implement rent control, since it will drive out anyone who wants to build houses in garden grove. Housing is already enough of a bad situation in California, please don't make it worse by following in the footsteps of far left cities such as Santa Ana and Los Angeles by forcing rent controls. Please consider opening up the zoning laws to allow for more housing and more commercial property to help increase home values around garden grove
I see an increase of homeless population that I am very concerned for. I hope that the Garden Grove City can find a sustainable way to house this vulnerable population and help them get back on their feet.
It's critical to provide more affordable housing, for: lower or moderate incomes, disabled people, seniors, and homeless individuals. Supportive housing (with on-site services) is helpful to all of the vulnerable populations!
Affordable and fixed rent.
People buying in central Garden Grove with the main motivation of income but not residing is ruining our neighborhood. People don't put their trash away in the back, trash is all over the front of the yard and in the street, parking spaces on the property are not paved, and basically there is a diminished interest in caring how the front of one's property looks and affects others. The City must take this issue seriously, and I request that you continually address these issues before you start allowing more construction or denser construction. I don't want a return to "garbage grove."
The traffic on Brookhurst is truly awful and affects time spent in traffic, frustration, noise, and air quality. Please improve the traffic and light sequencing on Brookhurst. Thanks.
Cost
CONTROL DE RENTAS Y CONSTRUCCION DE VIVIENDAS A BAJO COSTO (RENT CONTROL AND HOUSING CONSTRUCTION AT LOW COST)
If 'sober living' is considered in Garden Grove may it be Very Limited and next to the Police and Fire Stations or Not at all.
Minimalize the amount of approved ADU units in neighborhoods.
Due to the Pandemic to prove relief for renters so that they don't get harassed by landlord. Put a cap of raising the rents.
More affordable housing. I grew up in Garden Grove, but I find it hard to afford living in Garden Grove on my own with my family.
We have too many people in single apartment buildings. This causes parking in other neighbors and it jeopardize safety in our neighborhoods. Overcrowding causes traffic and crime to raise.
Please consider establishing the number limit of people and vehicles allowed in a household per room or square feet to prevent overcrowded streets and parking issues.
Ban AirBnB short-term rental as they displace people, disrupt the local economy by driving up rent and pricing out longtime residents. Or put Airbnb under a zoning law, higher tax collection and stricter restrictions. Allow only if hosts are full-time residents. Cap rental days per year depending on the unit with single family homes at 90 days and apartments, townhomes, & condominiums at 30 days. All

hosts must register with the city for a permit. Require hosts to register their home and display the registration number in their ad. Fine illegal listings which will benefit GG. Use Canada, Reykjavík, Santa Monica, Las Vegas, Japan, and others as stepping stone.
near schools and parks for easy access and walking distance for parents who don't drive and students
We should consider low income and very low income housing options in our city, including housing for seniors, veterans and people experiencing homelessness.
Don't mess up property values in well-developed areas of Garden Grove by overcrowding them or forcing change.
More affordable housing. The cost of housing is currently too high.
Prioritize housing for the elderly.
We need more affordable housing units throughout Orange County. We have too many low-wage workers who are unable to secure a place to live independently because they can't qualify. We have to stop penalizing people who work hard and play by the rules. They should be able to live in the community in which they work.
Reduce the cost of rent
High cost of rent. Same cost of rent for 2 and 3 bedroom units.
The process of more housing should focus on keeping neighborhoods intact and improved. Building for the sake of hitting the RHINA numbers without taking into account the effects on neighborhoods is not in the best interests of Garden Grove. I want the city to push back on unrealistic housing numbers. The State should lower the restrictions building to bring the costs down. Parks need to be increased/improved since yards will be smaller or none at all.
Renting is too expensive. I'd like for it to stop increasing.
More community centers
For the city to visit residential areas to see what we need
More community centers
More access to help
low cost of housing for low income households
more housing for the disabled
lower the cost of rent
More parks and more recreational and educational areas
For the city to provide support for residents to buy a home
More public safety.
Parking permits in single family home neighborhoods. No allowance of apartment parking in neighborhoods.
Garden Grove needs an inclusionary housing ordinance to ensure that as new housing is built there is housing for low income and very low income persons.
This state should NOT be adding more housing until it figures out how to store more water and provide electricity without rolling blackouts. We don't have enough resources to build more housing. This state requirement forcing cities to build high density housing is illegal and the City should fight the state to stop them!
do not know
Use eminent domain on bad areas, such as between Trask & GG BLVD and Taft and Brookhurst. The city should buy out properties and have developers bid on them. Take over motels Garden Grove Inn and Hospitality Inn and redevelop them. Develop or convert the "Ranch" Inn on GG BLVD into a veteran supportive housing.

Clean up the city. So many neighborhoods look ridiculously run down. It's as if the city officials never drive through other cities and see what they're doing.
just offer more places for low income people
Reduce the cost of rent
Provide housing for all income levels.
Provide designated areas for smokers in housing to prevent contamination of air near children.
take care of homelessness
more safety in areas surrounding housing
More greenery in housing developments.
housing for all income levels.
focus on education
affordable internet access for senior
Information for affordable housing in the City should be available and easy to reach
Foreclosure Prevention workshop and information how to prevent foreclosure for homeowners. Pre-Purchase 8 hour first time homebuyer workshop provide by HUD certified counselor . Currently, the homebuyer orientation class is provided by the lender . The lender staff are not HUD certified to teach the homebuyer orientation or the homebuyer workshop.
More programs for first-time home-buyers.
There are significant corridors and nodes in the city that have inefficient uses of land. If you build denser sub-communities at major intersections (Chapman & Valley View; Chapman & Brookhurst, Katella & Euclid, Garden Grove & Brookhurst, etc.), you can get a more diverse mix of uses in key core areas of the city. Then, with strong public and active transportation, you can string together these different nodes throughout the city.
On a side note, the Housing Element, when identifying potential sites, should avoid historic, or architecturally significant buildings and areas. There are some fantastic pieces of architecture throughout the city that are endangered by the Housing Element. More housing should not equate to the loss of culture and character.
To not overspend (as we've read about in Los Angeles) on providing housing for the homeless who are largely homeless by choice. What a waste of resources. There should be incremental steps to permanent housing for homeless individuals who demonstrated responsibility and capability.
Take a look at the city's demographics and housing needs. I'm unfamiliar with GG's housing demands.
Streamline permits of housing remodeling and add-on.
Make housing affordable. Don't make them all 3-story buildings as not everyone likes all those stairs!
How about limiting the number of people living in 1 house. As it is right now there are far too many people in 1 house, which causes parking issues. Also how about limiting the number of people in the city? It is far to crowded already
Use/buy old/abandoned houses and consider turning them into apartments.
Garden Grove is a wonderful place to live. We should do all we can to welcome more residents and make it possible for them to live here!
Ensure affordable housing is available and accessible for all who need it
Offer grants
Strongly consider negative implications to single family homeowners that chosen to establish roots & make GG their home. Plan placement of new housing congruent with current income levels.
There are several empty houses that have been vacant for a long time. We need to utilize these resources.
My housing should have trees around.

To minimize the density of new housing options and consider the increase in population that added housing will have on resident's quality of this city. Would prefer to see added parks and community spaces.
No conversion of commercial to residential—this will create a parking and traffic nightmare. No rezoning. No permission for multiple units on one existing lot. No housing expansion—period!
Traffic is already impacted.
To lower taxes on middle class families so we can sustain making our monthly mortgage payments and not lose our homes. Housing MUST be AFFORDABLE!!!!!! Please take traffic into consideration when putting in new housing.
AFFORDABLE HOUSING FOR ALL
Stop placing large scale housing in areas of high traffic and close to existing neighborhoods where public parking would be seriously affected. Make more low-income housing available in Garden Grove in areas with low crime for new young families.
Stop permitting houses that do not fit in with the appearance of the neighborhood! Stop multi-family living in a house meant for one family! Stop religious organizations in residential neighborhoods! Enforce eliminating vagrants!
Shame on those on the urban and planning committee and the city of the Garden Grove for allowing multi unit housing construction in industrial area and single family neighborhoods that have not only degraded the value of our neighborhood but also the city as a whole.
We are full. There should be minimal new housing built as parking and existing neighborhoods are suffering from inappropriate number of people living in single family homes. The quality of life is deteriorating rapidly.
please make it affordable so young locals can stay in their city. i understand the money need to be made back for the cost of creation but let's keep the community here. affordable for us to stay in garden grove
Stop building houses and apartments! Develop upscale stores and restaurants to bring in tax dollars!
Do NOT Buckle under to the state of California. GG needs sales tax revenue from legitimate businesses.
I would like the city to have more resources for single parents. More housing resources to buy a house here in Garden Grove because rents are extremely ridiculous high and the apartment conditions are not very good.
Consider low income families when building new home dwellings. Please keep all rent affordable
active transportation commission to ensure the increase density will address the very limited parking issues we face now and in the near future.
Provide a beautiful park for its residents to relax, unwind, exercise and socialize.
Tiny homes at railways or motels
Parking, speed and noise controls
Quit tearing up single family residence with ADUs. Please consider parking and traffic when allowing investors to build. They don't live here and they are just looking easy money. They do not care what it does to the community long term.
Make sure there is plenty of parking for tenants and surrounding neighbors. No expensive high rises. Stay family friendly.
Más vigilancia de policía en el área y q si no se pueden estacionar sigan asiendo su trabajo para verificar q nadie se estacione afuera delos apartamentos (More police surveillance in the area and that if you cannot park, continue to work to verify that no one is parking outside the apartments)
I think our City has become very dense already. Traffic is really busy on major streets. I have trouble getting out of my own housing tract onto Magnolia. It has been this way for the last three years. I am

VERY CONCERNED that new housing and apartments will impact our streets even more. Second or third units on our single family properties are already causing MAJOR problems parking in our neighborhoods.
Que las viviendas tengan suficiente parqueadero y que las rentas no fueran muy altas. (Houses have enough parking space and that the rents were not very high.)
Garden Grove's West end needs a center for all ages to learn arts and crafts (like Irvine's).
Reduce permit fees & difficulties getting through the planning stages.
Parques familiares donde puedan hacer deportes para los jóvenes y niños. (Family parks where they can do sports for young people and children.)
Consider enforcing codes on older apartments. Some apartments are so old they have mold, are not taken care of at all, some do not have working windows. We've even been left with no gas for a month. The ceiling even fell on us due to water leaks.
Add more traffic lights. Add more street lights. Add flashing dots to crosswalks for visibility to drivers at night.
Ayudar a las personas de bajos recursos con un por ciento en el pago de sus rentas Ila que no cuentan con un buen trabajo por causa del Covid 19 el trabajo bajó y no todos cuentan con un empleo (Help low-income people with a percentage in the payment of their rents who do not have a good job because of COVID-19, the work dropped and not all have a job)
That during a world pandemic there should not be a tent increase or eviction placed.
I am really thankful from city of Garden Grove I am requesting from city of Garden Grove always keep helping poor and big size families. Thanks
Make accommodations for lower income families. The supply of units goes up but the price of the units goes up instead of leveling off at some point. Garden Grove has people working and making 45,000 plus a year and living in their RV
Put a cap on rent , more rent control
Don't create the same problem you already have on Haster by putting to many high density apartments and condos in the same area. Updating things like Garden Grove Blvd and putting in a real effort to build up main street area would help the image of Garden Grove
Consider the excessive traffic and making lights synchronized to ease traffic due to increased vehicles. Also, it seems with these high expectations set by the state, are we going to lose parks in order to meet the demand? Last, thanks for listening! You have a tough job.
Consider low-income apartments/studios for citizens other than retired persons. A lot of citizens in Garden Grove are living with family because the prices for 1 bedroom apartments are way too high. I work for GGUSD part time and go to school part time and I can't afford an apartment or a studio. If the city were to cap the rent for low-income apartments at \$800/month, I could live in Garden Grove and close to my work site instead of moving to Long Beach where rent is cheaper.
2 parking spaces for each apartment. Apartment complexes and mixed use should not be built near single family homes. There is not enough parking for these places and causes parking to overflow into single family home areas.
Following code to amount of people in a single family home
New housing development for the working class. I'm a single mom who works but cannot afford a home with 1 income. I can afford a condo but I would have to look into Anaheim. I would love to stay in GG with my 2 young boys.
Senior housing
Parking! While many in the area i addresses (transitional, assisted, senior) may not have cars; some may. Parking and traffic are already major issues. Especially Brookhurst near 22, and GG Blvd from

magnolia, to Santa Ana border. Adding apartments and condos must include parking.
Public transportation and city amenities like parks and libraries.
Big parking lots in order to prevent bothering residential areas and blocking visually principal streets to avoid accidents
More big restaurants!
I think new housing should be a priority over "impacts to single family neighborhoods." I would upzone the entire city.
Affordable for housing for single parents ,
To be kid-friendly. Security. Safety. To be affordable
Que le den prioridad a mamas solteras trabajadoras
Un control de Renta, porque los los propietarios están aumentando el 25% o 15% en un término de 18 meses y ahora tenemos que pagar por todos los servicios y la manager tienes sus propias lavadoras en su garage y nosotros pagando por todos los servicios y no tenemos medidores y cobran lo que ellos quieren. (Rent control, because the owners are increasing 25% or 15% in a term of 18 months and now we have to pay for all the services and the manager has her own washing machines in her garage and we pay for all the services and We don't have meters and they charge what they want.)
Tener un control de renta por que los propietarios donde yo vivo En 6 meses aumentaron el 20% luego el 15% y tenemos que pagar todas las utilidades y no quieren arreglar los apartamentos y la manager es una persona discrimina y no los quiere arreglar nada. (Tener un control de renta por que los propietarios donde yo vivo En 6 meses aumentaron el 20% luego el 15% y tenemos que pagar todas las utilidades y no quieren arreglar los apartamentos y la manager es una persona discrimina y no los quiere arreglar nada.)
Que tenga más apartamentos para personas de bajos recursos para que sean accesibles a las personas que ganan salario mínimo que combatan más la venta de drogas prostitución y la idijescia ya que cada vez hay más yo vivo en Stanton en Chapman y Beach Blvd y el área está muy descuidada por los indigentes y los grafiteros cada día está peor también mirar si se puede aser algun programa para que sea fácil comprar viviendas las personas con bajos ingresos. (Have more apartments for low-income people to be accessible to people who earn minimum wage that fight more the sale of drugs, prostitution and idiocy since more and more I live in Stanton on Chapman and Beach Blvd and the area is Very neglected by the homeless and graffiti artists, it is worse every day to see if a program can be implemented to make it easy for people with low incomes to buy homes.)
Casas para persona que Viven en la calle que leda un ver ala ala comunidad de Garden Grove. (Homes for people who live on the street that gives a view to the garden grove community.)
You should have all New houses be two story, you should allow all existing one story houses to convert to two story. You should allow more 5 story Apartment buildings, with rooftop gardens. New Construction Apartment buildings should take priority, make it easier for planning with fewer restrictions.
Ending racial and economic segregation in housing. Concentrate on density not overcrowding for families.
Entertainment places
Provide sufficient Parking not impacting existing neighborhoods
Quit raising rents. We get paid \$15 per hour max. And rent for 2 bdrm runs 1800 plus. In Apts. Help us
Stopping tax subsidies to hotels and redirecting revenue to housing
Making sure that housing is affordable. Too many rich companies come in creating these boutique apartments and the average family or person cannot afford them. Then they sit empty or they are

bought up to become short term rentals. This needs to change and the focus should be getting families into appropriate housing.
OPEN EXISTING PLAYGROUNDS IN OUR PARKS THAT OUR TAXES PAY FOR! Put in more playgrounds like in other cities that actually care that children have a safe place to play! ADD PLAYGROUNDS TO ALL NEW HOUSING!
It is important to provide enough green belts, pathways, exercise trails and opportunities throughout the city. Think beyond the park but how citizens can utilize different sized spaces for a more health lifestyle. More people will use walking trails if they exist.
I know the state requires the addition of affordable housing, but all these ADUs going up only cause more problems with parking, concentrating more density, and pushing an urban style into the suburbs.
Parks, Museums, More family Festival.
Making choices for the benefit of the residents of Garden Grove and not the pocketbooks of city officials.
Do not want big complexes where retail or commercial is currently.
The state has a lot of land to build in the eastern portion, Garden Grove, and Orange County in general cannot continue to have more residents. The homeless population needs to be compelled to get assistance to move off the streets and be responsible for themselves. Our city needs to be cleaned up with home and land owners being compelled to be responsible, we need more enforcement for codes and maintenance in general. Run down business areas also need to be compelled to maintain a healthy appearance.
Stop with the ADU's! There are already too many people on our street. There is less available parking.
1.) Place/ Build more single family homes on aging Commercial lands (such as old shopping malls, strip malls, old industrial Properties) 2.) NO more ADU's. 3.) Update!! Pass new GGMC to bring to code/ update all old existing High density apartment property's. (This could double the number of units on the property bringing pride back to the tired Property's and surrounding areas)
Beautiful streets, avoiding overload of housing to reduce traffic impact and at the same time easy access to shooing areas and freeways
Las rentas sean más accesibles porque con el sueldo mínimo no alcanza (Income is more accessible because the minimum wage is not enough)
Rentas e hipotecas al alcance de la clase media (Rents and mortgages within the reach of the middle class)
Consider parking... It's a reality that had to be dealt with. People rent all the rooms sometime multiple families are in places meant for one consider parking
Make sure we are not lowering the value of property in Garden Grove by bringing in traffic problems, increasing crime rates, and lowering the appeal If our city.
Easier access to the section 8 housing list, I have lived here for 5 years and the list has never been open
Compact, walkable neighborhoods that limit the necessity of single-occupancy car trips would be ideal; it reduces traffic and pollution while encouraging fitness and shopping at local business.
Parking availability (capacity) needs to be part of the plan. This seems to be a big complaint when single family homes are near apartments where the tenants have more cars than parking spaces for the unit they are in.
Traffic, density, schools

Ensure that adequate parking exists for both existing residents and residents in the new housing. This is a major topic of conversation on community communication sites.
The city needs to consider how SCE doesn't have the capacity to accommodate more housing. During the summer months, rolling blackouts will get worse. Keep the city looking like a beautiful city. Do not compact it with apartments.
Me gustaría que existiera viviendas accesibles para las personas como yo de bajos ingresos, personas mayores, incapacitadas, más ayuda para poder pagar las rentas que son muy altas en Garden Grove, gracias. (I wish there were affordable housing for people like me with low income, elderly, disabled, more help to pay the rents that are very high in Garden Grove, thank you)
No more homeless, low income crime ridden apartments at garden grove and Brookhurst area. The traffic, garbage, drug usage, and crime is abhorrent.
new housing is no longer affordable, you can build it, but then people have to buy them. Encourage builders to build affordable housing for the average working person. High rise buildings are not conducive to family living, no place for children. Lets keep GG family orientated.
Having maybe a free parking structure for nearby apartments with residential who have multiple cars.
It better be affordable. What's the point if it'll be super expensive?!
Provide more facilities to treat mental illness among the homeless population.
It would be great if the new housing was actually affordable. If you price everyone in the city out of buying/renting because the costs are too high it does not help the housing situation.
Lower taxes and more affordable homes
Affordable housing for not just minorities but for people that have limited income ( single) . I have been a part of Garden Grove for 40 years . I raised my kids here and now grandkids . I should have to live in a one bedroom apartment . I should be able to buy a home again.
None
Implement rent control.
Nên quy hoạch tiền thuê nhà mobile home một cách hợp lý hơn. Không tăng tiền thuê nhà mobile home mỗi khi bán cho người khác ( mỗi lần tăng hơn 150\$ mỗi tháng). (Should plan mobile home rent in a more reasonable way. Do not increase mobile home rent every time you sell to others (each increase is more than \$ 150 per month).
I am a firm believer in making single family homes affordable but I know in this economy may not be possible. What I don't want is apartments/ condos stacked one on top of each other in West Garden Grove.
Garden grove Blvd near nut wood and Brookhurst is congested enough, adding any more apartments would clog the streets with traffic and create gridlock. The crime, homeless who don't utilize services, drugs, trash, and graffiti is out of control. Fix the problems now, your plans to spend more money on useless social programs that no one utilizes is a joke.
We don't need to provide shelters and transitional housing for homeless families and individuals, together along with services that help move people into permanent housing. If you haven't done that now with the tax dollars you've wasted, why should I support your proposal to do it in the future? Homeless don't want your services, tens of millions of dollars have been wasted, yet the homeless are still crowding every major Street in garden grove. Their camps, trash, and drugs are everywhere. They constantly beg on the streets and are aggressive and rude. It's not safe in garden grove, wake up and deal with the problem
1)범죄로부터 안전 2)주차장이 충족될것

3)길거리 주차는 범죄와 동네의 품격을 떨어트림
4)너무 자주있는 좌회전을 금지(원활한 교통의 흐름을 방해함)
1) Safe from crime
2) Parking lot will be satisfied
3) Street parking is a crime and degrades the neighborhood.
4) Too frequent left turns are prohibited (disrupting smooth traffic flow)
Please have follow-up services to assist new families to be able to stay in their new homes, such as job assistance, financial education, and supportive health services, including mental health services. Thank you.
Condos or housing development for multi-generational families. Houses or Condos with attached mini apartments for grandparents
Clean up the streets and diversify the city. All cultures should be taken into account. So many places are crowded with too many businesses in one shopping center and it looks horrible.
GG needs affordable housing for YOUNG PEOPLE and SENIORS. Housing is too expensive for these people, as there is not enough of it!
Programs to assist first time homebuyers are important. So is adequate rent control.
I'd like to see streets in and around areas housing and shops be safe and accessible for bicycle traffic.
Stop making all these new housing developments so unaffordable
Affordable housing
Ban Mega sized homes, number of families in single family homes, auto repair shops in a residential neighborhood and number of vehicles taking up parking in front of a home and you can't have visitors park at your home.
Apartment buildings should be eliminated or replaced with Condominiums to increase property value and the prestige of Garden Grove. Copy the City of Cerritos and install fiber optics throughout the City.
Don't make this city a place for low life people to come and live that do not want to work for what they have, keep GG great!
I like park build with more walking trail, plants and exercise equipment.
have trees and shade
Your social services are useless I'm homeless by choice. I don't want services just give me money for alcohol. Leave me alone to shit on the streets and harass people
Please provide or at least take a survey of how many people need affordable/accessible housing to serve the disabled community. Please be a leader for accessible housing.
xây thêm nhà cho người cao niên với giá ưu đãi. (Build more affordable housing for seniors)
cần xây cất nhà chung cư nhiều cho người già. (Need to build more apartment for seniors)
an ninh cho dân cư và việc làm tại thành phố Garden Grove được phần thịnh vệ sinh. (safety for all residences, abundant job opportunities, and keeping the City clean)
Vợ chồng tôi cần nơi ở vừa chi phí. Về hưu rồi cuộc sống rất chật vật. (our couple needs an affordable housing. we are already retired, and our life is getting very difficult).
it would be extremely important to provide at least every year neighborhoods with dumpster to allow residents to get rid of all the junk that they don't use anymore. It is wrong to leave furniture, mattresses, unwanted items on the sidewalks, and I believe that if dumpsters are provided, it will help to maintain our city free of these items.
This was implemented a few years back; I think it is important to do it again. Please consider this. Thank you for your attention,

A grateful Garden Grove Citizen
Affordable housing for those on a fixed income ie: SSI, SSDI, Etc. and more Board and Cares for senior population
Take care of the prostitution and drug on 1st street is so bad. Everyone closes their eyes to this. This is where we live. This needs to be cleaned and cleared out.
Parking needs to be addressed along with additional housing. Streets close to apartment complexes are filled with cars to the point that adjacent streets and cross streets are packed too. We need to address homelessness too. I am sick of seeing people living on the streets. Housing needs to be affordable for all, not just the low income folks. Growing up as a Garden Grove resident, I cannot afford to buy a home in Garden Grove and may have to look at neighboring cities. Such a disappointment.
When people make complaints on other neighbors but their grass being dead or car park that we don't move we should keep. Record who they are because we feel like we are the target
Discrimination to minorities.
Get rid of the restriction if a house has a 2 car garage who can only have 4 bedrooms. When I tried to add a 5th bedroom to my house the planning people turned it down even though I have a large driveway that can park 6 cars.
Making affordable for everyone. Not a bidding war so the rich always win over the average people. We are very nice people to live next door to. Especially as we age. Some of us still love living in our own homes. Please make that possible.
Care about the long term residents! How about you address issues that we've asked for for so many years- traders Jos or restaurant where Cocoa was! What the heck- how about solve long term issues and stop trying to make money from taxes!
Please do not put them near schools/parks.
More available housing for low income
Planning for parks and open space must be incorporated into housing planning.
Consider parking/or lack of, when considering permits for ADUs and other multi-unit housing and people density, lack of parks and open spaces.
Housing Plans should Not disrupt, overcrowd or cause the dismantling of our existing single family residential neighborhoods.
Safety and security in all apartments.
To implement high-tower apartment/condominium construction to assist with the growing city population and underground structures parking to avoid crowded public parking.
Parques para niños (Parks for children)
Ayuda a indigentes (Help the homeless)
Add more accessible apartments.
Los precios que fueran mas acesesibles ya que actualmente has subido bastante tanto rentas como para comprar y estohace que algunas personas pensemos en salir fuera de esta ciudad (The prices that were more affordable since currently you have risen enough both in rent and to buy and this makes some people think about going out of this city)
que se construyeran viviendas asecibles que la gente podiera pagar (to build affordable housing that people could afford)
Remodel old apartments or old hotels or motels preferable near hospitals, doctors and strip malls, public transportation

<b>B1. What pollution issues concern you and your family most?</b>
Vệ sinh môi trường : đường phố, vỉa hè, bãi đậu xe...(Environmental sanitation: streets, sidewalks, parking lots)
None
Lack of recycling/composting access
Control de mosquitos hay muchísimas fuentes de que abundan los mosquitos cerca de mi vecindario y el manager no toma acción. (Mosquito control there are many sources of mosquitoes abound near my neighborhood and the manager takes no action.)
Street sweeping that just moves glass and trash around - they barrel down the street at high speed, making it seem like a rouse to place parking tickets instead of carefully cleaning our streets of polluting items.
Your polluting me with your social services I don't want
People leaving large items on the curbs for animals and homeless to use as toilets
Side walks are filthy, especially where the bus stops are located. Example the bus stop on Brookhurst and Bixby
La verdad nunca lo he pensado tendría que informarme más para opinar (The truth is that I have never thought about it, I would have to learn more to comment)
Basura tirada muebles desechos de basura (Garbage thrown furniture garbage waste)
objects, furniture, mattresses, (trash) left on the sidewalks
Difficulty with recycling centers closing
PLEASE CLEAN UP trash dumped all over GG! Put up signs to remind people not to litter & keep our city clean! Provide more trash bins & dump them often! Hire people to do this that need jobs!
Mold
None
RUIDO EN EXCESO (Excessive noise)
Homeless conditions that are unsanitary.
Trash relating to homelessness around Twin Lakes Park
Trash in streets and illegal dumping
Trucks are on residential street such as West Street.
Not enough useable recreation space.
None.
None
We need more green plants and trees and bush clean the air green instead of artificial grass and plants that heat the atmosphere.res.
smoking and wildfires
Wildfire
wildfire and plastics
I don't know if this is happening in GG, but if so, it is a big concern.
Cars are making circles all day long in the street. They don't care about old people.
Anthropocentric Climate Change
Large number of people living in single family homes treating their yards and streets like dumps
noise pollution on Brookhurst
Freeway noise from the carpool lane "improvements. The noise bounces off of the high ramps, right over the 30-foot sound wall.
Homeless trash under freeway underpasses and on the streets
Noise from cars

More housing is more people, more people is higher pollution. Don't build more housing.
human waste
LITTERING, DUMPING
<b>B3x. How can the City increase community participation in key decisions? Select the ways you think would be most effective.</b>
I like this survey.
Listen! And be willing to act on our concerns
Inform residents through social media and texting
City doesn't listen to anyone
use non city social media sites to spread information
That our elected council members actually meet with all their constituents not just their chosen elite like in district one where the focus is the east gate neighborhood but everyone else is ignored,
Surveys
Provide information via social media platforms. That's the only reason I know about this survey.
Hand out flyers for people who don't have access to internet
no interest
I think it is more of a symptom of American culture wherein the public is apathetic toward decisions until it directly (and usually negatively) affects them. I do not think the City is doing anything wrong.
not interested
no comment
no comment
do not care about politics
Stop treating West Grove like they are better than the rest. But an end to the divide of the city and put forth more concern for all of GG not just "West GG".
Surveys like this one

<b>B4. What else would you like the City to consider when creating Garden Grove’s Environmental Justice Element?</b>
I’d like to see some of the run down neighborhoods refurbished. I see empty boarded up homes too that could be made into affordable homes. I’m tired of the dirt yards, run down homes, filthy vacant lots in my area of Harbor/ Twintree.
Announcements of city events on social media are often written in Vietnamese and English. Spanish speakers are being left out
To offer jobs to the city/county residents to low-income families in the assistance of building new housing. Should independent contractors be given contracts to build new housing, the city should suggest the contractors to consider offering jobs to low income families to build the welfare equity of city/county residents.
None
Create a group where we can HIGHLY encourage parents to participate or ask help for young children development. Prevent any more children from join/making gangs.
Consider net zero energy consumption.
Make sure that the city understands that they need to keep the community as environmentally friendly as possible while at the same time creating opportunities for those who need it. New public buildings should be more sustainable if they are ever built.
I would like to be informed how can I participate in helping my city to be better. During the last 6 months I noticed how our city has more homeless people everywhere
Put screens on rain ditches so that plastics and other trash don't go into the ocean. Give a tax break for people who drive electric/hybrid vehicles or use carpools for work.
Areglos de calles que tienen que ser reparadas (Street arrangements that need to be repaired)
Encourage recycling in city parks and have more engaging healthy community events. We need to revamp main street with better businesses that attract people from other cities to bring in revenue
Consider the issue of recycling plastics so they are actually recycled. When approving projects consider both the impact on both health and on the environment such as not putting housing next to freeways, having housing in walkable communities, etc.
Offer spaces for community gardening (fresh vegetables!) Create and offer an accessible and affordable city-wide composting program. Make sure our infrastructure can support whatever additions you add: sewer, drainage, traffic.
Cuidar los parques de delincuencia e iluminación y también en la Educación que sea de alta calidad. (Take care of the crime and lighting park and also in Education that is of high quality.)
Control de plagas en nuestro vecindario hay muchísimos mosquitos y focos de contaminación. Y iluminen más los parques. (Pest control in our neighborhood there are many mosquitoes and sources of contamination. And light up more parks.)
Consider going up against the big property owners (like old Vons site) that have sat useless for decades and are a waste of space. Vitalize them. CVS parking lot is a safety hazard with no stop signs or road markings remaining. Make Historic Main St a PEDESTRIAN ONLY area with bollards at north and south ends to create a beautiful Parisian like walkable downtown. Stop over charging for entertainment permits, and allow restaurants to have live music without hassle or insane costs. Extend the new bike trail in both directions but SERIOUSLY make access to downtown and steel craft by bike or foot the goal. OPEN all park restrooms and make their constant upkeep an EXTREMELY HIGH priority: Patrol them as needed for safety and sanitary conditions as the PARKS ARE THE JEWELS OF THE CITY. Each and every one.
Our homeless don’t care about your services wasting money on useless projects

To keep are city clean , make sure that the tree are trimmed and kept up
They need to know that people live in the city and it needs to be safe and accessible for all.
We need more recycling options
As long as it means to improve city to make it look better, modern, safe, increase trees and green areas
Requiring affordable housing in all new developments. Building mixed used housing along with new community centers.
Create more gardens , parks, fields to help the environment and beauty our neighborhood
Don't go overboard. Don't be like Gavin Newsom. Allow citizens to live freely. Lower taxes and do not force people to buy electric vehicles. It's dumb and stupid. Government is to protect our rights not take it away with pretty words. Love the people in your community or they will leave and then you will have an influx of residents who don't care about the city.
Keep the side walks clean , there's always glass and trash.
Sustainable and environmentally friendly developments that partner with or the city creates programs for employment for the disabled--especially young adults exiting school services, and veterans
Que tengas jardines comunitarios dónde se pueda plantar con la familia cultivar frutos y verduras (That you have community gardens where you can plant with the family to grow fruits and vegetables)
More luxury hotels, theme park hotels, luxury apartments, mix use, more American franchise restaurants.
Trolly and tourist visiting center
Using solar power would be amazing to save our planet!!
Reducing our dependency on tourism
Clean the trash and fines for littering or business not keeping their property clean. There is not enough trash cans in most commercial properties.
More transparency
Increase code enforcement, there have been an increase in the number of abandoned shopping carts throughout the City. Follow the "Broken Window" philosophy by issuing more Notices to Correct to properties that are run down or require maintenance. Issue overnight parking permits to limit the amount of vehicles parked in residential neighborhoods.
Any new housing should be solar powered, any roof replacement should include solar and offer free solar power for single family homes.
Consider low-income neighborhoods and neighborhoods most impacted by pollution from companies like CR&R, they can possibly work with the city to give their employees more information about this.
n/a
Post project information to social media.
Balance of open space areas for parks, riding spaces for residents. Keep high density housing close to freeways and reduce traffic in the city.
Stop making luxury apartments or expensive townhouses that only the rich can afford.
Single family housing neighborhoods needs to be Protected. There is currently too many Homes being used as room rental apartments that each house many unrelated persons. This practice should be ban. Our city infrastructure needs to also be considered. How will it be maintained, replaced and updated with increased populations? And how will these be funded? City codes need better enforcement.

<p>Education of All residents is a must. The residents of the city of Garden Grove Need to know what is expected of them as a member of the community. Our city has very few HOAs and there for We need the "city" and our elected officials to fulfill that roll of property protector and code, rules &amp; regulations enforcers.</p> <p>Owners of rental units should be required to accept greater responsibility for their Rental units and their tenet's education as to city's rules &amp; regulations and then be held responsible for the enforcement of them. Many Landlords in our city just collect rental income and allowing their property to exist in a substandard condition, Overgrown &amp; in disrepair with no regulation as to the actual number of residents in their rental units.</p> <p>Does the city even have rules for rental units that are enforced?</p> <p>The landlords get rich at the expense of the neighborhood and the city with it's increased expenses of wear &amp; tear on streets, sewer systems and enforcement.</p> <p>Perhaps a city landlord tax or annual fee should be charged to cover these expenses?</p>
<p>I used to work as a clean air lobbyist and in my professional opinion, Garden Grove is a really clean place. Excluding of course the garbage caused by transients and other criminal elements.</p>
<p>consider feral animals and homeless people</p>
<p>After 18 years in GG, I know there are not enough parks. People need nature, trees, water, plants. We're greatly deficient in it. We need tree programs to add more trees to our streets. There are too many streets with little to no trees or green at all. It's sad and ugly. Plants bring a lot of benefits to our environment.</p> <p>I don't know what is meant by "high quality" parks or housing. Why use the terms "high quality"? If not used, does it imply "low quality"?</p>
<p>Be fair to all. Not favor one side or the other.</p>
<p>make sure it is best for the community not for personal gain</p>
<p>Clean up the city as there's trash everywhere.</p>
<p>Green technology.</p>
<p>homeless peoples</p>
<p>None</p>
<p>eliminate businesses that handle or release toxic materials</p>
<p>The relationship between environmental justice and housing cannot be ignored.</p>
<p>This city needs to change!</p>
<p>Weekly street sweeping</p>
<p>Partner with local groups for greater and faster spread of information, resources, and public input options.</p>
<p>Address homeless population impacts to nearby residents. Help clean-up homelessness near residential area and provide help/support to mentally ill homeless population. The homeless population is my main concern where I live around the Brookhurst/Westminster business complexes.</p>
<p>Educate and promotion of gray water recycle system.</p>
<p>Increased assistance in helping current residents to improve and repair their homes to avoid blighted conditions, either low-cost or free.</p>
<p>Illegal dumping in areas around Great Wolf Lodge. I have observed several occasions of dumping larger waste and abandoned shopping carts in the past couple months.</p>
<p>Environmental justice sounds like a bureaucratic waste of money to make the far left politically happy. Sounds good, doesn't mean a thing to most of us. Be reasonable but seeking justice for the environment sounds ridiculous.</p>

the city is divided racially and by class with the western portion living in its own world and stagnating because of it. Garden Grove needs to unify its planning to incorporate a whole city process rather than the west and the rest process it has now.
Same as stated earlier. Make our current neighborhoods safer with better access. I believe we need to fix and clean up what we have first before adding more. We have run down areas, many homeless issues where assistance is refused but that those same people then infringe on my right to live in a clean and healthy neighborhood. More enforcement of current laws and codes. We need to compel people and not coddle and placate as much. Restructure roadways to meet traffic demands along the higher use corridors and reduce access for speeding shortcuts through our residential neighborhoods where children should be able to be out playing.
Create an open house type of event to provide opportunities to ask questions.
Longer metro hours for late night shift workers
Reduce traffic especially trucks and consider parking impact
Balance between keeping neighborhoods safe and desirable and meeting the needs of disadvantaged
A greater alignment with zero waste initiatives. Trash bins that enable separation of waste into compost, landfill, and recycle.
Plant lots of trees. Adopt a tree by residents and businesses to help offset cost? Sidewalks in Brookhurst/Chapman area neighborhoods so families can walk safely in their own neighborhoods.
PLEASE CONTINUE TO ATEMPT TO KEEP OUR AIR AND WATER FREE OF CONTAMINATION!!!!
Equity not equality.
Perhaps implement a local TV channel to observe city meetings so the public can be aware of any potential developments whether it be businesses, schools, housing, etc.
More community gardens .
Common-sense fact-based approaches.
Trash on sidewalks homeless encampments near schools, it no longer is safe for kids to walk alone, we are accosted every day from homeless on freeway exits gas pumps, in front of stores. I am not mean but enough is enough I am frightened by the mental ill and druggies. They need help.
There are plenty of parks. Maintain them, remove the homeless, drugs, crime and trash. Stop spending money on more projects, clean up the spaces we already have.
Get rid of crime, homeless, Trash and graffiti. We don't need low income crime ridden housing that people will trash and disrespect. We don't need additional tax and social service burdens. We don't need thousands of apartments, we need quality single family homes with people who pay taxes, respect property, don't commit crimes, go to work and are productive members in the city.
No more "affordable housing" monstrosities which is a liberal euphemism for people who never apply themselves and live their lives expecting handouts from the rest of us. These brand new "affordable housing" units look like crap due to residents destroying them. This city is looking like a dump, yet you keep adding more and more crappy apartments.
I don't even know what Environmental Justice is. Sounds like a feel-good catch-phrase.
Try to use existing buildings and not build all new sites. Population density should be kept at a minimum- controlling traffic and overpopulated schools.
N/A
Do not cut down trees in our neighborhood. Maintain parks with healthy and strong trees. Check toxic emission levels in our City.
More parks. More access to fresh food. More safety in our neighborhood.
More activities in parks.
Do not construct housing near freeways.

Activities for children to exercise
More green open space.
I would like the City to hire friendlier police
For the city to assist the residents in learning English.
more recycling
Place more trash cans in the streets and more lighting near schools at night
Public safety
safe and clean environment in housing
more parking in housing areas
A cleaner city
graffiti and air contamination
streamline project approvals and reduce red tape for developers
waste problem
internet and transportation for senior
Water quality
Everything in the City is good enough
Have better training.
Less public smoking
Waste
Noise
Everything written should revolve about anthropocentric climate change. Any point and nonpoint sources of pollution should be subservient to the impacts from climate change. This is a long-term issue, where the effects are already being felt, particularly by the lowest income (and usually lowest polluting) communities. It will be an utter travesty if the environmental justice element does not actively address impacts from climate change. To the best of my knowledge, the 2008 Garden Grove General Plan did not once mention climate change by name. It is a shame that our community is willfully ignoring this.
No drugs. No alcohol. More parks and trees.
close proximity to the market and public transportation
education for children
Noise issue
Thành phố Garden Grove đã làm sạch môi trường như công viên, đường sá đều rất tốt. (The City of Garden Grove has cleaned up the environment. Parks, and streets are really good)
Chính quyền luôn có ý nghĩ và hành động sáng suốt trong việc điều hành công việc luôn tốt đẹp. (the local government always has good ideas and appropriate actions in managing and administrating jobs).
I would like the City to consider 1st to tear down Motel 6 on Trask Avenue and Harbor. So much prostitution and drug. We see this every day. How can this be allowed? We don't even feel safe going to the gas station on Fairview and Trask Avenue. Drug dealing every day in the back in broad daylight into the evening. And lastly, the so-called Asian Cafes in Garden Grove. Same issues Prostitution and Drugs. It is a disgrace. In my opinion, this needs to be taken care of first. As time goes by it will just get worse. Our kids in Garden Grove are living in this. :(
Primero tener mas limpieza en los parques y cajas y aceras donde se camina. Tener un proyecto de mas arboles para purificar el ambiente. (First, have more cleanliness in parks and boxes and sidewalks where you walk. Have a project of more trees to purify the environment.)
No entiendo la pregunta (I do not understand the question)

N/A - no idea Just keep everyone up to date
Stop construction of homes and convert to green space and parks.
A cleaner, safer environment. Family friendly parks. Build up the Main Street district and be sure there is plenty of parking to support it and the entertainment venues (The Gem and Garden Amp)
More and better parks and ways to exercise outside are needed.
Less people in the city
Please, please, please consider the diverse community of our city. It is largely supportive of low cost low quality foods fast foods while a fair amount of the community is not being served with higher quality whole food options. The diverse community of our city. It is largely supportive of low cost low quality foods fast foods while a fair amount of the community is not being served with higher quality whole food options. Advocate for a Sprouts and/or Trader Joe's, healthy whole food eateries & fast foods. I travel outside of the city once a week to do my grocery shopping & pick up healthy take out. Huntington Beach is getting my money not Garden Grove, which saddens me.
More walking/bike trails!!!
The homeless trash and feces being left on the ground.
Emphasis on community building ACROSS Garden Grove, not just focused on the west side which is considered more wealthy.
Have a program for high school students help to get a job and complete goals.
Follow code enforcement laws and get our neighborhoods cleaned up
Consider traffic an crime levels. The more people the more crime rate will go up. Lower class people tend to have more of a criminal history. We want our city to be safe
상업지역과 주택가의 분리 (Separation of commercial and residential areas)
That any new housing would be planned in places that have ease of access to grocery & retail stores, on land free on contamination & that facilitates a sense of community.
Place for teenagers and young adults to work.
Common sense. Affordable housing near transportation, plentiful parking for multi units.
No comment.
Minorities
Plant more large trees.
Hiring professional grant writer with a budget the time with cost factor in each city planed budgeted that will meeting the requirements per grant this has been stated in the Oct,2019 park master plan. We are unable be effective in abstaining grants as not utilizing the downtown active transportation master plan require the commission to become aware of the investment of resource where spent to address the Garden Grove's Environmental Justice Element?
Clean up the homeless population. Way too much trash, crime, graffiti. The city seems VERY weak on those issues compared to other cities
Take down graffiti faster. Triple the staff for that and remove trash on the streets and freeway ramps
I would like to see Garden Grove support more innovation in renewable energies and electric vehicle companies and infrastructure
More police to cut crimes
This is a joke. I hate this name by the way. What is environmental justice? Sounds like some new fangeled hippy dippy bologna.
Shopping carts are a major nuisance Should require businesses to have locking Wheels

Where the city is failing to solve our existing issues is it's working to spend money on "fixing" them, PREVENTION is key. Prevent littering the streets by installing trash cans where there's a lot of foot traffic. Prevent crime by installing public lighting where needed.

LISTEN TO RESIDENTS!!!, you can't fix anything if you can't understand what the issues are.

Work with students and young people in Orange County. Lots of students take science classes and know lots about this subject. They are the future and a say in the future of their environment would be nice

unknown

Trees. Planting. Preserving. Protecting.

# APPENDIX B: SURVEY QUESTIONS: ENGLISH, KOREAN, SPANISH, AND VIETNAMESE

**City of Garden Grove**

HOUSING, ENVIRONMENTAL JUSTICE, AND SAFETY ELEMENTS

# Garden Grove Community Survey

In 2008, the City of Garden Grove adopted a general plan that outlines the community's long-term physical growth and public services. The City is now updating the Housing Element of that plan and preparing a new Environmental Justice Element. The Housing Element analyzes the community's housing needs at all income levels and identifies housing strategies and solutions.

<https://ggcity.org/housing-element>

The Environmental Justice Element focuses on improving community health through better air quality, access to parks and public facilities, diversity of food choices, safe and sanitary home conditions, and the ability for all residents to engage in healthy physical activities.

We encourage you to identify what you believe are the most important issues to address over the next five to ten years. Thank you for participating!

## Housing

### Currently, do you:

Please choose **only one** of the following:

- Live in Garden Grove
- Work in Garden Grove
- Live and work in Garden Grove
- Do not live or work in Garden Grove

## Which best describes your current living situation?

Please choose **only one** of the following:

- A single-family home
- A duplex/triplex/fourplex
- A condominium/townhome
- An apartment
- Accessory dwelling unit (granny flat/guest house)
- A mobile home
- Group home/assisted living
- Interim/transitional housing and shelter
- Do not currently have a permanent home
- Other (please specify)

## Which best describes your current housing situation?

Please choose **only one** of the following:

- Rent
- Own
- Live with friends/family, do not own or pay rent
- Do not currently have a permanent home
- Other (please specify)

## What types of housing does Garden Grove need most?

*Drag and drop your top three priorities from the "Your choices" list on the left to the "Your ranking" box on the right, ranking them in order of importance. The most important on top and the least important on the bottom.*

**Please choose no more than 3 items:**

Single-family homes

Condominiums/townhomes

Larger scale apartments (5 units or more)

Smaller scale apartments (4 units or less)

Senior housing

Mobilehome parks

Special needs housing for families and individuals who need supportive services like jobs training and social services

Interim/transitional housing for people looking to transition from homelessness

Accessory dwelling units (granny flat/guest house)

## Rank the importance of current housing challenges in Garden Grove.

Please choose the appropriate response for each item:

	Very Important	Somewhat Important	Not Important	Don't Know
Ensure that children who grow up in Garden Grove can afford to live in Garden Grove on their own.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Focus new housing near commercial locations, creating "live/work" neighborhoods	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Streamline the process for new housing construction.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Establish housing for seniors, large families, veterans, and/or persons with disabilities.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Provide shelters and transitional housing for homeless families and individuals, together along with services that help move people into permanent housing.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Encourage the rehabilitation of existing housing in older neighborhoods.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Support programs to help homeowners at risk of mortgage default to keep their homes, including mortgage loan programs.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	<b>Very Important</b>	<b>Somewhat Important</b>	<b>Not Important</b>	<b>Don't Know</b>
<b>Targeted efforts to address long-term inequities in the housing market, including discrimination in renting.</b>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**To meet the State's long-term housing demand identified state-wide, and particularly in Orange County, the City will need to plan for more apartments, townhomes, and condominiums. Please rank the ideas below based on what you think are the best locations in Garden Grove for new housing.**

*Drag and drop your top three priorities from the "Your choices" list on the left to the "Your ranking" box on the right, ranking them in order of importance. The most important on top and the least important on the bottom.*

**Please choose no more than 3 items:**

Along Garden Grove Boulevard, Chapman Avenue, Euclid Street, Brookhurst Street, Lampson Avenue, and similar major streets.

Within aging commercial centers.

Within industrial districts.

In motels that can be converted to housing.

By increasing the number of housing units allowed on each piece of property within existing higher density residential areas.

Anywhere in Garden Grove as long as any impacts to single-family neighborhoods are minimal.

**There are a number of tradeoffs associated with different approaches to providing more housing in Garden Grove. Please rank your top three choices in order of importance.**

*Drag and drop your top three priorities from the "Your choices" list on the left to the "Your ranking" box on the right, ranking them in order of importance. The most important on top and the least important on the bottom.*

**Please choose no more than 3 items:**

New housing should be concentrated near existing and planned public transit.

New housing should blend in with the character of surrounding neighborhoods.

New housing should be spread evenly across all parts of the city.

New housing should be located where it will have the least impact on traffic in Garden Grove.

New housing should be located within easy access of shops and services.

**What else would you like the City to consider when updating Garden Grove's Housing Element?**

Please write your answer here:

A large, empty rectangular box with a thin black border, intended for the user to write their answer to the question above.

# Environmental Justice

**What pollution issues concern you and your family most? (Select all that apply)**

Please choose **all** that apply:

- Vehicle emissions associated with freeway and local roadway traffic
- Industrial businesses that handle or release toxic materials
- Living close to businesses that release toxic materials
- Truck traffic from warehousing businesses
- Contaminated industrial sites
- Trash hauling and recycling facilities
- Contamination threats to local groundwater supplies
- Other (please specify):

**Please rank the following in order of importance to you and your family.**

*Drag and drop your top three priorities from the "Your choices" list on the left to the "Your ranking" box on the right, ranking them in order of importance. The most important on top and the least important on the bottom.*

**Please choose no more than 3 items:**

High-quality parks and recreational facilities

Healthy food choices and greater access to fresh and affordable healthy food

Neighborhoods that provide safe sidewalks and crosswalks and easy access to bike routes and public transit

High-quality, safe, and affordable housing, neighborhoods, and public spaces

Increased economic opportunities for all residents

Resident participation in events, festivals, and education programs

**Do you feel that you, your neighbors, and the broader community participate in decisions made by City leaders?**

Please choose **only one** of the following:

- Yes
- No
- Don't know

**How can the City increase community participation in key decisions?  
Select the ways you think would be most effective.  
(Select up to three)**

**Please select at most 3 answers:**

- Provide project information in languages other than English
- Give direct notice to tenants and property owners living near proposed development sites
- Conduct more community meetings
- Conduct more meetings online
- Provide more project information on the City's website or online project portal
- Provide more information through City newsletters
- Provide more time to review projects and opportunities to provide feedback
- Other (please specify):

## What else would you like the City to consider when creating Garden Grove's Environmental Justice Element?

Please write your answer here:

## About You

### How long have you lived in Garden Grove?

Please choose **only one** of the following:

- 1-5 years
- 6-10 years
- 11-20 years
- 21+ years
- Do not live in Garden Grove

## Please indicate your gender.

Please choose **only one** of the following:

- Male
- Female
- Non-binary
- Prefer not to say

## How do you identify yourself? (Select all that apply)

Please choose **all** that apply:

- White non-Hispanic
- African American
- Hispanic/Latino
- Asian or Asian American
- Native Hawaiian or Pacific Islander
- Native American
- Prefer not to say
- If you prefer to self-identify, do so here:

## What language is primarily spoken in your household?

Please choose **only one** of the following:

- English
- Spanish
- Korean
- Vietnamese
- Other (please specify)

## What is your age group?

Please choose **only one** of the following:

- Under 18
- 18-29
- 30-49
- 50-64
- 65+

## Which zip code do you reside in?

Please choose **only one** of the following:

- 92840
- 92841
- 92843
- 92844
- 92845
- Other (please specify)

## Which best describes your annual household income?

Please choose **only one** of the following:

- Under \$24,999
- \$25,000 - \$49,999
- \$50,000 - \$74,999
- \$75,000 - \$99,999
- \$100,000 - \$149,999
- \$150,000 or more
- Prefer not to say

## City of Garden Grove

HOUSING, ENVIRONMENTAL JUSTICE, AND SAFETY ELEMENTS

Thank you for your input!

# 가든 그로브 지역사회(Garden Grove Community) 설문조사

**City of Garden Grove**

HOUSING, ENVIRONMENTAL JUSTICE, AND SAFETY ELEMENTS

2008년에 가든 그로브(Garden Grove) 시는 지역사회의 장기적인 물리적 성장과 공공 서비스를 개략적으로 설명하는 종합 계획을 채택했습니다. 시 당국은 현재 해당 계획의 주택 요소를 갱신하고 새로운 환경정의 요소를 준비하고 있습니다. 주택 요소는 모든 소득수준에서 지역사회의 주택 수요를 분석하고 주택 전략 및 해결방안을 파악합니다. <https://ggcity.org/housing-element>

환경정의 요소는 대기 질 개선, 공원 및 공공시설 접근성, 음식 선택의 다양성, 안전하고 위생적인 주거환경, 모든 주민이 건강한 신체활동에 참여할 수 있는 능력 등을 통한 지역사회 건강 증진에 중점을 두고 있습니다.

우리는 귀하가 향후 5년에서 10년 동안 해결해야 할 가장 중요한 문제가 무엇이라고 생각하는지 파악할 것을 권장합니다. 참여해 주셔서 감사합니다!

## 주택

**현재, 귀하는:**

다음중에 오직 하나만 고르십시오:

- 가든 그로브에 거주합니까?
- 가든 그로브에서 근무합니까?
- 가든 그로브에 거주하고 또한 근무합니까?
- 가든 그로브에 거주 또는 근무하지 않습니까?

**다음 중 귀하의 현재 생활 환경을 가장 잘 설명하는 것은 무엇입니까?**

다음중에 오직 하나만 고르십시오:

- 단독주택
- 듀플렉스/트리플렉스/포플렉스
- 콘도미니엄/타운홈
- 아파트
- 별채 주택 (그래니플랫/게스트하우스)
- 이동 주택
- 그룹홈/요양 시설
- 노숙자 임시 거주지 및 보호소
- 현재 영구 거주지가 없음
- 기타 (구체적으로 명시)

**다음 중 귀하의 현재 거주 환경을 가장 잘 설명하는 것은 무엇입니까?**

다음중에 오직 하나만 고르십시오:

- 임대
- 자가
- 소유하거나 임대료 없이 친구나 가족과 함께 거주
- 현재 영구 거주지가 없음
- 기타 (구체적으로 명시)

## 가든 그로브에 가장 필요한 주택 종류는 무엇입니까?

왼쪽의 "선택사항" 목록에서 오른쪽의 "순위" 상자로 상위 3개의 우선순위를 끌어다 놓아 중요도에 따라 순위를 매기십시오. 가장 중요한 것은 맨 위에, 덜 중요한 것은 아래에 있습니다.

3까지의 항목을 선택하여 주십시오:

단독주택

콘도미니엄/타운홈

대규모 아파트 (5세대 이상)

소규모 아파트 (4세대 이하)

고령자 주택

이동 주택

직업훈련, 사회서비스 등 지원 서비스가 필요한 가족 및 개인들을 위한 특별 수요 주택

노숙자에서 벗어나려는 사람들을 위한 노숙자 임시 거주지

별채 주택 (그래니플랫/게스트하우스)

## 가든 그로브의 현재 주택 문제의 중요도에 따라 순위를 매기십시오.

각각의 항목에 적당한 응답을 골라주세요:

	매우 중요 함	다소 중요 함	중요하지 않음	모름
가든 그로브에서 자란 아이들이 경제적으로 자립하여 가든 그로브에서 살 수 있도록 보장	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
상업 지역 근처에 새 주택을 집중 배치하여 "주거/근무" 환경 조성	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
새 주택 건설 절차를 간소화	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
고령자, 대가족, 참전용사 및/또는 장애인을 위한 주택 마련	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
노숙자 가족과 개인들을 위한 보호소 및 노숙자 임시 거주지를 제공하고 사람들을 영구 주택으로 들어가도록 돕는 서비스를 제공	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
오래된 지역의 기존 주택 재건을 장려	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
주택 담보 대출 채무 불이행의 위험에 처한 주택 소유주를 돕기 위해 주택 담보 대출 프로그램을 포함한 프로그램들을 지원	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
임대 차별을 포함한 주택시장의 장기적인 불평등 문제를 해결하기 위해 집중적으로 노력	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

주 전체, 특히 오렌지 카운티에서 확인된 주의 장기 주택 수요를 충족하기 위해 시 당국은 더 많은 아파트, 타운홈, 콘도미니엄에 대한 계획을 수립. 가든 그로브에서 새 주택 설립에 가장 적합하다고 생각하는 곳을 바탕으로 아래의 아이디어에 순위를 매기십시오.

왼쪽의 "선택사항" 목록에서 오른쪽의 "순위" 상자로 상위 3개의 우선순위를 끌어다 놓아 중요도에 따라 순위를 매기십시오. 가장 중요한 것은 맨 위에, 덜 중요한 것은 아래에 있습니다.

3까지의 항목을 선택하여 주십시오:

가든 그로브 블러바드(Garden Grove Boulevard), 채프먼 애비뉴(Chapman Avenue), 유클리드 스트리트(Euclid Street), 브룩허스트 스트리트(Brookhurst Street), 램슨 애비뉴(Lampson Avenue) 및 이와 유사한 주요 거리를 따라.

노후화된 상업 중심지 내.

공업 중심지 내.

주택으로 전환할 수 있는 모텔 내.

기존 고밀도 주거지역 내 각 부동산에 허용되는 주택의 수를 증 가시킴.

단독주택 지역에 미치는 영향이 최소화되는 한 가든 그로브 어디 든.

**가든 그로브에서 더 많은 주택을 제공하기 위한 다양한 접근 방식과 관련된 많은 절충점이 있습니다. 중요도에 따라 상위 3개의 선택 사항에 순위를 매기십시오.**

*왼쪽의 "선택사항" 목록에서 오른쪽의 "순위" 상자로 상위 3개의 우선순위를 끌어다 놓아 중요도에 따라 순위를 매기십시오. 가장 중요한 것은 맨 위에, 덜 중요한 것은 아래에 있습니다.*

**3까지의 항목을 선택하여 주십시오:**

새 주택은 기존 및 계획된 대중교통 근처에 집중되어야 한다.

새 주택은 주변 지역의 특성과 조화를 이루어야 한다.

새 주택은 도시 전역에 고르게 분포되어야 한다.

새 주택은 가든 그로브의 교통에 가장 적은 영향을 미치는 곳에 위치해야 한다.

새 주택은 상점과 서비스에 쉽게 접근할 수 있는 곳에 위치해야 한다.

**가든 그로브의 주택 요소를 갱신할 때 시 당국에서 고려해야 할 또 다른 사항은 무엇입니까?**

이곳에 답변을 작성하십시오:

## 환경정의

**귀하와 귀하의 가족이 가장 염려하는 오염 문제는 무엇입니까? (해당 사항을 모두 고르십시오)**

적합한 것을 모두 선택하십시오:

- 고속도로 및 지방 도로 교통과 관련된 차량 배기가스
- 독성물질을 취급하거나 배출하는 산업체
- 독성물질을 배출하는 사업장 가까이에 거주
- 창고 사업으로부터의 트럭 교통
- 오염된 산업 현장
- 쓰레기 운반 및 재활용 시설
- 지역 지하수 공급에 대한 오염 위험
- 기타 (구체적으로 명시):

**다음 목록에서 귀하와 가족에게 중요한 순서대로 순위를 매기십시오.**

왼쪽의 "선택사항" 목록에서 오른쪽의 "순위" 상자로 상위 3개의 우선순위를 끌어다 놓아 중요도에 따라 순위를 매기십시오. 가장 중요한 것은 맨 위에, 덜 중요한 것은 아래에 있습니다.

**3까지의 항목을 선택하여 주십시오:**

양질의 공원 및 휴양 시설

건강한 식품 선택 및 신선하고 저렴한 건강식품에 대한 접근성 확대

안전한 보도와 횡단보도가 있고 자전거 도로와 대중교통을 쉽게 이용할 수 있는 지역

양질의 안전하고 저렴한 주택, 주변 지역 및 공공장소

모든 거주자를 위한 경제적 기회 확대

행사, 축제 및 교육 프로그램에 대한 주민 참여

**귀하는 본인, 이웃 및 더 넓은 지역사회가 시 지도자들의 결정에 참여한다고 생각하십니까?**

다음중에 오직 하나만 고르십시오:

- 예
- 아니오
- 모름

**시 당국은 주요 결정에 대한 지역사회의 참여를 어떻게 늘릴 수 있습니까? 가장 효과적이라고 생각하는 방법을 선택하십시오. (최대 3개 선택)**

답변을 최대 3 개까지 선택하십시오:

- 영어 이외의 언어로 프로젝트 정보 제공
- 제안된 개발 부지 근처에 거주하는 세입자와 부동산 소유자에게 직접 통지
- 더 많은 지역사회 회의 실시
- 더 많은 온라인 회의 실시
- 시 당국의 웹사이트 또는 온라인 프로젝트 포털에서 더 많은 프로젝트 정보 제공
- 시 뉴스레터를 통해 더 많은 정보 제공
- 프로젝트를 검토할 수 있는 더 많은 시간 및 피드백을 제공할 수 있는 기회 제공
- 기타 (구체적으로 명시):

**가든 그로브의 환경정의 요소를 만들 때 시 당국에서 고려해야 할 또 다른 사항은 무엇입니까?**

이곳에 답변을 작성하십시오:

## 당신에 대한 설명

**가든 그로브에서 얼마나 거주했습니까?**

다음중에 오직 하나만 고르십시오:

- 1-5년
- 6-10년
- 11-20년
- 21년 이상
- 가든 그로브에서 거주하지 않음

## 귀하의 성별은 무엇입니까?

다음중에 오직 하나만 고르십시오:

- 남성
- 여성
- 논 바이너리(Non-binary)
- 답하고 싶지 않음

## 귀하의 인종은 무엇입니까? (해당 사항을 모두 고르십시오)

적합한 것을 모두 선택하십시오:

- 백인 비히스패닉계
- 아프리카계 미국인
- 히스패닉계/라틴계
- 동양인 또는 동양계 미국인
- 하와이 원주민 또는 태평양 섬 주민
- 북미 원주민
- 답하고 싶지 않음
- 기타 (구체적으로 명시):

## 가정에서 주로 사용하는 언어는 무엇입니까?

다음중에 오직 하나만 고르십시오:

- 영어
- 스페인어
- 한국어
- 베트남어
- 기타 (구체적으로 명시)

## 귀하의 연령대는 무엇입니까?

다음중에 오직 하나만 고르십시오:

- 18세 이하
- 18-29
- 30-49
- 50-64
- 65 이상

## 거주지의 우편번호는 무엇입니까?

다음중에 오직 하나만 고르십시오:

- 92840
- 92841
- 92843
- 92844
- 92845
- 기타 (구체적으로 명시)

## 귀하의 연간 가계 소득은 얼마입니까?

다음중에 오직 하나만 고르십시오:

- \$24,999 이하
- \$25,000 - \$49,999
- \$50,000 - \$74,999
- \$75,000 - \$99,999
- \$100,000 - \$149,999
- \$150,000 이상
- 답하고 싶지 않음

**City of Garden Grove**

HOUSING, ENVIRONMENTAL JUSTICE, AND SAFETY ELEMENTS

귀하의 의견에 감사드립니다!

# Bản Khảo Sát Cộng Đồng Garden Grove

Vào năm 2008, Thành Phố Garden Grove đã thông qua một bản Quy Hoạch Chung (General Plan) để lên kế hoạch cho sự phát triển lâu dài của cộng đồng cùng với các dịch vụ công cộng. Thành phố hiện đang điều chỉnh hạng mục Gia Cư (Housing Element) của bản Quy Hoạch Chung, và chuẩn bị thêm vào một hạng mục mới, gọi là hạng mục Công Lý Môi Trường (Environmental Justice Element.) Hạng mục Gia Cư phân tích nhu cầu nhà ở của người dân ở mọi mức thu nhập, và đề ra các chiến lược và giải pháp thích hợp để giải quyết vấn đề nhà ở trong thành phố.  
<https://ggcity.org/housing-element> (<https://ggcity.org/housing-element>)

Hạng mục về Công Lý Môi trường (Environmental Justice Element) tập trung vào việc cải thiện sức khỏe cộng đồng thông qua việc cải tạo chất lượng không khí, tăng cường khả năng tiếp cận công viên và các tiện ích công cộng, đa dạng hóa việc chọn lựa thực phẩm, bảo đảm điều kiện nhà ở và an toàn vệ sinh, và thúc đẩy khả năng tham gia các hoạt động thể dục thể thao lành mạnh cho tất cả cư dân.

Chúng tôi khuyến khích quý vị đề những vấn đề quý vị tin là cần phải được giải quyết trong vòng 5 đến 10 năm sắp tới. (Cám ơn đã tham gia!) Cảm ơn sự tham gia của quý vị!

## Gia Cư

### Hiện tại thì quý vị đang:

Vui lòng chọn **chỉ một** trong những cái sau:

- Sống tại thành phố Garden Grove
- Làm việc tại thành phố Garden Grove
- Sống và làm việc tại thành phố Garden Grove
- Không sống và làm việc tại thành phố Garden Grove

## Điều nào sau đây mô tả đúng nhất hoàn cảnh sống hiện tại của quý vị?

Vui lòng chọn **chỉ một** trong những cái sau:

- Nhà một căn
- Nhà duplex/triplex/fourplex
- Nhà sát vách/nhà phố (condominiums/townhomes)
- Nhà chung cư
- Nhà phụ (ADU)
- Nhà di động (mobile home)
- Nhà tập thể/những nơi hỗ trợ sinh hoạt
- Nhà ở tạm thời/chuyển tiếp
- Hiện không có nhà cố định
- Ý kiến khác (vui lòng ghi rõ)

## Tình trạng gia cư hiện tại của quý vị như thế nào?

Vui lòng chọn **chỉ một** trong những cái sau:

- Thuê
- Sở hữu
- Sống với gia đình hoặc bạn bè, và không sở hữu hoặc trả tiền thuê nhà
- Hiện không có nhà cố định
- Ý kiến khác (vui lòng ghi rõ)

## Garden Grove cần những kiểu nhà ở nào nhất.

*Kéo và thả ba lựa chọn hàng đầu của bạn từ danh sách "Lựa chọn" ở bên trái sang chỗ "Xếp hạng" ở bên phải, xếp theo thứ tự giảm dần. Điều quan trọng nhất ở trên và ít quan trọng hơn ở dưới cùng.*

Vui lòng chọn không nhiều hơn 3 mục:

Nhà một căn

Nhà sát vách/nhà phố (condominiums/townhomes)

Chung cư quy mô lớn (5 căn trở lên)

Chung cư quy mô nhỏ (4 căn hoặc ít hơn)

Nhà cho người cao niên

Khu nhà di động (mobile home)

Khu nhà ở đặc biệt dành cho các gia đình và cá nhân cần được hỗ trợ xã hội như đào tạo việc làm và các dịch vụ khác

Nhà ở tạm thời/chuyển tiếp cho những người muốn thoát khỏi tình trạng vô gia cư

Nhà phụ (ADU)

## Xếp hạng tầm quan trọng của những khó khăn về nhà ở hiện nay ở thành phố Garden Grove.

Vui lòng chọn phản hồi thích hợp cho mỗi mục:

	Rất quan trọng	Hơi quan trọng	Không quan trọng	Không biết
Đảm bảo các trẻ em lớn lên ở Garden Grove có thể sống tự túc ở Garden Grove.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Tập trung xây dựng các khu nhà ở mới gần các địa điểm thương mại, tạo ra các khu vực “vừa sống vừa làm việc”.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Hợp lý hóa quy trình xây dựng nhà ở.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Xây dựng nhà ở dành cho người cao niên, gia đình đông con, cựu chiến binh và /hoặc người khuyết tật.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cung cấp nơi trú ẩn và nhà ở chuyển tiếp cho các gia đình và các cá nhân vô gia cư, cùng với các dịch vụ giúp những hộ vô gia cư xây dựng lại cuộc sống.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Khuyến khích sửa chữa lại nhà ở hiện hữu trong các khu phố cũ.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Hỗ trợ các chương trình giúp chủ nhà có nguy cơ bị thu hồi nhà do thế chấp, bao gồm cả chương trình hỗ trợ cho vay (mortgage loan).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	<b>Rất quan trọng</b>	<b>Hơi quan trọng</b>	<b>Không quan trọng</b>	<b>Không biết</b>
<b>Nỗ lực giải quyết những vấn đề bất bình đẳng còn tồn tại trong thị trường nhà đất, bao gồm cả sự phân biệt đối xử trong việc thuê nhà.</b>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**Để đáp ứng nhu cầu nhà ở dài hạn trên toàn tiểu bang nói chung, và đặc biệt là ở quận Cam nói riêng, thành phố Garden Grove cần phải lập kế hoạch (quy hoạch) tạo điều kiện cho việc xây dựng các căn hộ nhà phố và các khu chung cư mới. Vui lòng đóng góp ý kiến dưới đây về vị trí nào mà quý vị nghĩ là tốt nhất cho việc xây dựng những khu nhà mới nói trên.**

*Kéo và thả ba lựa chọn hàng đầu của bạn từ danh sách "Lựa chọn" ở bên trái sang chỗ "Xếp hạng" ở bên phải, xếp theo thứ tự giảm dần. Điều quan trọng nhất ở trên và ít quan trọng hơn ở dưới cùng.*

Vui lòng chọn không nhiều hơn 3 mục:

Dọc theo Garden Grove Boulevard, Chapman Avenue, Euclid Street, Brookhurst Street, Lampson Avenue, và các con đường lớn tương tự.

Trong các trung tâm thương mại lâu đời.

Trong các khu công nghiệp.

Trong các khu nhà khách có thể chuyển đổi thành nhà ở.

Bằng cách gia tăng mật độ xây dựng nhà ở trong các khu dân cư có mật độ dân số cao.

Bất cứ nơi nào trong thành phố Garden Grove, miễn sao sự ảnh hưởng trong khu dân cư một hộ gia đình ở mức tối thiểu.

**Đề tạo điều kiện thuận lợi cho việc xây dựng thêm nhà ở, thành phố Garden Grove cần phải đánh đổi một vài yếu tố. Vui lòng đưa ra ba lựa chọn quan trọng nhất.**

*Kéo và thả ba lựa chọn hàng đầu của bạn từ danh sách "Lựa chọn" ở bên trái sang chỗ "Xếp hạng" ở bên phải, xếp theo thứ tự giảm dần. Điều quan trọng nhất ở trên và ít quan trọng hơn ở dưới cùng.*

Vui lòng chọn không nhiều hơn 3 mục:

Những công trình nhà ở mới chỉ nên được tập trung ở gần các phương tiện công cộng hiện hữu hoặc đã được quy hoạch.

Những công trình nhà ở mới nên đảm bảo tính đồng bộ về kiến trúc với các khu vực xung quanh.

Những công trình nhà ở mới nên được rải đều trên tất cả các khu vực của thành phố.

Những công trình nhà ở mới nên nằm ở những nơi ít ảnh hưởng đến giao thông trong thành phố Garden Grove.

Những công trình nhà ở mới nằm ở vị trí dễ dàng tiếp cận với các cửa hàng và các dịch vụ.

## Quý vị muốn thành phố Garden Grove cân nhắc về những điều gì khác khi điều chỉnh hạng mục Gia Cư trong bản Quy Hoạch Chung?

Vui lòng điền câu trả lời ở đây:

## Công Lý Môi Trường

**Vấn đề ô nhiễm nào khiến quý vị và gia đình quan tâm nhiều nhất?  
(Chọn tất cả các câu trả lời phù hợp)**

Vui lòng chọn **tất cả** để áp dụng:

- Khí thải liên quan đến giao thông trên xa lộ và đường cao tốc
- Chất thải và các vật liệu độc hại liên quan tới các hoạt động công nghiệp
- Sống gần các doanh nghiệp tạo ra các chất thải độc hại
- Lượng lưu thông xe tải từ các doanh nghiệp kinh doanh kho hàng
- Các khu công nghiệp bị ô nhiễm
- Cơ sở tái chế và vận chuyển rác
- Mối đe dọa gây ô nhiễm nguồn cung cấp nước ngầm tại địa phương
- Ý kiến khác (vui lòng ghi rõ):

**Vui lòng xếp hạng mức độ quan trọng của những điều sau đối với quý vị và gia đình theo thứ tự giảm dần.**

*Kéo và thả ba lựa chọn hàng đầu của bạn từ danh sách "Lựa chọn" ở bên trái sang chỗ "Xếp hạng" ở bên phải, xếp theo thứ tự giảm dần. Điều quan trọng nhất ở trên và ít quan trọng hơn ở dưới cùng.*

Vui lòng chọn không nhiều hơn 3 mục:

Công viên và các nơi sinh hoạt giải trí chất lượng cao

Đa dạng hóa và tăng cường khả năng tiếp cận với các loại thực phẩm tươi ngon, lành mạnh và giá cả phải chăng

Các khu vực có vỉa hè và lối đi bộ an toàn, đồng thời dễ dàng tiếp cận các tuyến đường dành cho xe đạp và phương tiện công cộng

Khu dân cư chất lượng cao, có không gian mở, an toàn và giá cả phải chăng

Tăng trưởng kinh tế, và tạo nhiều cơ hội việc làm cho mọi cư dân

Thúc đẩy cư dân tham gia các sự kiện, lễ hội và các chương trình giáo dục

**Quý vị có cảm thấy rằng bản thân quý vị hay những người láng giềng nói riêng, và cộng đồng nói chung thường tham gia vào các quyết định hành chính của thành phố không?**

Vui lòng chọn **chỉ một** trong những cái sau:

- Có
- Không
- Không biết

**Làm thế nào để thành phố Garden Grove có thể thúc đẩy sự tham gia của người dân trong cộng đồng vào các quyết định hành chính? Xin chọn những cách mà quý vị cho rằng là hiệu quả nhất. (Chọn tối đa ba câu trả lời)**

Vui lòng chọn nhiều nhất 3 câu trả lời:

- Cung cấp thông tin các dự án bằng những ngôn ngữ khác ngoài tiếng Anh
- Thông báo trực tiếp cho người thuê và chủ sở hữu bất động sản sống gần các địa điểm phát triển được đề xuất
- Tiến hành nhiều cuộc hội thảo cộng đồng hơn
- Tiến hành nhiều cuộc họp trực tuyến hơn
- Cung cấp thêm thông tin về dự án trên trang chủ của thành phố hoặc trên các giao diện trực tuyến
- Cung cấp thêm thông tin qua các bản tin thông báo của thành phố
- Cung cấp thêm thời gian để xem xét các dự án và cơ hội để phản hồi
- Ý kiến khác (vui lòng ghi rõ):

**Quý vị còn muốn thành phố Garden Grove cân nhắc về những điều gì khác khi tạo ra hạng mục Công Lý Môi Trường?**

Vui lòng điền câu trả lời ở đây:

## Thông tin bản thân

**Quý vị đã sống ở Garden Grove bao lâu?**

Vui lòng chọn **chỉ một** trong những cái sau:

- 1-5 năm
- 6-10 năm
- 11-20 năm
- 21+ năm
- Tôi không sống tại Garden Grove

## Xin cho biết giới tính.

Vui lòng chọn **chỉ một** trong những cái sau:

- Nam
- Nữ
- Phi giới tính
- Từ chối trả lời

## Quý vị thuộc sắc dân nào? (Chọn tất cả các câu trả lời phù hợp)

Vui lòng chọn **tất cả** để áp dụng:

- Người da trắng không phải gốc Tây Ban Nha
- Người Mỹ gốc Phi
- Người Latin
- Người Châu Á hoặc người Mỹ gốc Á
- Người Hawaii/ Châu Á Thái Bình Dương
- Thổ dân châu Mỹ (người da đỏ)
- Từ chối trả lời
- Ý kiến khác (vui lòng ghi rõ):

## Ngôn ngữ nào được sử dụng chủ yếu trong gia đình quý vị?

Vui lòng chọn **chỉ một** trong những cái sau:

- Tiếng Anh
- Tiếng Tây Ban Nha
- Tiếng Hàn Quốc
- Tiếng Việt
- Ý kiến khác (vui lòng ghi rõ)

## Quý vị thuộc nhóm tuổi nào?

Vui lòng chọn **chỉ một** trong những cái sau:

- Dưới 18
- 18-29
- 30-49
- 50-64
- 65+

## Quý vị cư trú ở mã vùng nào?

Vui lòng chọn **chỉ một** trong những cái sau:

- 92840
- 92841
- 92843
- 92844
- 92845
- Ý kiến khác (vui lòng ghi rõ)

## Tổng thu nhập hàng năm của gia đình bạn?

Vui lòng chọn **chỉ một** trong những cái sau:

- Dưới \$24,999
- \$25,000 - \$49,999
- \$50,000 - \$74,999
- \$75,000 - \$99,999
- \$100,000 - \$149,999
- Từ \$150,000 trở lên
- Từ chối trả lời

## City of Garden Grove

HOUSING, ENVIRONMENTAL JUSTICE, AND SAFETY ELEMENTS

Chúng tôi cảm ơn những đóng góp của quý vị!

# Encuesta Para la Comunidad de Garden Grove

**City of Garden Grove**

HOUSING, ENVIRONMENTAL JUSTICE, AND SAFETY ELEMENTS

En 2008, la Ciudad de Garden Grove adoptó un plan general que proyecta el crecimiento físico a largo plazo y los servicios públicos de la comunidad. En este momento la Ciudad está actualizando el Elemento de Vivienda de ese plan y preparando un nuevo Elemento de Justicia Ambiental. El Elemento de Vivienda analiza las necesidades de vivienda de la comunidad en todos los niveles de ingresos e identifica estrategias y soluciones de vivienda. <https://ggcity.org/housing-element>

El Elemento de Justicia Ambiental se enfoca en mejorar la salud de la comunidad a través de una mejor calidad del aire, acceso a parques e instalaciones públicas, diversidad de opciones alimenticias, condiciones seguras e higiénicas de hogares y la capacidad de todos los residentes para participar en actividades físicas saludables.

Lo alentamos a que identifique lo que crea que son las cuestiones más importantes a abordar durante los próximos cinco a diez años. ¡Gracias por participar!

## Vivienda

### Actualmente, usted:

Por favor seleccione **sólo una** de las siguientes opciones:

- Vive en Garden Grove
- Trabaja en Garden Grove
- Vive y trabaja en Garden Grove
- No vive ni trabaja en Garden Grove

## ¿Cuál de estas describe mejor su vivienda actual?

Por favor seleccione **sólo una** de las siguientes opciones:

- Una vivienda unifamiliar
- Un dúplex/tríplex/cuádruplex
- Un condominio/casa pegada a otra (townhome)
- Un apartamento
- Unidad de vivienda accesoria (apartamento para adulto mayor/casa de huéspedes)
- Una casa prefabricada
- Casa grupal/ residencia de vivienda asistida
- Vivienda provisional/de transición y refugio
- Actualmente no tengo una vivienda permanente
- Otro (por favor especifique)

## ¿Cuál describe mejor su situación actual de vivienda?

Por favor seleccione **sólo una** de las siguientes opciones:

- Arriendo
- Soy propietario
- Vivo con amigos/familiares, no soy propietario ni pago arriendo
- Actualmente no tengo una vivienda permanente
- Otro (por favor especifique)

## ¿Qué tipo de vivienda necesita más la ciudad de Garden Grove?

De la lista que aparece a su izquierda con el nombre "Sus elecciones" arrastre y coloque sus tres prioridades principales en el cuadro "Su clasificación" que se encuentra a la derecha, poniéndolas en orden de importancia. Lo más importantes en la parte superior y lo menos importante en la parte inferior.

Por favor, no escoja más de 3 elementos:

Viviendas unifamiliares

Condominios/casas pegadas (townhomes)

Apartamentos de mayor escala (5 unidades o más)

Apartamentos de menor escala (4 unidades o menos)

Vivienda para adultos mayores

Parques para casas prefabricadas

Vivienda para satisfacer necesidades especiales destinada a familias e individuos que necesitan servicios de apoyo como capacitación laboral y servicios sociales

Vivienda provisional/de transición para personas que buscan salir de la situación de vivir en la calle

Unidades de vivienda accesoria (apartamentos para adulto mayor/casas de huéspedes)

## **Clasifique la importancia de los desafíos actuales sobre vivienda que enfrenta Garden Grove.**

Por favor, seleccione la respuesta apropiada para cada concepto:

	<b>Muy importante</b>	<b>Algo importante</b>	<b>No es importante</b>	<b>No se</b>
<b>Asegurar que los niños que crecen en Garden Grove, luego puedan cubrir el costo de vivir por su cuenta en Garden Grove.</b>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<b>Enfocarse en viviendas nuevas cerca de ubicaciones comerciales, creando vecindarios de "residencia/trabajo".</b>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<b>Agilizar el proceso de construcción de nuevas viviendas.</b>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<b>Establecer viviendas para adultos mayores, familias numerosas, veteranos y/o personas con discapacidades.</b>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<b>Proporcionar refugios y viviendas de transición para familias y personas individuales sin vivienda, junto con servicios que ayuden a las personas a trasladarse a viviendas permanentes.</b>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<b>Fomentar la rehabilitación de viviendas existentes en los vecindarios más antiguos.</b>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	<b>Muy importante</b>	<b>Algo importante</b>	<b>No es importante</b>	<b>No se</b>
<b>Programas de apoyo para ayudar a los propietarios de viviendas en riesgo de incumplimiento del pago de la hipoteca a conservar sus viviendas, incluyendo los programas de préstamos hipotecarios.</b>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<b>Esfuerzos específicos para abordar las desigualdades a largo plazo en el mercado de la vivienda, incluyendo la discriminación en el arrendamiento.</b>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

**Para satisfacer la demanda de vivienda estatal a largo plazo identificada en todo el estado, y particularmente en el condado de Orange, la Ciudad deberá planificar más apartamentos, casas pegadas (townhomes) y condominios. Clasifique las ideas que siguen a continuación según lo que crea que son las mejores ubicaciones en Garden Grove para construir viviendas nuevas.**

*De la lista que aparece a su izquierda con el nombre "Sus elecciones" arrastre y coloque sus tres prioridades principales en el cuadro "Su clasificación" que se encuentra a la derecha, poniéndolas en orden de importancia. Lo más importantes en la parte superior y lo menos importante en la parte inferior.*

**Por favor, no escoja más de 3 elementos:**

A lo largo de Garden Grove Boulevard, Chapman Avenue, Euclid Street, Brookhurst Street, Lampson Avenue y calles principales similares.

Dentro de los centros comerciales envejecidos.

Dentro de los distritos industriales.

En moteles que se pueden convertir en viviendas.

Aumentando el número de unidades de vivienda permitidas en cada propiedad dentro de las áreas residenciales existentes de mayor densidad.

En cualquier lugar de Garden Grove, siempre que los impactos en los vecindarios unifamiliares sean mínimos.

**Hay una serie de cosas buenas y malas asociadas con diferentes enfoques para proporcionar más viviendas en Garden Grove. Clasifique sus tres opciones principales en orden de importancia.**

*De la lista que aparece a su izquierda con el nombre "Sus elecciones" arrastre y coloque sus tres prioridades principales en el cuadro "Su clasificación" que se encuentra a la derecha, poniéndolas en orden de importancia. Lo más importantes en la parte superior y lo menos importante en la parte inferior.*

**Por favor, no escoja más de 3 elementos:**

Las viviendas nuevas deben concentrarse cerca del transporte público existente y planificado.

Las viviendas nuevas deben integrarse con las características de los vecindarios alrededor.

Las viviendas nuevas deben distribuirse de manera uniforme en todas partes de la ciudad.

Las viviendas nuevas deben ubicarse donde tengan el menor impacto en el tráfico de Garden Grove.

Las viviendas nuevas deben ubicarse donde haya más fácil acceso a comercios y servicios.

## ¿Qué más le gustaría que la Ciudad tuviera en cuenta al actualizar el Elemento de Vivienda de Garden Grove?

Por favor, escriba su respuesta aquí:

## Justicia Ambiental

### ¿Qué problemas de contaminación del aire le preocupan más a usted y a su familia? (Seleccione todas las que correspondan)

Por favor, marque las opciones que correspondan:

- Emisiones de vehículos asociadas con el tráfico en las autopistas y las vías locales
- Empresas industriales que manipulan o eliminan materiales tóxicos
- Vivir cerca de negocios que eliminan materiales tóxicos
- Tráfico de camiones de empresas con almacenes
- Sitios industriales contaminados
- Instalaciones de transporte de basura y reciclaje
- Amenazas de contaminación a los suministros locales de agua subterránea
- Otro (por favor especifique):

**Clasifique lo siguiente en orden de importancia para usted y su familia.**

*De la lista que aparece a su izquierda con el nombre "Sus elecciones" arrastre y coloque sus tres prioridades principales en el cuadro "Su clasificación" que se encuentra a la derecha, poniéndolas en orden de importancia. Lo más importantes en la parte superior y lo menos importante en la parte inferior.*

**Por favor, no escoja más de 3 elementos:**

Parques e instalaciones recreativas de alta calidad

Opciones de alimentos saludables y mayor acceso a alimentos saludables frescos y asequibles

Vecindarios que ofrecen aceras y cruces peatonales seguros y con fácil acceso a rutas para bicicletas y transporte público

Viviendas, vecindarios y espacios públicos de alta calidad, seguros y asequibles

Aumento de las oportunidades económicas para todos los residentes

Participación de residentes en eventos, festivales y programas educativos

**¿Siente que usted, sus vecinos y la comunidad en general participan en las decisiones tomadas por los líderes de la Ciudad?**

Por favor seleccione **sólo una** de las siguientes opciones:

- Sí
- No
- No se

**¿Cómo puede la Ciudad aumentar la participación de la comunidad en decisiones importantes? Seleccione las formas que crea que serían más efectivas. (Seleccione hasta tres)**

Por favor seleccione como máximo 3 respuestas:

- Proporcionar información de los proyectos en otros idiomas además del inglés
- Dar aviso directo a los inquilinos y propietarios que viven cerca de los sitios de construcción propuestos
- Realizar más reuniones comunitarias
- Realizar más reuniones por internet
- Proporcionar más información sobre proyectos en el sitio web de la Ciudad o en el portal de proyectos en línea
- Proporcionar más información a través de los boletines de la Ciudad
- Brindar más tiempo para revisar proyectos y oportunidades a fin de proporcionar comentarios
- Otro (por favor especifique):

## ¿Qué más le gustaría que la Ciudad considere al crear el Elemento de Justicia Ambiental de Garden Grove?

Por favor, escriba su respuesta aquí:

## Información acerca de usted

### ¿Cuánto tiempo ha vivido en Garden Grove?

Por favor seleccione **sólo una** de las siguientes opciones:

- 1-5 años
- 6-10 años
- 11-20 años
- 21 o más años
- No vivo en Garden Grove

## Por favor indique su género.

Por favor seleccione **sólo una** de las siguientes opciones:

- Masculino
- Femenino
- No binario
- Prefiero no decirlo

## ¿Cómo se identifica? (Seleccione todas las que correspondan)

Por favor, marque las opciones que correspondan:

- Blanco no hispano
- Afroamericano
- Hispano/Latino
- Asiático o asiático americano
- Originario de Hawái o de las islas del Pacífico
- Nativo americano
- Prefiero no decirlo
- Otro (por favor especifique):

## ¿Qué idioma se habla principalmente en su hogar?

Por favor seleccione **sólo una** de las siguientes opciones:

- Inglés
- Español
- Coreano
- Vietnamita
- Otro (por favor especifique)

## ¿En cuál grupo de edad se encuentra usted?

Por favor seleccione **sólo una** de las siguientes opciones:

- Menor de 18 años
- 18-29
- 30-49
- 50-64
- 65 o más años

## ¿Cuál es el código postal de dónde vive?

Por favor seleccione **sólo una** de las siguientes opciones:

- 92840
- 92841
- 92843
- 92844
- 92845
- Otro (por favor especifique)

## ¿Qué monto describe mejor su ingreso familiar anual?

Por favor seleccione **sólo una** de las siguientes opciones:

- Menos de \$24,999
- \$25,000 - \$49,999
- \$50,000 - \$74,999
- \$75,000 - \$99,999
- \$100,000 - \$149,999
- \$150,000 o más
- Prefiero no decirlo
