Music FunTime!

Music classes engineered by Music FunTime are an innovative, structured, and progressive curriculum derived from Johns Hopkins research. Students will be exploring the magical connection between math and science through music. Children learn to read music notation, rhythms and symbols, and play the instruments of their choice. Through small preschool, kindergarten, and early elementary groups in a classroom atmosphere, children use musical crafts, worksheets, games, and instruments in a fun exciting way to explore and nurture a strong music foundation. There will be a \$20 materials fee due to the instructor on the first day of class.
