Recycling *Simplified*

The City of Garden Grove is partnering with Republic Services to educate residents about the importance of recycling and how easy it can be done. Learn how you can become a better recycler and help minimize the environmental impact of waste now and for future generations by following three simple steps:

- 1) Know what can be recycled -
Cardboard, paper, metal cans, plastic bottles and jugs
- 2) Empty, clean, and dry:
Keep all recyclables free of food and liquid
- 3) Keep it loose:
Never put recyclables in containers or bags
