**INTER-DEPARTMENT MEMORANDUM**

To: Lisa Kim  
Dept.: City Manager  
Subject: Cancellation of the June 9, 2026 Garden Grove College Graduates' Reception Due to Ongoing Chemical Incident

From: Johnathan Garcia  
Dept.: City Manager  
Date: May 27, 2026

OBJECTIVE

To provide notice of the cancellation of the 2026 Garden Grove College Graduates' Reception, which was scheduled for Tuesday, June 9, 2026.

BACKGROUND AND DISCUSSION

On May 22, 2026, the City of Garden Grove activated its Emergency Operations Center in response to the anticipated failure of chemical tanks at an aerospace facility. The City subsequently declared a local emergency. On May 23, 2026, Governor Gavin Newsom proclaimed a state of emergency for Orange County, and on May 25, 2026, a Presidential Emergency Declaration was issued in response to the ongoing chemical incident and related evacuation orders.

Due to these emergency circumstances, the City has made the difficult decision to cancel this year's Garden Grove College Graduates' Reception.

FINANCIAL IMPACT

The City received \$8,250 in sponsorships for this year's Garden Grove College Graduates' Reception. Reimbursement checks for all sponsorships will be mailed within three weeks.

# Support needed for co-sponsored California Public Records Act Bill

May 27, 2026

**By Johnnie Pina, legislative advocate, (<https://www.calcities.org/people/johnnie-pi%C3%B1a>) and Brian Hendershot, Cal Cities Advocate managing editor (<https://www.calcities.org/people/brian-hendershot>)**

Lawmakers in the Assembly approved **AB 1821 (Pacheco)** (<https://ctweb.capitoltrack.com/public/search.aspx?id=ad485199-37cd-42cd-8217-d19b4d257119&session=25&s=AB%201821&t=bill>) today. The bill provides an important, practical update to the California Public Records Act. Cal Cities is co-sponsoring the bill, along with the California State Association of Counties (CSAC) and the California Municipal Clerks Association. The bill is also supported by other local government and education organizations.

The California Public Records Act is a vital tool that allows the public to hold government accountable. However, in recent years, local agencies have seen a sharp rise in both the volume and complexity of public records requests, along with a decline in key revenue sources that once offset these costs.

AB 1821 is now headed to the Senate for consideration. Cities should submit **a letter in strong support** (<https://ctweb.capitoltrack.com/public/publishviewdoc.ashx?di=%2bje3DrXR0AYk41JL2c8hdHF%2bnll7d%2f6ddeIEnaDf9U4%3d>) of the bill as it moves into the Senate.

## What would the bill do?

Under existing law, agencies must determine within 10 days whether a request seeks disclosable records, with a possible 14-day extension in unusual circumstances. AB 1821 would shift the number of days local governments have to respond to records requests from calendar days to business days.

This common-sense update reflects the operational realities of local agencies: Most public agencies do not have staff available on weekends or holidays. A business day standard ensures agencies have the full, intended number of working days to conduct thorough and accurate searches for disclosable records.

## Why it matters

According to CSAC, local agencies in California have reported a 73% increase in records requests over the past five years, with over 90% diverting staff time away from core services to meet these demands. Modern government operations now generate far more disclosable records — including emails, texts, and internal messages — which require extensive searching, review, and redaction of sensitive information such as attorney-client communications, personal identifiers, and medical or criminal data.

At the same time, agencies have lost key revenue sources that once offset these costs: Proposition 42 (2014) eliminated state reimbursement for compliance, and a 2020 California Supreme Court ruling restricted agencies from recovering staff time or technical costs associated with producing records. As a result, local governments must absorb the full cost of increasingly time-intensive requests.
